- 1-mile relay (4 men)—3:26%. University of Chicago (H. Groman, W. Barker, R. Quigley, C. A. Blair), at Marshall field, June 3, 1905.

INDOOR RECORDS. CENTRAL ASSOCIATION. A. A. U.
[Compiled by Martin B. Herbert.]

- 35-yard run—.04. Clyde A. Blair, twice at University of Chicago gymnasium, Chicago, Feb. 22, 1902, and same place May 8, 1902; also at University of Wisconsin, Madison, Wis., May 16, 1902 (all on floor); W. Hogenson, University of Chicago, and Frank Waller, University of Wisconsin, twice at Madison, Wis., March 18, 1905.
- 40-yard run—.04%. C. Bell and E. C. English, at Notre Dame, Ind., March 9, 1901, on turf; William Borden, at 1st regiment armory, Chicago, March 30, 1901, on maple floor; Clyde A. Blair, at 1st regiment armory, Chicago, Feb. 6, 1902; Archie Hahn, at University of Michigan gymnasium, Ann Arbor, Feb. 15, 1902; Walter Eckersall, Hyde Park high school, 1st regiment armory, Chicago, Feb. 28, 1903; E. D. Staples, Notre Dame gymnasium, March 15, 1902, on turf.
- 45-yard run—.05%. Clyde Blair and V. S. Rice, University of Chicago, at Bartlett gymnasium, Chicago, Feb. 13, 1904, on rubber mat.
- 60-yard run—.05%.* Walter Eckersall, at Cincinnati,

natl. O., Feb. 26, 1903; Victor Rice, at Chicago, Feb. 26, 1904.

60-yard run—306%, C. L. Larson, University of Wisconsin, at Chicago Coliseum, March 28, 1906.

75-yard run—70%, Archie Hahn, Milwaukee A. C., at Milwaukee Exposition building, March 11, 1906, in trial and final heat.

100-yard run—110, A. B. Potter, at Coliseum, 63d street, Chicago, May 14, 1897, on pine floor, straight course.

150-yard run—117, O. S. Borden, at Tattersall's, Chicago, March 5, 1898, on floor around half-circle on end.

220-yard run—233%, P. J. Corcoran, at Notre Dame, Ind., March 9, 1901, on gymnasium turf course, one and one-half laps; also same place and track, E. D. Staples, Notre Dame, March 15, 1902.

300-yard run—133%, Harry H. Bascom, at Tattersall's, Chicago, March 5, 1898, on floor, around circular ends.

440-yard run—51%, E. J. Lindberg, Chicago Athletic association, at Auditorium, Milwaukee, March 12, 1910.

600-yard run—115%, G. G. Holland, at Coliseum, 63d street, Chicago, May 12, 1897, on pine floor.

880-yard run—153%, John F. Devine, Jr., Notre Dame university, dirt track, slight bank, 12 laps to a mile, March 1, 1911.

1,000-yard run—236, C. McCully, University of Illinois, at Champaign, Dec. 14, 1902, on gymnasium circular banked track.

1-mile run—424, J. Lightbody, University of Chicago, at Tattersall's, Chicago, March 13, 1907, on 10-lap wooden track.

2-mile run—941%, G. M. Wyckoff, Ohio State university, in 1st regiment armory, April 6, 1912.

5-mile run—2747, John T. Armour, First Regiment A. C., at 1st regiment armory, Jan. 30, 1909, on hard floor track, 12 laps to a mile.

1-mile walk—706%, Joseph Bredstein, at Exposition building, Milwaukee, Wis., March 3, 1900, on pine floor, 11 laps.

40-yard hurdle race, 3 hurdles, 3 ft. 6 in. high—306%, Fred G. Moloney, University of Chicago, at Chicago university old gymnasium, Feb. 15, 1902; M. B. Herbert, First Regiment A. A., at 1st regiment armory, Chicago, March 29, 1902; Learning, Purdue university, at Lafayette, Ind., March 2, 1912; Fletcher, Notre Dame university, in 1st regiment armory, April 6, 1912.

40-yard hurdle race, 4 hurdles, 2 ft. 6 in.—305, Fletcher of Notre Dame university, in 1st regiment armory, Chicago, April 6, 1912.

50-yard hurdle race, 3 hurdles, 3 ft. 6 in. high—306%, Mark Catlin, University of Chicago, at Bartlett gymnasium, March 4, 1905; L. C. Bailey, Chicago Y. M. C. A., at Cincinnati, O., March 10, 1906; W. B. LaZear, Chicago Athletic association, in Bartlett gymnasium, Chicago, April 4, 1908.

50-yard low-hurdle race, 3 hurdles, 2 ft. 6 in. high—306, Sidney Fletcher, University of Notre Dame, at Bartlett gymnasium, March 20, 1909, on rubber mat.

60-yard high-hurdle race, 4 hurdles, 3 ft. 6 in. high—308, W. W. Taylor, Hyde Park high school, at 7th regiment armory (Tattersall's), April 26, 1906; Walter Steffen, First Regiment A. A., at Chicago Coliseum, March 28, 1905.

60-yard low-hurdle race, 4 hurdles, 2 ft. 6 in. high—307, Mark Catlin, University of Chicago, at Chicago Coliseum, March 28, 1905; Walter Steffen, First Regiment A. A., at Chicago Coliseum, March 28, 1905; Frank Waller, University of Wisconsin, at Chicago Coliseum, March 28, 1906.

75-yard high-hurdle race, 6 hurdles, 3 ft. 6 in. high—309%, W. F. Schule, at Milwaukee Exposition building, March 5, 1904.

75-yard low-hurdle race, 3 hurdles, 2 ft. 6 in. high—308%, Fred G. Moloney, at Exposition building, Milwaukee, Wis., March 1, 1902, on pine floor.

300-yard hurdle race, 10 hurdles, 2 ft. 6 in. high—363%, A. Kraenzlein, at Coliseum, 63d street, Chicago, May 12, 1897, on pine floor.

Pole vault for height—12 ft. 5 3/4 in., Walter Dray, Chicago A. A., in 1st regiment armory, Chicago, April 6, 1912.

Standing high jump—5 ft. 3 in., Raymond C. Ewry, at Coliseum, 63d street, Chicago, May 12, 1897.

Running high jump—6 ft. 1/4 in., L. Miller, Univer-

sity of Indiana, at Bartlett gymnasium, April 4, 1908.

Standing broad jump—11 ft., Raymond C. Ewry, Coliseum, 63d street, Chicago, May 13, 1897.

Running broad jump—22 ft. 7 3/4 in., Frank C. Irons, C. A. A., at Notre Dame, Ind., March 13, 1909, in gymnasium, on turf.

Putting 12-lb. shot, 7-ft. circle—46 ft. 3 in., Garry Williamson, Morgan Park academy, at Chicago Coliseum, March 28, 1906.

Putting 16-lb. shot, 7-ft. circle—48 ft. 5 in., Ralph Rose, Chicago A. A., at Milwaukee Exposition building, March 11, 1905.

Throwing discus, 4 1/2 lbs., 7-ft. circle—99 ft. 6 in., J. Mitchell, Coliseum, 63d street, Chicago, May 12, 1897.

1-mile relay (4 men)—3:30%, Chicago Y. M. C. A. (C. Johnson, George Lundell, Ed Larson, Q. H. Powell), at Milwaukee Exposition building, circular ends banked pine track.

*American amateur records.

CENTRAL A. A. OFFICIALS.

President—Edward C. Racey, Chicago; secretary and treasurer, Charles A. Dean, Chicago; official handicapper, Frank C. Martin, Chicago.

HIGH-SCHOOL RECORDS.

Best performances by Cook county athletes in championship contests, 1890-1912. Data compiled by M. B. Herbert.

60-yard run—305%, W. Merrill, Englewood, at Marshall field, May 27, 1905, and F. Kuhn, Wendell Phillips, at Marshall field, June 20, 1908.

100-yard run—10%, W. Merrill, Englewood, at Marshall field, May 27, 1905; also F. Kuhn, Wendell Phillips, at Marshall field, June 15, 1907.

220-yard run—22%, J. Martin, Oak Park, at Marshall field, June 20, 1908.

440-yard run—52%, Millar, Oak Park, at Marshall field, June 1, 1912.

880-yard run—2:04%, T. Timblin, McKinley, at Marshall field, June 15, 1907.

1-mile run—4:43%, Robert Brown, Evanston, at Ravenswood, June 9, 1900.

1/2-mile walk—3:38, L. J. Byrne, Englewood, at Marshall field, June 24, 1899.

120-yard high hurdles—1:16, R. Deming, Oak Park, at Marshall field, June 20, 1908.

220-yard low hurdles—2:26%, R. Deming, Oak Park, at Marshall field, June 20, 1908.

Pole vault—11 ft. 6 in., Foss, University high, at Marshall field, June 1, 1912.

Running high jump—5 ft. 9 in., Shepard, Hyde Park, at Marshall field, June 1, 1912.

Running broad jump—21 ft. 9 in., Harrison, Crane, at Marshall field, May 27, 1905.

Putting 16-lb. shot—33 ft. 8 1/4 in., W. L. Sheppard, Hyde Park, at 35th street and Wentworth avenue, June 16, 1894.

Putting 12-lb. shot—45 ft. 6 in., E. Wilson, University high, at Marshall field, June 20, 1908.

Throwing 16-lb. hammer—154 ft., W. Higgs, Oak Park, at D. Paul university field, June 5, 1909.

Throwing the discus—111 ft. 3 in., P. Lunde, Lake View, at Marshall field, June 15, 1907.

1/2-mile relay (4 men)—1:34%, Lane, Wendell Phillips, at Marshall field, June 1, 1912.

1-mile relay (4 men)—3:39, North Division (A. Shey-ing, X. Vigeant, H. Wallace, G. Vigeant), at Marshall field, June 15, 1907.

WESTERN INTERCOLLEGIATE CHAMPIONSHIPS.

Lafayette, Ind., June 1, 1912.

100-yard dash—Wilson, Coe; 10.

220-yard dash—Wilson, Coe; 22 1/2.

440-yard run—Davenport, Chicago; 49 1/4.

880-yard run—Davenport, Chicago; 1:58.

1-mile run—Farquhar, Ames; 4:28 1/2.

2-mile run—Metcalfe, Oberlin; 9:42 1/2.

Broad jump—24 ft. 4 1/2 in., A. C. Kraenzlein, Pennsylvania, 1899.
Pole vault—13 ft. 1 in., Robert Gardner, Yale, 1912 (world's record).
16-lb. hammer—173 ft. 6 in., Lee J. Talbot, Penn State, 1910.
16-lb. shot—48 ft. 10 1/2 in., R. L. Beatty, Columbia, 1912.
1-mile walk—6:45%, W. B. Fetterman, Jr., Pennsylvania, 1898.

GYMNASTICS.

GYMNASTIC UNION CHAMPIONSHIPS.

Winners in International Gymnastic union championship wrestling tournament in Chicago, ending Jan. 28, 1912:

115 pounds, juniors—Kallis, Hebrew institute.
116 pounds, seniors—Cozens, Chicago Turners.
125 pounds, seniors—Hartman, Social Turners.
145 pounds, juniors—Hevelak, Finnish A. C.
Junior heavy weights—Leisenring, Chicago Turners.
125 pounds, seniors—Tork, Sleipner A. C.
145 pounds, seniors—Putkann, Finnish A. C.
155 pounds, seniors—Banz, Chicago Turners.
Senior heavy weights—Martinson, Chicago Turners.
Senior heavy weights—Dietze, Chicago Turners.

GYMNASTIC CHAMPIONSHIP.

Illinois won the annual conference gymnastic meet at Urbana, Ill., April 13, 1912, with 1,074 points; Wisconsin was second with 975 1/2 points, Minnesota third with 910 1/2 and Chicago fourth with 782 1/2. Capt. E. B. Styles of the University of Illinois won the individual championship.

ILLINOIS INTERSCHOOLASTIC.

The University of Illinois annual interscholastic meet, held in Champaign, Ill., May 18, 1912, was won by the track team of the Lane Technical school of Chicago with 18 points. Oak Park was second with 17 points and Englewood third with 14 1/2 points. Record of winning schools to date:

1894—Urbana.	1904—Pola.
1895—Englewood.	1905—Englewood.
1896—Rockford.	1906—Wendell Phillips.
1897—Englewood.	West Aurora, tied.
1898—East Aurora.	1907—Oak Park.
1899—Biggsville.	1908—Oak Park.
1900—Biggsville.	1909—University high.
1901—Englewood.	1910—University high.
1902—South Division.	1911—University high.
1903—Hyde Park.	1912—Lane Technical.

UNIVERSITY OF CHICAGO INTERSCHOLASTIC.

The eleventh annual interscholastic athletic tournament of the University of Chicago took place on Marshall field June 8, 1912, and was won by the Citrus Union High School of Azusa, Cal., with a score of 17 points. Central High of Toledo was second with 13 1/2 points and Englewood High and University High tied for third with 13 points each.

Winners and records:
100-yard dash—Hoyt, Greenfield, Iowa, .10.
220-yard dash—Hoyt, Greenfield, Iowa, .22%.
440-yard run (A)—Ballentine, Minneapolis, Minn., .52%.

440-yard run (B)—Jackson, Azusa, Cal., .53.
880-yard run (A)—Harvey, West Aurora, Ill., 2:04%.
880-yard run (B)—Ufer, Chicago (Hyde Park), 2:05.
1-mile run—Watson, Minneapolis, Minn., 4:39.
2-mile run—Tower, Evanston, Ill., 10:15%.
120-yard high hurdles—Whitted, Azusa, Cal., .15%.
220-yard low hurdles—Whitted, Azusa, Cal., .25%.
Running high jump—Honold, Paris, Ill., 5 ft. 11 1/4 in.
Running broad jump—Scott, Oregon, Ill., 22 ft. 3 3/4 in.

Discus throw—Bachman, Chicago (Englewood), 122 ft. 7 in.
12-lb. shot-put—Bachman, Chicago, 43 ft. 10 1/2 in.
12-lb. hammer throw—Bedell, Anamosa, Iowa, 166 ft. 4 in.
Pole vault—Foss, Chicago (University High), 11 ft. 3 in.

1/4-mile relay—Central High, St. Paul, Minn., .46%.

NATIONAL AMATEUR CHAMPIONSHIPS.

The annual championship contests of the Amateur Athletic Union of the United States took place in Pittsburgh, Pa., Sept. 20-21, 1912. The junior championships were won by the New York with a total of 31 points. The Irish-American Athletic club of New York was second with 30 and the Boston Athletic club third with 24. Two new junior records were established. One was E. McCarthy of the Irish-American A. C., who made 45 feet 9 inches in the hop, step and jump. E. Muller of the same club threw the discus 126.35 feet, beating the old record. In the senior contests one A. A. U. record was broken. A. R. Kiviat of the Irish-American A. C. running a mile in 4:18%. Standing of teams in senior contests:

Teams.	Points.	Teams.	Points.
Irish-American A. C.	67	Mohawk A. C.	5
New York A. C.	34	Shannahan club, Phila.	3
Boston A. C.	20	Kaleva A. C.	3
Unattached	9	Pittsburgh A. C.	2
Springfield (Mass.)	2	National A. C.	1
High School	5	Dominican Iyecom.	1
McCaddin Iyecom.	5	Swickley Y. M. C. A.	1
University of Missouri.	5	Pastime A. C.	1

Summary of senior events:
1-mile run—Won by A. R. Kiviat, Irish-American A. C.; run by A. Power, Boston A. A., second; D. V. Noble, New York A. C., third. Time, 4:18%. (New A. A. U. record.)
440-yard run—Won by T. J. Halpin, Boston A. A.;

M. W. Sheppard, Irish-American A. C., second; A. Pepis, Irish-American A. C., third. Time, :49½.

Running broad jump—Won by Platt Adams, New York A. C.; H. Fryckberg, Shannahan C. C., Philadelphia, second; D. Broderick, Irish-American A. C., third. Distance, 22.44 ft.

100-yard dash—Won by H. P. Drew, Springfield (Mass.) High School; A. T. Meyer, Irish-American A. C., second; R. Carroll, Pittsburgh A. A., third. Time, :10.

3-mile walk—Won by R. B. Gifford, McCaddin Lyceum, Brooklyn; T. Carroll, Irish-American A. C., second; A. Voelmecke, Pastime A. C., third. Time, :23:14.

16-lb. shot—Won by Patrick McDonald, Irish-American A. C., 48.51 ft.; R. I. Beatty, New York A. C., second, with 46.89 ft.; H. E. Klages, New York A. C., third, with 40.89 ft.

Running high jump—Won by J. O. Johnstone, Boston A. C., 6 ft. 3 in.; H. I. Grumpelt, New York A. C., 6 ft. 3 in., but lost in jump-off to Johnstone; Eugene Jennings, unattached, third. (Equals A. A. U. record.)

Pole vault—Won by H. S. Babcock, New York A. C.; G. B. Dukes, New York A. C., second; Masters, Sewickley Y. M. C. A., Pittsburgh, third. Height, 12 ft.

16-lb. hammer throw—Won by M. J. McGrath, Irish-American A. C., 174.67 ft.; F. Ryan, Irish-American A. C., second, 172.62 ft.; A. M. McDougall, Irish-American A. C., third, 149.97 ft.

Run, hop, step and jump—Won by Platt Adams, New York A. C.; M. J. Fahey, Irish-American A. C., second; H. Oltmann, National A. C., third. Distance, 45.71 ft.

880-yard run—Won by M. W. Sheppard, Irish-American A. C.; D. S. Caldwell, Boston A. C., second; E. Frick, New York A. C., third. Time, 1:57½.

120-yard high hurdles—Won by T. P. Nicholson, Missouri university; E. M. Pritchard, Irish-American A. C., second; L. B. Darland, Dominican Lyceum, New York, third. Time, :15½.

5-mile race—Hannes Kolehmainen, unattached, won; Harry J. Smith, unattached, second; J. G. Silva, Boston A. A., third. Time, 25:43½.

220-yard dash—Won by A. T. Meyer, Irish-American A. C.; A. Robinson, Boston A. A., second; M. F. Robertson, New York A. C., third. Time, :21¼.

56-pound weight—Won by P. J. Ryan, Irish-American A. C., 37.87 ft.; Patrick J. McDonald, Irish-American A. C., second, 37.50 ft.; M. J. McGrath, Irish-American A. C., third, 37.45 ft.

220-yard hurdles—Won by J. J. Eller, Irish-American A. C.; F. Brady, New York A. C., second; F. J. Myer, Pittsburgh A. C., third. Time, :25½.

Javelin throw—Won by Harry Lott, Mohawk A. C., New York, 162.65 ft.; Edward Aro, Kaleva A. C., Brooklyn, second, 152.58 ft.; F. Lund, Irish-American A. C., third, 147.99 ft.

Discus throw—Won by E. Muller, Irish-American A. C.; R. L. Beatty, New York A. C., second; P. McDonald, Irish-American A. C., third. Distance, 132.22 ft.

FRANKLIN FIELD RELAY RACES.

The national championship relay races for colleges were run on Franklin field, Philadelphia, April 27, 1912, with the following results:

1-mile college championship of America—Won by Syracuse (Waldron, Champlin, Fogg, Reidpath); Illinois, second; Pennsylvania, third; Chicago, fourth; Columbia, fifth; Ohio Wesleyan, sixth. Time by quarters, .53, 1:44½, 2:35, 3:24½.

2-mile college championship—Won by Pennsylvania (Church, Cross, Levering, Bodley); Princeton, second; Minnesota, third. Time by half miles, 2:04, 4:06½, 6:08¾, 8:09¾.

4-mile college championship—Won by Pennsylvania (Guthanz, Langer, Madeira, McCurdy); Michigan (Brown, Smith, Hanavan, Hainbaugh), second; Dartmouth, third; Princeton, fourth. Time by miles, 4:42½, 9:20½, 13:53½, 18:20½.

CONFERENCE INDOOR MEET.

Illinois university won the second annual indoor track and field meet of the Western Intercollegiate

Athletic association, held in Patten gymnasium, Evanston, Ill., March 30, 1912, with 31 points. Wisconsin was second with 29 points, Northwestern third with 21½, Chicago fourth with 20, Minnesota fifth with 4 and Purdue sixth with 3½ points. Record of conference indoor championship:

Year.	University.	Points.
1911—Chicago		36
1912—Illinois		31

INDOOR CHAMPIONSHIPS.

The Chicago Athletic union the Central Amateur Athletic union indoor championship tournament, held in the 1st Infantry armory, Chicago, April 6, 1912, with a score of 46 points. Notre Dame was second with 29 points, Northwestern university third with 8, Cincinnati G. A. C. fourth with 7, Ohio State university fifth with 5 and Illinois university sixth with 3. Unattached athletes made 3 points, the University of Chicago 2 and the 1st regiment 1. Walter Dray made a world's indoor record when he cleared the bar in the pole vault at 12 ft. 5½ inches. In the 40-yard low hurdles Fletcher of Notre Dame tied both the world's indoor and outdoor record by winning in :05. The Central A. A. U. 2-mile record was lowered by G. M. Wykoff of the Ohio State university, who covered the distance in 9:41½.

LONG DISTANCE RUNNING AND WALKING.

Following were the results in the more important Marathon (26 miles 385 yards) and other long distance foot races and walking matches in 1912. The date, place, distance, winner and time are given in the order named:

Jan. 2—Edinburgh, Scotland; Marathon; H. Kolehmainen; 2:32:56½.

Feb. 3—Edinburgh, Scotland; 15 miles; Tom Longboat; 1:20:04½.

May 4—St. Louis, Mo.; Marathon; Joseph Erxleben; 2:36:00.

May 5—New York, N. Y.; 15 miles; A. E. Wood; 1:18:15.

July 13—Chicago, Ill.; 10 miles; C. Christensen; 1:01:15.

Aug. 31—Chicago, Ill.; 9 miles; C. Christensen; :47:15½.

Sept. 2—Minneapolis, Minn.; 20 miles; Fritz Carlson; 2:02:00½.

Sept. 8—Paris, France; Marathon; Hans Holmer; 2:43:00.

Sept. 22—New York, N. Y.; 5 miles; H. Kolehmainen; :29:09½.

1:05:29—Newark, N. J.; 12 miles; Billy Queal; 1:05:29.

Oct. 26—Newark, N. J.; Marathon; William Kolehmainen; 2:29:39½.

Oct. 27—Newark, N. J.; 15 miles; William Kolehmainen; 1:20:12.

ALL AROUND CHAMPIONSHIP.

James Thorpe of the Carlisle Indian school won the all around amateur athletic championship of America at Celtic park, New York, N. Y., Sept. 2, 1912, with a total of 7,476 points, a new record for the event. He was first in seven of the ten contests, finishing second in the pole vault, ¼-mile walk and 16-pound hammer throw. Jon Bredemus was second with 6,303 points and B. Brodd of the Irish-American A. C. was third with 3,885 points. Record of champions and points:

1884—W. R. Thompson, Montreal.....	5,304
1885—M. W. Ford, New York.....	5,045
1886—M. W. Ford, New York.....	5,899
1887—A. A. Jordan, New York.....	5,236
1888—M. W. Ford, New York.....	5,161
1889—A. A. Jordan, New York.....	5,520
1890—A. A. Jordan, New York.....	5,353
1891—A. A. Jordan, New York.....	6,139
1892—E. W. Goff, New York.....	5,232
1893—E. W. Goff, New York.....	4,860
1894—E. W. Goff, New York.....	5,748
1895—J. Cosgrave, Albany.....	4,406½
1896—L. P. Sheldon, Yale.....	5,380
1897—E. H. Clark, Boston.....	6,244½
1898—E. C. White, New York.....	5,243
1899—J. F. Powers, Worcester.....	6,203
1900—Harry Gill, Toronto.....	6,360½
1901—A. B. Gunn, Buffalo.....	6,739
1902—A. B. Gunn, Buffalo.....	6,260½

1903—E. H. Clark, Boston.....	6.318½
1904—Thomas F. Kieley, Ireland.....	6.086
1905—M. J. Sheridan, New York.....	6.820½
1906—Thomas F. Kieley, Ireland.....	6.274
1907—Martin J. Sheridan, New York.....	7.130½
1908—J. L. Bredemus, Princeton.....	5.809
1909—Martin J. Sheridan, New York.....	7.385
1910—F. C. Thompson, Los Angeles.....	6.991
1911—F. C. Thompson, Los Angeles.....	6.709
1912—James Thorpe, Carlisle.....	7.476

ATHLETIC RECORDS MADE IN 1912.

Feb. 10—Running high jump—6 ft. 4½ in., G. C. Lawrence, Boston.	
Feb. 24—75 yards, low hurdles—:09%, Forest Smithson, Los Angeles A. C., San Francisco.	
March 2—40 yards, high hurdles—:02%, Leaming, Purdue, Lafayette, Ind.	
April 6—2-mile run—9:41%, G. M. Wykoff, Ohio State university, Chicago, Ill.	
April 15—Standing broad jump—11 ft. 6 in., Tsiklitas, Athens, Greece.	
May 4—120 yards, high hurdles—:15%, F. P. Nicholson, University of Missouri, Columbia, Mo.	
May 18—Running high jump—6 ft. 7 in., George Horne, Stanford university, California.	
June 3—Shot-put, right and left hand—91 ft. 10½ in., Ralph Rose, Stanford university.	
June 8—Pole vault—13 ft. 2½ in., Marc S. Wright, Dartmouth, Cambridge, Mass.	
July 15—Pole vault for boys under 10—5 ft. 10½ in., Robert E. Graves, Marshfield, Ore.	
Aug. 31—Throwing javelin—166 ft. 10 in., H. G. Lott, Mohawk A. C., New York, N. Y.	
Sept. 2—200-yard race—:19%, W. R. Applegarth, London, England.	
Sept. 21—1-mile run—4:18%, A. R. Kiviat, Irish-American club, Pittsburgh, Pa.	

See also Olympic games of 1912, eastern and western intercollegiate meets, long distance running, etc., for other records.

RECORD JUMP BY BOY.

At Marshfield, Ore., July 15, 1912, Robert E. Graves, aged 8 years, made a record of 5 ft. 10½ in. in the pole vault for boys under 10 years of age. Young Graves weighed 60 pounds stripped. In practice he had made 6 ft. ½ in.

WORLD'S RECORDS.

100-yard dash—:09%, R. E. Walker.*	
150-yard dash—:14, Jack Donaldson.	
200-yard dash—:17%, R. E. Walker.*	
220-yard dash—:21%, B. J. Wefers* and R. C. Craig.*	
440-yard run—:47, M. W. Long.*	
880-yard run—1:53½, F. S. Hewitt.*	
1-mile run—4:12%, W. G. George.	
2-mile run—9:09%, A. Shrubb.	
4-mile run—19:23%, A. Shrubb.	
5-mile run—24:33%, A. Shrubb.	
Marathon—2:29:39%, W. Kolehmainen.

220-yard hurdles—:23%, M. C. Kraenzlein.*	
High jump—6 ft. 5½ in., M. F. Sweeney.	
Broad jump—24 ft. 1½ in., P. O'Connor.	
Standing broad jump—11 ft. 6 in., Ray C. Ewry.*	
Pole vault—13 ft. 2½ in., Marc S. Wright.*	
Throwing 16-lb. hammer—180 ft. 5 in., M. J. McGrath.	
Putting 8-lb. shot—67 ft. 7 in., Ralph Rose.*	
Putting 12-lb. shot—55 ft. 11½ in., Ralph Rose.*	
Putting 14-lb. shot—53 ft. 4 in., Ralph Rose.*	
Putting 16-lb. shot—54 ft. 4 in., Ralph Rose.*	
Putting 18-lb. shot—43 ft. 9½ in., Ralph Rose.*	
Putting 21-lb. shot—40 ft. 3½ in., Ralph Rose.*	
Putting 24-lb. shot—38 ft. 2½ in., Ralph Rose.*	
Throwing 56-lb. weight—40 ft. 6½ in., Matt McGrath.	
Throwing discus—148 ft. 1½ in., A. R. Taipale.	

*Amateur.

BALLOONING.

CONTEST FOR BENNETT CUP.

The seventh international race for the James Gordon Bennett cup started from Stuttgart, Germany, Sunday morning, Oct. 27, 1912. There were twenty starters, three of which were Americans. One American balloon, the Kansas City II., exploded just before the start, but John Watts, who was to have piloted it with Arthur T. Atherholt, was allowed to man the Dusseldorf. The Million Population, piloted by John Berry, landed at Grambin, in the vicinity of Stettin, on the Baltic sea, and the Uncle Sam, piloted by H. E. Honeywell, landed at 6:30 o'clock on the evening of Oct. 29 at Zapadnaya, 500 miles northeast of Moscow. It was third in the race. The cup was won by the French balloon Picardie, piloted by Maurice Benaim, which covered a distance of 1,354 miles, breaking all previous records for distance traveled by balloon. It landed in Russia.

BENNETT CUP RECORD.

Year.	Winner.	Distance.
1906—America (American).....		402 miles
1907—Pommern (German).....		830 miles
1908—Helvetia (Swiss).....		620 miles
1909—America II. (American).....		695 miles
1910—America II. (American).....		1,171 miles
1911—Berlin II. (German).....		471 miles
1912—Picardie (French).....		1,354 miles

AMERICAN ELIMINATION RACE.

The American elimination balloon race for the selection of three entries for the James Gordon Bennett race in Germany later in the year began at Kansas City, Mo., July 27, 1912. There were seven starters and the victors were the Uncle Sam of the Kansas City Aero club, piloted by Capt. H. B. Honeywell, Roy F. Donaldson, aid; the Kansas City II. of the Kansas City Aero club, piloted by John Watts, George E. Quisenberry, aid, and the Drifter of the Cincinnati Aero club, piloted by Albert Holtz, Charles Trautman, aid. The Uncle Sam landed at Manassas, Va., after covering 925 miles in thirty-four hours. The Kansas City II. came to earth at Belleville, Mich., some 640 miles from the starting point, while the Drifter came down at New Berlin, Wis., 425 miles from Kansas City. The other balloons landed at Polo, Ill.; Nora, Ill.; Spring, Wis., and McGregor, Iowa.

ANTLERS TROPHY.

The balloon Kansas City II., John Watts pilot, won the race for the Antlers trophy at Colorado Springs, Col., Aug. 28, 1912. The conditions were unfavorable and the winning balloon landed only forty-two miles from the starting point.

RECORD FOR DISTANCE.

The record for distance traveled in a balloon in continuous flight is held by Maurice Benaim of France, who made 1,354 miles in contesting for the James Gordon Bennett cup Oct. 27-29, 1912. In 1900 Count de la Vaulx made a journey of 1,193 miles and in 1910 Alan R. Hawley and Augustus Post covered 1,171 miles.

The record for distance traveled in a dirigible balloon is held by Walter Wellman, who on Oct. 15-18, 1910, made approximately 1,000 miles in an attempt to cross the Atlantic in the America.

RECORD FOR HEIGHT.

The record for height made in an ordinary gas balloon is 23,750 feet. It was made by Prof. Berenson of Berlin Dec. 4, 1894.

The world's dirigible balloon record for altitude is 9,514 feet. It was made by the French dirigible Clement-Bayard III. May 20, 1912. It carried six passengers.

AREAS OF OCEANS AND GREAT LAKES.

Oceans—	Sq. miles.	Lakes—	Sq. miles.	Sq. miles.	Sq. miles.

AERONAUTICAL PROGRESS IN 1912.

GENERAL REVIEW.

No startling changes were made in the construction of aeroplanes in 1912, but some progress was made in the direction of reliability and speed. New endurance, distance, speed, altitude and passenger carrying records were made, chiefly in Europe. France took the lead in developing and perfecting the air machine and consequently the aviators of that country carried off the chief honors. American flyers, however, carried off a fair share of honors and American builders of craft capable of navigating both on the water and in the air were in some respects ahead of their European competitors. Aeroplanes were used in the Italian-Turkish war in Tripoli, but without remarkable success. Their usefulness for scouting purposes was demonstrated not only there but at the army maneuvers in Europe, but as engines of destruction they were practically failures.

The world of aviation suffered a severe loss in the death of Wilbur Wright at Dayton, O., May 30. The science of navigating the air probably owed more to him in the direction of practical results than to any other one man. Had his life been spared it seems likely that the art of flying would soon have been made less hazardous, as he was engaged in studying safety devices when he was taken ill. As will be seen from the record of fatalities in 1912, aviation is still extremely hazardous. From Dec. 1, 1911, to Nov. 1, 1912, more than eighty aviators and passengers, not counting balloonists, were killed in accidents in Europe and America.

LONG DISTANCE FLIGHTS.

FROM CHICAGO TO MILWAUKEE.

Farnum T. Fish made a flight of about ninety miles from Chicago to Milwaukee May 25, 1912. His course was over Lake Michigan except at the start and the finish, and the claim was made for him that he had broken the world's overwater record of 78 miles held by Paulham. The start was made at 11:19 a. m. from Cicero aviation field, Chicago. Rising to a height of about 2,000 feet, the aviator, a boy in a red suit, headed for the lake and then steered north over the lake, passing Fort Sheridan at 11:55 a. m., Waukegan at 12:05 p. m., Kenosha at 12:30 p. m. and Racine at 12:45 p. m. He landed in Lake park, Milwaukee, at 1:25 p. m. His time, therefore, was 2 hours 6 minutes. He carried with him a package of silk weighing seventy-five pounds, consigned to a department store in Milwaukee. Fish used a Curtiss biplane.

BERLIN TO VIENNA.

Holmuth Hirth, a German, won an aeroplane race from Berlin, Germany, to Vienna, Austria, June 9-10, 1912. He carried Lieut. Schoeller of the German army as a passenger and made the distance of 330 miles in 395 minutes, or 6 hours 35 minutes' actual flying time. In the course of the race the contestants had to cross a range of mountains rising to an elevation of 4,837 feet. The first stage of the race was from Berlin to Breslau and the second from Breslau to Vienna.

FIRST FLIGHT ACROSS LAKE ERIE.

Earl Sandt crossed Lake Erie in an aeroplane from Erie, Pa., to Port Rowan, Ont., Feb. 20, 1912. He started at 2:41 p. m. and arrived at the Canadian town at 3:15. He attempted to return the same way, but when within ten miles of the American shore his engine gave out and the aeroplane dropped to the ice. Sandt was injured in the fall, but was able to walk to the shore. The distance from Erie to Port Rowan is about forty miles.

LONDON TO PARIS WITHOUT STOP.

Henri Salmet, a French aviator, left London a little after 8 o'clock on the morning of March 7, 1912, in his monoplane and arrived at Paris at 11 a. m., having covered the distance of 222 miles in 2 hours 57 minutes without making a stop. He traveled at an average height of 6,000 feet and was favored by a strong wind. He attempted to return the same day, but was forced to descend at Berck, France.

LONGEST STRAIGHTAWAY FLIGHT.

Pierre Daucourt won the Pomery cup for the longest straightaway flight between sunrise and sunset Oct. 6, 1912, by covering 570 miles. He

started at 5:59 a. m. at Valenciennes, France, near the Belgian border, and flew directly to Biarritz, near the southwestern extremity of France, arriving there at 5:33 p. m. He made three stops to replenish his tanks.

FLIGHT OVER IRISH SEA.

Corbett Wilson, an English aviator, made a flight across the Irish sea April 22, 1912. He started from Fishguard in a heavy rain and fog and landed at Enniscothy, just north of Wexford. In alighting he smashed the propeller of his machine, which prevented him from continuing his flight to Dublin.

TO CATALINA ISLANDS AND BACK.

May 10, 1912, Glenn Martin, using a hydroplane of his own construction, made a flight from Newport bay, California, to Avalon, Catalina islands, covering the thirty-four miles in 37 minutes. He returned the same evening, landing on Balboa island in the bay.

WOMAN FLIES OVER CHANNEL.

Miss Harriet Quimby, American, crossed the English channel from Dover to Hardelot April 16, 1912. Her time was 2 hours. She was the first woman to fly across the channel alone. Miss Quimby met her death by falling 1,000 feet with her aeroplane at Atlantic, Mass., July 1.

CHICAGO'S SECOND AVIATION MEET.

The second international aviation meet under the auspices of the Aero Club of Illinois took place in Chicago Sept. 12-21, 1912. The first five days' contests were on the Cicero field and the remainder of the programme was carried out on the lake front, or Grant park. As in 1911, the meet was marred by fatal accidents. Paul Peck, a noted flyer, was practicing in his Columbia biplane Sept. 11 and had reached a height of 1,000 feet when he tried to make a spiral descent. The machine was about 300 feet from the ground when he lost control and it fell straight to the ground. Peck was pinned under the wreckage and so severely injured that he died in a hospital a few hours later.

Saturday, Sept. 14, Howard Gill, member of a well known Baltimore family, was almost instantly killed when his biplane came into collision with a monoplane piloted by George Mestach of Paris, France. It was dusk at the time and the aviators, who were engaged in speed racing, could not see distinctly. The running gear of the monoplane struck the tail of the biplane, tearing it off. Both machines crashed to the ground, with the result that Gill was killed and Mestach seriously though not fatally injured.

The winners of the principal events in the meet were as follows:

- Sept. 12—Accurate landing, motor off 1,000 feet up—Glenn Martin, America; 14 feet.
- Accurate throwing of mail into net—Anthony Jannus, America; 49 feet 6 inches.
- 20 kilometer (12.4 miles) biplane handicap—Anthony Jannus, America; net time, 11:40.4.
- 20 kilometer monoplane race—George Mestach, France; net time, 13:58.55.
- Sept. 13—Accurate landing, motor off 1,000 feet up—Glenn Martin, America; 9 feet.
- Quickest getaway to 500 feet—Glenn Martin, America; 17.45 seconds.
- 20 kilometer, passenger carrying, biplane handicap—DeLloyd Thompson; net time, 14:09.76.
- 20 kilometer, passenger carrying, monoplane handicap—George Mestach, France; net time, 14:55.23.
- Sept. 14—Bomb throwing at target—Farnum Fish, American; 4 points.
- 20 kilometer biplane race—Horace Kearney, American; 12:49.35.
- Sept. 15—Bomb throwing at target—Max Lille, American; 4 points.
- 20 kilometer biplane handicap—Farnum T. Fish; 20:57.83.

The events on the lake front were chiefly of the exhibition order and Lincoln Beachey was the leading performer. Bad weather interfered to some extent with the programme, but the attendance on the whole was good. The winnings of the successful aviators were: Glenn Martin, \$4,854; Anthony Jannus, \$4,003; Max Lille, \$2,811; Beckwith Havens, \$2,057; DeLloyd Thompson, \$2,057.

Officers of the Aero Club of Illinois—President, Harold F. McCormick; secretary, Harold W. Robbins; consulting engineer, Sydney V. James; directors, B. J. Arnold, Frank X. Mudd, James E. Plew, Everett C. Brown, Grover F. Sexton, Robert G. McGann.

FRENCH AVIATION DERBY.

The French aviation derby was won June 17, 1912, by Roland Garros. The course was 683 miles in length, the flyers having to complete seven times a triangle from Angers to Cholet, from Cholet to Saumur and Saumur to Angers. The prize given by the French Aero club to the winner of the event was worth \$10,000.

FLYING DERBY IN ENGLAND.

The first flying derby over an eighty-one mile course around London was won June 8 by Tom Sopwith in 1 hour 22 minutes. The prize was a gold cup and \$1,250. Seven flyers entered the race, which began and ended at Hendon, six miles from the center of London. J. G. Hamel was second and W. Moorhouse third.

DURATION RECORDS.

Sept. 11, 1912, at Etampes, France, G. Fourny, while competing for the Criterium prize offered by the French Aero club, made an aeroplane flight which continued without a stop for 13 hours 18 minutes. The total distance covered was 1,010 kilometers, or approximately 628 miles. The performance constituted a record for time and distance without a stop over a closed circuit.

Sept. 8, 1911, M. Helen, while competing for the Michelin cup, made a flight lasting 14 hours 7 minutes, with a distance record of 776.86 miles, but he made three stops.

AMERICAN ENDURANCE RECORD.

By remaining in the air continuously for 6 hours 10 minutes 35 seconds, Lieut. John H. Towers of the United States navy broke the American endurance record at Annapolis, Md., Oct. 5, 1912. The former record, held by Paul Peck, was 4 hours 23 minutes 15 seconds (made May 24, 1912). Lieut. Towers' flight was made in a Curtiss hydroaeroplane.

RECORD FOR ALTITUDE.

Georges Legagneux, Pau, France, Dec. 9, 1910, 10,499 feet.

Arch Hoxsey, Los Angeles, Cal., Dec. 26, 1910, 11,474 feet (unofficial).

Capt. Felix, Etampes, France, Aug. 5, 1911, 11,339 feet.

Lincoln Beachey, Chicago, Ill., Aug. 20, 1911, 11,642 feet.

Lieut. Roland G. Garros, Parame, France, Nov. 7, 1911, 13,943 feet.

Lieut. Blaschke, Vienna, June 29, 1912, 14,300 feet.

Roland G. Garros, Houlgate, Sept. 6, 1912, 16,076 feet.

Georges Legagneux, Villacoublay, Sept. 17, 1912, 17,881 feet.

SPEED RECORD ESTABLISHED.

At Clearing, near Chicago, Sept. 9, 1912, Jules Vedrines of France, using a 140 horsepower Deperdussin monoplane, broke the world's aeroplane speed record by flying 20 kilometers (12.4 miles) in 6 minutes 55.95 seconds. His average rate per hour was nearly 107½ miles and per minute 1.79 miles.

JAMES GORDON BENNETT CUP.

Jules Vedrines of France won the James Gordon Bennett international aviation cup and with it the world's championship at Clearing, near Chicago, Sept. 9, 1912. He covered the distance of 124.3 miles in 70 minutes 56.8 seconds, or at the rate of nearly 105.5 miles an hour. The machine he used was a 140 horsepower Deperdussin monoplane. Maurice Prevost, who also used a Deperdussin machine, but of only 100 horsepower, was second in the race, making the distance in 75 minutes 25.7 seconds. Andre Frey, another member of the French team, had to quit on account of engine trouble. There was no American contestant. Winners of cup to date:

1909—Glenn H. Curtiss.

1910—Claude Grahame-White.

1911—Charles F. Weymann.

1912—Jules Vedrines.

AVIATION FATALITIES.

Dec. 1, 1911, to Nov. 15, 1912.

Dec. 3, 1911—Tod Schriver, San Juan, Porto Rico.

Dec. 3—Herr Reeb, Munich, Germany.

Dec. 6—Hubert Oxley and Robert Weiss, Filey, England.

Dec. 13—Lieut. Chari Lantheume, Melun, France.

Jan. 12, 1912—M. Ruchonnet, Senlis, France.

Jan. 20—Alfred Wagner, Juvisy, France.

Jan. 21—Lieut. Boerner, Senlis, France.

Jan. 22—Rutherford Page, Los Angeles, Cal.

Feb. 16—Herr Schmidt, Berlin, Germany.

Feb. 17—Graham Gilmour, Brooklands, England.

March 10—Suzanne Bernard, Etampes, France.

March 15—Herr Witte, Teltow, Germany.

March 23—Lieut. Albockinoff and assistant, Sebastopol, Russia.

April 3—Calbraith P. Rodgers, Long Beach, Cal.

April 13—Lieut. M. H. A. Boncour, Bar-le-Duc, France.

April 17—John Vorrept, Marseilles, France.

April 19—Lieut. Billie Davray, Verdun, France.

May 1—Gordon Hoessl, Berlin, Germany.

May 7—Herr Schmayer, Berlin, Germany.

May 13—Hans Schmigelski, Cassel, Germany.

May 13—Victor Louis Mason, Brooklands, England.

May 13—E. V. Fisher, Brooklands, England.

May 13—Ray Wheeler, St. Louis, Mo.

May 21—Fred J. Southard, Xenia, O.

May 25—Lieut. Schlichling, Johannisthal, Germany.

June 1—Phillip O. Parmalee, North Yakima, Wash.

June 1—M. Robi, Savigny-sur-Orge, France.

June 2—Albert Buchstaetter and Lieut. Stille, Bremen, Germany.

June 8—M. Visseur, Mourmelon, France.

June 9—M. Kimmerring and M. Tonnel, Mourmelon, France.

June 11—Lieut. L. W. Hazlehurst and A. L. Welch, College Park, Md.

June 15—Miss Julia Clark, Springfield, Ill.

June 19—Capt. Dubois and Lieut. A. Peignan, Douai, France.

June 21—Lieut. Von Falkenhayn, Doeberitz, Germany.

June 29—Herr Schadt, Mulhausen, Germany.

July 1—Miss Harriet Quimby and W. A. P. Willard, Boston, Mass.

July 5—Capt. E. B. Loraine and Sergt.-Maj. Wilson, Salisbury Plain, England.

July 9—Rene Bedel, Chalons-sur-Marne, France.

July 13—Victor M. Smith, Jr., Palo Alto, Cal.

July 15—M. Ollivares, Bourges, France.

July 15—Lieut. Zekutski, Sebastopol, Russia.

July 18—Lieut. Preusser, Leipzig, Germany.

July 27—Herr Fischer and Herr Kugler, Munich, Germany.

Aug. 3—Charles Lindsay, Byfleet, England.

Aug. 13—R. C. Fenwick, Salisbury, England.

Aug. 21—George Thompson, Denver, Col.

Aug. 28—Lieut. L. F. M. Chandenier, Crecy-sur-Seine, France.

Sept. 4—M. Karmulakiss, Athens, Greece.

Sept. 6—Capt. Patrick Hamilton and Lieut. Stewart, Stevenage, England.

Sept. 6—William Chambers, Greene, N. Y. (Died Sept. 11.)

Sept. 6—Lieut. Steger, Munich, Germany.

Sept. 10—Lieut. C. A. Bettington and Lieut. E. Hotchkiss, Wolvercote, England.

Sept. 11—Lieut. Siebert, Saxony, Germany.

Sept. 11—Col. Paul Peck, Chicago, Ill.

Sept. 14—Howard Gill, Chicago, Ill.

Sept. 20—Russell Blair, Shenandoah, Iowa.

Sept. 21—Lieuts. Berger and Junghans, Freiburg, Germany.

Sept. 21—H. J. D. Astley, Belfast, Ireland.

Sept. 25—Lieut. Regazzoni, Turin, Italy.

Sept. 28—Lieut. L. C. Rockwell and Corporal F. S. Scott, College Park, Md.

Sept. 28—John L. Longstaff, Hempstead, N. Y.

Sept. 30—Lieut. Willy Hefer, Sonnenburg, Germany.

Oct. 3—Charles F. Walsh, Trenton, N. J.

Oct. 6—Ernst Alig and mechanician, Johannisthal, Germany.

Oct. 6—Kondo (Japanese), Hammondsport, N. Y.

Oct. 15—Cobini and Bippert, Chaux-de-Fonds, Switzerland.

Oct. 17—Lieut. Blano, Chalons, France.
 Oct. 19—Lieut. Weissbarth and passenger, Geingen, Germany.
 Oct. 20—Amdee Lacour, Mussidan, France.
 Oct. 23—Louis Mitchell, Montgomery, Ala.
 Oct. 30—Lieut. Hamburger, Oberwiesefeld, Germany.
 Nov. 6—Lieut. Altrichter and Herr Meyer, Haibersstadt, Germany.

HARRIET QUIMBY AND PASSENGER KILLED.
 Miss Harriet Quimby of New York and W. A. P. Willard, manager of the Boston aviation meet, were killed at Atlantic, Mass., July 1, 1912, when the Bleriot aeroplane which she was guiding fell 1,000 feet into Dorchester bay. The accident happened as they were returning from a trip over Boston harbor to Boston light, a distance of twenty miles. The wind was gusty, and when Miss Quimby attempted to volplane the machine took a perpendicular position, throwing her and her companion from their places and then plunging after them into the bay. Both were instantly killed. Miss Quimby was the first woman to obtain an aviator's license in America and the first woman to cross the English channel in an aeroplane.

CALBRAITH P. RODGERS KILLED.
 Calbraith P. Rodgers, one of the best known aviators in the United States, was killed by falling with his aeroplane into the surf at Long Beach, Cal., April 3, 1912. He was making an exhibition flight and when at a height of about 200 feet over the ocean started to return to shore. He was seen to relax his hold on the levers and the machine dove straight down into the breakers. Two lifeguards were the first to reach the aeroplane. They found Rodgers lying with his head over one of the wings and his body under the engine. He was lifted from the wreck and hurried to a hospital on the beach, but died before he reached it.

Rodgers won a \$10,000 prize for duration at the aviation meet in Chicago in 1911 and later in that year secured international fame by flying from Sheephead Bay, N. Y., to Los Angeles, Cal., being the first man to accomplish the feat of crossing the American continent in an airship.

MISS JULIA CLARK KILLED.

Miss Julia Clark, 23 years of age, was killed at Springfield, Ill., June 17, 1912, while making a test flight in a biplane at the Illinois state fair grounds. The machine came in collision with a clump of trees and fell thirty feet to the ground. Miss Clark was so badly crushed that she died while being taken to a hospital. She learned aviation at San Diego, Cal.

MISCELLANEOUS.

S. F. Cody won the prize of \$20,000 offered by the British army authorities in a competition open to all the airmen of the world, using any make of machine. He also won a prize of \$5,000 in a contest open to British subjects only. The awards were made Aug. 20.

Lieut. Scott of the United States won the Michelin prize of \$5,000 in the aeroplane bomb dropping contest at Mourmelon, France, Aug. 11.

Charles T. Weymann, American, won the hydro-aeroplane race from St. Malo to the island of Jersey and back in the English channel Aug. 26. The distance of about ninety miles was made in 1 hour 40 minutes.

John Verrept, carrying two passengers, attained an altitude of 3,526 feet at Senlis, France, Jan. 20.

Herr Hoffman, driving a monoplane, took up four passengers at Johannisthal, Germany, March 8, and flew with them 32 minutes and 33 seconds, establishing a world's record. This was broken July 5 when Herr Chlirmeister remained in the air 33 minutes 42 seconds with four passengers.

B. W. Atwater made a record of 2:31½ over a five kilometer course near San Diego, Cal., Feb. 26.

At Compiègne, France, July 5, M. Legagneux, with one passenger, traveled seventy-seven miles in one hour.

March 10, 1911, M. Busson at Rheims, France, with three passengers, in a Deperdussin machine, remained in the air 31 minutes 23½ seconds.

Jan. 25, 1912, at Johannisthal, Germany, Dr. G. Ulich carried three passengers in his Harlan monoplane for 1 hour and 35 minutes.

THE HOMESTEAD LAW.

Any person who is the head of a family, or who is 21 years old and is a citizen of the United States or has filed his declaration of intention to become such, and who is not the proprietor of more than 160 acres of land in any state or territory, is entitled to enter one-quarter section (160 acres) or less quantity of unappropriated public land under the homestead laws. The applicant must make affidavit that he is entitled to the privileges of the homestead act and that the entry is made for his exclusive use and for actual settlement and cultivation, and must pay the legal fee and that part of the commission required, as follows: Fee for 160 acres, \$10; commission, \$4 to \$12. Fee for eighty acres, \$5; commission, \$2 to \$6. Within six months from the date of entry the settler must take up his residence upon the land and cultivate the same for five years continuously. At the ex-

piration of this period, or within two years thereafter, proof of residence and cultivation must be established by four witnesses. The proof of settlement, with the certificate of the register of the land office, is forwarded to the general land office at Washington, from which a patent is issued. Final proof cannot be made until the expiration of five years from date of entry, and must be made within seven years. The government recognizes no sale of a homestead claim. After the expiration of fourteen months from date of entry the law allows the homesteader to secure title to the tract, if so desired, by paying for it in cash and making proof of settlement, residence and cultivation for that period.

The law allows only one homestead privilege to any one person. (See "Work of Congress" in this volume for changes in homestead law.)

DISASTROUS FLOOD IN DENVER, COL.

Six hundred persons were made homeless, several deaths were caused and property valued at \$5,000,000 was destroyed as the result of a cloudburst and flood which swept down Cherry creek and through Denver, Col., Sunday evening, July 14, 1912. Almost the entire residence district from Broadway east to the city limits and from Broadway to the Platte river, between 13th street and 7th avenue, was under several feet of water. The union rail-

road station was flooded, the tracks submerged and train service cut off. The cloudburst was preceded by a heavy wind and rain storm. Most of the damage was done by a wall of water, twenty-five feet high, which came down Cherry creek at 9:30 o'clock in the evening and swept scores of buildings from their foundations. Most of the people were given warning in time to enable them to seek places of safety.

MUTINY IN NEBRASKA PENITENTIARY.

Three convicts in the state penitentiary near Lincoln, Neb., to whom guns and dynamite had been smuggled, shot and killed James Delahanty, the prison warden, March 14, 1912. They also killed A. C. Hellman, prison usher, and Charles Wagner, deputy warden, and wounded Thomas J. Doody, a cellhouse keeper. The convicts, Charles Taylor, John Dowd and Charles Morley, under sentence for robbery and burglary, then made their escape.

Dynamite was used in blowing off the lock of a steel door at the public entrance to the prison. The escaped convicts managed to elude the authorities until the 18th, when they were overtaken by a posse at a point near Omaha. They were in a wagon with a farmer, Roy Blunt, whom they were holding as a hostage. In the running gun fight which followed Dowd, Taylor and Blunt were killed. Morley was captured.

CHURCHES IN THE UNITED STATES IN 1911.

Secretary—Rev. Lewis G. Wilson, Boston, Mass.
Treasurer—Henry M. Williams, Cambridge, Mass.

CHRISTIAN SCIENCE CHURCH.

The Christian Science church was founded in 1879 by Mary Baker Eddy, the discoverer of Christian science and author of its text-book, "Science and Health, with Key to the Scriptures." The church was organized "to commemorate the word and works of our Master, which should reinstate primitive Christianity and its lost element of healing" (Church Manual). In 1892 the church was reorganized as the First Church of Christ, Scientist, known as the mother church in Boston, Mass. The present officers of the mother church are:

President—Bliss Knapp.
Clerk—John V. Dittmore.
Treasurer—Adam H. Dickey.
Directors—Archibald McLeilan, Allison V. Stewart, James A. Neal, John V. Dittmore, Adam H. Dickey.

All Christian science churches and societies, of which there are now 1,360 in the United States and 125 in foreign countries, are branches of the mother church. Lesson-sermons compiled from the bible and "Science and Health with Key to the Scriptures" are read at the services in Christian science churches. There are about 5,200 Christian science practitioners regularly devoting their time to the practice of Christian science mind healing.

Mrs. Eddy founded the Christian Science Journal, Sentinel, Quarterly, Der Herold der Christian Science and The Christian Science Monitor (a daily newspaper), all of which are published by the Christian Science Publishing society in Boston.

There is in connection with the Christian science movement an official board of lectureship designed to furnish the public correct information concerning the fundamental teachings of Christian science. Lectures given by members of this board are free to the public.

There are in Chicago eleven Christian science churches having an average total attendance of about 12,000. Each of these churches maintains a free reading room in addition to a joint reading room at 104 South Michigan avenue, where the public may have free access to all authorized publications on the subject of Christian science.

The offices of the Christian science committee on publication and the Christian science committee for the distribution of literature in Chicago are in the Orchestra building, 220 South Michigan avenue.

The office of the western representative of the Christian Science Monitor is at 750 Peoples Gas building.

 Western Territorial Headquarters—669 South State street, Chicago, Ill.

LAKES-TO-GULF DEEP-WATERWAY PROJECT.

Oct. 16, 1907, the legislature of Illinois passed a joint resolution providing for the submission to the electors of the state of an amendment to the constitution permitting the general assembly to provide for the construction of a deep waterway from Lockport to Utica and to authorize the issue of bonds to the amount of \$20,000,000 for this purpose. At the election of Nov. 3, 1908, the people approved the proposed amendment by a vote of 692,522 for to 195,177 against. At the regular session of the legislature in 1909 the waterway project was considered, but no agreement could be reached as to the question of going ahead immediately with the work or waiting for federal aid and no bill was passed. The matter was included in the list of subjects to be considered at the extra session of the legislature in the winter and spring of 1909-1910, but no action was taken.

At the regular session in 1911 a waterway bill

Western Territorial Commissioner—Thomas Estill.
 Posts in World—9,004.
 Posts in Chicago—20.

RELIGIONS OF THE WORLD.

According to the revised (1898) edition of Mulhall's Dictionary of Statistics there are 476,100,000 Christians in the world. The same authority places the number of Roman catholics in Europe, America and Australia at 223,090,000; protestants, 157,050,000, and Greeks, 88,660,000. It has been estimated that there are in the world 256,000,000 followers of Confucius, 190,000,000 Hindus, 176,800,000 Mohammedans, 148,000,000 Buddhists, 13,000,000 polytheists, 43,000,000 Taoists, 14,000,000 Shintoists and 12,000,000 Jews. Of the Christians more than 230,000,000 are catholics, 98,300,000 orthodox Greeks, 70,000,000 Lutherans, 21,000,000 episcopalians, 17,000,000 methodists, 11,000,000 baptists, 9,000,000 presbyterians and 4,500,000 congregationalists.

was passed by the senate, but in the house Speaker Charles Adkins prevented any action being taken. Gen. Doremus called an extra session of the legislature, which began June 14, but adjourned without taking final action.

WATERWAY ASSOCIATION.

The Lakes-to-Gulf Deep-Waterway association is an organization formed to aid in every way possible the realization of the deep-waterway project. It is made up chiefly of men representing the states most directly interested in the plan and annual meetings are held, the seventh gathering taking place in Little Rock, Ark., in September, 1912. The chief officers are:
 President—William K. Kavanaugh, St. Louis, Mo.
 Secretary—Thomas H. Lovelace, 914 New Bank of Commerce building, St. Louis, Mo.

 *Woodmen of the World (Canadian jurisdiction)—W. C. Fitzgerald, London, Ont.
 Workmen's Benefit Association—James H. Cutten, 74 Boylston street, Boston, Mass.

DEATH OF DANIEL K. PEARSONS.

Daniel Kimball Pearsons, who gave away between \$6,000,000 and \$7,000,000 to small schools and colleges in the United States, died of pneumonia in the Hinsdale sanitarium, near Chicago, April 27, 1912. He was born in Bradford, Vt., April 14, 1820, and was therefore slightly over 92 years of age when he passed away. His early years were passed in the practice of medicine, but after his removal to Janesville, Wis., in 1851 he began to invest in farm and timber lands. Their increase in value eventually brought him a fortune of several millions of dollars. The later years of his life were spent in Chicago, much of his time being devoted toward helping small and struggling schools financially. He gave much to hospitals, theological seminaries and missions. The bulk of his money was donated to the following institutions:

Beloit college (Wis.)	\$495,000
Chicago Theological seminary	405,000
Berea college (Ky.)	275,000
Colorado college (Col.)	200,000
Mount Holyoke college (Mass.)	150,000
Lake Forest university (Ill.)	125,000
Whitman college (Wash.)	120,000
Chicago Y. M. C. A.	110,000
Knox college (Ill.)	100,000
Drury college (Mo.)	100,000
Yankton college (S. D.)	100,000
American board of missions	100,000
Presbyterian hospital, Chicago	70,000
Anatolia college (Turkey)	70,000
Chicago City Missionary society	62,000
Pacific university (Ore.)	60,000
Carlton college (Minn.)	50,000
Fargo college (N. D.)	50,000

Pomona college (Cal.)	50,000
Fairmont college (Kas.)	50,000
McCormick Theological seminary	50,000
Illinois college (Ill.)	50,000
Montpelier seminary (Vt.)	50,000
Grant university (Tenn.)	50,000
McKendree college (Ill.)	35,000
Town of Hinsdale	35,000
Northwestern university (Ill.)	30,000
Olivet college (Mich.)	25,000
Marietta college (O.)	25,000
Sheridan college (Wyo.)	25,000
Montana college (Mont.)	25,000
Bethany college (Kas.)	25,000
Guilford college (N. C.)	25,000
Piedmont college (Ga.)	25,000
Washington college (Tenn.)	25,000
Doane college (Neb.)	25,000
Congregational Training School for Women	21,000
Presbyterian board of missions	20,000
Grand Prairie seminary	20,000
Women's board of foreign missions	20,000
Chicago Art institute	15,000
Huron college (S. D.)	15,000
First Presbyterian church, Chicago	10,000
German college of the Northwest (Iowa)	10,000
West Virginia seminary	10,000
Northland college (Wis.)	10,000
Public library, Bradford, Vt.	2,000

One of his last gifts was the sum of \$250,000, presented with a return pledge of 2 per cent interest to be paid him by the beneficiary. On this interest he aimed to live the rest of his life, but he passed away only a year or two after the gift was made. His entire fortune had been given away.

INITIATIVE AND REFERENDUM CONSTITUTIONAL.

The Supreme court of the United States in a decision announced Feb. 19, 1912, declined to annul as unconstitutional the initiative and referendum method of legislation in the states. It held that it had no jurisdiction over the form of the government in the states, that being a political question for congress to deal with. Chief Justice White read the decision.

"As the issues (in the Pacific States Telephone

and Telegraph case), presented in their essence," said he, "are and have been definitely determined to be political and governmental and embraced within the scope of the powers conferred upon congress, and not therefore within the reach of the judicial power, it follows that the case presented is not within our jurisdiction, and the writ of error must therefore be and it is dismissed for want of jurisdiction."

FAMOUS STREETS OF THE WORLD.

Berlin—Unter den Linden.
 Buenos Aires—Avenida de Mayo.
 Chicago—State street and Michigan avenue.
 City of Mexico—Paseo de la Reforma.
 Cleveland—Euclid avenue.

SOCIETY OF THE CINCINNATI.

Organized by Gen. George Washington and his officers May 10, 1783, at the cantonments of American army on the Hudson river, New York.

GENERAL OFFICERS.

President-General—Winslow Warren, Massachusetts.

Vice-President-General—James Simons, LL. D., South Carolina.

Secretary-General—Asa Bird Gardiner, LL. D., L. H. D., Union club, New York city.

Treasurer-General—Charles Isham, Connecticut.

Assistant Secretary-General—John C. Daves, Baltimore, Md.

Assistant Treasurer-General—Henry Randall Webb, Maryland.

Only the thirteen original states have state societies. These, with the names of president and secretary of each in geographical order named, are:

New Hampshire—William Davis Sawyer, Francis Coffin Martin.

Massachusetts—Winslow Warren, David Greene Haskins.

Rhode Island—Asa Bird Gardiner, LL. D., L. H. D.; George W. Olney.

Connecticut—Henry Larcom Abbott, LL. D.; Bryce Metcalf.

New York—Talbot Olyphant, Francis Burrall Hoffman.

New Jersey—James W. S. Campbell, Louis Dunham Boggs.

Pennsylvania—Richard Dale, Grant Weidman.

Delaware—John Patten Wales, Edwin Jaquette Sellers.

Maryland—Oswald Tilghman, Thomas Edward Sears.

Virginia—William Gordon McCabe, LL. D.; Levin Joyner.

North Carolina—Wilson Gray Lamb, Marshall DeLancey Haywood.

South Carolina—James Simons, LL. D.; Henry M. Tucker, Jr.

Georgia—Walter Glasco Charlton, George Francis Tannille.

The Order of the Cincinnati was organized by American and French officers who served in the war of the revolution, for the purpose of perpetuating the remembrance of that event and keeping up the friendships then formed. Membership goes to the eldest male descendant, if worthy; in case there is no direct male descendant, then to male descendants through intervening female descendants. The present membership is about 890. George Washington was the first president-general until his decease, and Alexander Hamilton the second.

MILITARY ORDER OF FOREIGN WARS OF THE UNITED STATES.

Instituted Dec. 27, 1894.

OFFICERS OF THE NATIONAL COMMANDERY.

Commander-in-Chief—Maj. Gen. Alex. S. Webb, U. S. A., Riverdale, N. Y.

Registrar-General—Rev. Henry N. Wayne, Tuckahoe, N. Y.

Judge-Advocate-General—H. W. Lamberton, Harrisburg, Pa.

Deputy Treasurer-General—Col. O. D. Clark, Montpelier, Vt.

Chaplain-General—Capt. Henry A. F. Hoyt, Cynwyd, Pa.

Historian-General—Capt. Edw. H. Smith, U. S. V., Oshkosh, Wis.

Recorder-General—Maj. Guy A. Boyle, Indianapolis, Ind.

Commanderies have been established in twenty-one states. Total membership about 1,400.

The order is a military organization with patriotic objects, having for its scope the period of American history since national independence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the order is the perpetuating of the names, as well as the services, of commissioned officers who served in either the war of the revolution, the war with Tripoli, the war of

1812, the Mexican war or the war with Spain and all future campaigns, recognized by the United States government as war with foreign powers. Veteran companionship is conferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

SOCIETY OF COLONIAL WARS.

Instituted in 1892.

OFFICERS OF THE GENERAL SOCIETY.

Acting Governor-General—Howland Pell, New York.
 Secretary-General—Clarence Storm, 45 William street, New York.

American Institute of Mining Engineers—Secretary, Joseph Struthers, 29 West 39th street, New York, N. Y.

American Institute of Homeopathy—Secretary, Dr. J. Richey Horner, Cleveland, O.

American Library Association—President, Henry E. Legler, Chicago; secretary and executive officer, George B. Utley, 78 East Washington street, Chicago, Ill.

American Mathematical Society—President, H. B. Fine, Princeton university, Princeton, N. J.; secretary, F. N. Cole, Columbia university, New York, N. Y.; Chicago section, secretary, H. E. Slaughter, University of Chicago; San Francisco section, secretary, T. M. Putnam, University of California, Berkeley, Cal.; southwestern section, secretary, O. D. Kellogg, University of Missouri, Columbia, Mo.

American Medical Association—President, Abraham Jacob, New York, N. Y.; general secretary, Alexander R. Craig, 535 Dearborn avenue, Chicago, Ill.; editor and general manager, George H. Simmons, 535 Dearborn avenue, Chicago, Ill.

American Microscopical Society—President, Dr. F. D. Heald, Philadelphia, Pa.; secretary, Prof. T. W. Galloway, Millikin university, Decatur, Ill.

American Medico-Psychological Association—President, James T. Searcey, M. D., Tuscaloosa, Ala.; secretary-treasurer, Charles G. Wagner, M. D., Binghamton, N. Y.

American Nature Study Society—President, Benjamin M. Davis, Miami university, Oxford, O.; secretary-treasurer, Elliot R. Downing, University of Chicago, the School of Education, Chicago, Ill.

American Numismatic Society, The—Governors, Edward D. Adams, Henry R. Drowne, William B. Osgood Field, Archer M. Huntington and Daniel Parish, Jr.; secretary, Bauman Lowe Belden, Audubon Park, 156th street, west of Broadway, New York, N. Y.

American Ophthalmological Society—President, Dr. Myles Standish, Boston, Mass.; secretary, Dr. W. M. Sweet, Philadelphia, Pa.

American Optical Society—President, Prof. George F. Moore, Harvard university, Cambridge, Mass.; corresponding secretary, Prof. A. V. Jackson, Columbia university, New York, N. Y.

American Orthopedic Association—President, A. R. Shands, Washington, D. C.; secretary, Ralph R. Fitch, M. D., 365 East avenue, Rochester, N. Y.

American Osteopathic Association—President, Dr. C. B. Atzen, Omaha, Neb.; secretary, H. L. Childs, Orange, N. J.

American Pediatric Society—President, John Lovett Morse, M. D., Boston, Mass.; secretary, Samuel S. Adams, M. D., Washington, D. C.

American Philological Association—President, Thomas D. Goodell, Yale university, New Haven, Conn.; secretary, Prof. Frank Gardner Moore, Columbia university, New York, N. Y.

American Philosophical Society—President, William W. Keen; secretaries, I. Minis Hays, Arthur W. Goodspeed, Amos P. Brown, Harry F. Keller, 104 South 5th street, Philadelphia, Pa.

American Physical Society—President, Prof. W. F. Magie, Princeton, N. J.; secretary, Ernest Merritt, Ithaca, N. Y.

American Public Health Association—President, Rudolph Hering, New York, N. Y.; secretary, Prof. Selskar M. Gunn, 755 Boylston street, Boston, Mass.

American Social Science Association—President, John Huston Finley, College of the City of New York; general secretary, Robert S. Binkerd, 55 West 44th street, New York, N. Y.

American Society of Biological Chemists—President, A. B. Macallum, University of Toronto, Toronto, Ont.; secretary, Alfred N. Richards, University of Pennsylvania, Philadelphia, Pa.

American Society of Civil Engineers—President, John A. Ackerson; secretary, Charles Warren Hunt, 220 West 57th street, New York, N. Y.

American Society of Mechanical Engineers—President, Alex C. Humphreys; secretary, Calvin W. Rice, 29 West 39th street, New York, N. Y.

American Society of Naturalists—President, Prof. E. G. Conklin, Princeton university, Princeton, N. J.; secretary, Prof. C. R. Stockard, Cornell University Medical college, New York, N. Y.

American Statistical Association—Secretary, Carroll W. Doten, 491 Boylston street, Boston, Mass.

American Surgical Association—President, Charles A. Powers, Denver, Col.; secretary, Robert G. LeConte, 1530 Locust street, Philadelphia, Pa.

Archaeological Institute of America (incorporated by act of congress)—President, Prof. Francis W. Kelsey, Ph. D., University of Michigan, Ann Arbor; general secretary, Prof. Mitchell Carroll, the Octagon, Washington, D. C.

American Association of Anatomists—President, Dr. Ross G. Harrison, Yale university, New Haven, Conn.; secretary-treasurer, Dr. G. Carl Huber, University of Michigan, Ann Arbor.

Association of American Physicians—President, L. F. Barker, Baltimore, Md.; secretary, George M. Koter, 1319 Q street, Washington, D. C.

Astronomical and Astrophysical Society of America—President, Prof. E. C. Pickering, Cambridge, Mass.; secretary, Prof. Philip Fox, Northwestern university, Evanston, Ill.

Botanical Society of America—President, Prof. L. R. Jones, University of Wisconsin, Madison, Wis.; secretary, Prof. George T. Moore, Missouri Botanical garden, St. Louis, Mo.

Geological Society of America, The—President, Herman L. Fairchild, Rochester, Md.; secretary, Edmund Otis Hovey, American Museum of Natural History, New York, N. Y.

League of Grade Teachers' Associations—President, Miss Grace Baldwin, Minneapolis, Minn.; secretary-treasurer, Miss Mollie B. Hobbs, Baltimore, Md.

Mississippi Valley Medical Association—President, Dr. Albert E. Sterne, Indianapolis, Ind.; secretary, Dr. Henry E. Tuley, Louisville, Ky.

National Academy of Sciences—President, Ira Remsen, Baltimore, Md.; home secretary, Arnold Hague, Washington, D. C.; foreign secretary, George E. Hale, Pasadena, Cal.; membership, 113.

National Association for the Study and Prevention of Tuberculosis—Executive office, 105 East 23d street, New York, N. Y.; executive secretary, Dr. Livingston Farrand, New York, N. Y.; secretary, Dr. Henry Barton Jacobs, 11 Mount Vernon place, West, Baltimore, Md.

National Education Association—President, E. T. Fairchild, Topeka, Kas.; permanent secretary, Durand W. Springer, Detroit, Mich.

National Eclectic Medical Association—President, Dr. F. L. Wilmeth, Lincoln, Neb.; corresponding secretary, Dr. William N. Mundy, Forest, O.

National Geographic Society—President, Henry Ganett, Washington, D. C.; secretary, O. F. Austin, Washington, D. C.; office, Hubbard Memorial hall, 16th and M streets, Washington, D. C.

Society of Homeopaths—President, Dr. James T. Kent, Chicago; secretary, Dr. Lee Norman, Louisville, Ky.

Society of Naval Architects and Marine Engineers—President, Stevenson Taylor; secretary, William J. Baxter, 29 West 39th street, New York, N. Y.

Western Economic Society—President, Shailer Mathews, Chicago, Ill.; secretary, Leon C. Marshall, University of Chicago, Chicago, Ill.

BIRD RESERVATIONS IN THE UNITED STATES.

For the purpose of preserving the native wild birds of the country from destruction, the United States in 1903 inaugurated the plan of setting aside regions that contain important colonies of breeding birds as bird reservations or "refuges." The first reserve created was that including Pelican island, Florida, containing a colony of brown pelicans. Since then many other reserves have been established by executive order in various parts of the union. The localities set aside are under the supervision of the secretary of agriculture, who appoints the inspectors and wardens. The reservations are grouped in six administrative districts, each in charge of an inspector, who supervises the

work of the wardens stationed on the reservations. Under a federal law, approved June 28, 1906 (criminal code, section 84), it is unlawful for any person to hunt, trap, capture, willfully disturb or kill any bird of any kind or take the eggs of such birds on any lands of the United States which have been set apart or reserved as breeding grounds for birds by any law, proclamation or executive order, except under such rules as the secretary of agriculture may prescribe. Violations of the law are punishable by fines up to \$500, or imprisonment for six months, or both. Following is a list of the existing bird reserves in the order of their establishment:

Pelican island, Fla., 1903.
Breton islands, La., 1904.
Stump lake, N. D., 1905.
Huron islands, Mich., 1905.
Siskiwit islands, Mich., 1905.
Passage key, Fla., 1905.
Inclan key, Fla., 1906.
Pine islands, La., 1907.
Shell keys, La., 1907.
Flattery rocks, Wash., 1907.
Quillayute Needles, Wash., 1907.
Three Arch rocks, Ore., 1907.
Copalis rock, Wash., 1907.
East Timballer island, La., 1907.
Mosquito inlet, Fla., 1908.
Tortugas keys, Fla., 1908.
Klamath lake, Ore. and Cal., 1908.
Key West, Fla., 1908.
Lake Malheur, Ore., 1908.

Chase lake, N. D., 1908.
Pine island, Fla., 1908.
Matlacha pass, Fla., 1908.
Palma Sola, Fla., 1908.
Island Bay, Fla., 1908.
Loch Katrina, Wyo., 1908.
East Park, Cal., 1908.
Cold Springs, Ore., 1909.
Shoshone, Wyo., 1909.
Pathfinder, Wyo., 1909.
Bellevue, S. D., 1909.
Strawberry valley, Utah, 1909.
Salt river, Ariz., 1909.
Deer Flat, Idaho, 1909.
Minidoka, Idaho, 1909.
Willow creek, Mont., 1909.
Carlsbad, N. M., 1909.
Rio Grande, N. M., 1909.

Keechelus lake, Wash., 1909.
Cle Elum lake, Wash., 1909.
Bumping lake, Wash., 1909.
Conconully, Wash., 1909.
Yukon delta, Alaska, 1909.
Bering sea, Alaska, 1909.
Pribilof, Alaska, 1909.
Tuxedni, Alaska, 1909.
St. Lazarus, Alaska, 1909.
Farallon, Cal., 1909.
Culebra, Porto Rico, 1909.
Hawaitian islands, 1909.
Bogoslof, Alaska, 1909.
Clear lake, California, 1910.
Forester island, Alaska, 1912.
Hazy islands, Alaska, 1912.
Niobrara, Neb., 1912.
Green Bay, Wis., 1912.

WINNERS OF THE NOBEL PRIZES.

PHYSICS.

- 1901—William Conrad Roentgen, professor of physics at the University of Munich.
 1902—Divided equally between Henrik Anton Lorentz, professor of physics at the University of Leyden, and Peter Zeeman, professor of physics at the University of Amsterdam.
 1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Museum d'Histoire Naturelle, Paris, France, member Institut Francaise, and half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Sklodowska Curie, preceptress at the Higher Normal School for Young Girls at Sevres.
 1904—Lord Rayleigh, professor of natural philosophy, Royal Institution of Great Britain, London.
 1905—Philippe Lenard, professor of physics at the Physical Institute of Kiel.
 1906—J. J. Thomson, professor of experimental physics at the University of Cambridge.
 1907—Albert A. Michelson, professor of physics at the University of Chicago.
 1908—Prof. Gabriel Lippman of the University of Paris.
 1909—G. Marconi, Italy, and Prof. Ferdinand Braun of Strassburg.
 1910—Johannes Diderik van der Waals, professor of experimental physics in the University of Amsterdam, Holland.
 1911—Prof. Wilhelm Wien, University of Wuerzburg.
 1912—Gustaf Dalen, Swedish engineer.

MEDICINE.

- 1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia.
 1902—Donald Ross, professor of tropical medicine at the University college of Liverpool.
 1903—Niels Ryberg Finsen, professor of medicine, Copenhagen, Denmark.
 1904—Ivan Petrovic Pawlow, professor of physiology in the Military Academy of Medicine, St. Petersburg.
 1905—Robert Koch, member of the Royal Academy of Science, Berlin.
 1906—Profs. Ramon y Cajal and Camillo Golgi of the Pavia university, Italy.
 1907—Charles L. A. Laveran of the Pasteur Institute in Paris.
 1908—Dr. Paul Ehrlich of Berlin and Prof. Elie Metchnikoff of the Pasteur Institute, Paris.
 1909—Prof. E. T. Kocher, Switzerland.
 1910—Dr. Albrecht Kossel, professor of physiology, Heidelberg university, Germany.
 1911—Allvar Gullstrand, professor of diseases of the eye, Upsala university, Sweden.
 1912—Dr. Alexis Carrel of the Rockefeller Institute for Medical Research, New York, N. Y.

CHEMISTRY.

- 1901—Jakob Hendrik van't Hoff, professor of chemistry in the University of Berlin.
 1902—Emil Fischer, professor of chemistry in the University of Berlin.
 1903—Svante August Arrhenius, professor at the University of Stockholm.
 1904—Sir William Ramsay, professor of chemistry in the University college, London.

- 1905—Adolf von Baeyer, professor of chemistry at Munich.
 1906—H. Moissan, professor of chemistry at the Sorbonne, Paris.
 1907—Eduard Buchner, professor of chemistry in the agricultural high school of Berlin.
 1908—Prof. Ernest Rutherford of the University of Manchester, England.
 1909—Prof. W. Ostwald of Leipzig.
 1910—Otto Wallach, professor of chemistry in the University of Göttingen.
 1911—Mme. Marie S. Curie, professor of sciences, University of Paris.
 1912—Prof. Grignard, Nancy university, and Prof. Paul Sabatier, Toulouse university.

LITERATURE.

- 1901—Rene Francois Armand Sully-Prudhomme, member of the French academy.
 1902—Theodor Mommsen, a professor of history at the University of Berlin.
 1903—Bjornstjerne Bjornson, author, Norway.
 1904—Half to Frederic Mistral of France and half to Jose Echegaray of Spain.
 1905—Henryk Sienkiewicz, author of "Quo Vadis?"
 1906—Prof. Giosue Carducci of Bologna, Italy.
 1907—Rudyard Kipling of England.
 1908—Prof. Rudolf Eucken, University of Java.
 1909—Selma Lagerlof, Sweden.
 1910—Paul Johann Ludwig Heyse, Germany.
 1911—Maurice Maeterlinck, Belgium.
 1912—Gerhart Hauptmann, German author and dramatist.

PEACE.

- 1901—Divided equally between Henri Dunant, founder of the International Red Cross Society of Geneva, and Frederic Passay, founder of the first French peace association, the "Societe Francaise pour l'Arbitrage Entre Nations."
 1902—Divided equally between Elie Ducommun, secretary of the international peace bureau at Bern, and Albert Gobat, chief of the interparliamentary peace bureau at Bern.
 1903—William Randal Cremer, M. P., secretary of the international arbitration league, London.
 1904—The Institute of International Right, a scientific association founded in 1873 in Ghent, Belgium.
 1905—Baroness Bertha von Suttner for her literary work written in the interest of the world's peace movement.
 1906—Theodore Roosevelt, president of the United States, for the part he took in bringing the Russo-Japanese war to an end. Money set apart by the president for the establishment of a permanent industrial peace commission.
 1907—Divided equally between Ernesto T. Moneta, president of the Lombardy Peace union, and Louis Renault, professor of international law at the University of Paris.
 1908—K. P. Arnoldsén of Sweden and M. F. Bajer of Denmark.
 1909—Baron d'Estournelles de Constant, Paris, and M. Beernaert, Holland.
 1910—International Permanent Peace Bureau, Bern.
 1911—Prof. T. C. M. Asser, Holland, and Alfred Fried, Austria.
 1912—No award.

The prizes are awarded on the 10th of December of each year. They amount to nearly \$38,000 each. An official account of the origin of the Nobel prize fund will be found on page 108 of The Chicago Daily News Almanac and Year-Book for 1904.

FILING OF PETITIONS FOR PRIMARY NOMINATIONS.

In February, 1912, a contest arose between the board of election commissioners of Chicago and the county clerk as to jurisdiction in receiving petitions of candidates for nomination to county offices. Both claimed the right to receive such petitions and to decide upon the order of names on the primary ballots. The matter was carried to the State Supreme court on a petition for a mandamus compelling the election commissioners to print on the primary ballots for the April 9 (1912) primary

election the names of candidates for county offices as furnished by the county clerk of Cook county. In a decision announced Feb. 22 the Supreme court held unanimously that petitions for nominations of candidates for county offices must be filed with the county clerk and the names must be printed upon the primary ballots in the order given by the county clerk. The issuing of the writ of mandamus asked for was ordered.

ELECTION CALENDAR.

PRESIDENTIAL.

Every fourth year. Next election Nov. 7, 1916.
[See the Presidential Election of 1916.]

STATE.

(Gubernatorial if not otherwise specified.)

Alabama—Every fourth year. Next election Nov. 3, 1914.
Arizona—Biennially; first Tuesday after first Monday in November; next election Nov. 3, 1914.
Arkansas—Biennially; second Tuesday in September. Next election Sept. 8, 1914.
California—Every fourth year. Next election Nov. 3, 1914.
Colorado—Biennially. Next election Nov. 3, 1914.
Connecticut—State officers except attorney-general, biennially; attorney-general quadrennially. Next election Nov. 3, 1914.
Delaware—Every fourth year. Next election Nov. 7, 1916.
Florida—Every fourth year. Next election Nov. 7, 1916.
Georgia—Biennially; first Monday in October. Next election Oct. 4, 1914.
Idaho—Biennially. Next election Nov. 3, 1914.
Illinois—Governor, lieutenant-governor, secretary of state, auditor and attorney-general every fourth year. Next election Nov. 7, 1916. State treasurer biennially. Next election Nov. 3, 1914.
Indiana—Governor, every fourth year. Next election Nov. 7, 1916. Other state officers biennially. Next election Nov. 3, 1914.
Iowa—Governor, lieutenant-governor, superintendent of instruction, one justice of the Supreme court and one railroad commissioner biennially. Next election Nov. 3, 1914.
Kansas—Biennially. Next election Nov. 3, 1914.
Kentucky—Every fourth year. Next election Nov. 2, 1915.
Louisiana—Every fourth year; third Tuesday in April. Next election April 18, 1916.
Maine—Biennially; second Monday in September. Next election Sept. 14, 1914.
Maryland—Every fourth year. Next election Nov. 2, 1915.
Massachusetts—Annually. Next election Nov. 4, 1913.
Michigan—Biennially. Next election Nov. 3, 1914.
Minnesota—Biennially. Next election Nov. 3, 1914.
Mississippi—Every fourth year. Next election Nov. 2, 1915.
Missouri—Principal state officers every fourth year. Next election of governor, lieutenant-governor, secretary of state, auditor, treasurer and attorney-general Nov. 7, 1916.
Montana—Every fourth year. Next election Nov. 7, 1916.
Nebraska—Biennially. Next election Nov. 3, 1914.
Nevada—Every fourth year. Next election Nov. 3, 1914.
New Hampshire—Biennially. Next election Nov. 3, 1914.
New Jersey—Governor every third year, other officers appointed. Next election Nov. 4, 1913.
New Mexico—Biennially; on Tuesday after the first Monday in November. Next election Nov. 3, 1914.
New York—Biennially. Next election Nov. 3, 1914.
North Carolina—Every fourth year. Next election Nov. 7, 1916.
North Dakota—Biennially. Next election Nov. 3, 1914.
Ohio—Governor, lieutenant-governor, state treasurer and attorney-general biennially. Next election Nov. 4, 1913. Secretary of state and dairy and food commissioner biennially. Next election Nov. 3, 1914. Auditor every fourth year. Next election Nov. 2, 1915.
Oklahoma—Every three years. Next election Nov. 4, 1913.
Oregon—Every fourth year; first Monday in June. Next election June 1, 1914.
Pennsylvania—Governor, lieutenant-governor and secretary of internal affairs every fourth year. Next election Nov. 3, 1914. State treasurer biennially. Next election Nov. 4, 1913. Other officials appointed.
Rhode Island—Annually. Next election Nov. 4, 1913.
South Carolina—Biennially. Next election Nov. 3, 1914.

South Dakota—Biennially. Next election Nov. 3, 1914.
Tennessee—Biennially. Next election Nov. 3, 1914.
Texas—Biennially. Next election Nov. 3, 1914.
Utah—Every fourth year. Next election Nov. 7, 1916.
Vermont—Biennially; First Tuesday in September. Next election Sept. 1, 1914.
Virginia—Every fourth year. Next election Nov. 4, 1913.
Washington—Every fourth year. Next election Nov. 7, 1916.
West Virginia—Every fourth year. Next election Nov. 7, 1916.
Wisconsin—Biennially. Next election Nov. 3, 1914.
Wyoming—Every fourth year. Next election Nov. 3, 1914.

CHICAGO, COOK COUNTY AND ILLINOIS.

FIRST TUESDAY IN APRIL.

Aldermen in Chicago (one from each ward) annually. Next election April 1, 1913.
Mayor quadrennially. Treasurer and city clerk biennially. Next election of mayor April 6, 1915; of treasurer and city clerk April 1, 1913.
Town officers, officers in cities containing one or more towns and officers in villages whose boundaries coincide with the boundaries of a town, annually. Next election April 1, 1913.

THIRD TUESDAY IN APRIL.

Officers of cities organized under the general law (except such as contain within their limits one or more townships) annually. Next election April 15, 1913.
Officers of villages organized under the general law (except where territorial limits coincide with the territorial limits of a township) annually. Next election April 15, 1913.

FIRST MONDAY IN JUNE.

Judges of the Circuit court (fourteen in Cook county) every sixth year, counting from 1873. Next election in 1915.
One judge of the Superior court of Cook county every sixth year, counting from 1897. Next election in 1915.
Judges of the Supreme court of the state, 5th district, every ninth year, counting from 1873 (next election in 1912), from the 4th district every ninth year, counting from 1876 (next election in 1921); from the 1st, 2d, 3d, 6th and 7th districts every ninth year, counting from 1879 (next election in 1915).

FIRST TUESDAY AFTER FIRST MONDAY IN NOVEMBER.

Presidential electors, governor, lieutenant-governor, secretary of state, auditor, attorney-general, state senators in even-numbered districts, members of the state board of equalization, clerk of the Superior court and recorder of deeds in Cook county, clerks of the Circuit courts, state's attorneys, county surveyors and county coroners every fourth year, counting from 1872. Next election Nov. 7, 1916.
State treasurer, representatives in congress, representatives in the general assembly and three trustees of the University of Illinois every second year, counting from 1872. Next election Nov. 3, 1914.
Clerk of the state Supreme court every sixth year, counting from 1902. Next election Nov. 3, 1914.
Clerks of the Appellate courts every sixth year, counting from 1878. Next election Nov. 3, 1914.
Clerk of Criminal court every fourth year, counting from 1886. Next election Nov. 3, 1914.
Superintendent of public instruction, state senators in odd-numbered districts, clerk of the Criminal court in Cook county, county clerks, county judges, county treasurers, county superintendents of schools and sheriffs every fourth year, counting from 1874. Next election Nov. 3, 1914.
President and fifteen members of the Cook county board biennially. Next election Nov. 3, 1914.
Members of the board of assessors in Cook county every second year as terms (six years) expire. Next election Nov. 3, 1914.

Members of the board of review in Cook county every second year as terms (six years) expire. Next election Nov. 4, 1913.
Judges of the Superior court of Cook county as terms (six years) expire. One will be elected Nov. 4, 1913, and six in 1916.
Sanitary district trustees in Cook county as terms

expire. Three are elected every other year. Next election Nov. 3, 1914. Next president to be elected in 1916.
Judges, one chief justice, one clerk and one bailiff of the Municipal court as terms expire. Next election of chief justice, clerk and bailiff in 1918. Next election of judges Nov. 3, 1914.

THE PRESIDENTIAL ELECTION OF 1916.

The next president and vice-president of the United States will be chosen Nov. 7, 1916. As is well known, these officials are not elected directly by the people, but by electors, who are voted for on the party tickets on the date named. The electors chosen meet on the second Monday in January following their election in their respective states and vote by ballot for president and vice-president of the United States. The result is transmitted to the president of the senate in Washington. On the second Wednesday in February succeeding the meeting of the electors the electoral votes are opened and counted in the presence of both houses of congress and the result announced by the president of the senate.

While the president and vice-president are thus formally elected in 1917, the actual choice is made in 1916. In the spring and summer of that year national party conventions will be held for the nomination of candidates for president and vice-president of the United States for the term beginning March 4, 1917. These conventions are not provided for by the constitution, but it has become the invariable rule that the candidates presented by them are voted for by the presidential electors. The latter are nominated at the state party conventions or primaries and are elected on the first Tuesday after the first Monday in November of every fourth year, preceding the end of the presidential term. Each state is entitled to as many electors as it has senators and representatives. No senator or representative or person holding an office of trust or honor under the United States may be an elector. The twelfth amendment to the constitution prescribes how the electors shall meet and cast their ballots and how congress shall count the votes. The article is as follows:

"The electors shall meet in their respective states and vote by ballot for president and vice-president, one of whom at least shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as president, and in distinct ballots the person voted for as vice-president, and they shall make distinct lists of all persons voted for as president and of all persons voted for as vice-president, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the

seat of the government of the United States, directed to the president of the senate.

"The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates and the votes shall then be counted; the person having the greatest number of votes for president shall be the president, if such number be a majority of the whole number of electors appointed; and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the house of representatives shall choose immediately by ballot the president. But in choosing the president the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the house of representatives shall not choose a president, whenever the right of choice shall devolve upon them, before the 4th day of March next following, then the vice-president shall act as president, as in the case of the death or other constitutional disability of the president.

"The person having the greatest number of votes as vice-president shall be the vice-president, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the senate shall choose the vice-president; a quorum for the purpose shall consist of two-thirds of the whole number of senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of president shall be eligible to that of vice-president of the United States."

Section 5, article II., of the constitution prescribes the qualifications of the president as follows:

"No person except a natural born citizen or a citizen of the United States at the time of the adoption of the constitution shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of 35 years and been fourteen years a resident within the United States."

The qualifications of the vice-president are the same as those of the president.

THE ELECTORAL COLLEGE.

Following is the electoral vote of the states, based upon the apportionment of representatives made by congress under the census of 1910:

State.	Electoral vote.	State.	Electoral vote.
Alabama	12	Indiana	15
Arizona	3	Iowa	13
Arkansas	9	Kansas	10
California	13	Kentucky	13
Colorado	6	Louisiana	10
Connecticut	7	Maine	6
Delaware	3	Maryland	8
Florida	6	Massachusetts	18
Georgia	14	Michigan	15
Idaho	4	Minnesota	12
Illinois	29	Mississippi	10

State.	Electoral vote.	State.	Electoral vote.
Missouri	18	Rhode Island	5
Montana	4	South Carolina	9
Nebraska	8	South Dakota	5
Nevada	3	Tennessee	12
New Hampshire	4	Texas	20
New Jersey	14	Utah	4
New Mexico	3	Vermont	4
New York	45	Virginia	12
North Carolina	12	Washington	7
North Dakota	5	West Virginia	5
Ohio	24	Wisconsin	13
Oklahoma	10	Wyoming	3
Oregon	5	Total	531
Pennsylvania	38	Necessary to choice	266

ORDER OF PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation or inability of both the president and vice-president, then the secretary of state shall act as president until the disability of the president or vice-president is removed or a president is elected. The rest of the order of succession is: Secretary of the

treasury, secretary of war, attorney-general, postmaster-general, secretary of the navy, secretary of the interior, secretary of agriculture, and secretary of commerce and labor. The acting president, in case congress is not in session, must call a special session, giving twenty days' notice.

NATIONAL POLITICAL COMMITTEES (1912-1916).

REPUBLICAN.

Headquarters—Chicago and New York.
 Chairman—Charles D. Hilles, New York.
 Secretary—James B. Reynolds, New York.
 Assistant Secretary—John Eversman.
 Treasurer—George R. Sheldon, New York.
 Assistant Treasurer—Walter H. Wilson, Illinois.
 Sergeant-at-Arms—William F. Stone, Maryland.
 Director Western Headquarters—D. W. Mulvane, Illinois.

THE ROCKEFELLER FUND OF THE GENERAL EDUCATION BOARD.

Organized Feb. 27, 1902.

Chairman—Frederick T. Gates.

Secretary—Wallace Buttrick.

Assistant secretary—E. C. Sage.

Treasurer—L. G. Myers.

Members of Board—Frederick T. Gates, Robert C. Ogden, Walter H. Page, J. D. Rockefeller, Jr., Albert Shaw, Wallace Buttrick, Starr J. Murphy, Edwin A. Alderman, Hollis B. Frissell, Harry Pratt Judson, Charles W. Eliot, Andrew Carnegie, Edgar L. Marston, Wickliffe Rose, Jerome D. Greene, Anson Phelps Stokes, Jr.

Offices—54 William street, New York, N. Y.

The general education board was informally organized Feb. 27, 1902, at the suggestion of John D. Rockefeller's committee on benevolence and was given a charter by congress and formally organized in January, 1903. The plan was designed and adapted to assist Mr. Rockefeller in distributing his gifts to education and to afford a medium through which other men of means might contribute to the same end. The board, a few days after its initial meeting, received from Mr. Rockefeller

COOK COUNTY DELEGATE COMMITTEE OF THE SOCIALIST PARTY.

Headquarters—205 W. Washington-st., third floor.
Chairman—G. T. Franckel, 127 N. Dearborn-st.
Secretary—James P. Larsen, 205 W. Washington-st.
Managing Committee—A. C. Harms, William Behrens, F. A. Kralh, J. N. Davis, H. W. Harris, C. W. Shaw, Vincent Verde.

the sum of \$1,000,000, the use of which was to be confined to the study and promotion of education in the southern states.

June 30, 1905, the board was notified that Mr. Rockefeller would donate \$10,000,000, the principal of which was to be held in perpetuity as a foundation for education, the income to be used for the benefit of institutions of learning in such manner as might be deemed best adapted to promote a comprehensive system of higher education in the United States. In 1907 Mr. Rockefeller gave the board \$32,000,000 and in 1909 added \$10,000,000 more to the fund. The board was authorized to distribute the principal of the fund, and all other endowment funds hitherto contributed by Mr. Rockefeller, whenever in the discretion of the members or their successors it should be deemed advisable to do so.

The charter of the board provides that the object of the corporation shall be "the promotion of education within the United States of America, without distinction of race, sex or creed."

RAILWAY SPEED IN AMERICA.

FAST REGULAR RUNS.

New York Central—Between Chicago and New York, 960 miles, in 18 hours; average speed, including stops, 53.3 miles an hour. (Summer schedule.)
 Pennsylvania—Between Chicago and New York, 908 miles, in 18 hours; average speed, including stops, 50.4 miles an hour. (Summer schedule.)

FAST SPECIAL RUNS—SHORT DISTANCES.

May, 1833—New York Central, 1 mile at rate of 112.5 miles an hour.
 August, 1895—Pennsylvania, 5.1 miles at rate of 102 miles an hour.
 January, 1899—Burlington, 2.1 miles at rate of 108 miles an hour.
 March, 1901—Plant system, 5 miles at rate of 120 miles an hour.
 January, 1903—New York Central, 7.29 miles at rate of 139.35 miles an hour.
 April, 1904—Michigan Central, 3.73 miles at rate of 111.90 miles an hour.
 July, 1904—Philadelphia & Reading, 4.8 miles at rate of 116.20 miles an hour.

FAST SPECIAL RUNS—LONG DISTANCES.

June 13, 1905—Lake Shore road, Chicago to Buffalo, 526 miles, in 453 minutes; average speed, deducting time for stops, 70.9 miles an hour.
 July 9-11, 1905—"Death Valley" Scott's special, Los Angeles, Cal., to Chicago, Ill., 2,415 miles, in 44 hours and 54 minutes; average speed, deducting stops, 51 miles an hour.
 October, 1905—Harriman special, Oakland, Cal., to Jersey City, N. J., 3,389 miles, in 73 hours 13 minutes; average speed, 44.30 miles an hour.
 Oct. 24, 1905—Pennsylvania road, 257 miles from Crestline, O., to Clark Junction, Ind., in 3 hours 27 minutes; average speed, 74.55 miles an hour.
 May, 1906—Harriman special, Oakland, Cal., to

New York, N. Y., in 71 hours and 27 minutes; average speed, 45.30 miles an hour.
 March 27-28, 1909—Frank Vanderlip special on New York Central lines, New York to Chicago, 955 miles, in 15 hours 43 minutes; average, excluding stops, 62.45 miles an hour; some stretches made at rate of 115 miles an hour.
 February, 1911—Charles G. Gates special, Yuma, Ariz., to New York, N. Y., 2,787 miles, in 74 hours 19 minutes; average speed, including all stops, 40.41 miles an hour.

RAILWAY SPEED IN UNITED KINGDOM.

FASTEST REGULAR RUNS.

North Eastern—Darlington to York, 44½ miles, in 43 minutes; average speed, 61.7 miles an hour.
 Caledonian—Forfar to Perth, 32½ miles, in 32 minutes; average speed, 60.9 miles an hour.
 Great Central—Woodford to Leicester, 34 miles, in 34 minutes; average speed, 60 miles an hour.
 Great Western—Paddington to Bristol, 118½ miles, in 4 hours; average speed 59.1 miles an hour.
 Great Northern—Peterborough to King's Cross, 76½ miles, in 1 hour 19 minutes; average speed, 53 miles an hour.
 Midland—Kettering to Bedford, 22½ miles, in 23 minutes; average speed, 58 miles an hour.
 LONGEST NONSTOPPAGE RUNS.
 Great Western—Paddington to Plymouth, 225½ miles, in 4 hours 7 minutes; average speed, 54.3 miles an hour.
 London & North Western—Euston to Rhyl, 209½ miles, in 3 hours 57 minutes; average speed, 52.3 miles an hour.
 Midland—St. Pancras to Shipley, 206½ miles, in 4 hours 5 minutes; average speed, 50.5 miles an hour.
 Great Northern—Wakefield to King's Cross, 175 miles, in 3 hours 5 minutes; average speed, 57 miles an hour.

GENERAL STATISTICS OF AMERICAN RAILWAYS.

Year ended June 30, 1911.

Substantially complete returns were made to the interstate commerce commission for 246,124 miles of line operated, or 10,943 miles more than in 1910. At the close of the fiscal year there were 61,327 locomotives in service, an increase of 2,389 over the previous year. The total number cars of all kinds was 2,359,335, or 69,004 more than in 1910. The total number of persons reported as on the pay rolls of the steam roads on June 30, 1911, was 1,669,809, or an average of 678 per 100 miles of lines.

The par value of the amount of railway capital outstanding was \$1,208,935,081. This amount includes capital held by the railway companies as well as by the public. Of the total capital outstanding, there existed as stock \$8,470,717,611, of which \$7,074,917,559 was common and \$1,395,800,052 was preferred; the remaining part, \$10,738,217,470, representing funded debt.

The number of passengers carried was 997,409,882. The corresponding number for the year ended June 30, 1910, was 971,683,199. The number of passengers carried one mile, or the passenger mileage, was 33,201,694,699. The corresponding return for 1910 was 863,198,370 less.

The number of tons of freight carried was 1,781,637,954, while the corresponding figure for the previous year was 1,849,900,101, the decrease being 68,262,147 tons.

STARVED ROCK STATE PARK.

Under the terms of the act approved June 10, 1911, a tract of 290 acres, including the historic "Starved Rock" in LaSalle county, was purchased by the Illinois park commission Dec. 15, 1911, for

\$146,000, and was named the Starved Rock State park. It is situated on the south side of the Illinois river near Utica.

HISTORICAL.

There are now no pensioners on account of the revolutionary war on the roll. Mrs. Phoebe M. Palmeter, who was pensioned by a special act of congress as the daughter of Jonathan Wooley, who served in a New Hampshire company, died at Brookfield, N. Y., April 25, 1911, aged 90 years. The last widow pensioner of that war was Escher S. Damon of Plymouth Union, Vt., who died Nov. 11, 1906, aged 92 years. The last survivor of the revolution was Daniel F. Bakeman, who died at Freedom, Cattaraugus county, N. Y., April 5, 1869, aged 109 years 6 months and 3 days.

The last surviving pensioned soldier of the war of

1812 was Hiram Cronk of Ava, N. Y., who died May 13, 1905, aged 105 years and 16 days. The names of 238 widows of the war of 1812 remained on the pension roll June 30, 1912.

*To June 30.

THE LAWRENCE TEXTILE STRIKE.

Lawrence, Mass., was the scene of a grave labor strike lasting from Jan. 12 to the third week in March, 1912. The primary cause of the trouble was a law passed by the Massachusetts legislature at the request of labor unions cutting down the working hours of women and children from fifty-six to fifty-four hours a week. This law went into effect Jan. 1. As more than 50 per cent of the employees in the large textile mills of Lawrence were affected, the workers announced a general reduction of wages. The operatives, numbering between 20,000 and 25,000, went on a strike, which was managed chiefly by a secret organization known as the Industrial Workers of the World. The representatives of the operatives demanded an increase of 15 per cent in wages, the abolition of the premium system and double pay for overtime. The American Woolen company, representing the owners, asserted that the close competition between the mills of the country would not allow a reduction in working hours without corresponding reduction in wages. It was claimed by the mill owners that the rate of wages paid exceeded \$9 a week except in the case of minors. On the other hand, it was claimed for the workers that many adult

foreigners were paid wages as low as \$4.80 to \$5.20 a week. Charles P. Neill, United States commissioner of labor, subsequently conducted an investigation and found that the average wage of 21,922 employees was \$8.76 a week in December, 1911, when the mills were running full time. His conclusion was that these earnings were inadequate to maintain a family. The strike ended in a compromise, by which the employees were given an increase in wages of from 5 to 15 per cent.

The strike was attended by much rioting, in which many persons received serious injuries and considerable property was destroyed. State troops were brought in and the city was virtually placed under martial law. Legislative and congressional inquiries were conducted by the state of Massachusetts and the nation, resulting finally in the settlement of the dispute. A novel feature was the sending of several hundred children, ranging in age from 2 to 14 years and selected from the families of the strikers, to New York city, where, Feb. 16, they were exhibited in a parade of Industrial Workers of the World, socialist clubs and members of the Ferrer association.

NONCONTIGUOUS POSSESSIONS OF THE UNITED STATES.

THE PHILIPPINE ISLANDS.

The Philippine islands were ceded to the United States by Spain Dec. 10, 1898. Maj.-Gen. Merritt was the first military governor. He succeeded in August, 1899, by Maj.-Gen. E. S. Otis, who in turn was followed in May, 1900, by Maj.-Gen. Arthur MacArthur. The last named remained in office until July 4, 1901, when the military authority was transferred to Gen. A. R. Chaffee. By order of the president Gen. Chaffee was relieved of his duties as military governor July 4, 1902, and the office terminated. The Philippine commission was at the same time made the superior authority. Sept. 2 the islands were divided into three military departments, to be known as the department of Luzon, the department of Visayas and the department of Mindanao.

July 1, 1902, congress passed an act providing temporarily for the government of the Philippines, providing for the election by popular vote, two years after a census of the islands had been taken and published, of delegates to an assembly, consisting of not more than 100 members nor less than fifty, apportioned among the provinces as nearly as possible according to population. This assembly should, together with the Philippine commission appointed by the president of the United States, exercise the legislative power heretofore exercised by the commission alone, the members of the commission acting as an upper house and the elected assemblymen as a lower house. The members of the assembly were to hold office two years and annual sessions of the legislature not exceeding ninety days in length were to be held.

The first election was held July 30, 1907, when eighty members of the legislature were chosen. The total vote being 97,803. The first session was formally opened Oct. 16 by William H. Taft, United States secretary of war, the first civil governor of the islands after they came into American possession. Sergio Osmena was elected president.

OFFICIALS AND SALARIES—The Philippine commission consisted in October, 1911, of Prof. Dean C. Worcester of Michigan, W. Cameron Forbes of Massachusetts, Newton W. Gilbert of Indiana, Frank A. Branagan of Ohio, Charles B. Elliott of Minnesota, Rafael Palma, Gregorio Araneta, Jose R. Luzuriaga and Juan Sumulong of the Philippines. The officers in 1911 were:

Governor-General—W. Cameron Forbes.
Vice-Governor—Newton W. Gilbert.
Secretary Interior Department—Dean C. Worcester.
Secretary Finance and Justice—Gregorio Araneta.
Secretary Public Instruction—Newton W. Gilbert.
Secretary of Commerce and Police—Charles B. Elliott.

Executive Secretary—Frank W. Carpenter.
Auditor—William H. Phipps.
Treasurer—Jeremiah L. Manning.
Director of Education—Frank R. White.
Director-General of Posts—C. M. Otterman.
Attorney-General—Ignacio Villamor.
Collector of Customs—H. B. McCoy.
Chief Justice Supreme Court—Cayetano S. Arellano.

The governor receives \$20,000 a year (\$15,000 as governor-general) and the other American commissioners receive \$15,500 each (\$10,500 being for their services as heads of departments). The commissioners not heads of departments get \$7,500 each. The salaries of other leading officials are: Executive secretary, \$9,000; assistant executive secretary, \$6,000; auditor, \$6,000; collector of customs, \$6,000; attorney-general, \$6,000; chief justice Supreme court, \$10,000; associate justices, \$10,000; superintendent of public education, \$6,000; director-general of posts, \$6,000; treasurer, \$6,000.

AREA AND POPULATION—The total land and water area of the Philippine archipelago is 832,968 square miles and the population 7,635,436, according to the census of 1903. Of the inhabitants 6,997,686 are civilized. The population of Manila in 1903 was 219,928. The population of the principal islands was: Bohol, 243,148; Cebu, 592,247; Jolo, 44,718; Leyte, 367,641; Luzon, 3,798,507; Mindanao, 50,601; Mindanao, 499,634, of whom 252,936 are uncivilized; Negros, 460,000 (21,217 uncivilized); Panay, 743,646 (14,353 uncivilized); Samar, 222,690.

PRODUCTS AND CLIMATE—The chief products are hemp, sugar, coffee, tobacco leaf, copra, cigars and indigo. Between 600,000 and 700,000 bales of hemp are exported annually.

The climate of the Philippine islands is considered excellent for the tropics. The mean temperature in Manila ranges from 77 in January to 83 in May. June, July, August and September are the rainy months, March, April and May the hot and dry, and October, November, December, January and February the temperate and dry.

TRADE WITH THE UNITED STATES—The shipments of merchandise from the United States to the Philippines in the fiscal year ended June 30, 1912, amounted in value to \$23,703,935, as compared with \$19,677,802 in 1911. The principal articles sent were: Breadstuffs, \$1,575,685; cotton manufactures, \$4,052,852; iron and steel manufactures, \$4,987,289; mineral oils, \$1,475,414. The imports amounted in value to \$23,257,199 as compared with \$17,400,398 in 1911. The principal articles imported were: Unmanufactured manila, \$7,826,078; sugar, \$11,243,693.

IMPORTS AND EXPORTS—The total imports of the Philippine islands in the calendar year 1911 amounted to \$48,024,407; total exports, \$44,587,291.

ISLAND OF PORTO RICO.

Porto Rico, according to the decision of the United States Supreme court in the insular cases May 27, 1901, is a territory appurtenant and belonging to the United States, but not a part of the United States within the revenue clause of the constitution. The island was ceded to the United States by Spain Dec. 10, 1898, and was under military rule until the Foraker law went into effect May 1, 1900. (For the provisions of that law see The Daily News Almanac for 1901.) In accordance with the third section of that act, the legislative assembly of Porto Rico having put into operation a system of local taxation to meet the necessities of government, President McKinley on the 25th of July, 1901, the anniversary of the landing of American troops on the island in 1898—proclaimed free trade between the United States and Porto Rico.

GOVERNMENT—Civil government, under the provisions of the Foraker act, was established May 1, 1900. The upper house consists of eleven members, six of whom are "cabinet" officers appointed by the president; the lower house is made up of thirty-five delegates elected by the people every two years. The governor, who is appointed by the president, has practically the same duties as the governor of any other territory of the United States. The present officers are: Governor, Col. George B. Colton; secretary, M. Drew Carrel; treasurer, Allan H. Richardson; commissioner of education, E. G. Bainter; resident commissioner in the United States, Luis Munoz Rivera.

AREA AND POPULATION—The area of Porto Rico is about 3,600 square miles and the population, as shown by the census of 1910, is 1,118,012. In 1900 the population was 953,242. Of these 941,751 are natives. The whites number 539,426 and the colored 363,317. The colored are subdivided into 304,352 mulattoes, 69,359 negroes and 75 Chinese. The cities having more than 5,000 inhabitants are: San Juan, 48,716; Ponce, 35,005; Mayaguez, 16,563; Arecibo, 9,612; Aguadilla, 6,125; Yauco, 6,589; Caguas, 10,354; Guayama, 8,321.

COMMERCE—For the year ended June 30, 1912, the total domestic imports from Porto Rico to foreign countries were \$6,318,976, and to the United States, \$42,373,401. Foreign imports amounted to \$4,501,928, and imports from the United States amounted to \$37,424,545. Of the exports Spain took \$1,218,115; Cuba, \$3,633,463; France, \$422,549; Germany, \$90,208; Austria-Hungary, \$749,377.

The leading articles of export are coffee, oranges, brown sugar and tobacco.

TERRITORY OF HAWAII.

Annexed to the United States July 7, 1898.

Created a territory June 14, 1900.

Governor—Walter F. Frear.

Secretary—Henry R. Cooper.

POPULATION—According to the federal census of 1910 the total population of the territory is 191,509.

In 1890 it was 89,990. The only large city is Honolulu, which in 1910 had a population of 52,183.

COMMERCE WITH THE UNITED STATES—The total value of the shipments of merchandise from Hawaii to the United States for the twelve months ended June 30, 1912, was \$55,055,816. Brown sugar was the principal item, amounting to 1,172,510,960 pounds, valued at \$48,143,530. The other articles of importance were: Coffee, \$335,641; fruits, \$2,744,042; rice, \$212,146. The total value of the shipments of merchandise from the United States to Hawaii was \$24,418,671. The principal articles were: Iron, steel and machinery, \$4,256,944; leather and manufactures of, \$603,376; oils, \$1,782,540; provisions, \$947,060; tobacco, \$362,466; lumber and manufactures of wood, \$1,833,608; wines and liquors, \$724,833.

TERRITORY OF ALASKA.

Purchased from Russia in March, 1867.

Organized as noncontiguous territory July 27, 1868. Made a civil and judicial district June 6, 1900.

Governor—Walter B. Clark.

AREA AND POPULATION—Area, 577,390 square miles; population in 1910, 64,356.

COMMERCE WITH THE UNITED STATES—The total value of the shipments of domestic merchandise from the mainland of the United States to Alaska in the year ended June 30, 1912, was \$18,809,270. The principal articles were: Breadstuffs, \$823,587; manufactures of cotton, \$1,032,789; eggs, \$370,499; fruits and nuts, \$471,526; manufactures of iron and steel, \$4,427,950; leather manufactures, \$330,159;

meat and dairy products, \$2,105,640; wines and liquors, \$602,418; vegetables, \$528,543; wood and manufactures of, \$850,163. Total value of shipments of domestic merchandise from Alaska to the mainland, \$21,597,712. The main articles were: Copper ore, \$5,040,386; canned salmon, \$13,210,073; furs, \$858,431.

GOLD SHIPMENTS (1911)—From Alaska to the mainland, \$17,490,821; from the mainland to Alaska, \$1,441,999 in coin. The total gold and silver shipments, including foreign, to the United States were \$20,732,597.

PANAMA CANAL ZONE.

Acquired by the United States, Feb. 26, 1904. Area, 474 square miles.

TUTUILA.

Acquired by the United States January, 1960.

Area, including Manua and several other small islands, 79 square miles.

Population, about 4,000.

Pango-Pango harbor acquired by United States in 1872.

Naval Governor—Commander William M. Crose, U. S. N.

GUAM.

Ceded to United States by Spain Dec. 10, 1898.

Area, about 200 square miles.

Population, about 9,000.

First American Governor—Capt. R. P. Leary, U. S. N.

Governor (1912)—Capt. Robert E. Coontz, U. S. N.

CHRONOLOGICAL SURVEY OF PEACE MOVEMENTS.

Compiled by Charles E. Beals, field secretary of the American Peace society.

New York Peace society, organized 1815, first in the world.

Many state societies organized in quick succession. A national organization, the American Peace society, formed in 1823, in which the state societies merged themselves.

Peace movement spread rapidly until the time of the Crimean war, American civil war, etc.

Great peace jubilees held throughout the country in 1871.

International Law association organized, 1873.

Interparliamentary union formed, 1889.

International peace bureau established in Bern, 1891.

First Lake Mohonk arbitration conference, 1895. American Society, of International Law organized, 1906.

Intercollegiate Peace association, 1905.

Association for International Conciliation, 1907.

Peace day, 18th of May (Hague day).

Peace Sunday, the Sunday before Christmas.

American Society for the Judicial Settlement of International Disputes, 1910.

Carnegie endowment for international peace, 1910.

INTERNATIONAL PEACE CONGRESSES.

First series: 1, London, 1843; 2, Brussels, 1848; 3, Paris, 1849; 4, Frankfurt, 1850; 5, London, 1851; 6, Edinburgh, 1853.

Second series: 1, Paris, 1889; 2, London, 1890; 3, Rome, 1891; 4, Bern, 1892; 5, Chicago, 1893; 6, Antwerp, 1894; 7, Budapest, 1896; 8, Hamburg, 1897; 9, Paris, 1900; 10, Glasgow, 1901; 11, Monaco, 1902; 12, Rome, 1903; 13, Boston, 1904; 14, Lucerne, 1905; 15, Milan, 1906; 16, Munich, 1907; 17, London, 1908; 18, Stockholm, 1910; 19, Geneva, 1912.

NATIONAL PEACE CONGRESSES IN THE UNITED STATES.

First: New York in 1907.

Second: Chicago in 1909.

Third: Baltimore in 1911.

INTERGOVERNMENTAL PEACEMAKING.

Joint disarmament by Great Britain and United States along Canadian border, 1817 to present time.

Central American High Court of Nations established.

Pan-American congress, 1889, led to establishment of International Bureau of American Republics, 1890.

Pacific settlement of over 600 international disputes.

The statue of The Christ of the Andes, commemorating joint disarmament of Chile and Argentina, erected, 1904.

Many international bureaus (e. g. the Universal Postal union) already in actual operation, 1909.

HAGUE PEACE CONFERENCES.

First Hague conference, May 18, 1899, of twenty-six nations.

Second Hague conference, June 15, 1907, of forty-four nations.

Third Hague conference, to be held about 1915.

THE HAGUE COURT OF ARBITRATION.

The permanent court of arbitration at The Hague, instituted July 29, 1899, consists of from one to four representatives of the governments participating in The Hague peace conference of 1899 or signing the convention providing for the court. The members of the court from the greater powers are as follows:

France—Leon Bourgeois, A. Decrais, Baron d'Estournelles de Constant, Louis Renault.

Germany—P. F. Steining, Herr Kriege, Herr von Martitz, Herr von Bar.

Great Britain—Sir Edward Fry, Earl de Desart, Sir E. Satow, Sir Charles Fitzpatrick.

Italy—Jean B. P. Guarnaschelli, Guido Fusinato, Victor E. Orlando, Tommaso Tittoni.

Japan—Ichiro Motono, Henry Willard Denison.

United States—Elihu Root, John W. Griggs, George Gray, Oscar S. Straus.

Secretary—Gen. Baron Michaels von Derdunyn.

RECORD OF HAGUE DECISIONS.

1. The Pruss fund case, Mexico vs. United States, Oct. 14, 1902.

2. The Venezuela case, Great Britain, Germany and Italy vs. Venezuela, Feb. 22, 1904.

3. The Japanese house tax case, Great Britain, France and Germany vs. Japan, May 22, 1905.

4. The Muscat ghows case, Great Britain vs. France, Aug. 8, 1905.

5. The Casa Blanca case, France vs. Germany, May 22, 1909.

6. The boundary case, Norway vs. Sweden, Oct. 23, 1909.

7. The North Atlantic fisheries case, United States vs. Great Britain, Sept. 7, 1910.

8. The Orinoco Steamship company claims case, United States vs. Venezuela, Oct. 25, 1910.

9. The Savarkar case, France vs. Great Britain, Feb. 24, 1911.

10. Arrears of indemnity case, Russia vs. Turkey, Feb. 24, 1911.

11. Canevaro claim, France vs. Italy, Feb. 24, 1911.

12. Seizure of French ships, France vs. Italy.

PALACE OF PEACE.

April 24, 1903, Andrew Carnegie gave to the government of the Netherlands the sum of \$1,500,000, to be used in the construction of a "palace of peace" at The Hague. The corner stone of this structure was laid July 30, 1907, at Zorghvliet in the wooded park stretching from The Hague to Scheveningen.

AMERICAN PEACE SOCIETY.

President—Senator Theodore E. Burton, Washington, D. C.

Secretary—Benjamin F. Trueblood, LL. D., 313 Colorado building, Washington, D. C.

Executive Director—Arthur D. Call, Washington, D. C.

Treasurer—George W. White, Washington, D. C.

Field Secretary—Charles E. Beals, 30 North LaSalle street, Chicago, Ill.

CHICAGO PEACE SOCIETY.

President—Leroy A. Goddard.

Vice-President—Edward M. Skinner.

Secretary—Charles E. Beals, 30 N. LaSalle street.

Treasurer—Charles L. Hutchinson.

Auditor—Maurice S. Kuhns.

Executive committee—Leroy A. Goddard, Edward M. Skinner, Charles E. Beals, Charles L. Hutchinson, M. S. Kuhns, Miss Jane Addams, Richard C. Hall, H. N. Higinbotham, Prof. Charles Cheney Hyde, S. W. Lamson, Alexander A. McCormick, Henry C. Morris, Julius Rosenwald, Albert H. Scherzer, Sydney Richmond Taber and Harry A. Wheeler.

AMERICAN SOCIETY FOR THE JUDICIAL SETTLEMENT OF INTERNATIONAL DISPUTES.

Honorary President—William H. Taft.

President—Simeon E. Baldwin, Hartford, Conn.

Vice-President—Joseph H. Choate, New York, N. Y.

Treasurer—Theodore Marburg, Baltimore, Md.

Treasurer—J. G. Schmidlapp, Cincinnati, O.

CARNEGIE ENDOWMENT FOR INTERNATIONAL PEACE.

Dec. 14, 1910, Andrew Carnegie transferred to a board of trustees \$10,000,000 in 5 per cent first mortgage bonds, the revenue of which will be used to "hasten the abolition of international war" and to establish lasting world peace. The formal transfer was made at a meeting in the rooms of the Carnegie Research foundation in Washington, D. C. The trustees, organized by choosing as president United States Senator Elihu Root, permanent representative of the United States at The Hague tribunal. President Taft consented to be honorary president of the foundation. The method by which the annual income of half a million dollars shall be expended is left by Mr. Carnegie entirely to the trustees. The foundation is to be perpetual, and when the establishment of universal peace is attained the donor provides that the revenue shall be devoted to the banishment of the "next most degrading, evil or evils," the suppression of which would "most advance the progress, elevation and happiness of men."

UNITED STATES MORTALITY STATISTICS.

[Bureau of the census report.]

Deaths per 1,000 of population in the registration area of the United States.

	Annual av. 1900 to 1909.	1906.	1907.	1908.	1909.	1910.
The registration area.....	15.7	16.0	14.8	14.4	15.0	16.0
Registration cities.....	16.8	16.9	17.1	15.7	15.4	16.1
Registration states.....	15.5	15.7	14.9	14.7	14.2	14.7
Cities in registration states.....	17.0	17.4	17.5	15.9	15.4	15.9
Rural part of registra- tion states.....	13.8	13.7	14.0	13.3	13.0	13.4
Registration cities in other states.....	16.5	15.6	16.3	15.4	15.6	16.9

The registration area includes twenty-one states, the District of Columbia and forty-three cities in nonregistration cities containing 58.3 per cent of the total estimated population of continental United States. The total number of deaths reported in this area in 1910 was 805,412. The estimated population of the area was 53,843,980 and the death rate was consequently 15.0 per 1,000 of population.

IN REGISTRATION STATES.

Death rates per 1,000 population.

State.	1906.	1907.	1908.	1909.	1910.

The annual birth rate for the whole of the United States, as shown by the natural increase of population between 1890 and 1900, is within 2 per cent either way of 35.1 per 1,000 of mean population.

ATTEMPT TO ASSASSINATE VICTOR EMMANUEL.

Antonio d'Alba, 20 years of age, describing himself as an "individualist anarchist," fired three shots at King Victor Emmanuel of Italy in Rome, Thursday morning, March 14, 1912, as his majesty was on his way to the Pantheon to attend the annual memorial service in honor of his father, King Humbert, who was slain by an assassin at Monza July 29, 1900. All the shots went wide of the mark, but Maj. Lang, commander of the escort, was struck by one of the bullets and seriously wounded. The king, after a brief delay, proceeded to the Pantheon and attended the mass for his father, as though nothing unusual had occurred.

King Victor, who was in an open automobile with Queen Helena, was passing along the Via Lata

when D'Alba, hidden in the crowd, drew a revolver and fired three times. The people standing near turned upon him in fury and threatened to lynch him. When the police arrested him he had been handled so roughly that he was almost unable to speak. At the station he said he was a bricklayer by trade and that he was not connected with any anarchist association. His action, he declared, was intended as a protest against the organization of society. His mother claimed that attacks of pneumonia and meningitis had left him weak minded.

D'Alba was tried Oct. 8 and 9, and was sentenced to thirty years at penal servitude. This was the maximum penalty the court could impose, as the defendant was not of age.

ADMISSION OF ARIZONA.

Enabling act passed by 61st congress and approved by the president June 20, 1910.

Delegates to constitutional convention elected Sept. 12, 1910.

Convention began work Oct. 10; constitution completed and signed Dec. 9, 1910.

Constitution ratified by people at special election Feb. 9, 1911.

Joint resolution adopted by 62d congress Aug. 8 to admit territory as state after amendment of constitution.

Constitution amended and first state election held Dec. 12, 1911.

Proclamation of statehood signed by President Taft Feb. 14, 1912.

George W. P. Hunt, democrat, inaugurated as first governor Feb. 14, 1912.

LENGTH IN FEET OF CERTAIN MILES.

[From circular of hydrographic office, U. S. navy department.]

In the United States the nautical mile or knot or sea mile, used for the measurement of distances in ocean navigation, has a length of 6,080.27 feet; in England the nautical mile, corresponding to the "admiralty knot," is 6,080 feet; in France, Germany and Austria the nautical or sea mile has a

length of 6,076.23 feet. The geographic mile, which is the length of one minute of longitude of the equator of the terrestrial spheroid, is 6,087.15 feet long. The statute mile, used principally in measurements on land, is 5,280 feet.

EVENTS OF THE YEAR 1912.

FIRE LOSSES AND CASUALTIES.

Armourdale, Kas., June 21—Union Pacific grain elevator; loss, \$500,000.
 Atlantic City, N. J., March 29—Young's pier burned; loss, \$250,000.
 Avoca, Pa., March 25—Silk mills burned; loss, \$130,000.
 Benicia, Cal., Oct. 18—Fire in arsenal causes loss of \$3,000,000.
 Boston, Mass., Jan. 16—Revere house burned; loss, \$100,000.
 Chicago, Jan. 2—Swift & Co. warehouse in stockyards burned; loss, \$55,000.
 Chicago, Jan. 5—Transit house burned; one life lost; property loss, \$400,000.
 Chicago, Jan. 17—Old poorhouse at Dunning burned; loss, \$150,000.
 Chicago, Jan. 25—Building at 14-18 West Lake street burned; loss, \$200,000.
 Chicago, Jan. 25—Acme Malting company's plant burned; loss, \$200,000.
 Chicago, Feb. 5—Northern Malting company's plant burned; loss, \$500,000.
 Chicago, Feb. 8—Chicago Railways company warehouse burned; loss, \$300,000.
 Chicago, Feb. 14—Sandberg furniture store burned; loss, \$75,000.
 Chicago, March 7—Easley Machinery company's building burned; loss, \$150,000.
 Chicago, March 9—Lodging house at 651 South Clark street burned; six lives lost.
 Chicago, March 16—Building at 316-318 South Wabash avenue burned; loss, \$100,000.

MARINE DISASTERS.

A-3, British submarine, sunk in collision off Isle of Wight, Feb. 2—Fourteen lives lost.
 Allegheny, steamer, sunk in collision off Cape Henry, Virginia, Feb. 2—No lives lost.
 Carmania, Cunard liner, partly burned at Liverpool, England, dock June 2.
 Cecilia, steamer, sunk in Lake St. Louis, Quebec, Nov. 1—Sixteen lives lost.
 Delhi, British steamer, wrecked off Cape Spartel, Morocco, Dec. 13, 1911—Six lives lost.
 Fagundes Varella, steamer, burned off Brazilian coast, Oct. 7—Eighteen lives lost.
 Flora M. Hill, steamer, sunk in Lake Michigan off Chicago, March 11—No lives lost.
 Foxley, British steamer, wrecked off coast of Chile, March 18—Only three of crew rescued.
 Helvetia, steamship, sunk in collision on Atlantic, July 27—No lives lost.
 Herbert D. Maxwell, schooner, sunk in collision in Chesapeake bay, March 16—Four lives lost.
 Hungarian, steamer, burned on Lower Danube, June 20—Twenty-three lives lost.
 Koombana, British steamer, lost in typhoon off Australian coast, last week in March—130 lives lost.
 Nicaragua, steamer, sunk in Gulf of Mexico, Oct. 16—Six lives lost.
 Nile, excursion steamer, sunk in collision near Cairo, Egypt, April 8—200 lives lost.
 Obnevka, Russian steamer, sunk in Dvina river, Sept. 23—115 lives lost.
 Oceana, British steamer, sunk in collision in British channel, March 16—Fifteen lives lost.
 Royal George, British steamer, wrecked near Quebec, Ont., Nov. 6—No lives lost.
 Russ, Russian steamer, foundered in Black sea, Jan. 11—172 lives lost.
 Ryoha Maru and Mori Maru, Japanese steamers, sunk in collision off Nagasaki, Feb. 13—Forty-six lives lost.
 Sarah Dixon, river steamer, blown up at Kalama, Wash., Jan. 19—Four lives lost.
 Submarine B-2, sunk in collision with steamship Amerika off Dover, Eng., Oct. 4—Fifteen lives lost.
 Texas, steamer, blown up by mine at entrance to Gulf of Smyrna, April 30—Sixty-four of passengers drowned.
 Titanic, steamship, sunk after collision with iceberg in north Atlantic, April 15—Lives lost, 1,517. (See page 151.)
 Vendemiaire, French submarine, sunk in collision at Cherbourg, June 8—Twenty-six lives lost.
 Walke, torpedo boat destroyer, damaged by explosion Oct. 1 off Newport, R. I.—Three men killed.
 Wistow Hall, British steamer, foundered off coast of Aberdeenshire, Scotland, Jan. 18—Fifty-three drowned.

STORMS AND FLOODS.

Alton, Ill., July 14—Four persons killed by cloudburst and flood; property loss, \$250,000.

Arkansas, Feb. 25—Tornado in Lincoln, Jefferson and Arkansas counties causes loss of seven lives and \$100,000 in property.

Bilbao, Spain, Aug. 14-15—Fourteen fishing boats sunk in storm; 119 lives lost.

Buffalo, Wyo., June 11—Cloudburst causes loss of one life and \$300,000 damage.

Bush, Ill., April 21—Eighteen persons killed and forty injured by tornado.

Butler, Okla., April 27—Nine persons killed by tornado; many injured.

Chicago, Feb. 22—City and greater part of west visited by severe storm of wind and snow.

Chicago, Sept. 2—City visited by severe rain and electrical storm; loss, \$100,000.

Cherry Valley, Pa., Sept. 2—Six lives lost in flood.

Colliers, W. Va., Sept. 2—Eighteen lives lost in flood.

Denver, Col., July 14—Cloudburst causes several deaths and destruction of \$1,500,000 worth of property; hundreds made homeless.

Dunbar, Pa., July 24—Much damage done by flood.

England, Aug. 25-27—Heavy rains cause loss of \$35,000,000.

Foss, Okla., April 27—Ten persons killed by tornado; twenty-five injured.

Grand Rapids, Mich., July 13—Forty persons injured by tornado.

Grant Park, Ill., April 21—Fifty persons injured by tornado; property damage heavy.

Illinois and Indiana, April 21—Many towns in Illinois and Indiana struck by severe wind storms; more than fifty lives lost; 200 persons injured; property loss is \$1,000,000.

Jamaica, Nov. 15-20—More than 100 lives lost in heavy storms.

Japan, Sept. 2—Heavy loss of life caused by typhoon; property loss, \$20,000,000.

Kenosha, Wis., July 13—Tornado kills one person, injures many others and causes property loss of \$30,000.

Lebanon, O., Aug. 28—Cloudburst floods town, causing heavy damage.

Mexico, July 14-15—Cloudbursts and floods in state of Guanajuato cause loss of 1,000 lives and \$20,000,000 worth of property.

Mississippi Valley, March and April—See "Flood in the Mississippi Valley."

Missouri, June 15—Twenty-nine persons killed in Bates and Johnson counties.

Morocco, Ind., April 21—Nine persons killed and twelve injured by tornado.

Murphysboro, Ill., April 21—Three persons killed and five injured by tornado.

Nelagony, Okla., June 15—Four persons killed by tornado.

Niles, Mich., Aug. 18—City and vicinity visited by severe rainstorm; loss, \$1,000,000.

Norwich, England, Aug. 27—Flood makes 7,000 persons homeless.

Oklahoma and Texas, April 27—Tornado sweeps over part of Oklahoma and Texas; sixty lives lost.

Onondaga County, New York, Sept. 15—Three persons killed and fifty injured by tornado; property loss, \$250,000.

Pennsylvania, West Virginia and Ohio, Sept. 1-2—Cloudbursts cause forty-three deaths and \$5,000,000 loss.

Philippines, Oct. 16—Typhoon causes loss of 1,000 lives and \$20,000,000 worth of property.

Regina, Saskatchewan, June 30—Part of town destroyed by tornado; fifty lives lost; property loss, \$10,000,000.

Seven Troughs, Nev., July 17—Twenty lives lost in flood caused by cloudburst.

Shelby, Ind., March 30—Loss of \$500,000 caused by flood in and near Shelby and Schneider.

Shreveport, La., Feb. 20—Eight persons killed and forty injured by tornado.

Skiatook, Okla., May 27—Seven persons killed and a score injured by tornado.

Spain, Feb. 7—Whole country swept by storms and floods; loss of life and property heavy.

Texas Panhandle, Feb. 25—Seven ranch employees die in blizzard.

Wausau, Wis., July 24—Large amount of property destroyed by flood in Wisconsin river.

Wen-Chow, China, Aug. 28—Wen-Chow and vicinity in Chekiang province devastated by typhoon and flood; 30,000 to 40,000 lives lost.

Willsville, Ill., April 21—Five persons killed and forty injured by tornado.

Wisconsin, Sept. 1-2—Floods in various parts of state do heavy damage.

RAILROAD WRECKS.

Central Brazilian road, Aug. 1—One hundred persons killed or injured in collision.

Chicago & Alton road, near Bloomington, Ill., June 8—Twenty persons injured.

Chicago & Northwestern line, near Lyndhurst, Wis., Sept. 1—Seven killed and twenty-three hurt in wreck caused by washout.

Chicago, Burlington & Quincy road, at Western Springs, Ill., July 14—Thirteen persons killed and a score hurt in collision.

Chicago Great Western, near Dunkerton, Iowa, March 14—Twenty-five persons injured.

Chicago, Milwaukee & Puget Sound road, near Ketchikan, Wash., Aug. 12—Five persons killed.

Chicago, Milwaukee & St. Paul road, near Oakwood, Wis., March 14—Thirty-four persons injured.

Chicago, St. Paul, Minneapolis & Omaha line, near Camp Douglas, Wis., Sept. 2—Four killed and thirty-six injured in wreck caused by washout.

Cincinnati, Hamilton & Dayton road, Nov. 13—Fifteen persons killed in wreck at Irvington, Ind.

Delaware, Lackawanna & Western road, near Cornington, N. Y., July 4—Forty persons killed, fifty injured, in collision.

Georgia road, near Social Circle, Ga., March 8—Three killed, twenty injured.

Great Northern road, Feb. 13—Eighteen persons hurt by derailment of train at Dayton, N. D.

Illinois Central line, Jan. 22—Four killed and two injured in collision at Kinmundy.

Ligonier Valley road, at Wilpen, Pa., July 5—Nineteen persons killed and twenty-eight injured in collision.

Mexican Central line, at Calera, Mex., Sept. 5—Twelve killed and four injured in collision.

New Orleans & Northwestern road, near Hattiesburg, Miss., May 6—Ten persons killed and forty injured.

New York Central, at Hyde Park, N. Y., March 13—Fourteen persons injured when train plunges in river.

New York, New Haven & Hartford road, near Westport, Conn., Oct. 3—Seven killed, many injured.

Nickel Plate road, near Erie, Pa., Sept. 10—Twenty-eight persons injured.

Pennsylvania line, at Warrior's Ridge, Pa., Feb. 15—Three persons killed and sixty-seven injured.

Pennsylvania line, Feb. 17—Five men killed and eleven injured in collision at Larwill, Ind.

Pennsylvania line, near Middleport, O., Aug. 17—Many persons hurt by wreck of eighteen-hour train.

Pennsylvania line, near Derry, Pa., Sept. 10—Two killed, six hurt.

Pere Marquette road, near Michigan City, Ind., July 16—Twenty persons injured by train leaving track.

Southern railway, near Milledale, Ala., Feb. 27—Two killed, six injured.

Southern railway, at Plainville, Ga., Sept. 25—Three killed, fifteen injured.

PANAMA-PACIFIC EXPOSITION IN SAN FRANCISCO.

The opening of the Panama canal and the 400th anniversary of the discovery of the Pacific ocean will be celebrated by an international exposition in San Francisco, Cal., in 1915. Steps with that end in view were taken in 1910, when a guaranty fund of \$17,500,000 was raised. Of this amount \$5,000,000 is provided by a special tax levied by the legislature upon all the property in California, an additional \$5,000,000 through the issuance of bonds by the city of San Francisco and the balance of \$7,500,000 by popular subscriptions. No government aid was asked.

Charles G. Moore is president of the exposition company.

PANAMA-CALIFORNIA EXPOSITION, SAN DIEGO.

Ground was broken July 19, 1911, for the Panama-California exposition which is to be held in San Diego, Cal., during the entire year 1915. The buildings, which are to be of the Spanish-colonial type of architecture and to be known collectively as the Mission City, will be erected on a site of 1,400 acres in Balboa park. The city has raised by subscription \$2,500,000 for the promotion of the plan. Following are the chief officers: President, U. S. Grant, Jr.; first vice-president, John D. Spreckels; director-general, Col. D. C. Collier; director of publicity, Joseph W. Sefton, Jr.; secretary, Levi G. Moore.

THE DANBURY HATTERS' CASE.

In the United States District court in Hartford, Conn., Oct. 11, 1912, a jury returned a verdict for \$80,000 and costs against the United Hatters of North America in the suit brought by D. E. Loewe & Co., hat manufacturers in Danbury, Conn., charging the defendants with conducting a boycott against hats made by the firm. Under the Sherman antitrust law the damages are trebled, making the award in this instance equivalent to \$340,000.

The suit was originally brought in the Circuit court in 1903, when Loewe & Co. filed a bill alleging that the labor organization had undertaken to unionize the company's hat factory in Danbury, and, failing to do so, had gone on a strike. This act was followed by the declaration of a boycott against the firm's hats wherever they were found, and as it controlled an extensive trade throughout many states the boycott, in the language of the bill, constituted a combination to limit and restrain

interstate commerce. On a demurrer by the hatters' union, the Circuit court decided that the Sherman law was inapplicable and dismissed the case. The Court of Appeals, however, certified the suit to the United States Supreme court, and that tribunal, Feb. 3, 1908, reversed the decision of the Circuit court, deciding, without a dissenting voice, that boycotting, where it affected interstate commerce, was in violation of the Sherman antitrust act.

The case then went back to the Circuit court, and after a trial lasting eleven weeks resulted Feb. 4, 1910, in a verdict for \$74,000 damages for the plaintiff. An appeal was taken and the case was sent to the United States District court with the result stated above. The plaintiffs were backed by the Antiboycott society and the defendants by the American Federation of Labor.

DEATH OF VICE-PRESIDENT JAMES S. SHERMAN.

James Schoolcraft Sherman, vice-president of the United States, died at his home in Utica, N. Y., at 9:42 p. m. Oct. 30, 1912. He had been ill from Bright's disease for several months and had been confined to his house most of the time after Aug. 21, when he was officially notified of his renomination at the republican convention in Chicago. According to a statement made by Dr. Fayette H. Peck, his attending physician, Mr. Sherman died in a uræmic coma as a result of Bright's disease, heart disease and arteriosclerosis. He was born near Utica, N. Y., Oct. 24, 1855, and after his admission to the bar in 1880 became active in republican politics. In 1887 he was elected to the 50th congress and was afterward re-elected to serve in the 51st,

54th, 55th, 56th, 57th, 58th, 59th and 60th congresses. In the house he attained prominence as a debater and also as a parliamentarian. He was nominated for the vice-presidency by the republican convention in 1908 and elected.

Mr. Sherman was the seventh vice-president of the United States to die in office, the list being as follows:

April 20, 1812—George Clinton.
Nov. 23, 1814—Elbridge Gerry.
April 18, 1853—William R. King.
Nov. 22, 1875—Henry Wilson.
Nov. 25, 1885—Thomas A. Hendricks.
Nov. 2, 1899—Garret A. Hobart.
Oct. 30, 1912—James S. Sherman.

WAR BETWEEN THE BALKAN STATES AND TURKEY.

The long expected war between the Balkan nations and Turkey finally broke out in the fall of 1912. Massacres of Bulgarians at Istip and Kotschana were the immediate cause of the hostilities, but the enmity between the smaller countries in southeastern Europe and the Ottomans had existed for generations. It had been especially bitter since the treaty of San Stefano was modified by the powers at the congress of Berlin in 1879 so as to return to Turkish control Macedonia and other territory which had been included in the principality of Bulgaria by the San Stefano agreement. The motives of Bulgaria in making war on Turkey were forcibly stated in the following proclamation issued by Czar Ferdinand Oct. 18, 1912:

"The moment has come when the Bulgarian race is called upon to renounce to have recourse to arms great problems. Beyond

when the Bulgarian race the benefits of peace and for the solution of the Rilo and Rhodope mountains our brothers in blood and religion have not been able until this day, thirty-five years after our liberation, to obtain conditions of life that are bearable. The tears of the Balkan Slavs and the groaning of millions of Christians could not but stir our hearts and the hearts of our coreligionists. Our love of peace is exhausted. To succor the Christian population of Turkish lands there remains to us

From L'Illustration.

RADKO DIMITRIEFF. key there remains to us no other means than to turn to arms.

"After the massacres of Istip and Kotschana, instead of according justice and satisfaction, Turkey ordered the mobilization of her military forces. Our long patience thus has been put to a rude test. The humanitarian sentiments of Christians, the sacred duty of succoring their brothers when menaced by extermination and the honor and dignity of Bulgaria have impelled upon us the imperative duty of calling to arms Bulgaria's sons.

"Our work is a just, a great and a sacred one. With faith in the protection and support of the Almighty, I bring to the cognizance of the Bulgarian nation that this is a war for human rights. I order the brave Bulgarian army to march on to Turkish territory. Forward! May God be with you!"

The sentiments animating the Bulgarians were shared by the people of Serbia, Greece and Montenegro, and the result

Underwood & Underwood.

GEN. SAVOFF.

was the formation of an alliance between the four countries to act together against Turkey and to deal collectively with the great powers. When the latter sent a circular note to the Balkan nations forming the armed coalition asking them to keep quiet and preserve the status quo the reply was: "The Balkan states have allied themselves, not for the purpose of territorial aggrandizement but for the purpose of introducing peace, order and civilization in European Turkey, thus delivering the subject Christian races under the Turk from a shameful yoke."

It was generally supposed by military critics at the opening of hostilities that Turkey would have but little difficulty in overwhelming the four little states, even if they were in alliance. The Ottoman army was thought to be much superior as a fighting machine as well as numerically and that Turkish financial and other resources were far greater than those possessed by the allies. The war had not progressed two weeks before it was conclusively shown that the experts were mistaken. The Turks were driven from one position after another

and were defeated in battle after battle, not only by the Bulgarians, who admittedly had a good army, but by the Montenegrins, the Greeks and the Servians, and in an almost incredibly short time the sultan's forces were fighting desperately to prevent Constantinople itself from falling into the enemy's hands. It was claimed on behalf of the Turks that they were taken by surprise, not expecting war so near the opening of winter; that their forces were widely scattered and badly clothed and fed, and, finally, that they relied too much on the great powers for assistance in time of need. Whatever may have been the true reason, the Ottoman armies in the field made a poor showing and were disastrously beaten.

Estimates of the military strength of the Balkan nations and Turkey at the beginning of the war varied, but the following from a well informed Bulgarian source may be accepted as approximately correct: Turkey, 560,000 men (including 11,000 cavalry), 960 field guns and 328 maxims guns; Bulgaria, 350,000 men and 940 guns; Serbia, 180,000 men and 660 guns; Greece, 146,000 men and 508 guns; Montenegro, 40,000 men and 104 guns; total, 716,000 men and 2,212 guns. The leading officers on the Turkish side were Nazim Pasha and Mahmud Mukhtar Pasha. Those doing the most brilliant work for the Bulgarians were Gen. Savoff, commander in chief, and Gen. Dimitrieff. Among the Montenegrins Crown Prince Danilo and Gen. Vokutch were prominent, while of the Servian officers Gen. Stephanovitch and Gen. Jackovitch were most frequently mentioned. Crown Prince Constantine and Gen. Danglis were conspicuous in the campaign conducted by the Greeks.

American Press Association.

NAZIM PASHA.

It was evident from the start that the allies were acting in accordance with a general plan agreed upon before the hostilities began. The forces of each nation had a certain line of work to do and the work was well done by all concerned. The reverses suffered by the allies in the early part of the war were few and of little importance; the victories announced by the Turks had no influence upon the general situation. Broadly speaking, the scheme of the coalition strategists was to attack the Turkish lines along the whole frontier simultaneously and to push forward in the general direction of Constantinople.

The Greeks were to advance north and east in the direction of Saloniki; the Montenegrins and Servians southeast in the direction of Monastir, and the Bulgarians southeast toward Adrianople. The heaviest part of the burden fell upon the Bulgarians, as they were nearest the Turkish capital and had to face the strongest Turkish armies. By adopting flanking tactics and resorting to clever strategy they were enabled to defeat Nazim Pasha's forces in decisive battles at Kirk Killesseh, Bunarhissar and Lule Burgas and to reach the very threshold of Constantinople.

Following is a resume of the leading events of the war in chronological order:

Aug. 2—Turks massacre 140 Bulgarians at Kotschana, fifty miles southwest of Uskup.
Aug. 11—Bulgarian press and people clamor for war against Turkey on account of Kotschana massacre.
Aug. 17—Fighting between Christian insurgents and Turkish troops in Albania reported.
Aug. 24—Many Servians in Senitzia killed by Turks; Servian cabinet discusses situation.
Sept. 30—Mobilization of troops ordered by Serbia,

American Press Association.

MAHMUD MUKHTAR PASHA.

MAP SHOWING SCENE OF WAR BETWEEN BALKAN STATES AND TURKEY IN 1912.

Bulgaria, Montenegro and Greece; existence of a military understanding between Bulgaria, Serbia, Greece and Montenegro directed against Turkey becomes apparent.

Oct. 1—Turkish cabinet orders mobilization of army; transportation of ammunition consigned to Serbia stopped; Servian troops proceeding to Turkish frontier.

Oct. 3—Nazim Pasha appointed supreme commander of Turkish forces; collective note prepared by Balkan states demands that Turkey grant autonomy for Albania, Macedonia and old Serbia.

Oct. 8—Austria and Russia, as mandatories of powers, present collective note to allies declaring that the powers would energetically reprove all measures tending to bring about a rupture of the peace; that the powers would take in hand the realization of the reforms in the administration of Turkey in Europe, it being understood that these reforms would not infringe on the territorial integrity of Turkey, and that should war nevertheless break out the powers would not permit at the end of the conflict any modification of the status quo in European Turkey.

Oct. 8—Montenegrin charge d'affaires, M. Plamenatz, hands note from his government to Turkish authorities announcing the cessation of all relations with Turkey; note accepted as declaration of war; Montenegrin troops cross the frontier.

Oct. 9—Montenegrin army begins war by attacking Turkish position opposite Podgoritz; Prince Peter fires first shot; Turks retire.

Oct. 10—Montenegrins capture Detchik mountain after long battle; total casualties placed at 1,000.

Oct. 14—Turkish government refuses to allow powers to intervene in the question of Macedonian reforms; Greece demands release within twenty-four hours of Greek vessels seized by Turkey.

Oct. 15—Prince Peter of Montenegro announces another victory over Turks; way toward Scutari cleared; Berana surrendered by Turks.

Oct. 17—Hostilities begun by Turks on Bulgarian and Servian frontiers; Serbia formally declares

war against Turkey and the latter officially declares war against Serbia and Bulgaria.

Oct. 18—Czar Ferdinand of Bulgaria issues proclamation declaring war against Turkey; Bulgarians occupy Kourtkala; Greece declares war against Turkey.

Oct. 19—Montenegrins capture town of Plava; Greeks under Crown Prince Constantine drive Turks from Ellassona; Servians capture Rulya heights; Bulgarian forces advance toward Adrianople, driving Turks before them.

Oct. 21—Battle between Bulgarians and Turks in progress at Kirk Kilesseh.

Oct. 22—Greeks take Lemnos island; Servians enter Pristina; battle at Kirk Kilesseh continues; Servians occupy parts of Novipazar and the Kumanova district.

Oct. 24—Turks routed by Bulgarians at Kirk Kilesseh, many being taken prisoners; Gen. Dimitrieff leads the main attack; Bulgarian casualties placed at 3,000; several forts taken at point of bayonet.

Oct. 26—Servian army takes Uskup; Bulgarian lines around Adrianople drawn closer.

Oct. 28—Bulgarian troops occupy Bunarhissar; Servians take many guns from Turks near Uskup; Montenegrins take town of Plevlje.

Oct. 29—Kiamil Pasha becomes grand vizier of Turkey; great battle in progress between Bulgarians and Turks at Lule Burgas.

Oct. 31—Turkish battle ship Feth-i-Bulend sunk in Gulf of Saloniki by Greek torpedo boat.

Oct. 31—Battle at Lule Burgas ends in complete triumph of Bulgarians; Turkish army of 250,000 men under Nazim Pasha routed by Gen. Saffoff's forces numbering 150,000; losses heavy on both sides; Greek flag raised in islands of Thasos and Sobros.

Nov. 1-2—Bulgarians drive the Turks toward the outer defenses of Constantinople at Tchatalja.

Nov. 3—Turkey applies to the powers for intervention.

Nov. 6—Turks defeated in severe engagement with Bulgarians between Seral and Tcholu.

Nov. 8—Greek army under Crown Prince Constantine captures Saloniki; Sheik-ul-Islam proclaims a holy war.

Nov. 13—Massacre of 6,000 women and children by Turks near Janina reported.

Nov. 14—Turkey's request for mediation presented to allies; reply delayed; relations between Serbia and Austria becoming strained over occupation by former of Alessio and the port of San Giovanni di Medua.

Nov. 15—Turkish request for an armistice discussed by Bulgarian council of ministers; allies said to have submitted terms of peace to the Turks based on the surrender of Adrianople, Seutari, Monastir and Janina; the surrender of conquered territory, the payment of a war indemnity, the internationalization of Constantinople, the opening of the Dardanelles and the establishment of Saloniki as a free port.

Nov. 18—Turkish fortress of Monastir with 50,000 men and three generals surrendered to the Serbians after a battle lasting two days.

Nov. 19—Bulgaria's conditions for the conclusion of peace transmitted to Constantinople; plenipotentiaries appointed to arrange for an armistice.

Nov. 20—Bulgarian troops operating before Tchatalja fortifications ordered to cease fighting; cholera raging in Turkish trenches; mosque of St. Sophia turned into a great hospital.

Nov. 21—Terms offered by allies for arrangement of an armistice declared unacceptable by Turkey; Nazim Pasha ordered to continue military operations.

Dec. 3—Protocol arranging an armistice for the consideration of peace terms signed by delegates representing Turkey, Bulgaria, Montenegro and Serbia; Greece refused to sign. Peace plenipotentiaries representing all combatants, including Greece, to meet in London Dec. 13.

AMENDMENTS TO OHIO'S CONSTITUTION.

Forty amendments to the state constitution of Ohio were submitted to the voters of that commonwealth for approval or rejection at a special election held Sept. 3, 1912. Eight of the proposed changes were defeated. These included woman suffrage, bond issues for good roads, prohibition of outdoor advertising, regulation of labor injunctions, abolition of the death penalty, use of voting machines, appointment of women to certain offices and the elimination of the word "white" from the constitution. Among the more important amendments which were approved were the following:

Permitting laws to be passed authorizing the rendering of verdicts in civil cases by the concurrence of not less than three-fourths of a jury.

Enabling the assembly to pass bills over the referendum to propose amendments to the constitution, to propose laws to the general assembly for enactment and also to enable the electors to require that any law passed by the general assembly be submitted to a popular vote.

Enabling the assembly to pass bills over the governor's veto by a three-fifths vote of all the members elected to each house. Measures which by the constitution require a two-thirds vote on their original passage are excepted.

Permitting the passage of laws to improve the conditions of employment of men, women and children.

Permitting legislation to establish a fund from compulsory contributions by the industries of the state for the compensation of workmen in case of accidents or occupational diseases and of their dependent relatives in case of death.

Making mandatory the passage of laws for the removal from office of public officers for misconduct involving moral turpitude. It is an addition to the usual impeachment proceedings.

Abolishing prison contract labor.

Simplifying the judicial system so as to shorten proceedings and lessen the expense of litigation.

Making mandatory the passage of laws placing, as far as practicable, all appointive officers in the service of the state and the counties and cities under civil service regulation.

Giving cities and villages the right to frame their own charters, own and regulate their own public utilities and to adopt by ordinance such local police, sanitary and other similar regulations, not in conflict with general laws, as they may deem necessary. To the general assembly is reserved the authority to limit the power of cities to levy taxes and incur debts for local purposes, to control elections, and, by general laws, to make such provisions for police and sanitary regulations and other similar matters as may be for the general welfare of the state.

IRRIGATED AREAS IN THE UNITED STATES.

Region.	Farms.	Acres.	Cost.
Arid states and territories	152,000	9,700,000	\$125,000,000

UNITED STATES ARSENALS.

The largest of the United States arsenals are located at Rock Island, Ill. and Springfield, Mass. Others are at Pittsburg, Pa.; Augusta, Ga.; Benicia, Cal.; Columbia, Tenn.; Fort Monroe, Va.; Philadelphia, Pa.; Indianapolis, Ind.; Governor's island, N. Y.; Jefferson barracks, Mo.; Sandy

Hook, N. J.; San Antonio, Tex.; Dover, N. J.; Watertown, Mass., and Watervliet, N. Y. Some of the above are merely powder depots, the principal manufacturing plants being at Rock Island, Springfield and Watervliet. The navy yards are also arsenals.

THE REVOLUTION IN CHINA.

The overthrow of the Manchu dynasty in China was completed in 1912 and a republic established on a more or less firm basis. The revolution, which began in September, 1911, was practically at an end by the middle of December of that year. The terms of peace were arranged by representatives of Yuan Shih-kai, then premier of the empire, and of the revolutionary leaders. Those taking a leading part in the negotiations, which took place in Shanghai, included Tang Shao-yi, a friend of Yuan Shih-kai; Wu Ting-fang, former minister to United States and a member of the revolutionary cabinet, and five delegates representing each side. The revolutionists from the first demanded the abolition of the Manchu dynasty and the establishment of a republic and, while there was considerable opposition, not only on the part of the dowager empress and the imperial princes, but also on the part of Yuan Shih-kai, whose position was one of great difficulty, these demands were finally complied with. Dr. Sun Yat Sen was elected president by the revolutionists in Nanking Dec. 29. Only the south of China was then included in the republic, and his authority was nominal rather than actual, but by exercising good judgment and tact he succeeded in making the new state a reality.

It was not until Feb. 4, 1912, that the empress dowager finally made up her mind to accept the situation. She then issued an edict instructing Yuan Shih-kai to establish a republic in co-operation with the southern republicans. Feb. 12 the throne was formally abdicated in favor of a representative form of government in a decree of which the following is a translation:

"We, the emperor of China, have respectfully received to-day the following edict from the hands of her majesty, the empress dowager:

"In consequence of the uprising of the republican army, to which the provinces of China have responded, the empire was seething like a boiling caldron, and the people were plunged into misery. Yuan Shih-kai was therefore commanded to dispatch commissioners to confer with the republicans with a view to the calling of a national assembly to decide on the future form of government. Months have elapsed and no settlement is now evident. The majority of the people are in favor of a republic. From the preferences of the people's hearts the will of heaven is discernible. How could we oppose the desires of millions for the glory of one family?

"Therefore we, the dowager empress and the emperor, hereby vest the sovereignty of the Chinese empire in the people. Let Yuan Shih-kai organize to the full the powers of the provisional republican government and confer with the republicans as to the methods of union assuring peace in the empire and forming a great republic with the union of Manchus, Chinese, Mongols, Mohammedans and Tibetans. We, the empress dowager and the emperor, will thus be enabled to live in retirement, free from responsibilities and enjoying without interruption the nation's courteous treatment."

The republicans in return for the abdication made pledges that the emperor should retain his title and be respected as a foreign monarch; that he should receive an annual grant of 4,000,000 taels until the currency is reformed, after which he shall receive \$4,000,000 Mexican; that he should have his temporary residence in the Forbidden City and later in the summer palace outside of Peking and that his property should be protected by the republic. Pledges were also made that the imperial kinsmen having hereditary titles should retain them; that the nobility should have the rights of ordinary citizens and that their private property should be respected.

The terms of the abdication were accepted by the national assembly in Nanking and Feb. 15 Yuan Shih-kai was elected provisional president of the republic. Dr. Sun Yat Sen resigning the position on the same day. Yuan was officially notified of his election Feb. 27 and he was formally inaugurated March 10, in Peking, as he gave satisfactory reasons for not going to Nanking as requested. The presidential seal was handed over to his representative, Premier Tang Shao-yi, March 29, and

on April 1 the public ceremony connected with Dr. Sun Yat Sen's retirement from office took place in the hall of the national assembly in Nanking.

Serious disturbances in various parts of China marked the first weeks of President Yuan Shih-kai's administration. These were caused chiefly by mutinous soldiers, revolutionary as well as imperial, who were disaffected because they had not been paid. In Peking the president's own soldiers led in the rioting and pillage, which lasted for several days, causing the loss of 5,000 lives and \$15,000,000 in property. Similar scenes, though on a smaller scale, were enacted in Tientsin, Canton and elsewhere. Foreigners as a rule were not molested.

Lack of sufficient funds with which to carry on the administration, inexperience on the part of cabinet officers and legislators, plotting by political parties and difficulties with Japan and Russia over Manchuria and Mongolia proved exceedingly embarrassing to Yuan Shih-kai in the course of the year, but he managed not only to keep the republic from going to pieces but to strengthen it to some extent. The course of events from December, 1911, to December, 1912, may be gathered from the following chronological summary:

Dec. 14, 1911—Revolutionary leaders in conference decide to establish republic.

Dec. 15—Peace conference between representatives of the government and the revolutionists begins in Shanghai.

Dec. 19—Powers unite in urging the conclusion of peace in China.

Dec. 20—Tang Shao-yi, representing Yuan Shih-kai and government, agrees to formation of republic.

Dec. 21—Yuan Shih-kai refuses to accept republic.

Dec. 22—Yuan Shih-kai offers limited monarchy.

Dec. 24—American warships arrive at Shanghai.

Dec. 26—Yuan Shih-kai informed that revolutionists demand abdication of emperor and the establishment of a republic with a pensioned imperial family.

Dec. 27—Imperial family willing to refer question of abdication to a representative assembly legally elected from all parts of China.

Dec. 29—Dr. Sun Yat Sen elected president of the republic of China by revolutionists.

Jan. 2, 1912—Imperial family gives Yuan Shih-kai \$2,500,000 with which to fight the rebels.

Jan. 4—Government orders war resumed; W. J. Calhoun, American minister, asks Washington for troops to protect railway to Peking; battles reported from Lanchow and Hankow.

Jan. 6—Troops of foreign powers guard railroad between Peking and sea.

Jan. 16—Bomb thrown at Yuan Shih-kai; one soldier and one civilian killed.

Jan. 18—Three of Yuan Shih-kai's assailants strangled.

Jan. 29—Armistice ended, but war is not renewed.

Feb. 4—Empress dowager orders Yuan Shih-kai to set up republic in co-operation with southern republicans.

Feb. 12—Emperor abdicates and Manchu dynasty comes to an end; establishment of republic for the whole of China assured.

Feb. 14—National assembly caucus in Nanking decides to elect Yuan Shih-kai president of the republic.

Feb. 15—Yuan Shih-kai elected provisional president of the republic.

Feb. 27—New president formally notified of his election; accepts office.

Feb. 28—Republican troops in revolt at Wuchang; dissatisfaction caused by failure to receive their pay.

Feb. 29—Yuan Shih-kai's soldiers begin shooting and looting in Peking.

March 1—Great military mutiny in Peking continues; trouble also occurs in Tientsin.

March 2—Paoingfu at mercy of mutineers; rioting still in progress in Peking.

March 3—Allied troops restore order in Tientsin and patrol legation quarter in Peking.

March 4-6—Disturbances by mutinous soldiers gradually decreasing in violence; government regains control of situation.

March 10—Yuan Shih-kai formally inaugurated as provisional president.
 March 29—Presidential seal turned over to Yuan Shih-kai.
 April 1—Public ceremony in connection with Dr. Sun Yat Sen's retirement from the presidency takes place in hall of national assembly in Nanking; Dr. Sun bids assembly a dignified farewell.
 April 4—Belgian loan of \$10,000,000 paid to authorities.
 April 29—China's first republican legislative assembly, called the advisory council, opens in Peking.
 July 19—Yuan Shih-kai has trouble with the assembly over cabinet appointments.
 July 26—Assembly approves President Yuan's cabinet selections.
 Aug. 1—Dr. George E. Morrison appointed political adviser to the president.

Aug. 3—Mongolians causing authorities trouble.
 Aug. 16—Gen. Chang Chen Wu and his aid, Feng Wei, shot by order of President Yuan Shih-kai as plotters.
 Aug. 20—President bitterly criticised for executions; impeachment advocated.
 Aug. 24—Ex-President Sun Yat Sen has triumphal entry in Peking; calls on Yuan Shih-kai.
 Sept. 3—Big battle at Tonanfu; Mongolians defeated.
 Sept. 10—Executive order issued authorizing Dr. Sun Yat Sen to plan big railway system for China.
 Sept. 21—China refuses loan offered by the six-power banking group.
 Sept. 23—Chao Ping Chuen appointed premier.
 Oct. 10—Independence day celebrated throughout China for the first time.
 Nov. 15—War against Russia for making treaty with outer Mongolia demanded.

DISTURBANCES IN MEXICO.

Francisco I. Madero's first year as president of Mexico was full of trouble. At no time was the country entirely free from disturbances of one kind or another. Among the leaders of the disaffected elements were Gen. Pascual Orozco, Emilio Vasquez Gomez and Gen. Geronimo Trevino in the north and Emiliano Zapata in the south. Gen. Felix Diaz, nephew of the deposed president, Porfirio Diaz, started a revolution on his own account in Vera Cruz, but it was of short duration. The insurgents in the north were generally known as Vasquistas and those in the south as Zapatistas. Intervention was threatened by the United States, but was not found necessary. Following is a brief chronology of the more important occurrences of the year:
 Feb. 23—Manifesto circulated proclaiming Gen. Geronimo Trevino president ad interim of Mexico.
 March 2—President Taft issues proclamation warning American citizens to refrain from entering Mexico and from taking any part in the disturbances there.
 March 6—Gen. Pascual Orozco proclaimed generalissimo of rebel forces in Chihuahua.
 March 28—Arms shipped for defense of American residents of City of Mexico.
 April 6—Forty rebels killed near Necaxa, state of Puebla.
 April 9—Rebel forces at Jojutlo, Morelos, routed; 500 reported killed.
 April 14—Warning issued by the United States to the Mexican government and to Gen. Pascual Orozco that American life and property within the republic of Mexico must be adequately protected.
 April 17—Mexican minister of foreign affairs makes an official statement denying the right of the

American government to make the admonition contained in the note sent from Washington.
 April 26—Rebels numbering 2,000 completely routed by garrison at Tepic; 220 killed and many wounded.
 April 27—Many Americans of the west coast of Mexico reported to be in peril.
 May 4—Emilio Vasquez Gomez formally proclaimed provisional president of Mexico with capital at Juarez.
 May 5—Six hundred rebels killed near Cuatro Ciénegas by federals under Col. Pablo Gonzales.
 May 12—Rebels under Gen. Orozco routed by Gen. Huerta's federal forces at Concejos.
 July 3—Important positions occupied by rebels under Orozco captured at Bachinuba canyon.
 July 20—Train attacked by Zapatistas near Tres Marias on the Cuernavaca line and eighty-four passengers and soldiers killed.
 Aug. 12—Two hundred persons massacred by Zapatistas in Ixtapa; fifty-six soldiers and passengers killed on a train at Tiemuen.
 Sept. 6—Ultimatum served on Mexico by President Taft that if Americans and their interests are not protected by the Mexican government the United States will intervene.
 Oct. 16—Gen. Felix Diaz begins new revolution and with 500 men takes possession of the city of Vera Cruz.
 Oct. 23—The city of Vera Cruz and Gen. Diaz captured by federal troops without a fight.
 Oct. 24—Two of Gen. Diaz' officers tried by court martial and shot.
 Oct. 27—Gen. Diaz condemned by court martial to be shot; sentence suspended.
 Nov. 12—Gen. Diaz reported to have made his escape to the United States.

DEATHS OF CENTENARIANS IN THE UNITED STATES.

Nov. 1, 1911, to Nov. 1, 1912.

Barker, Mrs. Naomi H., 101, 1040 Elmwood avenue, Evanston, Ill., Sept. 3.
 Boyd, Samuel, 109, Jasper county, Indiana, May 16.
 Breen, Mrs. Catherine, 100, Joliet, Ill., Aug. 16.
 Duffy, Daniel A., 100, in Chicago, Sept. 21.
 Dunlap, Mrs. Dicy, 100, Jacksonville, Ill., Jan. 25.
 Farrell, Mrs. Winifred, 104, Newark, N. J., May 9.
 Gilliland, John, 101, Worden, Kas., March 4.
 Ingram, Harrison, 109, Hoopeson, Ill., Aug. 10.
 Isaacs, Abraham, 106, San Francisco, Cal., Nov. 2, 1911.
 Lusk, Mrs. Catherine, 100, Chariton, Iowa, May 17.
 Manitow, Joe, 120, Cedar, Mich., Oct. 24.

Marski, Joseph, 110, Chicago, Oct. 18.
 Martin, Mrs. Rachel, 102, Charleston, Ill., March 11.
 Morg, John, 124, Columbia, Ky., Feb. 22.
 Palmer, Mrs. S., 100, Grand Detour, Ill., Oct. 10.
 Pennington, Ann W., 100, Brookline, Mass., Jan. 20.
 Rockwell, Mrs. Lydia A., 106, in Boston, Mass., Aug. 9.
 Rosenheim, Mrs. Rebecca, 102, 3719 West 51st street.
 Sabatis, Isaac, 111, Long Lake, Ill., Feb. 1.
 Salvay, Mrs. Mary, 101, 1048 Orleans street; arrived 1847; died Jan. 5.
 Slate, Anna, 102, St. Paul, Minn., Feb. 12.

AVERAGE DEPTH OF OCEANS AND SEAS.

	Feet.		Feet.
Antarctic	10,800	Pacific	12,960
Arctic	5,160	Baltic	122
Atlantic	12,200	Bering	900
Indian	11,136	Caribbean	7,614

The mean depth of all the oceans and seas is estimated to be from 2 to 2½ miles. The greatest depth reported is 31,614 feet, or nearly 6 miles,

	Feet.		Feet.
China	402	Mexico, Gulf of....	4,632
Japan	7,520	North	300
Mediterranean	4,560	Okhotsk	5,040

near the island of Guam in the Pacific. The greatest known depth in the Atlantic is 27,366 feet, off the coast of Porto Rico.

THE LOS ANGELES TIMES DYNAMITE CASE.

TRIAL OF CLARENCE S. DARROW.

Clarence S. Darrow, a Chicago attorney, was indicted in Los Angeles, Cal., Jan. 29, 1912, for the alleged bribery of Robert F. Bain, a juror, and George N. Lockwood, a prospective juror in the Los Angeles Times dynamite case, for which James E. and John J. McNamara were sent to the penitentiary Dec. 5, 1911. The indictments against Mr. Darrow rested chiefly on the confession of Bert H. Franklin, chief detective for the McNamaras. The attorney was tried on the charge involving the Bain case. The trial began May 15 and ended Aug. 17, when the jury returned a verdict of not guilty.

LABOR OFFICIALS ON TRIAL.

Forty-six men, most of them union labor officials and agents, were placed on trial before Federal

Judge A. B. Anderson in Indianapolis, Ind., Oct. 1, 1912, on the charge of complicity in more than 100 dynamite explosions, including that which destroyed the Los Angeles Times building. The men were indicted in February and arraigned in March. When the trial opened the cases against J. W. Irwin of Peoria, Ill., Andrew J. Kavanaugh, Illinois, and Patrick H. Ryan, Chicago, were dismissed. Ortie E. McManigal pleaded guilty, Oct. 7. Edward S. Clark of Cincinnati, business agent and president of local union 44 of the International Association of Bridge and Structural Iron Workers, also pleaded guilty. The government elected to try the defendants on five counts charging conspiracy and on fifty counts charging direct violation of the law against carrying explosives.

DECISION AGAINST HARRIMAN RAILROAD COMBINATION.

Jan. 25, 1908, it was announced by the attorney-general of the United States that a bill in equity would be filed to set aside control by the Union Pacific Railroad company and its subsidiary corporations of the Southern Pacific line and the San Pedro, Los Angeles & Salt Lake line; also to have declared illegal the ownership by the Union Pacific or Oregon Short Line of stock in the Santa Fe, Great Northern and Northern Pacific lines, all of which are competitors of the Union Pacific. The attorney-general, in a formal statement issued on the date named, declared:

"From evidence and independent investigation, the department has concluded the stock holdings of the Union Pacific and subsidiary company in the other corporations mentioned are in violation of the Sherman act. The department regards the suit as of first importance, as it is sought by means thereof to break up a substantial monopoly of the transportation business between the Missouri river on the east and the Pacific coast south of Portland on the west.

"Aside from the railway companies named, defendants in the suit are the Farmers' Loan and Trust company of New York, depository of all stock of the San Pedro road, under a contract by which it is required to give proxies to such persons as may be named by Mr. Harriman and Mr. Clark for a period of years. The following individual defendants are alleged to have conceived and carried out the conspiracy complained of: E. H. Harriman, Jacob H. Schiff, Otto H. Kahn, James Stillman, Henry C. Frick, Henry H. Rogers and William A. Clark."

Feb. 1, 1908, United States Attorney Hiram E. Booth, acting for the attorney-general, filed in the United States Circuit court for the district of Utah, sitting at Salt Lake City, a petition or bill in equity in which the following railroad companies and individuals were made defendants: Union Pacific, Oregon Short Line, Oregon Railroad & Navigation, San Pedro, Los Angeles & Santa Fe, Southern Pacific, Northern Pacific, Great Northern, the Farmers' Loan and Trust company, Edward H. Harriman, Jacob H. Schiff, Otto H. Kahn, James Stillman, Henry H. Rogers, Henry C. Frick and William A. Clark. The bill set out in detail the agreements, contracts and operations by which the several individual defendants at various times since Jan. 1, 1901, were alleged to have secured for themselves and others the management and control of the various defendant roads and steamship lines, and to have ever since operated them in restraint of trade and commerce in violation of the act of congress approved July 2, 1890, or the Sherman antitrust law. After alleging combination and conspiracy among the defendants in derogation of the common rights of all the people of the United States, the bill asked that the defendants be perpetually enjoined from doing any and every act or thing in furtherance of the combination and conspiracy described and intended to complete the control or partial control of competing lines of railway by the Union Pacific and subsidiary companies.

In the proceedings which followed in the Circuit court before Judges Sanborn, Van Devanter, Hook and Adams the decisions on most of the important points were against the government and the case was brought before the United States Supreme court, which made public its decision Dec. 2, 1912. In announcing the opinion Mr. Justice Day said:

"This court reaches the decision that the Union Pacific and Southern Pacific systems, prior to the stock purchase, were competitors engaged in interstate commerce, acting independently as to a large amount of such carrying trade, and that since the acquisition of the stock in question the dominating power of the Union Pacific has suppressed competition between the systems and has effected a combination in restraint of interstate commerce within the prohibition of the act. In order to enforce the statute the court is required to forbid the doing in the future of acts like those which are found to have been done in violation thereof and to enter a decree which will effectually dissolve the combination found to exist in violation of the statute.

"The decree should provide an injunction against the right to vote this stock while in the ownership or control of the Union Pacific company, or any corporation owned by it, or while held by any corporation or person for the Union Pacific company, and forbid any transfer or disposition thereof in such wise as to continue its control, and should provide an injunction against the payment of dividends upon such stocks while thus held except to a receiver to be appointed by the court, which shall collect and hold such dividends until disposed of" by the decree of the court.

"As the court below dismissed the government's bill, it was necessary there to consider the disposition of the shares of stock acquired by the Union Pacific company, which acquisition, we hold, constituted an unlawful combination in violation of the antitrust act.

"In order to effectually conclude the operating force of the combination such disposition should be made subject to the approval and decree of the court, and any plan for the disposition of this stock must be such as to effectually dissolve the unlawful combination thus created.

"The court shall proceed, upon the presentation of any plan, to hear the government and defendants and may bring in any additional parties whose presence may be necessary to a final disposition of the stock in conformity to the views herein expressed.

"As to the suggestion made at the oral argument by the attorney-general as to the nature of the decree, that one must be entered which, while destroying the unlawful combination in so far as the Union Pacific secured control of the competing line extending from New Orleans and Galveston to San Francisco and Portland, would permit the Union Pacific to retain the Central Pacific connection from Ogden to San Francisco, thus effecting such a continuity of the Union Pacific and Central Pacific from the Missouri river to San Francisco as was contemplated by the acts of congress under which they were constructed, it should be said that nothing herein shall be considered as preventing the government or any party in interest, if so desiring, from presenting to the court a plan for accomplishing this result, or as preventing the court from adopting and giving effect to any such plan so presented.

"Any plan or plans shall be presented to the court within three months from the receipt of the mandate of this court, failing which, or upon the rejection by the court of the plans submitted within such time, the court shall proceed by receivership and sale, if necessary, to dispose of such stock in such wise as to dissolve such unlawful combination.

"The government has appealed from the decree, which is a general one dismissing the bill. So far as concerns the attempt to acquire the Northern Pacific stock and the stock of the Atchison, Topeka & Santa Fe Railway company afterward abandoned, and a certain interest in the San Pedro and Los Angeles & Salt Lake Railroad company, and other features of the case dealt with and disposed of by the decree and opinion of the court below, it is sufficient, without going into these matters in detail, to say as to them we find no reason to disturb the action of the court below, but for the reasons stated the decree shall be reversed and one entered in conformity with the views herein expressed so far as concerns the acquisition of the Southern Pacific stock."

THE PRESIDENTIAL CAMPAIGN OF 1912.

In the American presidential campaign of 1912 the feature of greatest interest and importance was the dissension in the ranks of the republicans, resulting in the birth of a new political organization—the progressive party—with ex-President Theodore Roosevelt at its head. The immediate cause was the alleged "theft" of delegates to the national nominating convention by the leaders representing the administration, who were working for the re-nomination and re-election of President William H. Taft, but there were other causes dating as far back as the contest made by progressive representatives against the so-called "standpat" policy of the conservative element in congress, led by Speaker Joseph G. Cannon in the house and by Senator Nelson W. Aldrich in the senate.

Before giving the details of the split in the republican party it may be said that the campaign, so far as the other national political organizations were concerned, was less momentous though not lacking in phases of general interest. In the struggle for the presidential nomination the democratic forces were also divided into two camps, but the lines were not as sharply drawn as in the republican party and the outcome was radically different. Speaker Champ Clark was the choice of most of the conservatives and also of many who called themselves progressive. He was also the choice in most of the democratic state primaries. Dr. Woodrow Wilson, governor of New Jersey, was the choice of the opposing forces, who claimed that he was a real progressive and free from all kinds of entangling political alliances. In the struggle for the nomination Mr. Clark had the advantage, but the two-thirds rule and the antagonism of William J. Bryan prevented him from becoming the democratic standard bearer. The details of the great contest in the Baltimore convention will be found elsewhere (page 130) in this volume. Mr. Wilson conducted an effective and dignified campaign and as had been generally predicted was easily elected president Nov. 5.

The socialist, socialist labor and prohibition campaigns were without features distinguishing them from those of former presidential years. If there were internal dissensions they were not very apparent and did not affect the result to any marked extent. As the election returns show, the socialists made a considerable gain in votes. Though they lost their only congressman, Victor Berger of Wisconsin, they gained not a few representatives in the state legislatures.

PROGRESSIVE MOVEMENT.

In considering the dissension in the republican party it is necessary to go back to Jan. 21, 1911, when the National Progressive Republican league was organized in Washington, D. C., with Senator Jonathan Bourne, Jr., of Oregon as president. In its declaration of principles the league held that popular government in America had been thwarted and progressive legislation strangled by special interests, which controlled caucuses, delegates, conventions and party organizations and, through control of the machinery of government, dictated nominations and platforms and elected state and national officials. It therefore advocated the election of United States senators by direct vote of the people; direct primaries for the nomination of all elective officials; direct election of delegates to national conventions with opportunity for the voter to express his preference for president and vice-president; amendment of state constitutions to provide for the initiative, referendum and recall and a thorough and general corrupt practices act.

Among those who signed this declaration of principles were Senators Jonathan Bourne, Jr., Joseph L. Bristow, Norris Brown, Moses E. Clapp, Albert E. Cummins, Joseph M. Dixon, A. J. Gronna, Robert M. LaFollette and Miles Poindexter, and Govs. Chester H. Aldrich, Joseph M. Carey, Hiram W. Johnson, W. R. Stubbs, F. E. McGovern and Chase S. Osborn.

Oct. 16 and 17, 1911, a national progressive republican conference was held in Chicago at which a declaration of principles similar to that quoted above was adopted and Robert M. LaFollette of

Wisconsin was indorsed for the presidency. "The record of Senator LaFollette in state and nation," it asserted, "makes him a logical candidate for president of the United States. His experience, his character, his courage, his record of constructive legislation and administrative ability meet the requirements of leadership such as present conditions demand."

Senator LaFollette began his presidential campaign in Ohio in December and continued it in Michigan and Illinois in January, 1912. In Ohio the progressives, led by Gifford Pinchot and James R. Garfield, refused to indorse him and in Michigan he was criticised by Gov. Chase S. Osborn, one of the progressive leaders. Gov. Stubbs of Kansas, whom he had counted upon as one of his friends, came out for Mr. Roosevelt instead, and when finally on the night of Feb. 3, at a banquet of the Periodicals Publishers' association in Philadelphia, Mr. LaFollette aroused much adverse criticism by an attack on the press, it was generally assumed that his "boom" had collapsed. On account of a sudden attack of illness he canceled his speaking engagements and only the most faithful of his friends regarded him as still in the race. March 19 he won in the preferential primary in North Dakota, but the delegates he secured there and in his own state of Wisconsin were all he could muster and he went into the national convention with but little strength behind him. He had been overwhelmed by the rising Roosevelt tide.

Though it was well known that Mr. Roosevelt disapproved of the administration of President Taft, there was much doubt in 1911 and the first few weeks of 1912 as to what attitude he would take personally in the campaign. This doubt was caused in great measure by a statement issued by him from the white house in Washington, D. C., on the evening of Nov. 8, 1904, when the result of the presidential election had been made known. This statement was as follows:

"I am deeply sensible of the honor done me by the American people in thus expressing their confidence in what I have done and am obliged to do. I appreciate to the full the solemn responsibility this confidence imposes upon me, and I shall do all that in my power lies not to forfeit it. On the 4th of March next I shall have served three and a half years, and this three and a half years constitute my first term. The wise custom which limits the president to two terms regards the substance and not the form, and under no circumstances will I be a candidate for or accept another nomination."

Dec. 11, 1907, Mr. Roosevelt issued a brief statement from the white house in which he quoted the foregoing declaration and added the following words: "I have not changed and shall not change the decision thus announced."

APPEAL BY GOVERNORS.

Notwithstanding this declaration great pressure was brought to bear upon Mr. Roosevelt by the progressive wing of the republican party to reconsider his determination not to become a candidate for a third term as president of the United States. Following a conference held in Chicago Feb. 10, 1912, by what was called the national Roosevelt committee and which included a number of republican state governors the following letter was sent to Mr. Roosevelt:

"We, the undersigned, republican governors, assembled for the purpose of considering what will best insure the continuation of the republican party as a useful agency of good government, declare it our belief, after a careful investigation of the facts, that a large majority of the republican voters of the country favor your nomination, and a large majority of the people favor your election as the next president of the United States.

"We believe that your candidacy will insure success in the next campaign. We believe that you represent, as no other man represents, those principles and policies upon which we must appeal for a majority of the votes of the American people, and which, in our opinion, are necessary for the happiness and prosperity of the country.

"We believe that in view of this public demand you should soon declare whether, if the nomination

for the presidency come to you unsolicited and unsought, you will accept.

"In submitting this request we are not considering your personal interests. We do not regard it as proper to consider either the interests or the preference of any man as regards the nomination for the presidency. We are expressing our sincere belief and best judgment as to what is demanded of you in the interests of the people as a whole. And we feel that you would be unresponsive to a plain, public duty if you should decline to accept the nomination, coming as the voluntary expression of the wishes of a majority of the republican voters of the United States, through the action of their delegates in the next national convention."

The letter was signed by the following governors: William E. Glasscock, West Virginia; Chester H. Aldrich, Nebraska; Robert P. Bass, New Hampshire; Joseph M. Carey, Wyoming; Chase S. Osborn, Michigan; W. R. Stubbs, Kansas; Herbert S. Hadley, Missouri.

MR. ROOSEVELT ACCEPTS.

In a letter dated at New York, N. Y., Feb. 24, 1912, Mr. Roosevelt replied as follows: "Gentlemen—I deeply appreciate your letter and I realize to the full the heavy responsibility it puts upon me, expressing, as it does, the carefully considered convictions of the men elected by popular vote as the heads of government in their several states.

"I absolutely agree with you that this matter is not one to be decided with any reference to the personal preferences or interests of any man, but purely from the standpoint of the interests of the people as a whole. I will accept the nomination for president if it is tendered to me, and I will adhere to this decision until the convention has expressed its preference.

"One of the chief principles for which I have stood and for which I now stand and which I have always endeavored and always shall endeavor to reduce to action is the genuine rule of the people; and, therefore, I hope that, so far as possible, the people may be given the chance through direct primaries to express their preference as to who shall be the nominee of the republican presidential convention. Very truly yours,

"THEODORE ROOSEVELT."

Before this letter was published it had become practically certain that Mr. Roosevelt would run for the presidency, as it was announced Feb. 17 in the Outlook, a magazine of which he was one of the editors, that "what Mr. Roosevelt said in 1904 and 1907 referred, of course, to a consecutive third term."

COLUMBUS SPEECH.

The speech made by Mr. Roosevelt before the Ohio constitutional convention in Columbus, O., Feb. 21, 1912, was also regarded as a sure indication that he would accept a nomination to a third term, as it was heralded as a statement of his personal views on certain questions which, it was thought, would be made issues in the presidential campaign. Among the more important of his utterances on this occasion were the following:

"I believe in providing for direct nominations by the people, including therein direct preferential primaries for the election of delegates to the national nominating convention.

"I believe in the election of United States senators by direct vote.

"I believe in the initiative and the referendum, which should be used not to destroy representative government but to correct it whenever it becomes misrepresentative.

"I do not believe in adopting the recall [of judges] save as a last resort, when it has become clearly evident that no other course will achieve the direct result. But either the recall will have to be adopted or else it will have to be made much easier than it now is to get rid not merely of a bad judge but of a judge who, however virtuous, has grown so out of touch with social needs and facts that he is unfit longer to render good service on the bench. It is nonsense to say that impeachment meets the difficulty. In actual practice we have found that impeachment does not work, that unfit judges stay on the bench in spite of it, and, in-

deed, because of the fact that impeachment is the only remedy that can be used against them.

"We should hold the judiciary in all respect, but it is both absurd and degrading to make a fetish of a judge or of any one else."

Speaking before the Massachusetts assembly Feb. 26, Mr. Roosevelt said: "I am not advocating the recall of judges; I am advocating a measure which, if adopted, will prevent the necessity of the recall of judges. I am not advocating the recall of the judge; I am advocating the recall of legalism to justice. * * * My proposal applies only to the legislative acts which the courts declare unconstitutional."

From the Taft headquarters in Washington, D. C., came the announcement, Feb. 27, that the following governors were actively advocating the renomination of the president: Eberhardt, Minnesota; Carroll, Iowa; Hay, Washington; Goldsborough, Maryland; Tener, Pennsylvania; Hooper, Tennessee; Spry, Utah; Penewell, Delaware, and Pothier, Rhode Island. The support of Govs. Deenoe of Illinois, Oddie of Nevada and Mead of Vermont was also claimed on behalf of Mr. Taft.

Systematic work for the nomination of Mr. Roosevelt for the presidency began Feb. 29 when Senator Joseph M. Dixon of Montana was chosen to manage the campaign. He was given the title of chairman of the executive committee of the national Roosevelt committee. Congressman William B. McKinley was in charge of the administration forces in the campaign for delegates to the nominating convention.

PRESIDENTIAL PRIMARIES.

Preferential primaries played an important part in the pre-convention campaigns of both the great parties and the prediction was made that in 1916 the national conventions would merely have to ratify the selections made by the people at the primaries. It was practically a new feature in national politics, as prior to 1911 but few states had laws permitting the people to express their preferences for president. Oregon led with a complete primary law in the fall of 1910 and was followed in 1911 by New Jersey, Wisconsin, Nebraska and California. In 1912 North Dakota, Massachusetts, Illinois, Maryland and other states extended or amended their primary laws so as to include the presidency. Primary elections were held in March, April and May in fourteen states. Mr. Taft led in Massachusetts, Senator LaFollette in North Dakota and Wisconsin and Mr. Roosevelt in the others. In Illinois the primary election was held April 9 and resulted as follows: Roosevelt, 266,917; Taft, 127,481; LaFollette, 42,692. For the democrats, Champ Clark carried the state by a plurality of 142,956. In Pennsylvania Mr. Roosevelt had a plurality of 79,899 votes. These substantial victories gave great encouragement to the progressives.

PERSONALITIES A FEATURE.

Both President Taft and Mr. Roosevelt entered personally into the campaign and made speeches that became increasingly warm as the time for the republican convention drew nearer. The recall of judges was a topic frequently discussed by each candidate. In a speech delivered in Toledo, O., March 8, Mr. Taft, having in mind Mr. Roosevelt's proposed method of reversing judicial decisions, said: "I have examined the proposed method of reversing judicial decisions on constitutional questions with care. I do not hesitate to say that it lays the ax at the foot of the tree of well ordered freedom and subjects the guaranties of life, liberty and property without remedy to the fitful impulse of a temporary majority of an electorate."

Congressman Philip P. Campbell of Kansas, in a speech in New Hampshire, referred to the proposed recall of judges as "an appeal from the umpire to the bleachers." Mr. Roosevelt resented the comparison as inapplicable. April 25, in Boston, Mr. Taft bitterly assailed Mr. Roosevelt, accusing him of willful misrepresentation and distortion to gain the support of the people. "He has failed to live up to his policy of giving everybody a square deal," said the president. "He has violated a solemn promise to the American people not to be a candidate for a third term. You can drive a man into a corner where his manhood requires that he should

fight and I am there." April 26, at Worcester, Mass., Mr. Roosevelt replied to Mr. Taft in even more severe terms, saying among other things that the president was a weak man. "I do not think," declared Mr. Roosevelt, "that Mr. Taft means ill. I think he means well. But he means well feebly, and during his administration he has been under the influence of men who are neither well meaning nor feeble."

The Lorimer case, the Harvester investigation of 1907, the use of "steam-roller" methods by the administration in obtaining delegates to the convention, the misuse of federal patronage and the subjection of the people to the bosses were among the matters that were brought into the campaign at this stage and discussed with considerable warmth by the candidates. Senator LaFollette made a number of speeches in which he assailed both Mr. Taft and Mr. Roosevelt, but he was especially vigorous in attacking the latter for his alleged inconsistencies and shortcomings as a reformer and progressive.

The fight for delegates at district and state conventions was in many instances extremely bitter, resulting in withdrawals or bolts and the election of two sets of delegates, and it became apparent that the convention would have a large number of contests to decide. The outcome is fully told in the story of the republican convention, beginning on page 127 of this issue of The Daily News Almanac and Year-Book. It is sufficient to say here that Mr. Roosevelt and his friends were satisfied that the nomination had been "stolen" from him and that consequently it became their duty to hold another convention.

CALL FOR CONVENTION.

July 7 the following call for the third party convention was sent out from New York, N. Y., by Senator Joseph M. Dixon of Montana:

"To the people of the United States, without regard to past differences, who, through repeated betrayals, realize that to-day the power of the crooked political bosses and of the privileged classes behind them is so strong in the two old party organizations that no helpful movement in the real interests of our country can come out of either;

"Who believe that the time has come for a national progressive movement—a nationwide movement—on nonsectional lines, so that the people may be served in sincerity and truth by an organization unfettered by obligation to conflicting interests;

"Who believe in the right and capacity of the people to rule themselves, and effectively to control all the agencies of their government and who hold that only through social and industrial justice, thus secured, can honest property find permanent protection;

"Who believe that government by the few tends to become, and has in fact become, government by the sordid influences that control the few;

"Who believe that only through the movement proposed can we obtain in the nation and the several states the legislation demanded by the modern industrial evolution; legislation which shall favor honest business and yet control the great agencies of modern business so as to insure their being used in the interest of the whole people; legislation which shall promote prosperity and at the same time secure the better and more equitable diffusion of prosperity; legislation which shall promote the economic well-being of the honest farmer, wage-worker, professional man and business man alike, but which shall, at the same time, strike in efficient fashion—and not pretend to strike—at the roots of privilege in the world of industry no less than in the world of politics;

"Who believe that only this type of wise industrial evolution will avert industrial revolution;

"Who believe that wholesome party government can come only if there is wholesome party management in a spirit of service to the whole country, and who hold that the commandment delivered at Sinai, 'Thou shalt not steal,' applies to politics as well as to business;

"To all in accord with these views a call is hereby issued by the provisional committee under the resolution of the mass meeting held in Chicago on June 22 last to send from each state a number of

delegates whose votes in the convention shall count for as many votes as the state shall have senators and representatives in congress, to meet in the convention at Chicago on the 5th day of August, 1912, for the purpose of nominating candidates to be supported for the positions of president and vice-president of the United States."

The following names were appended to the call:

Alabama—Oscar W. Hundley.
Arizona—Dwight E. Heard.
California—Hiram W. Johnson, Chester H. Rowell, Charles S. Wheeler.
Colorado—Ben B. Lindsey.
Connecticut—Joseph W. Alsopp, Flavel S. Luther.
Florida—J. H. Gregory, Jr., H. L. Anderson.
Georgia—Julian Harris.
Indiana—Edwin D. Lee, Horace C. Stillwell.
Illinois—Medill McCormick, Chauncey Dewey, LaVerne W. Noyes.
Iowa—John L. Stevens.
Kansas—Henry J. Allen.
Kentucky—Leslie Coombs.
Louisiana—John M. Parker, Pearl Wight.
Maryland—Chas. J. Bonaparte, E. C. Carrington, Jr.
Massachusetts—C. S. Bird, Matthew Hale.
Michigan—Theodore M. Joslyn.
Minnesota—Milton D. Purdy.
Missouri—W. R. Nelson.
Montana—Joseph M. Dixon.
Nebraska—Arthur G. Ray.
New Hampshire—W. J. Beattie.
New Jersey—Everett Colby, George L. Record, J. Franklin Fort.
New Mexico—George Curry, Miguel A. Otero.
New York—W. A. Prendergast, Oscar S. Straus, Woods Hutchinson, Timothy L. Woodruff, Chauncey J. Hamlin, Henry L. Stoddard.
North Dakota—A. Y. More.
Oregon—Henry W. Cole, L. W. McMahon.
Ohio—James R. Garfield.
Oklahoma—George L. Priestly.
Pennsylvania—E. A. Van Valkenburg, William Flinn, Gifford Pinchot, William Draper Lewis.
Rhode Island—Henry J. Doughty.
South Dakota—R. T. Vessey.
Tennessee—George L. Taylor.
Texas—Cecil A. Lyon.
Utah—C. E. Loose.
Vermont—Charles H. Thompson, E. W. Gibson.
Virginia—Thomas Lee Moore.
Washington—Miles Poindexter.
West Virginia—W. M. O. Dawson.
Wisconsin—H. F. Cochems.
Wyoming—Joseph Carey.

The call resulted in all the states, with the exception of South Carolina, choosing delegates and sending them to the convention in Chicago. As was expected, Mr. Roosevelt was the only candidate for president in the field and he was nominated with Gov. Hiram W. Johnson of California as running mate. (For proceedings of national progressive convention see page 133, this volume.)

CAMPAIGN FOR ELECTION.

When all the conventions had been held and the nominations made the contest for the election began. The democrats, republicans and progressives divided their national headquarters between Chicago and New York. The socialists and prohibitionists sent out their speakers and literature chiefly from Chicago, while the socialist labor party did the same from New York city. The men who directed the active work for each of the great organizations were: Democratic, William F. McCombs; republican, Charles D. Hiles; prohibition, Virgil G. Hinshaw; progressive, Joseph M. Dixon; socialist, John M. Work. The populists had no ticket in the field.

The campaign that followed was less exciting than the struggle for the nominations. Mr. Taft made no speeches, contenting himself with writing an occasional letter on topics bearing upon the issues of the day. These were practically the same as those discussed in the pre-convention meetings. Woodrow Wilson spoke in some of the principal cities in the east and central west and was assisted by W. J. Bryan, Champ Clark and other democratic orators of note. The greatest activity, however, was displayed by Mr. Roosevelt, who

made speaking tours extending from the Atlantic to the Pacific and from Canada to the gulf. He was followed, or "trailed," by John M. Harlan of Chicago and J. Adam Bede of Pine City, Minn., republicans, who attacked his policies in each of the cities visited by him. The meetings were well attended, as a rule, but were devoid of striking features until the attempted assassination of Mr. Roosevelt by an insane man, John Schrank, in Milwaukee Oct. 14. The scene which followed, when the dangerously wounded ex-president appeared before an audience of 10,000 or more, announced that he had been shot and then went on to deliver his prepared speech was one of the most dramatic in the history of American politics.

While Mr. Roosevelt was recovering from his wound political contention practically ceased and only a few more speeches were made by the leaders before the close of the campaign. Mr. Roosevelt himself was able to appear in Madison Square Garden, New York, Oct. 30, where he received a remarkable ovation. On the following evening in the same hall Gov. Wilson was honored with a similar demonstration by his followers. The death of Vice-President James S. Sherman, candidate for re-election on the republican ticket, on the night of Oct. 30, also had a sobering effect on factional and party strife and the campaign ended in comparative quiet. It had not at any time been an especially noisy one, the publicity required by law to be given to political contributions and the consequent lack of large party funds having a tend-

ency to put a stop to large public parades and other spectacular features of other days.

CONFUSION IN STATES.

There was much confusion in many of the states regarding the status of the men on the electoral tickets, some of those chosen as republicans declaring that they would vote for Mr. Roosevelt. In most of the cases the matter was adjusted satisfactorily to both sides, but in California and South Dakota no Taft electors were allowed to go on the ballot. The placing of progressive state and local tickets in the field in opposition to the regular republican nominees indorsed at statewide primaries also caused ill feeling. Such was the case in Illinois, where the republican vote on governor was almost equally divided between Charles S. Deneen, republican, and Frank H. Funk, progressive, giving Edward F. Dunne, the democratic candidate, an easy victory.

The general result of the campaign, national and otherwise, may be gathered from the election returns given in detail for each state elsewhere in this volume. Woodrow Wilson was elected president and the democratic majority in the house of representatives was largely increased, while republican rule in the senate was probably ended. The number of democratic governors of states was also increased. The progressive party, though not electing its national candidates, polled a large aggregate vote and its leaders announced that the organization would be made permanent.

UNITED STATES POSTAL SAVINGS BANKS.

It was estimated by T. L. Weed, director of the United States postal savings system, that on Oct. 1, 1912, there were 290,000 depositors in the postal savings banks of the country and that the total amount on deposit then was \$25,000,000. The following table shows the balances to the credit of depositors May 31, 1912, by states:

Alabama	\$73,161	Missouri	333,334
Arizona	216,511	Montana	401,607
Arkansas	73,668	Nebraska	203,662
California	1,614,405	Nevada	279,229
Colorado	632,277	New Hampshire	123,868
Connecticut	191,683	New Jersey	322,843
Delaware	20,696	New Mexico	41,002
Dist. Columbia	104,526	New York	2,134,518
Florida	107,396	North Carolina	28,245
Georgia	38,369	North Dakota	26,627
Idaho	210,157	Ohio	1,768,545
Illinois	1,602,959	Oklahoma	175,406
Indiana	552,679	Oregon	745,593
Iowa	172,114	Pennsylvania	1,042,677
Kansas	422,616	Rhode Island	100,521
Kentucky	198,546	South Carolina	10,383
Louisiana	67,081	South Dakota	38,123
Maine	76,227	Tennessee	113,505
Maryland	50,495	Texas	305,545
Massachusetts	704,089	Utah	90,169
Michigan	561,405	Vermont	21,224
Minnesota	856,961	Virginia	96,629
Mississippi	52,237	Washington	843,361

West Virginia ..	47,400	Wyoming	74,243
Wisconsin	409,652	Total	18,880,309

Any person, 10 years of age or over, may open an account, in his or her own name, in any postal savings depositors, but no person can have more than one such account in his or her own right. Deposit accounts may be opened, first, by the deposit of \$1 or a larger amount in multiples thereof; second, by purchasing for 10 cents a postal savings card and attaching thereto 10 cent postal saving stamps and depositing the card and the stamps in the amount of \$1 or any multiple thereof. Additional deposits may be made in cash in amounts of \$1 or multiples thereof, or by card and 10 cent stamps in corresponding amounts, but no person is permitted to deposit more than \$100 in any calendar month, and the balance to the credit of any person can never exceed \$500.

Interest at the rate of 2 per cent per annum is allowed on all deposits, and any person may withdraw the whole or any part of his or her deposit, with accrued interest, upon demand and under such rules as the board of trustees prescribes.

Of the postal savings bank fund, 5 per cent is deposited as a reserve with the treasurer of the United States. The remaining funds are deposited in national or state banks at a rate of interest of not less than 3½ per cent.

The faith of the United States is pledged to the payment of any deposit made in postal savings bank depository offices.

AMERICAN ACADEMY OF ARTS AND LETTERS.

Founded in 1904.

President—William Dean Howells.
 Permanent Secretary—Robert Underwood Johnson,
 33 East 17th street, New York, N. Y.
 Members in department of literature:
 Charles Francis Adams. Abbott L. Lawrence.
 Henry Adams. Hamilton Wright Mabie.
 Henry M. Walton. Alfred T. Mahan.
 W. C. Brownell. John Burroughs.
 Nicholas Murray Butler. Brander Matthews.
 George W. Cable. John Muir.
 Horace Howard Furness. Thomas Nelson Page.
 Basil L. Gildersleeve. Elias Perry.
 Arthur Twining Hadley. James Ford Rhodes.
 William Dean Howells. James Whitcomb Riley.
 Henry James. Theodore Roosevelt.
 Robt. Underwood Johnson. William M. Sloane.
 Henry Cabot Lodge. F. Hopkinson Smith.
 Thomas R. Lounsbury. Henry Van Dyke.

Andrew Dickson White. George E. Woodberry.
 Woodrow Wilson.

Members in department of art:
 John W. Alexander. Daniel C. French.
 Paul W. Bartlett. Thomas Hastings.
 Edwin H. Blashfield. Wm. Rutherford Mead.
 George DeForest Brush. John S. Sargent.
 William M. Chase. Abbott Thayer.
 Kenyon Cox. Elihu Vedder.

Members in department of music:
 Horatio W. Parker. Geo. Whitfield Chadwick.

Membership in the academy is limited to fifty. Only those who belong to the National Institute of Arts and Letters are eligible, and they are elected by that body.

THE PRESIDENT'S MESSAGE (NO. 1).

To the Senate and House of Representatives: The foreign relations of the United States actually and potentially affect the state of the union to a degree not widely realized and hardly surpassed by any other factor in the welfare of the whole nation. The position of the United States in the moral, intellectual and material relations of the family of nations should be a matter of vital interest to every patriotic citizen. The national prosperity and power impose upon us duties which we cannot shirk if we are to be true to our ideals. The tremendous growth of the export trade of the United States has already made that trade a very real factor in the industrial and commercial prosperity of the country. With the development of our industries the foreign commerce of the United States must rapidly become a still more essential factor in its economic welfare.

Whether we have a farseeing and wise diplomacy and are not recklessly plunged into unnecessary wars, and whether our foreign policies are based upon an intelligent grasp of present day world conditions and a clear view of the potentialities of the future, or are governed by a temporary and timid expediency or by narrow views befitting an infant nation, are questions the alternative consideration of which must convince any thoughtful citizen that no department of national policy offers greater opportunity for promoting the interests of the whole people on the one hand or greater chance on the other of permanent national injury than that which deals with the foreign relations of the United States.

The fundamental foreign policies of the United States should be raised high above the conflict of partisanship and wholly dissociated from differences as to domestic policy. In its foreign affairs the United States should present to the world a united front. The intellectual, financial and industrial interests of the country and the publicist, the wage earner, the farmer and citizen of whatever occupation must co-operate in a spirit of high patriotism to promote that national solidarity which is indispensable to national efficiency and to the attainment of national ideals.

The relations of the United States with all foreign powers remain upon a sound basis of peace, harmony and friendship. A greater insistence upon justice to American citizens or interests wherever it may have been denied and a stronger emphasis of the need of mutuality in commercial and other relations have only served to strengthen our friendships with foreign countries by placing those friendships upon a firm foundation of realities as well as aspirations.

Before briefly reviewing the more important events of the last year in our foreign relations, which it is my duty to do as charged with their conduct and because diplomatic affairs are not of a nature to make it appropriate that the secretary of state make a formal annual report, I desire to touch upon some of the essentials to the safe management of the foreign relations of the United States and to endeavor, also, to define clearly certain concrete policies which are the logical modern corollaries of the undisputed and traditional fundamentals of the foreign policy of the United States.

STATE DEPARTMENT CHANGED.

At the beginning of the present administration the United States, having fully entered upon its position as a world power, with the responsibilities thrust upon it by the results of the Spanish-American war, and already engaged in laying the groundwork of a vast foreign trade upon which it should one day become more and more dependent, found itself without the machinery for giving thorough attention to and taking effective action upon a mass of intricate business vital to American interests in every country in the world.

The department of state was an archaic and inadequate machine lacking most of the attributes of the foreign office of any great modern power. With an appropriation made upon my recommendation by the congress on Aug. 5, 1909,

the department of state was completely reorganized. There were created divisions of Latin-American affairs and of far eastern, near eastern and western European affairs. To these divisions were called from the foreign service diplomatic and consular officers possessing experience and knowledge gained by actual service in different parts of the world, and thus familiar with political and commercial conditions in the regions concerned. The work was highly specialized. The result is that where previously this government from time to time would emphasize in its foreign relations one or another policy, now American interests in every quarter of the globe are being cultivated with equal assiduity. This principle of politico-geographical division possesses also the good features of making possible rotation between the officers of the departmental, the diplomatic and the consular branches of the foreign service, and thus keeps the whole diplomatic and consular establishments under the department of state in close touch and equally inspired with the aims and policy of the government.

Through the newly created division of information the foreign service is kept fully informed of what transpires from day to day in the international relations of the country, and contemporary foreign comment affecting American interests is promptly brought to the attention of the department. The law offices of the department were greatly strengthened. There were added foreign trade advisers to co-operate with the diplomatic and consular bureaus and the politico-geographical divisions in the innumerable matters where commercial diplomacy or consular work calls for such special knowledge. The same officers, together with the rest of the new organization, are able at all times to give to American citizens accurate information as to conditions in foreign countries with which they have business and likewise to co-operate more effectively with the congress and also with the other executive departments.

EXPERT KNOWLEDGE NEEDED.

Expert knowledge and professional training must evidently be the essence of this reorganization. Without a trained foreign service there would not be men available for the work in the reorganized department of state. President Cleveland had taken the first step toward introducing the merit system in the foreign service. That had been followed by the application of the merit principle, with excellent results, to the entire consular branch. Almost nothing, however, had been done in this direction with regard to the diplomatic service. In this age on commercial diplomacy it was evidently of the first importance to train an adequate personnel in that branch of the service. Therefore, on Nov. 26, 1909, by an executive order I placed the diplomatic service up to the grade of secretary of embassy, inclusive, upon exactly the same strict nonpartisan basis of the merit system, rigid examination for appointment and promotion only for efficiency, as had been maintained without exception in the consular service.

How faithful to the merit system and how nonpartisan has been the conduct of the diplomatic and consular services in the last four years may be judged from the following: Four ambassadors now serving held their present rank at the beginning of my administration. Of the ten ambassadors whom I have appointed, five were by promotion from the rank of minister. Nine ministers now serving held their present rank at the beginning of the administration. Of the thirty ministers whom I have appointed, eleven were promoted from the lower grades of the foreign service or from the department of state. Of the nineteen missions in Latin America, where our relations are close and our interest is great, fifteen chiefs of mission are service men, three having entered the service during this administration.

The thirty-seven secretaries of embassy or legation who have received their initial appointments after passing successfully the required examination

were chosen for ascertained fitness, without regard to political affiliations. A dearth of candidates from southern and western states has alone made it impossible thus far completely to equalize all the states' representations in the foreign service. In the effort to equalize the representation in the various states in the consular service I have made sixteen of the twenty-nine new appointments as consul which have occurred during my administration from the southern states. This is 55 per cent. Every other consular appointment made, including the promotion of eleven young men from the consular assistant and student interpreter corps, has been by promotion or transfer, based solely upon efficiency shown in the service.

In order to assure to the business and other interests of the United States a continuance of the resulting benefits of this reform, I earnestly renew my previous recommendations of legislation making it permanent along some such lines as those of the measure now pending in congress.

HOMEES FOR EMBASSIES NEEDED.

In connection with legislation for the amelioration of the foreign service, I wish to invite attention to the advisability of placing the salary appropriations upon a better basis. I believe that the best results would be obtained by a moderate scale of salaries, with adequate funds for the expenses of proper representation, based in each case upon the scale and cost of living at each post, controlled by a system of accounting and under the general direction of the department of state.

In line with the object which I have sought of placing our foreign service on a basis of permanency, I have at various times advocated provision by congress for the acquisition of government owned buildings for the residence and offices of our diplomatic officers, so as to place them more nearly on an equality with similar officers of other nations and to do away with the discrimination which otherwise must necessarily be made. In some cases, in favor of men having large private fortunes. The act of congress which I approved on Feb. 17, 1911, was the right step in this direction. The secretary of state has already made the limited recommendations permitted by the act for any one year, and it is my hope that the bill introduced in the house of representatives to carry out these recommendations will be favorably acted on by the congress during its present session.

In some Latin-American countries the expense of government owned legations will be less than elsewhere, and it is certainly very urgent that in such countries as some of the republics of Central America and the Caribbean, where it is peculiarly difficult to rent suitable quarters, the representatives of the United States should be justly and adequately provided with dignified and suitable official residences. Indeed, it is high time that the dignity and power of this great nation should be fittingly signaled by proper buildings for the occupancy of the nation's representatives everywhere abroad.

The diplomacy of the present administration has sought to respond to modern ideas of commercial intercourse. This policy has been characterized as substituting dollars for bullets. It is one that appeals alike to idealistic humanitarian sentiments, to the dictates of sound policy and strategy and to legitimate commercial aims. It is an effort frankly directed to the increase of American trade upon the axiomatic principle that the government of the United States shall extend all proper support to every legitimate and beneficial American enterprise abroad.

How great have been the results of this diplomacy, coupled with the maximum and minimum provision of the tariff law, will be seen by some consideration of the wonderful increase in the export trade of the United States. Because modern diplomacy is commercial there has been a disposition in some quarters to attribute to it none but materialistic aims. How strikingly erroneous is such an impression may be seen from a study of the results by which the diplomacy of the United States can be judged.

AMERICA AS PEACEMAKER.

In the field of work toward the ideals of peace this government negotiated, but to my regret was unable to consummate, two arbitration treaties which set the highest mark of the aspiration of nations toward the substitution of arbitration and reason for war in the settlement of international disputes. Through the efforts of American diplomacy several wars have been prevented or ended. I refer to the successful tripartite mediation of the Argentine Republic, Brazil and the United States between Peru and Ecuador; the bringing of the boundary dispute between Panama and Costa Rica to peaceful arbitration; the staying of warlike preparations when Haiti and the Dominican republic were on the verge of hostilities; the stopping of a war in Nicaragua; the halting of internecine strife in Honduras. The government of the United States was thanked for its influence toward the restoration of amicable relations between the Argentine Republic and Bolivia. The diplomacy of the United States is active in seeking to assuage the remaining ill feeling between this country and the republic of Colombia. In the recent civil war in China the United States successfully joined with the other interested powers in urging an early cessation of hostilities.

An agreement has been reached between the governments of Chile and Peru whereby the celebrated Tacna-Arica dispute, which has so long embittered international relations on the west coast of South America, has at last been adjusted. Simultaneously came the news that the boundary dispute between Peru and Ecuador had entered upon a stage of amicable settlement. The position of the United States in reference to the Tacna-Arica dispute between Chile and Peru has been one of nonintervention, but one of friendly influence and pacific counsel throughout the period during which the dispute in question has been the subject of interchange of views between this government and the two governments immediately concerned. In the general easing of international tension on the west coast of South America the tripartite mediation, to which I have referred, has been a most potent and beneficent factor.

NEW LIFE FOR "OPEN DOOR" PLAN.

In China the policy of encouraging financial investment to enable that country to help itself has had the result of giving new life and practical application to the open door policy. The consistent purpose of the present administration has been to encourage the use of American capital in the development of China by the promotion of those essential reforms to which China is pledged by treaties with the United States and other powers. The hypothecation to foreign bankers in connection with certain industrial enterprises, such as the Hukuang railways, of the national revenues upon which these reforms depended, led the department of state early in the administration to demand for American citizens participation in such enterprises, in order that the United States might have equal rights and an equal voice in all questions pertaining to the disposition of the public revenues concerned.

The same policy of promoting international accord among the powers having similar treaty rights as ourselves in the matters of reform, which could not be put into practical effect without the common consent of all, was likewise adopted in the case of the loan desired by China for the reform of its currency. The principle of international co-operation in matters of common interest upon which our policy had already been based in all of the above instances has admittedly been a great factor in that concert of the powers which has been so happily conspicuous during the perilous period of transition through which the great Chinese nation has been passing.

CENTRAL AMERICA NEEDS HELP.

In Central America the aim has been to help such countries as Nicaragua and Honduras to help themselves. They are the immediate beneficiaries. The national benefit to the United States is two-

fold. First, it is obvious that the Monroe doctrine is more vital in the neighborhood of the Panama canal and the zone of the Caribbean than anywhere else. There, too, the maintenance of that doctrine falls most heavily upon the United States. It is, therefore, essential that the countries within that sphere shall be removed from the jeopardy involved by heavy foreign debt and chaotic national finances and from the ever present danger of international complications due to disorder at home. Hence the United States has been glad to encourage and support American bankers who were willing to lend a helping hand to the financial rehabilitation of such countries because this financial rehabilitation and the protection of their custom houses from being the prey of would be dictators would remove at one stroke the menace of foreign creditors and the menace of revolutionary disorder.

The second advantage to the United States is one affecting chiefly all the southern and gulf ports and the business and industry of the south. The republics of Central America and the Caribbean possess great natural wealth. They need only measure of stability and the means of financial regeneration to enter upon an era of peace and prosperity, bringing profit and happiness to themselves and at the same time creating conditions sure to lead to a flourishing interchange of trade with this country.

I wish to call your special attention to the recent occurrences in Nicaragua, for I believe the terrible events recorded there during the revolution of the last summer—the needless loss of life, the devastation of property, the bombardment of defenseless cities, the killing and wounding of women and children, the torturing of noncombatants to exact contributions, and the suffering of thousands of human beings—might have been averted had the department of state, through approval of the loan convention by the senate, been permitted to carry out its now well developed policy of encouraging the extending of financial aid to weak Central American states, with the primary objects of avoiding just such revolutions by assisting those republics to rehabilitate their finances, to establish their currency on a stable basis, to remove the custom houses from the danger of revolutions by arranging for their secure administration and to establish reliable banks.

During this last revolution in Nicaragua, the government of that republic having admitted its inability to protect American life and property against acts of sheer lawlessness on the part of the malcontents, and having requested this government to assume that office, it became necessary to land over 2,000 marines and bluejackets in Nicaragua. Owing to their presence the constituted government of Nicaragua was free to devote its attention wholly to its internal troubles and was thus enabled to stamp out the rebellion in a short space of time. When the Red Cross supplies sent to Granada have been exhausted, 8,000 persons having been given food in one day upon the arrival of the American forces, our men supplied other unfortunates, needy Nicaraguans, from their own haversacks.

I wish to congratulate the officers and men of the United States navy and marine corps who took part in re-establishing order in Nicaragua upon their splendid conduct, and to record with sorrow the death of seven American marines and bluejackets. Since the re-establishment of peace and order elections have been held amid conditions of quiet and tranquillity. Nearly all the American marines have now been withdrawn. The country should soon be on the road to recovery.

The only apparent danger now threatening Nicaragua arises from the shortage of funds. Although American bankers have already rendered assistance, they may naturally be loath to advance a loan adequate to set the country upon its feet without the support of some such convention as that of June, 1911, upon which the senate has not yet acted.

NEUTRALITY IS ENFORCED.

In the general effort to contribute to the enjoyment of peace by those republics which are near neighbors of the United States, the administra-

tion has enforced the so-called neutrality statutes with a new vigor, and those statutes were greatly strengthened in restricting the exportation of arms and munitions by the joint resolution of last March. It is still a regrettable fact that certain American ports are made the rendezvous of professional revolutionists and others engaged in intrigue against the peace of those republics.

It must be admitted that occasionally a revolution in this region is justified as a real popular movement to throw off the shackles of a vicious and tyrannical government. Such was the Nicaraguan revolution against the Zelaya regime. A nation enjoying our liberal institutions cannot escape sympathy with a true popular movement, and one so well justified. In very many cases, however, revolutions in the republics in question have no basis in principle, but are due merely to the machinations of conscienceless and ambitious men, and have no effect but to bring new suffering and fresh burdens to an already oppressed people. The question whether the use of American ports as foci of revolutionary intrigue can be dealt with by a further amendment to the neutrality statutes or whether it would be safer to deal with special cases by special laws is one worthy of the careful consideration of the congress.

Impressed with the particular importance of the relations between the United States and the republics of Central America and the Caribbean region, which of necessity must become still more intimate by reason of the mutual advantages which will be presented by the opening of the Panama canal, I directed the secretary of state last February to visit these republics for the purpose of giving evidence of the sincere friendship and good will which the government and people of the United States bear toward them. Ten republics were visited. Everywhere he was received with a cordiality of welcome and a generosity of hospitality such as to impress me deeply and to merit our warmest thanks. The appreciation of the governments and peoples of the countries visited, which has been appropriately shown in various ways, leaves me no doubt that his visit will conduce to that closer union and better understanding between the United States and those republics which I have had it much at heart to promote.

MEXICO LAND OF TROUBLE.

For two years revolution and counter revolution have distraught the neighboring republic of Mexico. Brigandage has involved a great deal of depredation upon foreign interests. There have constantly recurred questions of extreme delicacy. On several occasions very difficult situations have arisen on our frontier. Throughout this trying period the policy of the United States has been one of patient nonintervention steadfast recognition of constituted authority in the neighboring nation and the exertion of every effort to care for American interests. I profoundly hope that the Mexican nation may soon resume the path of order, prosperity and progress. To that nation in its sore troubles the sympathetic friendship of the United States has been demonstrated to a high degree.

There were in Mexico at the beginning of the revolution some thirty or forty thousand American citizens engaged in enterprises contributing greatly to the prosperity of the republic and also benefiting the important trade between the two countries. The investment of American capital in Mexico has been estimated at \$1,000,000,000. The responsibility of endeavoring to safeguard those interests and the dangers inseparable from proximity to so turbulent a situation have been great, but I am happy to have been able to adhere to the policy above outlined—a policy which I hope may be soon justified by the complete success of the Mexican people in regaining the blessings of peace and good order.

AGRICULTURE IS LAGGING.

A most important work accomplished in the last year by the American diplomatic officers in Europe is the investigation of the agricultural credit system in the European countries. Both as a means

to afford relief to the consumers of this country through a more thorough development of agricultural resources and as a means of more sufficiently maintaining the agricultural population the project to establish credit facilities for the farmers is a concern of vital importance to this nation.

No evidence of prosperity among well established farmers should blind us to the fact that lack of capital is preventing a development of the nation's agricultural resources and an adequate increase of the land under cultivation; that agricultural production is fast falling behind the increase in population, and that, in fact, although these well established farmers are maintained in increasing prosperity because of the natural increase in population, we are not developing the industry of agriculture. We are not breeding in proportionate numbers a race of independent and independence loving landowners, for a lack of which no growth of cities can compensate. Our farmers have been our mainstay in times of crisis, and in future it must still largely be upon their stability and common sense that this democracy must rely to conserve its principles of self-government.

The need of capital which American farmers feel to-day had been experienced by the farmers of Europe, with their centuries old farms, many years ago. The problem had been successfully solved in the old world, and it was evident that the farmers of this country might profit by a study of their systems. I therefore ordered, through the department of state, an investigation to be made by the diplomatic officers in Europe, and I have laid the results of this investigation before the governors of the various states with the hope that they will be used to advantage in their forthcoming meeting.

EXPORT RECORD IS SET.

In my last annual message I said that the fiscal year ended June 30, 1911, was noteworthy as marking the highest record of exports of American products to foreign countries. The fiscal year 1912 shows that this rate of advance has been maintained, the total domestic exports having a valuation approximately of \$2,200,000,000, as compared with a fraction over \$2,000,000,000 the previous year. It is also significant that manufactured and partly manufactured articles continue to be the chief commodities forming the volume of our augmented exports, the demands of our own people for consumption requiring that an increasing proportion of our abundant agricultural products be kept at home. In the fiscal year 1911 the exports of articles in the various stage of manufacture, not including food-stuffs partly or wholly manufactured, amounted approximately to \$907,500,000. In the fiscal year 1912 the total was nearly \$1,022,000,000, a gain of \$114,500,000.

The importance which our manufactures have assumed in the commerce of the world in competition with the manufactures of other countries again draws attention to the duty of this government to use its utmost endeavors to secure impartial treatment for American products in all markets. Healthy commercial rivalry in international intercourse is best assured by the possession of proper means for protecting and promoting our foreign trade.

It is natural that competitive countries should view with some concern this steady expansion of our commerce. If in some instances the measures taken by them to meet it are not entirely equitable, a remedy should be found. In former messages I have described the negotiations of the department of state with foreign governments for the adjustment of the maximum and minimum tariff as provided in section 2 of the tariff law of 1909. The advantages secured by the adjustment of our trade relations under this law have continued during the last year, and some additional cases of discriminatory treatment of which we had reason to complain have been removed. The department of state has for the first time in the history of this country obtained substantial most-favored-nation treatment from all the countries of the world. There are, however, other instances which, while apparently not constitut-

ing undue discrimination in the sense of section 2, are nevertheless exceptions to the complete equity of tariff treatment for American products that the department of state consistently has sought to obtain for American commerce abroad.

ADVOCATES GRADUATED DUTIES.

These developments confirm the opinion conveyed to you in my annual message of 1911, that while the maximum and minimum provision of the tariff law of 1909 has been fully justified by the success achieved in removing previously existing undue discriminations against American products, yet experience has shown that this feature of the law should be amended in such way as to provide a fully effective means of meeting the varying degrees of discriminatory treatment of American commerce in foreign countries still encountered, as well as to protect against the injurious treatment on the part of foreign governments, through either legislative or administrative measures, the financial interests abroad of American citizens whose enterprises enlarge the market for American commodities.

I cannot too strongly recommend to the congress the passage of some such enabling measure as the bill which was recommended by the secretary of state in his letter of Dec. 13, 1911. The object of the proposed legislation is, in brief, to enable the executive to apply, as the case may require, to any or all commodities, whether or not on the free list, from a country which discriminates against the United States, a graduated scale of duties up to the maximum of 25 per cent ad valorem provided in the present law.

Flat tariffs are out of date. Nations no longer accord equal tariff treatment to all other nations irrespective of the treatment from them received. Such a flexible power at the command of the executive would serve to moderate any unfavorable tendencies on the part of those countries from which the importations into the United States are substantially confined to articles on the free list as well as of the countries which find a lucrative market in the United States for their products under existing customs rates. It is very necessary that the American government be equipped with weapons of negotiation adapted to modern economic conditions, in order that we may at all times be in a position to gain not only technically just but actually equitable treatment for our trade, and also for American enterprise and vested interests abroad.

BUSINESS WON FOR AMERICA.

As illustrating the commercial benefits to the nation derived from the new diplomacy and its effectiveness upon the material as well as the more ideal side, it may be remarked that through direct official efforts alone there have been obtained in the course of this administration contracts from foreign governments involving an expenditure of \$50,000,000 in the factories of the United States. Consideration of this fact and some reflection upon the necessary effects of a selected tariff system and a foreign service alert and equipped to co-operate with the business men of America carry the conviction that the gratifying increase in the export trade of this country is, in substantial amount, due to our improved governmental methods of protecting and stimulating it.

It is germane to these observations to remark that in the two years that have elapsed since the successful negotiation of our new treaty with Japan, which at the time seemed to present so many practical difficulties, our export trade to that country has increased at the rate of over \$1,000,000 a month. Our exports to Japan for the year ended June 30, 1910, were \$21,359,310, while for the year ended June 30, 1912, the exports were \$53,478,046, a net increase in the sale of American products of nearly 150 per cent.

Under the special agreement entered into between the United States and Great Britain on Aug. 18, 1910, for the arbitration of outstanding pecuniary claims, a schedule of claims and the terms of submission have been agreed upon by the two governments, and together with the special agreement were approved by the senate on July

19, 1911, but in accordance with the terms of the agreement they did not go into effect until confirmed by the two governments by an exchange of notes, which was done on April 26 last.

Negotiations are still in progress for the supplemental schedule of claims to be submitted to arbitration under this agreement and meanwhile the necessary preparations for the arbitration of the claims included in the first schedule have been undertaken and are being carried on under the authority of an appropriation made for that purpose at the last session of congress. It is anticipated that the two governments will be prepared to call upon the arbitration tribunal, established under this agreement, to meet at Washington early next year to proceed with this arbitration.

QUESTION AS TO SEAL TREATY.

The act adopted at the last session of congress to give effect to the fur seal convention of July 7, 1911, between Great Britain, Japan, Russia and the United States provided for the suspension of all land killing of seals on the Pribiloff islands for a period of five years, and an objection has now been presented to this provision by the other parties in interest, which raises the issue as to whether or not this prohibition of land killing is inconsistent with the spirit, if not the letter, of the treaty stipulations.

The justification for establishing this close season depends, under the terms of the convention, upon how far, if at all, it is necessary for protecting and preserving its number. This is a question requiring examination of the present condition of the herd and the treatment which it needs in the light of actual experience and scientific investigation. A careful examination of the subject is now being made, and this government will soon be in possession of a considerable amount of new information about the American seal herd, which has been secured during the last season and will be of great value in determining this question; and if it should appear that there is any uncertainty as to the real necessity for imposing a close season at this time I shall take an early opportunity to address a special message to congress on this subject, in the belief that this government should yield on this point rather than give the slightest ground for the charge that we have been in any way remiss in observing our treaty obligations.

On the 20th of July last an agreement was concluded between the United States and Great Britain, adopting, with certain modifications, the rules and method of procedure recommended in the award rendered by the North Atlantic coast fisheries arbitration tribunal on Sept. 7, 1910, for the settlement hereafter, in accordance with the principles laid down in the award, of questions arising with reference to the exercise of the American fishing liberties under article I of the treaty of Oct. 20, 1818, between the United States and Great Britain. This agreement received the approval of the senate on Aug. 1 and was formally ratified by the two governments on Nov. 15 last. The rules and a method of procedure embodied in the award provided for determining by an impartial tribunal the reasonableness of any new fishery regulations on the treaty coasts of Newfoundland and Canada before such regulations could be enforced against American fishermen exercising their treaty liberties on those coasts, and also for determining the delimitation of bays on such coasts more than ten miles wide, in accordance with the definition adopted by the tribunal of the meaning of the word "bays" as used in the treaty.

In the subsequent negotiations between the two governments, undertaken for the purpose of giving practical effect to these rules and methods of procedure, it was found that certain modifications therein were desirable from the point of view of both governments, and these negotiations have finally resulted in the agreement above mentioned by which the award recommendations as modified by mutual consent of the two governments are finally adopted and made effective, thus bringing this century old controversy to a final conclusion,

which is equally beneficial and satisfactory to both governments.

IMPERIAL VALLEY QUESTION.

In order to make possible the more effective performance of the work necessary for the confinement in their present channel of the waters of the lower Colorado river, and thus to protect the people of the Imperial valley, as well as in order to reach with the government of Mexico an understanding regarding the distribution of the waters of the Colorado river, in which both governments are much interested, negotiations are going forward with a view to the establishment of a preliminary Colorado river commission, which shall have the powers necessary to enable it to do the needful work and with authority to study the question of the equitable distribution of the waters. There is every reason to believe that an understanding upon this point will be reached and that an agreement will be signed in the near future.

In the interest of the people and city of El Paso this government has been assiduous in its efforts to bring to an early settlement the long standing Chamizal dispute with Mexico. Much has been accomplished, and, while the final solution of the dispute is not immediate, the favorable attitude lately assumed by the Mexican government encourages the hope that this troublesome question will be satisfactorily and definitely settled at an early day.

In pursuance of the convention of Aug. 23, 1906, signed at the third pan-American conference, held at Rio de Janeiro, the international commission of jurists met at that capital during the month of June. At this meeting sixteen American republics were represented, including the United States, and comprehensive plans for the future work of the commission were adopted. At the next meeting, fixed for June, 1914, committees already appointed are instructed to report regarding topics assigned to them.

OPIMUM CONFERENCE REVIEWED.

In my message on foreign relations communicated to the two houses of congress Dec. 7, 1911, I called especial attention to the assembling of the opium conference at The Hague, to the fact that that conference was to review all pertinent municipal laws relating to the opium and allied evils, and certainly all international rules regarding these evils, and to the fact that it seemed to me most essential that the congress should take immediate action on the antinarcotic legislation before the congress, to which I had previously called attention by a special message.

The international convention adopted by the conference conforms almost entirely to the principles contained in the proposed antinarcotic legislation which has been before the last two congresses. It was most unfortunate that this congress, having taken the initiative in the international action which eventuated in the important international opium convention, failed to do its share in the great work by neglecting to pass the necessary legislation to correct the deplorable narcotic evil in the United States as well as to redeem international pledges upon which it entered by virtue of the above mentioned convention. The congress at its present session should enact into law those bills now before it which have been so carefully drawn up in collaboration between the department of state and the other executive departments, and which have behind them not only the moral sentiment of the country but the practical support of all the legitimate trade interests likely to be affected. Since the international convention was signed adherence to it has been made by several European states not represented at the conference at The Hague and also by seventeen Latin-American republics.

KEEPS OUT OF BALKAN WAR.

The war between Italy and Turkey came to a close in October last by the signature of a treaty of peace, subsequently to which the Ottoman empire renounced sovereignty over Cyrenaica and Tripolitania in favor of Italy. During the last

year the near east has unfortunately been the theater of constant hostilities. Almost simultaneously with the conclusion of peace between Italy and Turkey and their arrival at an adjustment of the complex questions at issue between them, war broke out between Turkey on the one hand and Bulgaria, Greece, Montenegro and Serbia on the other.

The United States has happily been involved neither directly nor indirectly with the causes or questions incident to any of these hostilities and has maintained in regard to them an attitude of absolute neutrality and of complete political disinterestedness. In the second war in which the Ottoman empire has been engaged the loss of life and the consequent distress on both sides have been appalling, and the United States has found occasion, in the interest of humanity, to carry out the charitable desires of the American people, to extend a measure of relief to the sufferers on either side through the impartial medium of the Red Cross.

Beyond this the chief care of the government of the United States has been to make due provision for the protection of its nationals resident in belligerent territory. In the exercise of my duty in this matter I have dispatched to Turkish waters a special service squadron consisting of two armored cruisers, in order that this government may, if need be, bear its part in such measures as may be necessary for the interested nations to adopt for the safeguarding of foreign lives and property in the Ottoman empire in the event that a dangerous situation should develop. In the meanwhile the several interested European powers have promised to extend to American citizens the benefit of such precautionary or protective measures as they might adopt, in the same manner in which it has been the practice of this government to extend its protection to foreigners resident in those countries of the western hemisphere in which it has from time to time been the task of the United States to act in the interest of peace and good order.

The early appearance of a large fleet of European warships in the Bosphorus apparently assured the protection of foreigners in that quarter, where the presence of the American stationnaire, the U. S. S. Scorpion, sufficed, under the circumstances, to represent the United States. Our cruisers were thus left free to act if need be along the Mediterranean coast should any unexpected contingency arise affecting the numerous American interests in the neighborhood of Smyrna and Beirut.

The great preponderance of American material interests in the subarctic island of Spitzbergen, which has always been regarded politically as "no man's land," impels this government to a continued and lively interest in the international dispositions to be made for the political governance and administration of that region. The conflict of certain claims of American citizens and others is in a fair way to adjustment, while the settlement of matters of administration, whether by international conference of the interested powers or otherwise, continues to be the subject of exchange of views between the governments concerned.

LIBERIAN FINANCES BETTER.

As a result of the efforts of this government to place the government of Liberia in position to pay its outstanding indebtedness and to maintain a stable and efficient government, negotiations for a loan of \$1,700,000 have been successfully concluded, and it is anticipated that the payment of the old loan and the issuance of the bonds of the 1912 loan for the rehabilitation of the finances of Liberia will follow at an early date, when the new receivership will go into active operation. The new receivership will consist of a general receiver of customs designated by the government of the United States and three receivers of customs designated by the governments of Germany, France and Great Britain, which countries have commercial interests in the republic of Liberia.

In carrying out the understanding between the government of Liberia and that of the United

States, and in fulfilling the terms of the agreement between the former government and the American bankers, three competent ex-army officers are now effectively employed by the Liberian government in reorganizing the police force of the republic, not only to keep in order the native tribes in the hinterland but to serve as a necessary police force along the frontier. It is hoped that these measures will assure not only the continued existence but the prosperity and welfare of the republic of Liberia.

Liberia possesses fertility of soil and natural resources which should insure to its people a reasonable prosperity. It was the duty of the United States to assist the republic of Liberia in accordance with our historical interest and moral guardianship of a community founded by American citizens, as it was also the duty of the American government to attempt to assure permanence to a country of much sentimental and perhaps future real interest to a large body of our citizens.

The legation at Tangier is now in charge of our consul-general, who is acting as charge d'affaires, as well as caring for our commercial interests in that country. In view of the fact that many of the foreign powers are now represented by charges d'affaires, it has not been deemed necessary to appoint at the present time a minister to fill a vacancy occurring in that post.

SYMPATHY WITH NEW CHINA.

The political disturbances in China in the autumn and winter of 1911-12 resulted in the abdication of the Manchur rulers on Feb. 12, followed by the formation of a provisional republican government empowered to conduct the affairs of the nation until a permanent government might be regularly established. The natural sympathy of the American people with the assumption of republican principles by the Chinese people was appropriately expressed in a concurrent resolution of congress on April 17, 1912. A constituent assembly, composed of representatives duly chosen by the people of China in the elections that are now being held, has been called to meet in January next to adopt a permanent constitution and organize the government of the nascent republic. During the formative constitutional stage and pending definite action by the assembly, as expressive of the popular will, and the hoped-for establishment of a stable republican form of government, capable of fulfilling its international obligations, the United States is, according to precedent, maintaining full and friendly de facto relations with the provisional government.

The new condition of affairs thus created has presented many serious and complicated problems, both of internal rehabilitation and of international relations, whose solution it was realized would necessarily require much time and patience. From the beginning of the upheaval last autumn it was felt by the United States, in common with the other powers having large interests in China, that independent action by the foreign governments in their own individual interests would add further confusion to a situation already complicated. A policy of international co-operation was accordingly adopted in an understanding, reached early in the disturbances, to act together for the protection of the lives and property of foreigners if menaced, to maintain an attitude of strict impartiality as between the contending factions and to abstain from any endeavor to influence the Chinese in their organization of a new form of government.

In view of the seriousness of the disturbances and their general character, the American minister at Peking was instructed in his discretion to advise our nationals in the affected districts to concentrate at such centers as were easily accessible to foreign troops or men-of-war. Nineteen of our naval vessels were stationed at various Chinese ports, and other measures were promptly taken for the adequate protection of American interests.

It was further mutually agreed, in the hope of hastening an end to hostilities, that none of the interested powers would approve the making of

loans by its nationals to either side. As soon, however, as a united provisional government of China was assured, the United States joined in a favorable consideration of that government's request for advances needed for immediate administrative necessities and later for a loan to effect a permanent national reorganization. The interested governments had already, by common consent, adopted, in respect to the purposes, expenditure and security of any loans to China made by their nationals, certain conditions which were held to be essential, not only to secure reasonable protection for the foreign investors, but also to safeguard and strengthen China's credit by discouraging indiscriminate borrowing and by insuring the application of the funds toward the establishment of the stable and effective government necessary to China's welfare. In June last representative banking groups of the United States, France, Germany, Great Britain, Japan and Russia formulated, with the general sanction of their respective governments, the guaranties that would be expected in relation to the expenditure and security of the large reorganization loan desired by China, which, however, have thus far proved unacceptable to the provisional government.

In August last I accredited the secretary of state as special ambassador to Japan, charged with the mission of healing to the imperial family, the government and the people of that empire the sympathetic message of the American commonwealth on the sad occasion of the death of his majesty the Emperor Mutsuhito, whose long and benevolent reign was the greater part of Japan's modern history. The kindly reception everywhere accorded to Secretary Knox showed that his mission was deeply appreciated by the Japanese nation and emphasized strongly the friendly relations that have for so many years existed between the two peoples.

SOUTH AMERICAN STATUS.

Our relations with the Argentine Republic are most friendly and cordial. So also, are our relations with Brazil, whose government has accepted the invitation of the United States to send two army officers to study at the coast artillery school at Fort Monroe.

The long standing Alsop claim, which had been the only hindrance to the healthy growth of the most friendly relations between the United States and Chile, having been eliminated through the submission of the question to his Britannic majesty King George V., as "amiable compositure," it is a cause of much gratification to me that our relations with Chile are now established upon a firm basis of growing friendship. The Chilean government has placed an officer of the United States coast artillery in charge of the Chilean coast artillery school and has shown appreciation of American methods by confiding to an American firm important work for the Chilean coast defenses.

Last year a revolution against the established government of Ecuador broke out at the principal port of that republic. Previous to this occurrence the chief American interest in Ecuador, represented by the Guayaquil & Quito Railway company, incorporated in the United States, had rendered extensive transportation and other services on account to the Ecuadorian government, the amount of which ran into a sum which was steadily increasing and which the Ecuadorian government had made no provision to pay, thereby threatening to crush out the very existence of this American enterprise. When tranquility had been restored to Ecuador as a result of the triumphant progress of the government forces from Quito, this government interposed its good offices to the end that the American interests in Ecuador might be saved from complete extinction. As a part of this arrangement which was reached between the parties, and at the request of the government of Ecuador, I have consented to name an arbitrator, who, acting under the terms of the railway contract with an arbitrator named by the Ecuadorian government, will pass upon the claims that have arisen since the arrangement reached through the action of a similar arbitral tribunal in 1908.

In pursuance of a request made some time ago by the Ecuadorian government, the department of state has given much attention to the problem of the proper sanitation of Guayaquil. As a result a detail of officers of the canal zone will be sent to Guayaquil to recommend measures that will lead to the complete permanent sanitation of this plague and fever infected region of that republic, which has for so long constituted a menace to health conditions on the canal zone. It is hoped that the report which this mission will furnish will point out a way whereby the modicum of assistance which the United States may properly lend the Ecuadorian government may be made effective in ridding the west coast of South America of a focus of contagion to the future commercial current passing through the Panama canal.

In the matter of the claim of John Celestine Landreau against the government of Peru, which claim arises out of certain contracts and transactions in connection with the discovery and exploitation of guano, and which has been under discussion between the two governments since 1874, I am glad to report that as the result of prolonged negotiations, which have been characterized by the utmost friendliness and good will on both sides, the department of state has succeeded in securing the consent of Peru to the arbitration of the claim, and that the negotiations attending the drafting and signature of a protocol submitting the claim to an arbitral tribunal are proceeding with due celerity.

An officer of the American public health service and an American sanitary engineer are now on the way to Iquitos, in the employ of the Peruvian government, to take charge of the sanitation of that river port. Peru is building a number of submarines in this country and continues to show every desire to have American capital invested in the republic.

In July the United States sent undergraduate delegates to the third international students' congress held at Lima, American students having been for the first time invited to one of these meetings.

The republic of Uruguay has shown its appreciation of American agricultural and other methods by sending a large commission to this country and by employing many American experts to assist in building up agricultural and allied industries in Uruguay.

Venezuela is paying off the last of the claims the settlement of which was provided for by the Washington protocols, including those of American citizens. Our relations with Venezuela are most cordial, and the trade of that republic with the United States is now greater than with any other country.

SAN DOMINGO NEAR CHAOS.

During the last summer the revolution against the administration which followed the assassination of President Caceres a year ago last November brought the Dominican republic to the verge of administrative chaos, without offering any guaranties of eventual stability in the ultimate success of either party. In pursuance of the treaty relations of the United States with the Dominican republic, which were threatened by the necessity of suspending the operation under American administration of the custom houses on the Haitian frontier, it was found necessary to dispatch special commissioners to the island to re-establish the custom houses and with a guard sufficient to insure needed protection to the customs administration. The efforts which have been made appear to have resulted in the restoration of normal conditions throughout the republic. The good offices which the commissioners were able to exercise were instrumental in bringing the contending parties together and in furnishing a basis of adjustment which it is hoped will result in permanent benefit to the Dominican people.

Mindful of its treaty relations, and owing to the position of the government of the United States as mediator between the Dominican republic and Haiti in their boundary dispute and because of the further fact that the revolution-

any activities on the Haitien-Dominican frontier had become so active as practically to obliterate the line of demarcation that had been heretofore recognized pending the definitive settlement of the boundary in controversy, it was found necessary to indicate to the two island governments a provisional de facto boundary line. This was done without prejudice to the rights or obligations of either country in a final settlement to be reached by arbitration. The tentative line chosen was one which, under the circumstances brought to the knowledge of this government, seemed to conform to the best interests of the disputants. The border patrol which it had been found necessary to re-establish for customs purposes between the two countries was instructed provisionally to observe this line.

MARINES LANDED IN CUBA.

The republic of Cuba last May was in the throes of a lawless uprising that for a time threatened the destruction of a great deal of valuable property—much of it owned by Americans and other foreigners—as well as the existence of the government itself. The armed forces of Cuba being inadequate to guard property from attack and at the same time properly to operate against the rebels, a force of American marines was dispatched from our naval station at Guantanamo into the province of Oriente for the protection of American and other foreign life and property. The Cuban government was thus able to use all its forces in putting down the outbreak, which it succeeded in doing in a period of six weeks. The presence of two American warships in the harbor of Havana during the most critical period of this disturbance contributed in great measure to allay the fears of the inhabitants, including a large foreign colony.

There has been under discussion with the government of Cuba for some time the question of the release by this government of its leasehold rights at Bahia Honda, on the northern coast of Cuba, and the enlargement, in exchange therefor, of the naval station which has been established at Guantanamo bay, on the south. As the result of the negotiations thus carried on an agreement has been reached between the two governments providing for the suitable enlargement of the Guantanamo bay station upon terms which are entirely fair and equitable to all parties concerned.

At the request alike of the government and both political parties in Panama, an American commission undertook supervision of the recent presidential election in that republic, where our treaty relations and, indeed, every geographical consideration, make the maintenance of order and satisfactory conditions of peculiar interest to the government of the United States. The elections passed without disorder, and the new administration has entered upon its functions.

SEES DUTY IN GUATEMALA.

The government of Great Britain has asked the support of the United States for the protection of the interests of British holders of the foreign bonded debt of Guatemala. While this government is hopeful of an arrangement equitable to the British bondholders, it is naturally unable to view the question apart from its relation to the broad subject of financial stability in Central America, in which the policy of the United States does not permit it to escape a vital interest. Through a renewal of negotiations between the government of Guatemala and American bankers, the aim of which is a loan for the rehabilitation of Guatemalan finances, a way appears to be open by which the government of Guatemala could promptly satisfy any equitable and just British claims, and at the same time so improve its whole financial position as to contribute greatly to the increased prosperity of the republic and to redound to the benefit of foreign investments and foreign trade with that country. Failing such an arrangement, it may become impossible for the government of the United States to escape its obligations in connection with such measures as may become necessary to exact justice to legitimate foreign claims.

In the recent revolution in Nicaragua, which, it was generally admitted, might well have resulted in a general Central American conflict but for the intervention of the United States, the government of Honduras was especially menaced; but fortunately peaceful conditions were maintained within the borders of that republic. The financial condition of that country remains unchanged, no means having been found for the final adjustment of pressing outstanding foreign claims. This makes it the more regrettable that the financial convention between the United States and Honduras has thus far failed of ratification. The government of the United States continues to hold itself ready to co-operate with the government of Honduras, which, it is believed, cannot much longer delay the meeting of its foreign obligations, and it is hoped at the proper time American bankers will be willing to co-operate for this purpose.

CHANCES ABROAD ARE VAST.

It is not possible to make to the congress a communication upon the present foreign relations of the United States so detailed as to convey an adequate impression of the enormous increase in the importance and activities of those relations. If this government is really to preserve to the American people that free opportunity in foreign markets which will soon be indispensable to our prosperity, even greater efforts must be made. Otherwise the American merchant, manufacturer and exporter will find many a field in which American trade should logically predominate pre-empted through the more energetic efforts of other governments and other commercial nations.

There are many ways in which through hearty co-operation the legislative and executive branches of this government can do much. The absolute essential is the spirit of united effort and singleness of purpose.

I will allude only to a very few specific examples of action which ought then to result. America cannot take its proper place in the most important fields for its commercial activity and enterprise unless we have a merchant marine. American commerce and enterprise cannot be effectively fostered in those fields unless we have good American banks in the countries referred to. We need American newspapers in those countries and proper means for public information about them. We need to assure the permanency of a trained foreign service. We need legislation enabling the members of the foreign service to be systematically brought in direct contact with the industrial, manufacturing and exporting interests of this country in order that American business men may enter the foreign field with a clear perception of the exact conditions to be dealt with and the officers themselves may prosecute their work with clear idea of what American industrial and manufacturing interests require.

NATION IN NEW POSITION.

Congress should fully realize the conditions which obtain in the world as we find ourselves at the threshold of our middle age as a nation. We have emerged full grown as a peer in the great concourse of nations. We have passed through various formative periods. We have been self-centered in the struggle to develop our domestic resources and deal with our domestic questions. The nation is now too mature to continue in its foreign relations those temporary expedients natural to a people to whom domestic affairs are the sole concern. In the past our diplomacy has often contested, in normal times, in a mere assertion of the right to international existence. We are now in a larger relation, with broader rights of our own and obligations to others than ourselves.

A number of great guiding principles were laid down early in the history of this government. The recent task of our diplomacy has been to adjust those principles to the conditions of to-day, to develop their corollaries, to find practical applications of the old principles expanded to meet new situations. Thus are being evolved bases upon which can rest the superstructure of policies

which must grow with the destined progress of this nation.

The successful conduct of our foreign relations demands a broad and a modern view. We cannot meet new questions nor build for the future if we confine ourselves to outworn dogmas of the past and to the perspective appropriate at our emergence from colonial times and conditions.

The opening of the Panama canal will mark a new era in our international life and create new

and world wide conditions, which, with their vast correlations and consequences, will obtain for hundreds of years to come. We must not wait for events to overtake us unawares. With continuity of purpose we must deal with the problems of our external relations by a diplomacy modern, resourceful, magnanimous and fittingly expressive of the high ideals of a great nation.

WM. H. TAFT.

The White House, Dec. 3, 1912.

THE PRESIDENT'S MESSAGE (NO. 2).

To the Senate and House of Representatives: On the 3d of December I sent a message to the congress which was confined to our foreign relations. The secretary of state makes no report to the president or to congress, and a review of the history of the transactions of the state department in one year must therefore be included by the president in his annual message or congress will not be fully informed of them. A full discussion of all the transactions of the government, with a view to informing the congress of the important events of the year and recommending new legislation, requires more space than one message of reasonable length affords. I have therefore adopted the course of sending three or four messages during the first ten days of the session, so as to include reference to the more important matters that should be brought to the attention of the congress.

The condition of the country with reference to business could hardly be better. While the four years of the administration now drawing to a close have not developed great speculative expansion of a wide field of new investment, the recovery and progress made from the depressing conditions following the panic of 1907 have been steady and the improvement has been clear and easily traced in the statistics. The business of the country is now on a solid basis. Credits are not unduly extended and every phase of the situation seems in a state of preparedness for a period of unexampled prosperity.

Manufacturing concerns are running at their full capacity and the demand for labor was never so constant and growing. The foreign trade of the country for this year will exceed \$4,000,000,000, while the balance in our favor—that of the excess of exports over imports—will exceed \$500,000,000. More than half our exports are manufactures or partly manufactured material, while our exports of farm products do not show the same increase because of domestic consumption.

It is a year of bumper crops; the total money value of farm products will exceed \$9,500,000,000. It is a year when the bushel or unit price of agricultural products has gradually fallen, and yet the total value of the entire crop is greater by over \$1,000,000,000 than we have known in our history.

CONDITION OF THE TREASURY.

The condition of the treasury is very satisfactory. The total interest bearing debt is \$963,777,770, of which \$134,631,980 constitutes the Panama canal loan. The noninterest bearing debt is \$378,301,284.90, including \$346,681,016 of greenbacks. We have in the treasury \$150,000,000 in gold coin as a reserve against the outstanding greenbacks; and in addition we have a cash balance in the treasury as a general fund of \$167,152,478.99, or an increase of \$28,973,552 over the general fund last year.

For three years the expenditures of the government have decreased under the influence of an effort to economize. This year presents an apparent exception. The estimate by the secretary of the treasury of the ordinary receipts, exclusive of postal revenues, for the year ending June 30, 1914, indicates that they will amount to \$710,000,000. The sum of the estimates of the expenditures for that same year, exclusive of the Panama canal disbursements and postal disbursements payable from postal revenues, is \$732,000,000, indicating a deficit of \$22,000,000. For the year ending June 30, 1913, similarly estimated receipts were \$667,000,000, while the total

corresponding estimate of expenditures for that year, submitted through the secretary of the treasury to congress, amounted to \$656,000,000. This shows an increase of \$76,000,000 in the estimates for 1914 over the total estimates of 1913. This is due to an increase of \$25,000,000 in the estimate for rivers and harbors for the next year on projects and surveys authorized by congress; to an increase under the new pension bill of \$32,500,000, and to an increase in the estimates for expenses of the navy department of \$24,000,000.

The estimate for the navy department for the year 1913 included two battle ships. Congress made provision for only one battle ship, and therefore the navy department has deemed it necessary and proper to make an estimate which includes the first year's expenditure for three battle ships in addition to the amount required for work on the uncompleted ships now under construction. In addition to the natural increase in the expenditures for the uncompleted ships, and the additional battle ship estimated for, the other increases are due to the pay required for 4,000 or more additional enlisted men in the navy; and to this must be added the additional cost of construction imposed by the change in the eight-hour law which makes it applicable to ships built in private shipyards.

With the exceptions of these three items the estimates show a reduction this year below the total estimates for 1913 of more than \$5,000,000.

The estimates for Panama canal construction for 1914 are \$17,000,000 less than for 1913.

CURRENCY SYSTEM CRYING NEED.

A time when panics seem far removed is the best time for us to prepare our financial system to withstand storm. The most crying need this country has is a proper banking and currency system. The existing one is inadequate, and every one who has studied the question admits it.

It is the business of the national government to provide a medium, automatically contracting and expanding in volume, to meet the needs of trade. Our present system lacks the indispensable quality of elasticity.

The only part of our monetary medium that has elasticity is the bank note currency. The peculiar provisions of the law requiring national banks to maintain reserves to meet the call of the depositors operate to increase the money stringency when it arises rather than to expand the supply of currency and relieve it. It operates upon each bank and furnishes a motive for the withdrawal of currency from the channels of trade by each bank to save itself, and offers no inducement whatever for the use of the reserve to expand the supply of currency to meet the exceptional demand.

After the panic of 1907 congress realized that the present system was not adapted to the country's needs and that under it panics were possible that might properly be avoided by legislative provision. Accordingly a monetary commission was appointed which made a report in February, 1912. The system which they recommended involved a national reserve association, which was, in certain of its faculties and functions, a bank, and which was given through its governing authorities the power, by issuing circulating notes for approved commercial paper, by fixing discounts and by other methods of transfer of currency, to expand the supply of the monetary medium where it was most needed to prevent the export or hoarding of gold and generally to exercise such supervision over the supply of money in every part of the country as to pre-

vent a stringency and a panic. The stock in this association was to be distributed to the banks of the whole United States, state and national, in a mixed proportion to bank units and to capital stock paid in. The control of the association was vested in a board of directors to be elected by representatives of the banks, except certain ex officio directors, three cabinet officers and the comptroller of the currency. The president was to appoint the governor of the association from three persons to be selected by the directors, while the two deputy governors were to be elected by the board of directors.

PLAN WORKED OUT CAREFULLY.

The details of the plan were worked out with great care and ability, and the plan in general seems to me to furnish the basis for a proper solution of our present difficulties. I feel that the government might very properly be given a greater voice in the executive committee of the board of directors without danger of injecting politics into its management, but I think the federation system of banks is a good one, provided proper precautions are taken to prevent banks of large capital from absorbing power through ownership of stock in other banks. The objections to a central bank, it seems to me, are obviated if the ownership of the reserve association is distributed among all the banks of a country in which banking is free. The earnings of the reserve association are limited in percentage to a reasonable and fixed amount, and the profits over and above this are to be turned into the government treasury. It is quite probable that still greater security against control by money centers may be worked into the plan.

Certain it is, however, that the objections which were made in the past history of this country to a central bank as furnishing a monopoly of financial power to private individuals would not apply to an association whose ownership and control is so widely distributed and is divided between all the banks of the country, state and national, on the one hand, and the chief executive through three department heads and his comptroller of the currency on the other.

The ancient hostility to a national bank, with its branches, in which is concentrated the privilege of doing a banking business and carrying on the financial transactions of the government, has prevented the establishment of such a bank since it was abolished in the Jackson administration. Our present national banking law has obviated objections growing out of the same cause by providing a free banking system in which any set of stockholders can establish a national bank if they comply with the conditions of law. It seems to me that the national reserve association meets the same objection in a similar way; that is, by giving to each bank, state and national, in accordance with its size, a certain share in the stock of the reserve association, nontransferable and only to be held by the bank while it performs its functions as a partner in the reserve association.

ASKS FOR CONSIDERATION.

The report of the commission recommends provisions for the imposition of a graduated tax on the expanded currency of such a character as to furnish a motive for reducing the issue of notes whenever their presence in the money market is not required by the exigencies of trade. In other words, the whole system has been worked out with the greatest care. Theoretically it presents a plan that ought to command support. Practically it may require modification in various of its provisions in order to make the security against abuses by combinations among the banks impossible. But in the face of the crying necessity that there is for improvement in our present system, I urgently invite the attention of congress to the proposed plan and the report of the commission, with the hope that an earnest consideration may suggest amendments and changes within the general plan which will lead to its adoption for the benefit of the country.

There is no class in the community more inter-

ested in a safe and sane banking and currency system, one which will prevent panics and automatically furnish in each trade center the currency needed in the carrying on of the business at that center, than the wage earner. There is no class in the community whose experience better qualifies them to make suggestions as to the sufficiency of a currency and banking system than the bankers and business men. Ought we, therefore, to ignore their recommendations and reject their financial judgment as to the proper method of reforming our financial system merely because of the suspicion which exists against them in the minds of many of our fellow citizens? Is it not the duty of congress to take up the plan suggested, examine it from all standpoints, give impartial consideration to the testimony of those whose experience ought to fit them to give the best advice on the subject, and then to adopt some plan which will secure the benefits desired?

A banking and currency system seems far away from the wage earner and the farmer, but the fact is that they are vitally interested in a safe system of currency which shall guarantee its volume to the amount needed and which shall prevent times of artificial stringency that frighten capital, stop employment, prevent the meeting of the payroll, destroy local markets and produce penury and want.

NO RECOMMENDATION ON TARIFF.

I have regarded it as my duty in former messages to the congress to urge the revision of the tariff upon principles of protection. It was my judgment that the customs duties ought to be revised downward, but that the reduction ought not to be below a rate which would represent the difference in the cost of production between the article in question at home and abroad, and for this and other reasons I vetoed several bills which were presented to me in the last session of this congress. Now that a new congress has been elected on a platform of a tariff for revenue only rather than a protective tariff, and is to revise the tariff on that basis, it is needless for me to occupy the time of this congress with arguments or recommendations in favor of a protective tariff.

Before passing from the tariff law, however, known as the Payne tariff law of Aug. 5, 1909, I desire to call attention to section 38 of that act, assessing a special excise tax on corporations. It contains a provision requiring the levy of an additional 50 per cent to the annual tax in cases of neglect to verify the prescribed return or to file it before the time required by law. This additional charge of 50 per cent operates in some cases as a harsh penalty for what may have been a mere inadvertence or unintentional oversight, and the law should be so amended as to mitigate the severity of the charge in such instances. Provision should also be made for the refund of additional taxes heretofore collected because of such infractions in those cases where the penalty imposed has been so disproportionate to the offense as equitably to demand relief.

The estimates for the next fiscal year have been assembled by the secretary of the treasury and by him transmitted to congress. I propose at a later day to submit to congress a form of budget prepared for me and recommended by the president's commission on economy and efficiency, with a view of suggesting the useful and informing character of a properly framed budget.

WORK OF WAR DEPARTMENT.

The war department combines within its jurisdiction functions which in other countries usually occupy three departments. It not only has the management of the army and the coast defenses, but its jurisdiction extends to the government of the Philippines and of Porto Rico and the control of the receivership of the customs revenues of the Dominican republic; it also includes the recommendation of all plans for the improvement of harbors and waterways and their execution when adopted, and, by virtue of an executive order, the supervision of the construction of the Panama canal.

Our small army now consists of 83,809 men, excluding the 5,000 Philippine scouts. Leaving out of consideration the coast artillery force, whose position is fixed in our various seacoast defenses, and the present garrisons of our various insular possessions, we have to-day within the continental United States a mobile army of only about 35,000 men. This little force must be still further drawn upon to supply the new garrisons for the great naval base which is being established at Pearl harbor, in the Hawaiian islands, and to protect the locks now rapidly approaching completion at Panama. The forces remaining in the United States are now scattered in nearly fifty posts, situated for a variety of historical reasons in twenty-four states. These posts contain only fractions of regiments, averaging less than 700 men each.

In time of peace it has been our historical policy to administer these units separately by geographical organization. In other words, our army in time of peace has never been a united organization, but merely scattered groups of companies, battalions and regiments, and the first task in time of war has been to create out of these scattered units an army fit for effective teamwork and co-operation.

To the task of meeting these patent defects the war department has been addressing itself during the last year. For many years we had no officer or division whose business it was to study these problems and plan remedies for these defects. With the establishment of the general staff nine years ago a body was created for this purpose. It has, necessarily, required time to overcome, even in its own personnel, the habits of mind engendered by a century of lack of method, but of late years its work has become systematic and effective, and it has recently been addressing itself vigorously to these problems.

REORGANIZATION PLAN READY.

A comprehensive plan of army reorganization was prepared by the war college division of the general staff. This plan was thoroughly discussed last summer at a series of open conferences held by the secretary of war and attended by representatives from all the branches of the army and from congress. In printed form it has been distributed to members of congress and throughout the army and the national guard, and widely through institutions of learning and elsewhere in the United States. In it, for the first time, we have a tentative chart for future progress.

Under the influence of this study definite and effective steps have been taken toward army reorganization so far as such reorganization lies within the executive power. Hitherto there has been no organization of policy in the treatment of the garrisons of our foreign garrisons from those of troops within the United States. The difference of situation is vital, and the foreign garrison should be prepared to defend itself at an instant's notice against a foe who may command the sea. Unlike the troops in the United States, it cannot count upon re-enforcements or recruitment. It is an outpost upon which will fall the brunt of the first attack in case of war. The historical policy of the United States of carrying its regiments during time of peace at half strength has no application to our foreign garrisons.

During the last year this defect has been remedied as to the Philippines garrison. The former garrison of twelve reduced regiments has been replaced by a garrison of six regiments at full strength, giving fully the same number of riflemen at an estimated economy in cost of maintenance of over \$1,000,000 per year. This garrison is to be permanent. Its regimental units, instead of being transferred periodically back and forth from the United States, will remain in the islands. The officers and men composing these units will, however, serve a regular tropical detail as usual, thus involving no greater hardship upon the personnel and greatly increasing the effectiveness of the garrison. A similar policy is proposed for the Hawaiian and Panama garrisons as fast as the barracks for them are completed. I strongly urge upon con-

gress that the necessary appropriations for this purpose should be promptly made. It is, in my opinion, of first importance that these national outposts, upon which a successful home defense will, primarily, depend, should be finished and placed in effective condition at the earliest possible day.

ARMY REFORMS MADE AT HOME.

Simultaneously with the foregoing steps the war department has been proceeding with the reorganization of the army at home. The formerly disassociated units are being united into a tactical organization of three divisions, each consisting of two or three brigades of infantry and, so far as practicable, a proper proportion of divisional cavalry and artillery. Of course the extent to which this reform can be carried by the executive is practically limited to a paper organization. The scattered units can be brought under a proper organization, but they will remain physically scattered until congress supplies the necessary funds for grouping them in more concentrated posts. Until that is done the present difficulty of drilling our scattered groups together, and thus training them for the proper team play, cannot be removed. But we shall, at least, have an army which will know its own organization and will be inspected by its proper commanders, and to which, as a unit, emergency orders can be issued in time of war or other emergency. Moreover, the organization, which in many respects is necessarily a skeleton, will furnish a guide for future development. The separate regiments and companies will know the brigades and divisions to which they belong. They will be maneuvered together whenever maneuvers are established by congress, and the gaps in their organization will show the pattern into which can be filled new troops as the nation grows and a larger army is provided.

One of the most important reforms accomplished during the last year has been the legislation enacted in the army appropriation bill of last summer, providing for a regular army reserve. Hitherto our national policy has assumed that at the outbreak of war our regiments would be immediately raised to full strength. But our laws have provided no means by which this could be accomplished, or by which the losses of the regiments when once sent to the front could be repaired. In this respect we have neglected the lessons learned by other nations. The new law provides that the soldier, after serving four years with colors, shall pass into a reserve for three years. At his option he may go into the reserve at the end of three years, remaining there for four years. While in the reserve he can be called to active duty only in case of war or other national emergency, and when so called and only in such case will receive a stated amount of pay for all of the period in which he has been a member of the reserve. The legislation is imperfect, in my opinion, in its details, but it is most important step in the right direction, and I earnestly hope that it will be carefully studied and perfected by congress.

ADVOCATES MILITIA PAY BILL.

Under existing law the national guard constitutes after the regular army the first line of national defense. Its organization, discipline, training and equipment, under recent legislation, have been assimilated, as far as possible, to those of the regular army, and its practical efficiency, under the effect of this training, has very greatly increased. Our citizen soldiers under present conditions have reached a stage of development beyond which they cannot reasonably be asked to go without further direct assistance in the form of pay from the federal government. On the other hand, such pay from the national treasury would not be justified unless it produced a proper equivalent in additional efficiency on the part of the national guard.

The organized militia to-day cannot be ordered outside of the limits of the United States, and thus cannot lawfully be used for general military purposes. The officers and men are ambitious and eager to make themselves thus available, and to become an efficient national reserve of

citizen soldiery. They are the only force of trained men, other than the regular army, upon which we can rely. The so-called militia pay bill, in the form agreed on between the authorities of the war department and the representatives of the national guard, in my opinion adequately meets these conditions and offers a proper return for the pay which it is proposed to give to the national guard. I believe that its enactment into law would be a very long step toward providing this nation with a first line of citizen soldiery, upon which its main reliance must depend in case of any national emergency. Plans for the organization of the national guard into tactical divisions, on the same lines as those adopted for the regular army, are being formulated by the war college division of the general staff.

The national guard consists of only about 110,000 men. In any serious war in the past it has always been necessary, and in such a war in the future it doubtless will be necessary, for the nation to depend, in addition to the regular army and the national guard, upon a large force of volunteers. There is at present no adequate provision of law for the raising of such a force. There is now pending in congress, however, a bill which makes such provision, and which I believe is admirably adapted to meet the exigencies which would be presented in case of war. The passage of the bill would not entail a dollar's expense upon the government at this time or in the future until war comes. But if war comes the methods therein directed are in accordance with the best military judgment as to what they ought to be, and the act would prevent the necessity for a discussion of any legislation and the delays incident to its consideration and adoption. I earnestly urge its passage.

The army appropriation act of 1912 also carried legislation for the consolidation of the quartermaster's department, the subsistence department and the pay corps into a single supply department, to be known as the quartermaster's corps. It also provided for the organization of a special force of enlisted men, to be known as the service corps, gradually to replace many of the civilian employees engaged in the manual labor necessary in every army. I believe that both of these enactments will improve the administration of our military establishment. The consolidation of the supply corps has already been effected, and the organization of the service corps is being put into effect.

All of the foregoing reforms are in the direction of economy and efficiency. Except for the slight increase necessary to garrison our outposts in Hawaii and Panama, they do not call for a larger army, but they do tend to produce a much more efficient one. The only substantial new appropriations required are those which, as I have pointed out, are necessary to complete the fortifications and barracks at our naval bases and outposts beyond the sea.

PROGRESS IN PORTO RICO.

Porto Rico continues to show notable progress, both commercially and in the spread of education. Its external commerce has increased 17 per cent over the preceding year, bringing the total value up to \$92,631,886, or more than five times the value of the commerce of the island in 1901. During the year 160,657 pupils were enrolled in the public schools, an increase of 145,525 over the preceding year and as compared with 26,000 for the first year of American administration. Special efforts are under way for the promotion of vocational and industrial training, the need of which is particularly pressing in the island. When the bubonic plague broke out last June the quick and efficient response of the people of Porto Rico to the demands of modern sanitation was strikingly shown by the thorough campaign which was instituted to meet the plague and the hearty public opinion which supported the government's efforts to check its progress and to prevent its recurrence.

The failure thus far to grant American citizenship continues to be the only ground of dissatisfaction. The bill conferring such citizenship has

passed the house of representatives and is now awaiting the action of the senate. I am heartily in favor of the passage of this bill. I believe that the demand for citizenship is just, and that it is amply earned by sustained loyalty on the part of the inhabitants of the island. But it should be remembered that the demand must be and in the minds of most Porto Ricans is, entirely disassociated from any thought of statehood. I believe that no substantial approved public opinion in the United States or in Porto Rico contemplates statehood for the island as the ultimate form of relation between us. I believe that the aim to be striven for is the fullest possible allowance of legal and fiscal self-government, with American citizenship as the bond between us; in other words, a relation analogous to the present relation between Great Britain and such self-governing colonies as Canada and Australia. This would conduce to the fullest and most self-sustaining development of Porto Rico, while at the same time it would grant her the economic and political benefits of being under the American flag.

OPPOSES ISLAND INDEPENDENCE.

A bill is pending in congress which revolutionizes the carefully worked out scheme of government under which the Philippine islands are now governed and which proposes to render them virtually autonomous at once and absolutely independent in eight years. Such a proposal can only be founded on the assumption that we have now discharged our trusteeship to the Filipino people and our responsibility for them to the world, and that they are now prepared for self-government as well as national sovereignty. A thorough and unbiased knowledge of the facts clearly shows that these assumptions are absolutely without justification. As to this, I believe that there is no substantial difference of opinion among any of those who have had the responsibility of facing Philippine problems in the administration of the islands, and I believe that no one to whom the future of this people is a responsible concern can countenance a policy fraught with the direst consequences to those on whose behalf it is ostensibly urged.

In the Philippine islands we have embarked upon an experiment unprecedented in dealing with dependent peoples. We are developing there conditions exclusively for their own welfare. We found an archipelago containing twenty-four tribes and races, speaking a great variety of languages and with a population over 80 per cent of which could neither read nor write. Through the unifying forces of a common education, of commercial and economic development and of gradual participation in local self-government we are endeavoring to evolve a homogeneous people fit to determine, when the time arrives, their own destiny. We are seeking to arouse a national spirit and not, as under the older colonial theory, to suppress such a spirit.

The character of the work we have been doing is keenly recognized in the orient, and our success thus far followed with not a little envy by those who, initiating the same policy, find themselves hampered by conditions grown up in earlier days and under different theories of administration.

But our work is far from done. Our duty to the Filipinos is far from discharged. Over half a million Philippine students are now in the Philippine schools helping to mold the men of the future into a homogeneous people, but there still remain more than a million Filipino children of school age yet to be reached. Freed from American control the integrating forces of a common education and a common language will cease and the educational system now well started will slip back into inefficiency and disorder.

An enormous increase in the commercial development of the islands has been made since they were virtually granted full access to our markets three years ago, with every prospect of increasing development and diversified industries. Freed from American control such development is bound to decline. Every observer speaks of the great progress in public works for the benefit of the Filipinos, of harbor improvements, of roads

and railways, of irrigation and artesian wells, public buildings and better means of communication. But large parts of the islands are still unreached, still even unplored, roads and railways are needed in many parts, irrigation systems are still to be installed and wells to be driven. Whole villages and towns are still without means of communication other than almost impassable roads and trails. Even the great progress in sanitation, which has successfully suppressed smallpox, the bubonic plague and Asiatic cholera, has found the cause of and a cure for beriberi, has segregated the lepers, has helped to make Manila the most healthful city in the Orient, and to free throughout the whole archipelago from its former dread diseases, is nevertheless incomplete in many essentials of permanence in sanitary policy. Even more remains to be accomplished. If freed from American control sanitary progress is bound to be arrested and all that has been achieved likely to be lost.

TRAINED FOR SELF-GOVERNMENT.

Concurrent with the economic, social and industrial development of the islands has been the development of the political capacity of the people. By their progressive participation in government the Filipinos are being steadily and hopefully trained for self-government. Under Spanish control they shared in no way in the government. Under American control they have shared largely and increasingly. Within the last dozen years they have gradually been given complete autonomy in the municipalities, the right to elect two-thirds of the provincial government boards and the lower house of the insular legislature. They have four native members out of nine members of the commission, or upper house. They chief justice and two justices of the Supreme court, about one-half of the higher judicial positions and all of the justices of the peace are natives. In the classified civil service the proportion of Filipinos increased from 51 per cent in 1904 to 67 per cent in 1911. Thus to-day all the municipal employes, over 90 per cent of the provincial employes and 60 per cent of the officials and employes of the central government are Filipinos. The ideal which has been kept in mind in our political guidance of the islands has been the real popular self-government and not mere paper independence. I am happy to say that the Filipinos have done well enough in the places they have filled and in the discharge of the political power with which they have been entrusted to warrant the belief that they can be educated and trained to complete self-government. But the present satisfactory results are due to constant support and supervision at every step by Americans.

If the task we have undertaken is higher than that assumed by other nations, its accomplishment must demand even more patience. We must not forget that we found the Filipinos wholly untrained in government. Up to our advent all other experience sought to repress rather than encourage political power. It takes long time and much experience to ingrain political habits of steadiness and efficiency. Popular self-government ultimately must rest upon common habits of thought and upon a reasonably developed public opinion. No such foundations for self-government, let alone independence, are now present in the Philippine islands. Disregarding even their racial heterogeneity and the lack of ability to think as a nation, it is sufficient to point out that under liberal franchise privileges only about 3 per cent of the Filipinos vote and only 1 per cent of the people are said to read the public press. The government in dependence upon the Filipinos now is, therefore, to subject the great mass of their people to the dominance of an oligarchical and, probably, exploiting minority. Such a course will be as cruel to those people as it would be shameful to us.

Our true course is to pursue steadily and courageously the path we have thus far followed: to guide the Filipinos into self-sustaining pursuits; to continue the cultivation of sound political habits through education and political practice; to encourage the diversification of industries, and to realize the advantages of their industrial education by conservatively approved co-operative meth-

ods, at once checking the dangers of concentrated wealth and building up a sturdy, independent citizenship. We should do all this with a disinterested endeavor to secure for the Filipinos economic independence and to fit them for complete self-government, with the power to decide eventually, according to their own largest good, whether such self-government shall be accompanied by independence.

A present declaration even of future independence would retard progress by the dissension and disorder it would arouse. On our part it would be a disingenuous attempt, under the guise of conferring a benefit on them, to relieve ourselves of the heavy and difficult burden which thus far we have been bravely and consistently sustaining. It would be a disguised policy of scuttling. It would make the helpless Filipino the football of oriental politics, under the protection of a guaranty of their independence which we would be powerless to enforce.

WATER POWER ISSUE TO FORE.

There are pending before congress a large number of bills proposing to grant privileges of erecting dams for the purpose of creating water power in our navigable rivers. The pendency of these bills has brought out an important defect in the existing general dam act. That act does not, in my opinion, grant sufficient power to the federal government in dealing with the construction of such dams to exact protective conditions in the interest of navigation. It does not permit the federal government, as a condition of its permit, to require that a part of the value thus created shall be applied to the further general improvement and protection of the stream. I believe this to be one of the most important matters of internal improvement now confronting the government.

Most of the navigable rivers of this country are comparatively long and shallow. In order that they may be made fully useful for navigation there has come into vogue a method of improvement known as canalization, or the slack water method, which consists in building a series of dams and locks, each of which will create a long pool of deep navigable water. At each of these dams there is usually created also water power of commercial value. If the water power thus created can be made available for the further improvement of navigation in the stream, it is manifest that the improvement will be much more quickly effected on the one hand, and, on the other, that the burden on the general taxpayers of the country will be very much reduced.

Private interests seeking permits to build water power dams in navigable streams usually urge that they thus improve navigation, and that if they do not impair navigation they should be allowed to take for themselves the entire profits of the water power development. Whatever they may do by way of relieving the government of the expense of improving navigation should be given due consideration, but it must be apparent that there may be a profit beyond a reasonably liberal return upon the private investment which is a potential asset of the government in carrying out a comprehensive policy of waterway development. It is no objection to the retention and use of such an asset by the government that a comprehensive waterway policy will include the protection and development of the other public uses of water, which cannot and should not be ignored in making and executing plans for the protection and development of navigation. It is also equally clear that inasmuch as the water power thus created is or may be an incident of a general scheme of waterway improvement within the constitutional jurisdiction of the federal government, the regulation of such water power lies also within that jurisdiction.

In my opinion constructive statesmanship requires that legislation should be enacted which will permit the development of navigation in these great rivers to go hand in hand with the utilization of this by-product of water power, created in the course of the same improvement, and that the general dam act should be so amended as to make this possible. I deem it

highly important that the nation should adopt a consistent and harmonious treatment of these water power projects, which will preserve for the purpose their value to the government, whose right it is to grant the permit. Any other policy is equivalent to throwing away a most valuable national asset.

PROGRESS ON PANAMA CANAL.

During the last year the work of construction upon the canal has progressed most satisfactorily. About 87 per cent of the excavation work has been completed and more than 93 per cent of the concrete for all the locks is in place. In view of the great interest which has been manifested as to some slides in the Culebra cut, I am glad to say that the report of Col. Goethals should allay any apprehension on this point. It is gratifying to note that none of the slides which occurred during this year would have interfered with the passage of the ships had the canal, in fact, been in operation, and when the slope pressures will have been finally adjusted and the growth of vegetation will minimize erosion in the banks, the problem will be practically solved and an ample stability assured for the Culebra cut.

Although the official date of the opening has been set for Jan. 1, 1915, the canal will, in fact, from present indications, be opened for shipping during the latter half of 1913. No fixed date can as yet be set, but shipping interests will be advised as soon as assurances can be given that vessels can pass through without unnecessary delay.

Recognizing the administrative problem in the management of the canal, congress in the act of Aug. 24, 1912, has made admirable provisions for executive responsibility in the control of the canal and the government of the canal zone. The problem of most efficient organization is receiving careful consideration, so that a scheme of organization and control best adapted to the conditions of the canal may be formulated and put in operation as expeditiously as possible.

Acting under the authority conferred on me by congress, I have, by executive proclamation, promulgated the following schedule of tolls for ships passing through the canal, based upon the thorough report of Emory R. Johnson, special commissioner on traffic and tolls:

1. On merchant vessels carrying passengers or cargo, \$1.20 per net vessel ton—each 100 cubic feet of actual earning capacity.
2. On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.
3. Upon naval vessels other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.
4. Upon army and navy transports, colliers, hospital ships and supply ships, \$1.20 per net ton. The vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

Rules for the determination of the tonnage upon which toll charges are based are now in course of preparation and will be promulgated in due season.

REFERS TO BRITISH PROTEST.

The proclamation which I have issued in respect to the Panama canal tolls is in accord with the Panama canal act passed by this congress Aug. 24, 1912. We have been advised that the British government has prepared a protest against the act and its enforcement in so far as it relieves from the payment of tolls American ships engaged in the American coastwise trade on the ground that it violates British rights under the Hay-Pauncefote treaty concerning the Panama canal. When the protest is presented it will be promptly considered and an effort made to reach a satisfactory adjustment of any differences there may be between the two governments.

The promulgation of an efficient workmen's compensation act, adapted to the particular conditions of the zone, is awaiting adequate appropriation by congress for the payment of claims arising thereunder. I urge that speedy provision

be made in order that we may install upon the zone a system of settling claims for injuries in best accord with modern humane, social and industrial theories.

As the completion of the canal grows nearer and as the wonderful executive work of Col. Goethals becomes more conspicuous in the eyes of the country and of the world, it seems to me wise and proper to make provision by law for such reward to him as may be commensurate with the service that he has rendered to his country. I suggest that this reward take the form of an appointment of Col. Goethals as a major-general in the army of the United States, and that the law authorizing such appointment be accompanied with a provision permitting his designation as chief of engineers upon the retirement of the present incumbent of that office.

NAVY'S EFFICIENCY PRAISED.

The navy of the United States is in a greater state of efficiency and is more powerful than it has ever been before, but in the emulation which exists between different countries in respect to the increase of naval and military armaments this condition is not a permanent one. In view of the many improvements and increases by foreign governments, the slightest halt on our part in respect to new construction throws us back and reduces us from a naval power of the first rank and places us among the nations of the second rank. In the last fifteen years the navy has expanded rapidly, and yet far less rapidly than our country. From now on reduced expenditures in the navy mean reduced military strength. The world's history has shown the importance of sea power, both for adequate defense and for the support of important and definite policies.

I had the pleasure of attending this autumn a mobilization of the Atlantic fleet, and was glad to observe and note the preparedness of the fleet for instant action. The review brought before the president and the secretary of the navy a greater and more powerful collection of vessels than had ever been gathered in American waters. The condition of the fleet and of the officers and enlisted men and of the equipment of the vessels entitled them in authority to the greatest credit.

I again commend to congress the giving of legislative sanction to the appointment of the naval aids to the secretary of the navy. These aids and the council of aids appointed by the secretary of the navy to assist him in the conduct of his department have proved to be of the highest utility. They have furnished an executive committee of the most skilled naval experts, who have co-ordinated the action of the various bureaus in the navy, and by their advice have enabled the secretary to give an administration at the same time economical and most efficient. Never before has the United States had a navy that compared in efficiency with its present one, but never before have the requirements with respect to naval warfare been higher and more exacting than now.

ONE BATTLE SHIP A MISTAKE.

A year ago congress refused to appropriate for more than one battle ship. In this I think a great mistake of policy was made, and I urgently recommend that this congress make up for the mistake of the last session by appropriations authorizing the construction of three battle ships, in addition to destroyers, fuel ships and the other auxiliary vessels as shown in the building programme of the general board. We are confronted by a condition in respect to the navies of the world which requires us, if we would maintain our navy as an insurance of peace, to augment our naval force by at least two battle ships a year and by battle cruisers, gunboats, torpedo destroyers and submarine boats in a proper proportion.

We have no desire for war. We would go as far as any nation in the world to avoid war, but we are a world power. Our population, our wealth, our definite policies, our responsibilities in the Pacific and the Atlantic, our defense of the Panama canal, together with our enormous world trade and our missionary outposts on the

frontiers of civilization, require us to recognize our position as one of the foremost in the family of nations, and to clothe ourselves with sufficient naval power to give force to our reasonable demands and to give weight to our influence in those directions of progress that a powerful Christian nation should advocate.

I observe that the secretary of the navy devotes some space to a change in the disciplinary system in vogue in that branch of the service. I think there is nothing quite so unsatisfactory to either the army or the navy as the severe punishments necessarily inflicted by court-martial for desertions and purely military offenses, and I am glad to hear that the British have solved this important and difficult matter in a satisfactory way. I commend to the consideration of congress the details of the new disciplinary system and recommend that laws be passed putting the same into force both in the army and the navy.

I invite the attention of congress to that part of the report of the secretary of the navy in which he recommends the formation of a naval reserve by the organization of the ex-sailors of the navy.

I repeat my recommendation, made last year, that proper provision should be made for the rank of the commander in chief of the squadrons and fleets of the navy. The inconvenience attending the necessary precedence that most foreign admirals have over our own whenever they meet in official functions ought to be avoided. It impairs the prestige of our navy and is a defect that can be very easily removed.

DEPARTMENT OF JUSTICE ACTIVE.

This department has been very active in the enforcement of the law. It has been better organized and with a larger force than ever before in the history of the government. The prosecutions which have been successfully concluded and which are now pending testify to the effectiveness of the departmental work.

The prosecution of trusts under the Sherman antitrust law has gone on without restraint or diminution, and decrees similar to those entered in the Standard Oil and tobacco cases have been entered in other suits, like the suits against the powder trust and the bathtub trust. I am very strongly convinced that a steady, consistent course in this regard, with a continuing of Supreme court decisions upon the new phases of the trust question not already finally decided, is going to offer a solution of this much discussed and troublesome issue in a quiet, calm and judicial way, without any radical legislation changing the governmental policy in regard to combinations now denounced by the Sherman antitrust law.

I have already recommended as an aid in this matter legislation which would declare unlawful certain well known phases of unfair competition in interstate trade, and I have also advocated voluntary national incorporation for the larger industrial enterprises, with provision for a closer supervision by the bureau of corporations, or a board appointed for the purpose, so as to make more certain compliance with the antitrust law on the one hand and give greater security to the stockholders against possible prosecutions on the other. I believe, however, that the orderly course of litigation in the courts and the regular prosecution of trusts charged with the violation of the antitrust law are producing among business men a clearer and clearer perception of the line of distinction between business that is to be encouraged and business that is to be condemned, and that in this quiet way the question of trusts can be settled and competition retained as an economic force to secure reasonableness in prices and freedom and independence in trade.

FAVORS REFORM IN COURTS.

I am glad to bring to the attention of congress the fact that the Supreme court has radically altered the equity rules governing the procedure on the equity side of all federal courts, and though, as these changes have not been yet put in practice so as to enable us to state from actual results what the reform will accomplish, they are

of such a character that we can reasonably prophesy that they will greatly reduce the time and cost of litigation in such courts. The court has adopted many of the shorter methods of the present English procedure, and while it may take a little while for the profession to accustom itself to these methods, it is certain greatly to facilitate litigation.

The action of the Supreme court has been so drastic and so full of appreciation of the necessity for a great reform in court procedure that I have no hesitation in following up this action with a recommendation which I foreshadowed in my message of three years ago, that the sections of the statute governing the procedure in the federal courts on the common law side should be so amended as to give to the Supreme court the same right to make rules of procedure in common law as they have, since the beginning of the court exercised in equity. I do not doubt that a full consideration of the subject will enable the court, while giving effect to the substantial differences in right and remedy between the system of common law and the system of equity, so to unite the two procedures into the form of one civil action and to shorten the procedure in such civil action as to furnish a model to all the state courts exercising concurrent jurisdiction with the federal courts of first instance.

Under the statute now in force the common law procedure in each federal court is made to conform to the procedure in the state in which the court is held. In these days, when we should be making progress in equity procedure, such a conformity statute makes the federal method too dependent upon the action of state legislatures. I can but think it a great opportunity for congress to intrust to the highest tribunal in this country, evidently imbued with a strong spirit in favor of a reform of procedure, the power to frame a model code of procedure, which, while preserving all that is valuable and necessary of the rights and remedies at common law and in equity, shall lessen the burden of the poor litigant to a minimum in the expedition and cheapness with which his cause can be fought or defended through federal courts to final judgment.

WORKMAN'S COMPENSATION ACT.

The workman's compensation act reported by the special commission appointed by congress and the executive, which passed the senate and is now pending in the house, the passage of which I have in previous messages urged upon congress, I venture again to call to its attention. The opposition to it which developed in the senate, but which was overcome by a majority in that body, seemed to me to grow out rather of a misapprehension of its effect than of opposition to its principle. I say again that I think no act can have a better effect directly upon the relations between the employer and employee than this act applying to railroads and common carriers of an interstate character, and I am sure that the passage of the act would greatly relieve the courts of the heaviest burden of litigation that they have, and would enable them to dispatch other business with a speed never before attained in courts of justice in this country.

WM. H. TAFT.

The White House, Dec. 6, 1912.

MESSAGE ON POSTAL AFFAIRS.

In a special message sent to congress Feb. 22, 1912, President Taft called attention to the fact that the postal revenues for the fiscal year ended June 30, 1911, had exceeded the expenditures by \$219,118.60, that the postal savings bank system was growing rapidly and that the placing of assistant postmasters in the classified civil service had secured greater efficiency. The president announced his agreement with the postmaster-general in favoring the establishment of a parcel post.

AGAINST POSTOFFICE TELEGRAPHS.

Regarding the government ownership and operation of telegraph lines in connection with the post-office department the message said:

There is only one recommendation in which I cannot agree—that is one which recommends that

the telegraph lines in the United States should be made a part of the postal system and operated in conjunction with the mail system. This presents a question of government ownership of public utilities which are now being conducted by private enterprise under franchises from the government. I believe that the true principle is that private enterprise should be permitted to carry on such public utilities under due regulation as to rates by proper authority, rather than that the government should itself conduct them. This principle I favor because I do not think it in accordance with the best public policy thus greatly to increase the body of public servants.

"Of course, if it could be shown that telegraph service could be furnished to the public at a less price than it is now furnished to the public by telegraph companies, and with equal efficiency, the argument might be strong one in favor of the adoption of the proposition. But I am not satisfied from any evidence that if these properties were taken over by the government they could be managed any more economically or any more efficiently or that this would enable the government to furnish service at any smaller rate than the public are now required to pay by private companies.

"More than this, it seems to me that the consideration of the question ought to be postponed until after the postal savings banks have come into complete and smooth operation and after a parcel post has been established, not only upon the rural routes and the city deliveries but also throughout the department. It will take some time to perfect these additions to the activities of the postoffice department and we may well await their complete and successful adoption before we take on a new burden in this very extended department."

SECOND CLASS POSTAGE RATES.

The president further called attention to the report transmitted by him of the commission on second class mail matter, appointed pursuant to a joint resolution of the 61st congress. The commis-

sion included Charles E. Hughes of the United States Supreme court, President A. Lawrence Lowell of Harvard university and Harry A. Wheeler, president of the Chicago Association of Commerce. "The findings of the commission," continued the report, "confirm the view that the cost of handling and transporting second class mail matter is largely in excess of the postage paid and that an increase in the rate is not only justified by facts but is desirable. * * *

"The recommendations of the commission as to the postage on second class mail are as follows:

"1. The rate of 2 cents a pound on copies mailed by publishers to subscribers, to news agents and as sample copies, and by news agents to their subscribers or to other news agents.

"2. The rate of 1 cent for each four ounces for copies mailed by other than publishers and news agents—that is, the present transient rate.

"3. The present free-in-county privilege retained, but not extended.

"The commission also recommended that the cent a copy rate for newspapers other than weeklies and for periodicals not exceeding two ounces in weight and the 2 cent a copy rate for periodicals exceeding two ounces in weight when mailed at a city letter carrier office for local delivery be abolished. * * *

"The commission suggests that the department 'maintain an adequate cost system so that the effect of the new rates may be closely observed and a proper basis may be secured for the consideration of any future proposals.'

"In these recommendations the postmaster-general and I heartily concur and commend them to the early attention of congress. The proposed increase of 1 cent a pound in the second class postage rate I believe to be most reasonable, and if sufficient time is allowed before the change goes into effect it should work little serious injury to the business of the periodical publishers, while equalizing, at least in a measure, the burdens of postal taxation."

MESSAGE ON ECONOMY IN GOVERNMENT SERVICE.

April 4, 1912, President Taft sent to congress a message on economy and efficiency in the government service, recommending the passage of laws designed to save more than \$11,000,000 a year. His chief proposals were:

That the local government offices in the treasury, postoffice, justice, interior and commerce and labor departments be placed in the classified service.

That the revenue cutter service be consolidated with the lighthouse service in the department of commerce and labor.

That pension agents be placed in the classified service.

That the office of receiver of district land offices be abolished and the duties transferred to the register, assisted by a bonded clerk.

That the "political appointees" in the internal revenue and customs services be transferred to the classified civil service.

That the auditing offices of the government be consolidated under one auditor.

That mileage allowance for government travel be discontinued and that there be substituted a per diem allowance for officers and employes in place of "subsistence," which includes lodging for those traveling.

That correspondence be handled on an improved basis.

That the distribution of government documents be centralized.

That the publication of the official register be discontinued.

OFFICIALS MURDERED IN VIRGINIA COURT.

Mountain outlaws rode down from the Blue Ridge March 14, 1912, to the Carroll county courthouse in Hillsville, Va., and assassinated the judge upon the bench, the public prosecutor, the sheriff and a spectator, besides wounding several jurors and the clerk of the court. Judge Thornton L. Massie was just pronouncing a sentence of one year's imprisonment on Floyd Allen, who had been convicted of taking a prisoner from a deputy sheriff, when a fusillade of shots was fired by the mountaineers. The judge, Commonwealth's Attorney William Foster and Sheriff Lewis Webb fell dead. Nancy Ayres, a 19 year old girl, was accidentally shot and died the next day from her wounds. Juror Fowler was dangerously wounded while Jurors

Kane and Wordell and Clerk Goad were slightly hurt. The mountaineers with Floyd Allen hastily retreated, but were followed by a posse and the next day, after a fight at Sidna Allen's house, Floyd Allen, severely wounded, was captured. Sidna Allen's wife was shot dead while helping to defend him. Floyd Allen was tried in May and condemned to death. Claude S. Allen and Friel Allen were arrested March 29. Claude was tried in July and sentenced to death. Friel, tried in August, escaped with a sentence of eighteen years in the penitentiary. Sidna Allen and his nephew, Wesley Edwards, were arrested in Des Moines, Iowa, Sept. 14, and were taken back to Virginia for trial.

THE BOY SCOUT MOVEMENT.

The boy scout movement was started in England by Lieut.-Gen. Sir Robert S. S. Baden-Powell in 1908. Boys were enrolled in a uniform corps, properly officered, for the purpose of training them in patriotism, chivalry, self-reliance, woodcraft, tracking, healthful exercises and good citizenship. The plan was successful from the start and thousands of boys in all parts of the British empire belong to

the organization. Similar corps have been started in the United States, Germany, Argentina, Chile, Smyrna, China, Japan and other countries. The movement is nonmilitary. The president of the National Council of Boy Scouts of America is Collin Livingstone of Washington, D. C., and the treasurer is George D. Pratt of Brooklyn, N. Y.

THE MOVEMENT FOR GOOD ROADS.

[By Arthur C. Jackson, president of the National Good Roads association.]

The National Good Roads association has held more than 1,000 good roads conventions in every state of the union and has organized scores of state and county good roads associations. Its objects are clearly defined in the original articles of association, unanimously adopted at Chicago when the association was organized in the year 1900, as follows:

1. To associate all agricultural, transportation, industrial, commercial, educational and religious organizations and individuals who are in sympathy with the good roads movement in a universal demand for the permanent improvement of the public roads and streets.

2. To secure better results from the millions of dollars annually expended upon the public roads and streets.

3. To have established in all states and territories highway departments, with practical engineering supervision.

4. To secure thorough teaching of highway engineering in all universities and agricultural colleges.

5. To utilize all able-bodied tramps, vagrants, paupers, prisoners and convicts in preparing materials and building public roads and streets.

6. To secure state and national aid for the construction and maintenance of permanent public roads for this and future generations.

At the first state convention of the Illinois State Good Roads association, held in Chicago Feb. 12, 1909, the grand project of a great Lincoln memorial highway was presented by the president of the association in these words:

"No name is nearer the American heart than that of Abraham Lincoln, yet in this, his home state, no adequate memorial of him exists. Perhaps nothing adequate can ever be produced, but this state convention will be asked to consider the building of a great Lincoln highway, connecting his home in Springfield with Chicago, St. Louis and the county seat of every county of the state. A great central boulevard between these three cities, which shall surpass in beauty, usefulness and permanency any equal mileage of highway in the world, and connecting with it from the county seat of every county of the state an equally permanent and serviceable public road, which may serve as a daily reminder of him whose greatest ambition was to serve his fellow men, as well as providing Illinois with a permanent system of roads which will be an almost inconceivable source of wealth to the state."

The same statement was incorporated in the official call of the Illinois State Good Roads association for the Lincoln birthday convention of 1912, together with the following:

"Two million dollars has recently been appropriated by congress for a Lincoln memorial, and President Taft and the Lincoln memorial commission are to decide upon the nature of the memorial. Senator Cullom, a member of the commission, favors an appropriate creation by great artists, which shall be worthy of his great friend and endure as long as any monument of antiquity. Congressman Borland and others are seeking to have this appropriation expended in the building of a Lincoln memorial highway from the city of Washington to the battle field of Gettysburg. Speaker Clark, also a member of the commission, believes 'that Lincoln as one of the most practical of mortals would greatly prefer that the \$2,000,000 be expended in such a way as to do somebody some good'; consequently he is for the memorial road in preference to an arch or column or anything of that sort. Senator Chilton urges an extension of this highway from Gettysburg through a country of absorbing historical interest to Lincoln's birthplace.

"Why may not all of these plans be adopted? Why may not the appropriation be expended as planned by the commission, and the memorial highways be built by another?

"What more fitting time and place than Lincoln's birthday and Chicago for the Illinois State Good Roads association and all who sympathize with its

objects to consider each of these propositions designed as a tribute of the honor and affection universally entertained by a free, united and fraternal people for Abraham Lincoln?"

At this last Lincoln's birthday good roads convention, held under the joint auspices of the state and national associations, it was unanimously resolved to seek the aid of women in the great movement for good roads and streets, and a call was issued by the state association for the first Illinois women's good roads convention. It was held in Chicago April 3 and 4, 1912, and was most successful. Its six sessions were presided over by six of the most distinguished women of the state, Mrs. Philip N. Moore, president of the General Federation of Women's Clubs, Jane Addams and W. J. Bryan were among the many notable speakers.

The indorsement by the General Federation of Women's Clubs at its recent biennial in San Francisco of an ocean-to-ocean Lincoln memorial highway emphasizes the interest which has been aroused in this project, and it is now certain of success by reason of the active support of this great body of earnest and patriotic women.

It is significant of the increasing interest in this movement and in the Illinois State Good Roads association that many organizations are adopting resolutions similar to that unanimously adopted by the bankers in convention at Springfield:

"Resolved, That this association looks with favor upon the efforts now being made by the Illinois State Good Roads association to improve our public highways, and we recommend that a committee of five be appointed by the president of this association from the membership of this association to meet with said State Good Roads association and make report thereof at the next annual meeting of this association."

Following is the official call for the fifth international good roads congress:

From Sept. 16 to 21, 1901, there was held in the city of Buffalo the first international good roads congress, the call for which was issued from the headquarters of the National Good Roads association at Chicago.

Participation by delegates from foreign countries was invited and such invitation was transmitted by the department of state to the diplomatic officers of the United States throughout the world and through them communicated to the ministers of foreign affairs, with the request that it be given publicity for the information of organizations and individuals who might be interested. On the tenth anniversary of this milestone in the good roads movement there was held in Chicago Sept. 18 to Oct. 1, 1911, the fourth international good roads congress, to which were invited delegates from every city, state and nation and, as in the case of each of the three preceding congresses, invitations were transmitted by the department of state to all foreign governments, and there were delegates in attendance from forty states and countries.

The production of permanent public roads and streets is one of the most important problems of the century, affecting the material and social well-being of all classes and conditions of people, and the fifth international good roads congress is hereby called to meet in Chicago Feb. 26 to March 2, 1913.

Delegates, both men and women, are invited from every city, state and nation, and all correspondence should be addressed to the secretary at the Hotel LaSalle, Chicago, Ill., U. S. A.

IMPROVED OR SURFACED ROADS IN AMERICA.

[From Engineering and Contracting.]

The following tables, which are based largely upon statistics gathered by the United States office of public roads, give the total cost and per capita cost of roads in each state and the percentage of the total mileage of country roads that are surfaced. Surfaced roads include those improved with broken stone, gravel, sand-clay or other hard surface. The figures are for 1909 and are the latest obtainable:

State.	TOTAL INVESTMENT.		Total investment.
	Per capita.	Sur- All faced. roads.	
Alabama	\$4.20	\$25	\$54,600,000
Arizona	2.50	32	6,500,000
Arkansas	.90	24	27,900,000

AMERICAN INTERVENTION IN NICARAGUA.

Gen. Luis Mena, former minister of war, led a revolution in Nicaragua in the summer and fall of 1912, which caused the United States to intervene for the protection of American lives and property. In the latter part of July and the first of August the revolutionists seized property belonging to Americans and assumed such a threatening attitude that 100 marines were sent to Managua at the request of George T. Weltzel, the American minister, and also of President Diaz of Nicaragua. Aug. 10 the rebels under Gens. Mena and Zeledon attacked Managua, but they were driven off by the government troops, assisted by the marines. The defenders of the city lost fourteen men killed and 125 wounded, while the enemy had between 400 and 500 men killed or wounded. The American marines were re-enforced by three additional companies.

Aug. 17 the garrison at Leon was attacked by a force of insurgents and, after surrendering, 430 of the men were killed. Gen. Vaca, leader of the revolutionists there, was notified some days later

by Mr. Weltzel that the American troops on the isthmus would be used to restore peace. Aug. 23 President Taft ordered the 10th infantry, U. S. A., at Panama, to proceed at once to Nicaragua to help the marines, but on receiving news that the line of communication between Corinto and Managua had been reopened by the insurgents he countermanded the order. More marines reached Managua Sept. 2 and American naval contingents garrisoned the principal towns along the railroad.

Oct. 4 the American forces took the town of Coyotepe from the rebels, but in doing so lost four men killed and six wounded. Gen. Zeledon, after being driven from the town of Masaya by Nicaraguan government troops, was pursued and fatally wounded. Gen. Mena had surrendered previously and was deported. Oct. 6 three American marines were killed in an attack on the city of Leon, which was captured. This affair practically ended the revolution and peace was restored.

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

Established by act of Congress March 21, 1866.

Names and Location of Branches—Central, Dayton, O.; Northwestern, Milwaukee, Wis.; Eastern, Fogus, Me.; Western, Leavenworth, Kas.; Marion, Marion, Ind.; Pacific, Santa Monica, Cal.; Danville, Danville, Ill.; Mountain, Johnson City, Tenn.; Battle Mountain Sanitarium, Hot Springs, S. D.

Board of managers—The president of the United States, the chief justice of the Supreme court, the secretary of war, ex-officio, Washington, D. C.; president, Maj. James W. Wadsworth, 246 Broadway, New York, N. Y.; secretary, John M. Holley, LaCrosse, Wis.; Maj. William Warner, Kansas City, Mo.; Col. Henry H. Markham, Pasadena, Cal.; Lieut. Franklin Murphy, Newark, N. J.; Col. Edwin P. Hammond, Lafayette, Ind.; Gen. Joseph S. Smith, Bangor, Me.; Lieut. Oscar M. Gottschalk, Dayton, O.; Z. D. Massey, Sevier, Tenn.; Capt. Lucien S. Lambert, Galesburg, Ill.; Gen. P. H. Barry, Greeley, Neb.

General treasurer—Maj. Moses Harris.

REQUIREMENTS FOR ADMISSION.

1. Honorable discharge from the United States service.

2. Disability which prevents the applicant from earning a living by labor.

3. Applicants for admission will be required to abide by all the rules and regulations made by the board of managers, perform all the duties required of them and obey all the lawful orders of the officers of the home.

4. A soldier or sailor to be admitted must forward with his application his discharge paper, his pension certificate, if he is a pensioner, and his discharge from a state home if he has been an inmate of such home. These papers are retained at the branch to which he is admitted to prevent their loss or fraud, but are returned to him when he is discharged. Soldiers or sailors whose pensions exceed \$16 a month are not admitted to the home except for special reasons.

The National Home for Disabled Volunteer Soldiers is supported by the United States government. The appropriation for that purpose for the fiscal year ended June 30, 1911, was \$4,201,800.

STATE SOLDIERS' HOMES.

There are a number of state homes for disabled volunteer soldiers, who, for various reasons, are unable to obtain admission to the national homes.

The federal government contributes toward the support of the state homes the sum of \$100 for each soldier, based upon the average attendance for the year; the remainder of the expenses is paid by the states themselves. Some of these homes are on the cottage plan. Following is a list of the state homes:

California—Yountville.	New Hampshire—Tilton.
Colorado—Monte Vista.	New Jersey—Kearny and Vineland.
Connecticut—Noroton Heights.	New York—Bath and Oxford.
Idaho—Boise.	North Dakota—Lisbon.
Illinois—Quincy.	Ohio—Sandusky.
Indiana—Lafayette.	Oregon—Roseburg.
Iowa—Marshalltown.	Pennsylvania—Erie.
Kansas—Fort Dodge.	Rhode Island—Bristol.
Massachusetts—Chelsea.	S. Dakota—Hot Springs.
Michigan—Grand Rapids.	Vermont—Bennington.
Minnesota—Minnehaha.	Washington—Orting and Port Orchard.
Missouri—St. James.	Wisconsin—Waupaca.
Montana—Columbus Falls.	Wyoming—Cheyenne.
Nebraska—Grand Island and Milford.	

HOME FOR REGULAR ARMY SOLDIERS.

The United States maintains a home for disabled and discharged soldiers of the regular army at Washington, D. C. All soldiers who have served twenty years in the army and all soldiers who have incurred such disability, by wounds, disease or injuries in the line of duty while in the regular army, as units them for further service are entitled to admission to the home. The home is in charge of a board of commissioners, consisting of the governor of the home, the adjutant-general of the army, the judge-advocate, the commissary-general, the quartermaster-general, the chief of engineers and the surgeon-general. The present governor is Lieut.-Gen. S. B. M. Young (retired).

CONFEDERATE SOLDIERS' HOME.

Confederate veterans of the civil war have a home at Beauvoir, near Biloxi, Miss. The residence there of Jefferson Davis in his last years was secured in 1902 as a refuge for helpless old southern soldiers by the United Sons of Confederate Veterans. It is supported by that society and the United Daughters of the Confederacy.

TELEPHONE COMPANY PENSION SYSTEM.

The American Telephone and Telegraph company in November, 1912, announced the inauguration of a permanent pension and insurance system on behalf of its employees, beginning Jan. 1, 1912. For this purpose a fund of \$10,000,000 was provided, the fund to be made good from year to year through appropriations by the various associated companies. The employees will not be called upon to contribute anything. The company and its subsidiaries employ about 175,000 persons.

The pension plan, which with the insurance and disability plans is the same in all the companies, provides for a pension per annum of 1 per cent of the average annual pay during the ten years next preceding retirement multiplied by the number of years of service. For instance, a man with thirty years of service behind him would receive a pension equal to 30 per cent of the average amount earned annually by him during the ten years preceding his application for the benefit.

Disability in the performance of duty will be

met with full pay for thirteen weeks and half pay until able to earn a livelihood, the time not to exceed six years. Disability not in the performance of duty will be met with graduated compensation, depending on the length of service of the employee. All employees having relatives depending on them will be entitled to insurance against death by accident occurring in and due to the performance of work for the company in the sum of three years' wages not in excess of a total amount of \$5,000, payable to their dependent relatives.

All employees having relatives dependent on them and who have been five years in the service will be entitled to insurance against death in a sum equal to six months' wages when the term of employment has been from five to ten years, and to one year's wages when the term of employment has been ten years or more, with a maximum of \$2,000 in either case. Such insurance to be paid to the dependent relatives left by the employee.

ASSASSINATION OF PREMIER CANALEJAS.

Jose Canalejas y Mendes, prime minister of Spain, was assassinated in Madrid Nov. 12, 1912, by an anarchist named Manuel Paredes, who then attempted to commit suicide. The premier was on his way to the ministry of the interior and had stopped to look into the window of a bookstore in the Puerto del Sol when a man came out of a doorway near at hand and fired four shots at him from close range. Three of the bullets took effect, one in the back and two in the head, causing instant death. The assassin turned the muzzle of his

revolver upon himself and fired. The police coming up carried him to a hospital, where he regained consciousness and told his name before he died. The dead premier's body was taken to the chamber of deputies, where it lay in state until the funeral.

Jose Canalejas was looked upon as one of the ablest statesmen in Spain. He was the leader of the liberal party and became premier in February, 1910, when King Alfonso asked him to form a ministry. He was 58 years of age.

THE IRISH HOME RULE MEASURE.

In the British house of commons April 11, 1912, Premier Asquith presented the bill of the liberal government for autonomy in Ireland. The provisions of the measure as proposed, the official title of which is "The Government of Ireland Bill," are as follows:

Establishment of an Irish parliament, consisting of a senate and a house of commons, with power to make laws for peace, order and good government in Ireland.

The matters to be excluded from the control of the Irish parliament are the crown, the army and the navy, imperial affairs, the Irish land purchase and the old age pensions and national insurance acts, the Irish constabulary, the postoffice savings bank and public loans. In addition to those excluded by the home rule bill of 1893, which left the customs under the control of the imperial government.

The Irish constabulary to be automatically transferred to the Irish government after six years and power given to the Irish parliament to demand the transfer of the old age pensions and insurance act to its control on giving a year's notice to the imperial government.

The Irish parliament is debarred from altering the home rule bill or the power to appeal to the privy council.

Protection of religious equality in Ireland and stipulation that the Irish parliament cannot make laws, directly or indirectly, to establish or to endow any religion or to prohibit the free exercise thereof or to give a preference or privilege to any religion or to make any religious ceremony a condition of validity of any marriage.

The lord lieutenant of Ireland to have the power to veto or suspend any bill on the instruction of the imperial executive.

The Irish senate to consist of forty members and the house of commons of 164, of which Ulster is to have fifty-nine and the universities two.

The senate to be composed of nominated members. In the first instance the imperial executive to control the nominations with a view to assuring the representation of the minority. The nominations to be for a fixed term, and as the members re-

tire by rotation the vacancies will be filled by the Irish executive.

The lord lieutenant to be head of the executive. There will be no religious bar and he will hold office for a fixed term.

The authority of the executive to be coextensive with that of the Irish parliament. The 164 representatives to be elected by the existing constituencies, but no constituency to have less than 27,000 population.

The collection of all taxes to remain in the imperial service, and they will be paid into the imperial exchequer, which is to pay over to the Irish executive an amount equivalent to the expenditure on Irish services at the time of the passing of the act.

An additional \$2,500,000 to be paid to Ireland the first year, and this will diminish by \$250,000 yearly until it is reduced to \$1,000,000.

The postal services to be handed over to Ireland. The Irish parliament to have power to reduce or to discontinue the imperial taxes excepting the income tax and the stamp and estate duties.

It will also have power to alter the excise duties, but except in the case of beer and spirits it is debarred from adding to the customs duties anything which will give a greater increase than 10 per cent.

The Irish representation at Westminster to be forty-two members, one for every 100,000 of the population.

The bill passed its first reading in the house of commons April 16 by a vote of 369 to 266. It passed its second reading May 9 by a vote of 372 to 271. The bill was generally satisfactory to the nationalists in Ireland, but the unionists in Ulster were bitterly opposed to it, and huge demonstrations against it were organized in Belfast in September. On the 28th of that month a "solemn league and covenant" was numerously signed by men who gave their pledge that they would never submit to home rule. Sir Edward Carson was the leader of the movement in opposition to the adoption of the measure. Consideration of the bill led to riotous scenes in the house of commons, and the government received a setback Nov. 11 when in a snap division the cabinet was outvoted on an amendment. It continued to press the measure, however, with vigor and confidence.

END OF WAR BETWEEN TURKEY AND ITALY.

The war between Turkey and Italy, which began Sept. 26, 1911, was brought to a close Oct. 18, 1912, when a treaty of peace was signed by representatives of the two powers at Ouchy, Switzerland. The end of the conflict was greatly hastened by the attack of the allied Balkan states on Turkey, which realized that it could not carry on successful wars in Africa and Europe at the same time. The treaty provided that the sultan should issue a decree proclaiming the autonomy of the Tripolitan province of Libya and that then Italy should issue a decree establishing in Libya a system of government based on Italian sovereignty. The spiritual authority of the caliph was to be recognized, but political interference was to be excluded. The treaty further provided for the renewal of commercial treaties, the exchange of prisoners, amnesty to the people in the zone of war, the withdrawal of Turkish troops from Tripoli and Cyrenaica and of Italian troops from the captured islands in the Aegean sea, the restoration of these islands to Turkey on certain conditions and the annual payment by Italy to the Turkish debt of a sum equal to the average revenue for the three years preceding the war received by Turkey from Tripoli and Cyrenaica, such sum not to be less than \$400,000. Following is a chronology of the chief events of the war.:

1911—Sept. 29—War declared by Italy.

Oct. 3—City of Tripoli bombarded.

Oct. 6—Tripoli captured.

Oct. 30—Turks repulsed by Italians after severe battle; many Italians massacred.

1912—Jan. 7—Seven Turkish gunboats sunk by Italian fleet near Bay of Kufndra, in the Red sea.

Feb. 24—Belrut, Syria, bombarded by Italian warships; Turkish gunboats in harbor disabled.

Feb. 26—King of Italy signs bill formally annexing Tripolitana and Cyrenaica.

March 12—Arabs defeated with heavy loss at Fojat.

April 18—Italian warships bombarded forts at entrance of Dardanelles; little damage done.

April 19—Closing of Dardanelles by Italian action resented by powers.

May 4—Italy seizes Turkish island of Rhodes; captures 2,300 soldiers.

June 9—Fierce battle fought at Zanzur oasis; Turks lose heavily.

July 14—Town of Sidi Ali captured by Italians after six hour battle.

Aug. 3—Peace commissioners named by Turkey.

Oct. 18—Peace treaty signed at Ouchy, Switzerland.

SPECIAL SESSION OF 63D CONGRESS.

President-Elect Woodrow Wilson made the following announcement Nov. 15, 1912:

"I shall call congress together in extraordinary session not later than April 15, 1913. I shall do this not only because I think that the pledges of

the party ought to be redeemed as promptly as possible, but also because I know it is to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."

GENERAL NATIONAL AND INTERNATIONAL ASSOCIATIONS.

American Association for the Study and Prevention of Infant Mortality—President, Dr. J. W. Williams, Baltimore, Md.; secretary, Dr. Philip Van Ingen, New York, N. Y.

American Bankers' Association—President, Charles H. Tuttle, St. Louis, Mo.; secretary, F. E. Farnsworth, New York, N. Y.

American Civic Association—President, J. Horace McFarland, Harrisburg, Pa.; secretary, Richard B. Watrous, 913-914 Union Trust building, Washington, D. C.

American Federation of Arts—1741 New York avenue, Washington, D. C.; president, Edwin L. Blashfield (acting); secretary, Leslie Mechlin.

American Humane Association—President, Dr. William O. Stillman, Albany, N. Y.; secretary, J. Walker, Albany, N. Y.

American National Red Cross Society—President, William H. Taft, Washington, D. C.; secretary, Charles L. Magee; national director, Ernest P. Bicknell, Washington, D. C.

American Press Humorists—President, Edgar A. Guest, Detroit, Mich.; secretary-treasurer, George Fitch, Peoria, Ill.

Drama League of America—President, Mrs. Howard Besly, Hinsdale, Ill.; secretary, Mrs. Harry P. Jones, Chicago, Ill.

General Federation of Women's Clubs—President, Mrs. Percy V. Pennybacker, Texas; recording secretary, Mrs. Harry L. Keefe, Nebraska; corresponding secretary, Mrs. Eugene Reiley, North Carolina.

Indian Rights Association—Corresponding secretary, Herbert Welsh, 708-709 Provident building, Philadelphia, Pa.

National Council of Women—President, Mrs. Kate Walter Barrett, Alexandria, Va.; corresponding secretary, Mrs. Flo Jamison Miller, Wilmington, Ill.

International Peace Forum—President, Dr. John Wesley Hill; treasurer, Henry Clews; central office, 135 Madison avenue, New York, N. Y. Object, industrial and international peace.

International Reform Bureau—206 Pennsylvania avenue, S. E., Washington, D. C.; superintendent and treasurer, Dr. Wilbur F. Crafts; devoted to suppression of intemperance, impurity, sabbath breaking, gambling and kindred evils.

International Prison Commission—Secretary, Dr. C. R. Henderson, University of Chicago, Chicago, Ill.

International Union of Criminal Law—Secretary of American group, Edwin R. Keedy, Northwestern law school, Chicago, Ill.

Lake Mohonk Conference—Secretary, Henry S. Haskins, Lake Mohonk, N. Y.

National Academy of Design—President, John W. Alexander, New York, N. Y.

National Children's Home Society—President, Washington Gardner, Albion, Mich.; secretary, James L. Clark, Hearst building, Chicago, Ill.

National Civic Federation—President, Seth Low, New York, N. Y.; chairman executive council, Ralph M. Easley, New York, N. Y.

National Commercial Teachers' Federation—President, F. M. Van Antwerp, Louisville, Ky.; secretary, Walter F. Ingersoll, Spokane, Wash.

National Conference of Charities and Correction—President, Frank Tucker, New York, N. Y.; secretary, Alexander Johnson, Angola, Ind.

National Conservation Association—President, Chas. L. Pack, Cleveland, O.; executive secretary, Thomas R. Shipp, Indianapolis, Ind.

National Board of Trade—President, Frank D. LaLanne, Philadelphia, Pa.; secretary-treasurer, William R. Tucker, Philadelphia, Pa.

National League for Medical Freedom—President, B. O. Flower, New York, N. Y.; secretary, Paul Arthur Harsch, Toledo, O.

National League for the Protection of the Family—President, Seth Low, New York, N. Y.; corresponding secretary, Rev. Samuel W. Dike, Auburndale, Mass.

National Congress of Mothers and Parent Teachers' Association—President, Mrs. Frederick Schoff, Philadelphia, Pa.; corresponding secretary, Mrs. Arthur A. Birney, 806 Loan and Trust building, Washington, D. C.

National Municipal League—President, William Dudley Foulke, Richmond, Ind.; secretary, Clinton R. Woodruff, Philadelphia, Pa. Purpose: To secure legislation that will carry to the farmer the best methods and practices determined at agricultural colleges and experiment stations.

American Prison Association—President, Frederick G. Pettigrove, Boston, Mass.; secretary, Joseph G. Byers, State house, Trenton, N. J.

National Soil Fertility League—President, Howard H. Gross, Chicago, Ill.; office, 1328 First National Bank building, Chicago, Ill.

National Woman's Suffrage Association—President, Anna Howard Shaw, Moylan, Pa.; first vice-president, Jane Addams, Chicago, Ill.; corresponding secretary, Mrs. Mary W. Dennett, New York.

National Woman's Christian Temperance Union—President, Mrs. Lillian M. N. Stevens, Portland, Me.; corresponding secretary, Mrs. Frances P. Parks, Evanston, Ill.

Playground and Recreation Association of America—President, Joseph Lee, Boston, Mass.; secretary, H. S. Braucher, New York, N. Y.

NATIONAL PARTY EMBLEMS IN 1912.

In addition to wearing the usual buttons bearing portraits of the presidential and vice-presidential candidates, many of the more enthusiastic party followers in the campaign of 1912 wore emblems made of metal, which were usually fastened to the coat lapels. The democrats had the historic mule, or donkey, and the republicans the equally historic G. O. P. elephant. The progressive or third party by

DEMOCRATIC.

common consent adopted the bull moose as its unofficial emblem and hence to as the "bull moose party." The name had its origin in a phrase said to have been used by Theodore Roosevelt. On the evening of his arrival in Chicago, June 15, 1912, to attend the republican convention a friend asked him how he felt. He replied, "I am feeling like a bull moose." The expression was taken up by cam-

PROGRESSIVE.

paign orators, cartoonists and others and "bull moose" soon became a synonym for the progressive party and its adherents.

REPUBLICAN.

Bandanna handkerchiefs were also occasionally displayed by Mr. Roosevelt's followers, because of his experience in the west as a cowboy or ranchman in his early career. The socialists and prohibitionists had no special emblems.

CARNEGIE CORPORATION OF NEW YORK

The Carnegie Corporation of New York, incorporated by an act of the New York legislature, was organized Nov. 10, 1911, "for the purpose of receiving and maintaining a fund or funds and applying the income thereof to promote the advancement and diffusion of knowledge and understanding among the people of the United States by aiding technical schools, institutions of higher learning, libraries, scientific research, hero funds, useful publications and by such other agencies and means as shall from time to time be found appropriate therefor."

The officers are: President, Andrew Carnegie; vice-president, Elihu Root; treasurer, Robert A. Franks; secretary, James Bertram.

ATTEMPTED ASSASSINATION OF THEODORE ROOSEVELT.

Theodore Roosevelt was shot and seriously wounded by John Schrank, a New York saloonkeeper, in Milwaukee, Wis., Monday evening, Oct. 14, 1912. The former president was in the midst of his campaign for a third term in the white house and was about to leave the Gilpatrick hotel at 8 o'clock to address a large assemblage in the Auditorium, a short distance away. He had entered an automobile and was standing up when Schrank approached in the crowd, drew a revolver and fired. The bullet struck

Daily News Photo.

JOHN SCHRANK.

Mr. Roosevelt in the right breast, and had the missile not been deflected upward by an eyeglass case and the manuscript on the spot prepared for the evening it would, without doubt, have inflicted a mortal wound. The man who fired the shot was quickly overpowered by Elbert Martin, one of Mr. Roosevelt's secretaries, and was prevented from firing a second shot. The crowd became threatening and the first thought of the ex-president was to save his assailant from possible harm. "Don't hurt the poor creature," he said as Schrank was brought before him. The man was at once turned over to the police and hurried to jail. It was some time before those in the automobile or Mr. Roosevelt himself realized that he had been seriously wounded, though it was known that the shot had struck him. Every effort was made to induce Mr. Roosevelt to seek medical attention at once, but he insisted upon proceeding to the Auditorium and making his speech to the 10,000 persons who were waiting for him. His appearance upon the platform and his exhibition of the damaged eyeglass case and punctured manuscript, together with his announcement that he had been shot, produced a great sensation among the auditors, most of whom were not aware of what had happened until he himself informed them.

Mr. Roosevelt made his speech according to the programme arranged and was then taken to a hospital, where an examination of the wound was made by Drs. S. L. Terrell, Joseph Bloodgood and R. G. Sayle. They found that his general condition was sufficiently good to make it safe for him to travel, and early the following morning he was brought to Chicago on a special train and taken to Mercy hospital, where he was attended by Drs. John B. Murphy, Arthur Dean Bevan and the physicians who accompanied him from Milwaukee. After taking several X-ray photographs and making a close examination of the wound the doctors issued the following official bulletin:

"Deep bullet wound of chest wall without striking any vital organ in transit. Wound has not been probed. Point of entrance one inch to the right of and one inch below the level of the right nipple. Bullet ranged upward and inward distance of four inches deeply in chest wall. There is no evidence that bullet penetrated the lung. Pulse, 90. Temperature, 99.2. Respiration, 20. Leucocyte count 8,200 at 10 a. m. No operation to remove the bullet is indicated at the present time. Condition hopeful, but the wound is so important as to demand absolute rest for a number of days."

Mrs. Roosevelt and other members of the ex-president's family came to Chicago at once and were with him at the hospital until he had so far recovered as to be able to go to Oyster Bay, his home. No effort was made to probe the wound and

the bullet was allowed to remain where it was imbedded in the chest. The physicians, recognizing the possibility of serious complications, watched the patient closely, but he gained strength rapidly and on Monday morning, Oct. 21, he was permitted to take a train for the east. He arrived at Oyster Bay on the following day and remained there until the close of the campaign, except for a visit to New York, where he made a speech at a progressive mass meeting in Madison Square Garden on the evening of Oct. 30. He received a tremendous ovation from the great gathering and made an effective speech on behalf of the progressive policies. Mr. Roosevelt immediately after the shooting received hundreds of telegrams of sympathy and congratulation from public men in all parts of the world.

On searching John Schrank in the police station notes were found in his pockets which seemed to indicate that the writer was insane. One was to the effect that in a dream he had seen the spirit of McKinley, who pointed out Theodore Roosevelt and said: "Let not a murderer take the presidential chair. Avenge my death." A paragraph in another note was: "Let every third term be regarded as a traitor to the American cause. Let it be the right and duty of every citizen to forcibly remove a third term." The notes were signed "Innocent Guilty." When questioned Schrank said he had followed Mr. Roosevelt from New York to Charleston, Augusta, Birmingham, Chattanooga, Nashville, Evansville, Louisville, Chicago and Milwaukee, looking all the time for an opportunity to kill him. Asked for his motive, he said he thought it was his duty to remove a man who was seeking a third term as president. He said his home was at 370 East 10th street, New York city. He denied being a socialist and said he was an independent in politics.

It was decided to remand the prisoner until the result of his act was definitely known and also until after the excitement of the presidential campaign was over. Accordingly Schrank was not arraigned in court until Nov. 12, when he was taken before Municipal Judge A. C. Backus. District Attorney W. C. Zabel read the complaint, which charged the defendant with an assault upon Theodore Roosevelt with a deadly weapon with intent to kill. Schrank pleaded guilty to the charge and in reply to a question from the judge said:

"I shot Theodore Roosevelt because he was a menace to the country. He should not have a third term. It is bad that a man should have a third term. I did not want him to have one. I shot him as a warning that men must not try to have more than two terms as president. I shot Theodore Roosevelt to kill him. I think all men trying to keep themselves in office should be killed; they become dangerous. I did not do it because he was a candidate of the progressive party, either, gentlemen."

At the request of the district attorney the judge appointed five Milwaukee physicians to act as a commission of alienists for the purpose of inquiring into the prisoner's mental condition.

The doctors reported to the court Nov. 22 that in their opinion John Schrank was insane and unable to confer intelligently with counsel on the conduct of his defense. The report was unanimous. Judge Backus thereupon ruled: "It is ordered and adjudged that the defendant, John Schrank, be committed to the Northern Hospital for the Insane, near Oshkosh, until such time when he shall have recovered from such insanity, when he shall be returned to this court for further proceedings according to law." A few days later Schrank was taken to the asylum, in which, it was thought by physicians, he would spend the remainder of his life.

CARNEGIE PENSIONS FOR EX-PRESIDENTS.

The Carnegie Corporation of New York made the following official announcement Nov. 21, 1912:

"Provision has been made through this corporation for a pension for each future ex-president and his widow, unmarried, of \$25,000 per year as long as these remain unprovided for by the nation, that

they may be able to spend the latter part of their lives devoting their unique knowledge gained of public affairs to the public good free from pecuniary cares. These pensions will be promptly offered to the ex-presidents or their widows, so that no application will be required from them."

PANAMA CANAL TOLLS FIXED.

President Taft issued a proclamation Nov. 13, 1912, fixing the tolls to be paid by foreign shipping for passage through the Panama canal as follows:

On merchant vessels carrying passengers or cargo, \$1.20 per net vessel ton—each 100 cubic feet—of actual earning capacity.

On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

Upon naval vessels other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

Upon army and navy transports, colliers, hospital ships and supply ships, \$1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels. [See "Panama Canal Act," pages 182 and 183.]

AMERICAN LIBRARY ASSOCIATION.

Organized 1876; incorporated 1879.

President—Henry E. Legler, Chicago, Ill.
 First Vice-President—E. H. Anderson, New York, N. Y.
 Second Vice-President—Mary F. Isom, Portland, Ore.
 Secretary and Executive Officer—George B. Utley,
 78 East Washington street, Chicago, Ill.

Treasurer—Carl B. Roden, Chicago, Ill.
 Headquarters—78 East Washington-st., Chicago, Ill.
 Membership—2,400.
 Object—To promote the welfare of libraries in America.

JUL REVENUE LAW DECISION.

In accordance with a decision of the Illinois Supreme court in the case of the Toledo, St. Louis & Western railroad against the collector of Madison county in June, 1912, it was held by the legal departments of Chicago and Cook county that in making the tax levy sinking funds and bond issues must be included within the limitations of the July revenue law of 1909. When the law was passed it was presumed that money with which to pay

bonded indebtedness and interest could be paid outside the limitations placed upon tax levies by the measure, but this presumption, in the light of the decision referred to, was unwarranted. It was estimated by the city officials that the corporate revenue from taxes for 1912 was reduced \$3,701,682.51 as a result of the new interpretation of the law, and that many proposed improvements would have to be postponed.

SPEED ON TYPEWRITER.

At the national business show in New York, N. Y., Nov. 13, 1912, Miss Florence E. Wilson broke the record for speed on the typewriter by writing

at the rate of 116 words a minute for one hour. In an amateur contest Miss Margaret D. Owen also made an average of 116 words a minute.

*Ratified the constitution. †Organized as territory. ‡Delegate. §Signing of protocol relinquishing sovereignty. **Yielding sovereignty. Population in 1903. ††Commissioner.

Historians do not all agree as to some of the

dates in the above table. The dates given are from the statistical abstract of the United States published by the government and are well supported in all disputed cases.

UNITED STATES NAVAL GUNNERY COMPETITION.

The gunnery trophy for battle ships in 1912 was won by the Colorado and that for vessels of the torpedo class by the Monaghan. The following table shows the final merits at the autumn practice in 1911, the spring practice in 1912 and at the close of the fiscal year, June 30, 1912, of the first ten battle ships in the gunnery competition:

Rank, Ship.	Autumn.	Spring.	June 30.
1. Colorado.....	65.076	78.160	71.618
2. Delaware.....	62.551	60.316	51.433
3. New Hampshire.....	48.249	31.673	39.961
4. Michigan.....	30.787	47.791	39.239
5. Saratoga.....	50.444	24.514	37.479
6. South Carolina.....	45.191	22.245	33.718

Rank, Ship.	Autumn.	Spring.	June 30.
7. Maryland.....	29.462	32.494	30.978
8. North Dakota.....	22.393	39.388	30.891
9. Kansas.....	30.818	27.191	29.005
10. Louisiana.....	30.939	24.715	27.827

Final merits of first five vessels of the torpedo class:

Rank, Ship.	Autumn.	Spring.	June 30.
1. Monaghan.....	46.439	86.901	66.670
2. Lawrence.....	31.025	98.824	64.925
3. Trippe.....	25.660	88.384	57.022
4. Reld.....	73.911	37.485	55.698
5. Preston.....	60.884	48.946	54.915

GREAT AMERICAN FORTUNES.

An eastern financial writer in 1912 estimated that nine American multimillionaires possessed a combined fortune of \$3,000,000,000, divided as follows:

John D. Rockefeller.....	\$1,000,000,000
Andrew Carnegie.....	500,000,000
J. P. Morgan.....	300,000,000

William Rockefeller.....	250,000,000
George F. Baker.....	250,000,000
James B. Duke.....	200,000,000
James Stillman.....	200,000,000
Henry C. Frick.....	150,000,000
W. K. Vanderbilt.....	150,000,000

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison and Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote

for Cleveland, this causing the electoral vote of the state to be equally divided among Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan. In Maryland in 1904 7 of the presidential electors chosen were democrats and 1 republican. In 1908 Maryland elected 6 democratic and 2 republican electors. In 1912 California elected 11 progressive and 2 democratic electors.

*In California the electoral vote was split, the progressives getting eleven and the democrats two. The highest progressive elector received 174 more votes than the highest democratic electors. †Okla-

homa had no progressive ticket, though it was generally understood that the republican electors favored Roosevelt. ‡There were no republican electors on the official ballot in South Dakota.

QUESTIONS OF PUBLIC POLICY.

No. 1—Shall the next general assembly (in order that the people may be relieved of a system of taxation which places a comparatively heavier burden upon the poor man than upon his wealthier neighbor, which is unjust to all who fall under the full force of its operation and which places a premium upon dishonesty) submit to the voters of the state of Illinois at the next following state election an amendment to the state constitution providing for the classification of property for purposes of taxation with taxes uniform as to each class within the jurisdiction levying the same?

Yes.....541,189 | No.....187,467

No. 2—Shall the next general assembly revise the primary election act to abolish the scandals and disorder now incident to the filing of petitions, to increase the secrecy of the ballot and the political freedom of the voter, to simplify the system and reduce the expense of elections and to encourage a greater popular participation in primary elections to the end that nominations may represent more truly the judgment of majorities?

Yes.....524,171 | No.....158,531

No. 3—Shall the next general assembly create a legislative commission to investigate the most practicable means of shortening our cumbersome ballot and report to the 49th general assembly its recommendations.

Yes.....508,780 | No.....165,270

FOR REPRESENTATIVES IN CONGRESS, 1912.

1. The counties of Gibson, Pike, Posey, Spencer, Vanderburg and Warrick.	11,242
Charles F. Lieb, Dem.....	1,378
David H. Ortmyer, Rep.....	10,797
George E. Flannigan, Pro.....	2,129
Humphrey C. Heldt, Pro.....	—
William H. Rainey, Soc.....	—
2. The counties of Daviess, Greene, Knox, Lawrence, Martin, Monroe, Owen and Sullivan.	11,242
William H. Cullop, Dem.....	15,858
Oscar E. Oland, Rep.....	6,001
Isaac C. Evman, Pro.....	3,883
John N. Dyer, Prog.....	—
James L. B. Shepherd, Soc.....	—
3. The counties of Clark, Crawford, Dubois, Floyd, Harrison, Perry, Orange, Scott and Washington.	11,242
William E. Cox, Dem.....	12,436
William D. Barnes, Rep.....	1,036
H. W. White, Pro.....	7,540
S. G. Wilkinson, Prog.....	1,000
John Zahnd, Soc.....	—
4. The counties of Bartholomew, Brown, Dearborn, Jackson, Jefferson, Jennings, Johnson, Ohio, Ripley and Switzerland.	11,242
Lincoln Dixon, Dem.....	12,436
Rollin A. Turner, Rep.....	1,036
Henry Thompson, Pro.....	7,540
Charles Zoller, Jr., Prog.....	1,000
William F. Carmichael, Soc.....	—
5. The counties of Clay, Hendricks, Morgan, Parke, Putnam, Vermilion and Vigo.	11,242
Ralph W. Moss, Dem.....	11,995
F. W. Blankenbaker, Rep.....	1,444
John S. L. Myers, Pro.....	3,351
William Houston, Prog.....	8,268
Joseph W. Amis, Soc.....	—
6. The counties of Decatur, Fayette, Franklin, Hancock, Henry, Rush, Shelby, Union and Wayne.	11,242
Finly H. Gray, Dem.....	19,987
William L. Risk, Rep.....	11,242
Mercer Brown, Pro.....	1,378
Gurliel Jensen, Prog.....	10,797
F. Foster Van Vorhis, Soc.....	2,129
7. The county of Marion.	11,242
Charles A. Korbly, Dem.....	28,901
Thomas R. Shipp, Rep.....	13,320
Albert Stark, Pro.....	1,387
J. V. Zartman, Prog.....	18,402
Frank J. Hays, Soc.....	5,501
8. The counties of Adams, Delaware, Jay, Madison, Randolph and Wells.	11,242
J. A. M. Adair, Dem.....	23,530
J. P. Watts, Rep.....	8,298
J. Walter Gibson, Pro.....	2,033
E. C. Toner, Prog.....	13,157
Hunter McDonald, Soc.....	3,611
9. The counties of Boone, Carroll, Clinton, Fountain, Hamilton, Howard, Montgomery and Tipton.	11,242
M. A. Morrison, Dem.....	23,574
William Robinson, Rep.....	15,901
A. M. Ewing, Pro.....	1,562
John F. Neal, Prog.....	9,205
George N. Keller, Soc.....	2,011
10. The counties of Benton, Jasper, Lake, Lanorte, Newton, Porter, Tippecanoe, Warren and White.	11,242
John B. Peterson, Dem.....	18,401
E. D. Crumpacker, Rep.....	17,294
William R. Herdich, Pro.....	591
John S. Bowers, Prog.....	9,793
A. K. Mark, Soc.....	1,370
11. The counties of Blackford, Cass, Grant, Huntington, Miami and Wabash.	11,242
George W. Rauch, Dem.....	21,894
John W. G. Stewart, Rep.....	12,213
Ed H. Kennedy, Pro.....	2,282
Edgar M. Baldwin, Prog.....	10,830
Ernest Malott, Soc.....	2,813

12. The counties of Allen, Dekalb, Lagrange, Noble, Steuben and Whitely.	
Cyrus Cline, Dem.	19,903
Charles R. Lane, Rep.	11,147
William F. Dibble, Pro.	2,022
Louis N. Litman, Prog.	8,114
13. The counties of Elkhart, Fulton, Kosciusko, Marshall, Pulaski, St. Joseph and Starke.	
Henry A. Barnhart, Dem.	24,968
Charles A. Carlisle, Rep.	13,787
William Mamer, Pro.	1,343
R. C. Stephens, Prog.	13,824
Erwin H. Cady, Soc.	2,987

LEGISLATURE.	Senate.	House.	J.B.

VOTE ON PROPOSITIONS.

For the issuing of bonds to the amount of \$1,750,000 by the city of Chicago for the purpose of paying its share of the cost of widening 12th street from South Michigan avenue to South Ashland avenue.

Yes.....	162,264	No.....	136,928
For the issuing of bonds to the amount of \$500,000 by Cook county for building a new detention hos-			

pital and the purchase of land in connection with the county poorhouse.

	†City.	Towns.	Total.
Yes.....	160,354	15,577	175,931
No.....	132,254	13,157	145,411

For the issuing of bonds to the amount of \$500,000 by Cook county for completing county courthouse.

	†City.	Towns.	Total.
Yes.....	114,850	11,783	126,633
No.....	163,033	14,509	177,542

For issuing bonds to the amount of \$1,000,000 by Cook county for the erection of new buildings for the sick and the poor at Oak Forest.

	†City.	Towns.	Total.
Yes.....	164,252	14,012	178,264
No.....	119,818	12,246	132,064

†Including Cicero.

VOTE ON PUBLIC POLICY QUESTIONS.

Shall the next general assembly (in order that the people may be relieved of a system of taxation which places a comparatively heavier burden upon the poor man than upon his wealthy neighbor, which is unjust to all who fall under the full force of its operation, and which places a premium upon dishonesty) submit to the voters of the state of Illinois, at the next following state election, an amendment to the state constitution providing for the classification of property for purposes of taxation, with taxes uniform as to each class within the jurisdiction levying the same?

	†City.	Towns.	Total.
Yes.....	151,396	20,218	201,614
No.....	82,928	6,644	89,572

Shall the next general assembly revise the primary election act to abolish the scandals and disorder now incident to the filing of petitions, to increase the secrecy of the ballot and the political freedom of the voter, to simplify the system and reduce the expense of elections and to encourage a greater popular participation in primary elections to the end that nominations may represent more truly the judgment of majorities?

	†City.	Towns.	Total.
Yes.....	181,904	21,035	202,939
No.....	76,289	5,999	82,288

Shall the next general assembly create a legislative commission to investigate the most practicable means of shortening our cumbersome election ballot and report to the 49th general assembly its recommendations?

	†City.	Towns.	Total.
Yes.....	178,397	21,419	199,816
No.....	78,184	5,906	83,890

†Including Cicero.

March 19—Last day to withdraw name as independent candidate for the offices of city clerk, city treasurer and alderman. Withdrawals must be filed with the city clerk.

REGISTRATION.

Feb. 5—Registration for the primary of Feb. 25 by filing in the office of the board of election com-

missioners a primary registration affidavit. This registration is good for the primary only and applies only to those persons not already registered in the precinct where they reside, but who will, on or before the date of the primary, be entitled to a vote at such primary.

March 11—Intermediate registration for all voters whose names are not on the registers of their precincts, including those who registered by affidavit for the primary of Feb. 25.

March 15—Revision of the registry. The board of registry will be in session at each precinct polling place from 6 p. m. until 10 p. m. No one can register at that time, but voters whose names are already on the registers and who have moved from one address to another in the same precinct must apply to the board of registry to have their address corrected upon the registers. This may also be done on registration day, March 11, and unless the voter has his address so corrected he cannot vote. Voters who move in the same precinct after March 15, and before election, may vote by applying at their precinct polling places on election day and filling out the usual removal affidavit, which affidavit must be supported by that of two householders.

March 18 and 19—Filing applications to be registered and to be restored following March registration and revision.

March 24 and 25—Filing applications to erase names from registry following March registration.

March 25, 26 and 27—Board of election commissioners sit to hear applications to be registered, to be restored and to erase.

March 27—Last day to post specimen ballots and instruction cards for the April election.

March 28 and 29—County court sits to hear application to have names placed on the registry.

April 1—City, town and county election.

May 1—Last day of closed period on registers.

ILLINOIS PRIMARY ELECTION—APRIL 9, 1912.

SUMMARY OF GENERAL VOTE.

PRESIDENT UNITED STATES.

Candidate.	Total Instate.	Outside Cook Co.	In Cook county.	Count cast.
William H. Taft, Rep.....	127,481	78,577	48,904	5
Theodore Roosevelt, Rep.....	266,817	152,301	84,716	97
M. LaFollette, Rep.....	43,692	29,175	15,517	0
Roosevelt's plurality.....	139,436			
Champ Clark, Dem.....	138,438	104,171	114,312	96
Woodrow Wilson, Dem.....	75,527	42,524	33,003	6
Clark's plurality.....	142,956			

UNITED STATES SENATOR.

Hugh S. Magill, Rep.....	78,344	51,669	26,675	6
Shelby M. Cullom, Rep.....	129,375	88,520	40,855	32
L. Y. Sherman, Rep.....	178,063	115,813	62,250	64
W. Grant Webster, Rep.....	24,567	15,609	8,958	0
Sherman's plurality.....	48,688			
James H. Lewis, Dem.....	228,872	113,248	115,624	All
Alonzo E. Wilson, Pro.....	3,786	3,380	406	All

GOVERNOR.

Charles S. Deneen, Rep.....	152,997	89,475	63,522	54
Len Small, Rep.....	88,529	61,610	27,219	22

 Young, William P., of Newark, N. J., for memorial church, \$750,000.

TYPHOON IN THE PHILIPPINES.

The Philippine islands were swept by a typhoon of great violence Oct. 16, 1912, resulting in the death of approximately 1,000 persons and the destruction of property of an estimated value of \$25,000,000. The storm extended over a wide area,

touching Surigao in the south, Tacloban in the north and crossing Leyte, Bohol, Cebu, Negros and Panay. Five small coasting steamers were driven ashore and many sailing vessels were wrecked or beached.

CONGRESSIONAL INVESTIGATION OF THE "MONEY TRUST."

Feb. 24, 1912, the national house of representatives passed a resolution authorizing the committee on banking and currency to make a full investigation of the banking and currency conditions of the United States for the purpose of determining what legislation was needed. The committee, of which Arsene P. Pujo of Louisiana is chairman, began work in May by sending to bankers a blank to be filled out requesting the following information:

A. Statement of stocks, bonds and other securities owned.

B. Securities purchased from officers, etc.

C. Loans to financial institutions and to individuals secured in whole or in part by stocks of financial institutions.

D. Syndicate or underwriting operations.

E. Due to and from banks.

F. Miscellaneous resources and liabilities.

G. Officers, directors and stockholders—their stocks and loans.

H. Calls for: Joint occupancy, if another banking institution occupies the same office.

Title of joint occupant.

Is it controlled by or does it control this bank?

State manner and extent of control.

Has it practically the same officers and clerks?

Affiliated financial institutions:

What institutions are affiliated with this bank?

Is stock of affiliated institutions owned by stockholders of this bank?

If as a corporation, to what extent?

If as individuals, to what extent?

Does transfer of one stock convey ownership of the other?

Is stock held in trust for benefit of stockholders of this bank?

How many banks have been merged in your present organization, either directly or indirectly, by the dissolution of other banks and the purchase of their business and assets?

Give the names of these absorbed banks, their capital stocks and the dates they were taken over.

Bankers generally denounced these questions as too personal and inquisitorial, but the committee insisted on their being answered. In the course of the investigation the following witnesses, among others, were examined: A. Barton Hepburn, chairman of the New York clearing house in 1907; Frank A. Vanderlip of the National City bank, New York; R. H. Thomas, president of the New York stock exchange in 1907, at the time of the panic; William M. Cloud, president of the State Bank of Maryland; C. A. Pugsley, president of the New York Bankers' association; W. E. Frew, chairman of the New York Clearing House association in 1912; J. H. Griesel of Griesel & Rogers, New York; Frederick Lewisohn of the New York banking firm of Lewisohn Bros., and J. Pierpont Morgan. The last named appeared before the committee Dec. 18, on which date the report of thirty statistical experts employed by the committee was made public. According to this report eighteen banks and trust companies control, through interlocking directorates of 134 concerns, \$25,325,000,000 of the capital of the country invested in industrial, transportation and general financial enterprises.

The eighteen banks and trust companies named, through firm members and directors numbering 180, hold in the aggregate 385 directorships in forty-one banks and trust companies having total resources of \$3,832,000,000 and total deposits of \$2,834,000,000; fifty directorships in eleven insurance companies, having total assets of \$2,646,000,000; 155 directorships in thirty-one railroad systems having a total capitalization of \$12,193,000,000 and a total mileage of 163,200; six directorships in two express companies and four directorships in one steamship company, with a combined capital of \$245,000,000 and gross income of \$97,000,000; ninety-eight directorships in twenty-eight producing and trading corporations having a total capitalization of \$3,583,000,000 and total gross annual earnings in excess of \$1,145,000,000, and forty-eight directorships in nineteen public utility corporations having a total capitalization of \$2,826,000,000 and total gross annual earnings in excess of \$428,000,000; in all, 746 directorships in 134 corpora-

tions having total resources or capitalization of \$25,325,000,000.

The eighteen banks and trust companies named in the report were:

J. P. Morgan & Co.	New York
First National bank	New York
Guaranty Trust company	New York
Bankers' Trust company	New York
National City bank	New York
Kuhn, Loeb & Co.	New York
National Bank of Commerce	New York
Hanover National bank	New York
Chase National bank	New York
Astor Trust company	New York
New York Trust company	New York
Speyer & Co.	New York
Blair & Co.	New York
Continental and Commercial National bank	Chicago
First National bank	Chicago
Illinois Trust and Savings bank	Chicago
Kidder, Peabody & Co.	Boston and New York
Lee Higginson & Co.	Boston and New York

The report in explaining a chart relating to Morgan & Co., the First National bank, the National City bank, the Guaranty Trust company and the Bankers' Trust company said:

"1. The table shows that J. P. Morgan & Co., the First National bank, the National City bank, the Guaranty Trust company and the Bankers' Trust company together have:

"One hundred and eighteen directors in thirty-four banks and trust companies having total resources of \$2,679,000,000 and total deposits of \$1,983,000,000.

"Thirty directors in ten insurance companies having total assets of \$2,293,000,000.

"One hundred and five directors in thirty-two transportation systems having a total capitalization of \$1,784,000,000 and a total mileage (excluding express companies and steamship lines) of 150,200.

"Sixty-three directors in twenty-four producing and trading corporations having a total capitalization of \$3,339,000,000.

"Twenty-five directors in twelve public utility corporations having a total capitalization of \$2,150,000,000.

"In all 341 directors in 112 corporations having aggregate resources or capitalization of \$22,245,000,000.

"2. That J. P. Morgan & Co., the Guaranty Trust company, the Bankers' Trust company and the First National bank together have:

"Eighty-nine directors in such banks and trust companies.

"Twenty-nine directors in such insurance companies.

"Seventy-eight directors in such transportation systems.

"Forty-nine directors in such producing and trading corporations.

"Sixteen directors in such public utility corporations.

"In all 261 directors.

"3. That J. P. Morgan & Co., the Guaranty Trust company, the Bankers' Trust company together have:

"Seventy-eight directors in such banks and trust companies.

"Twenty-nine directors in such insurance companies.

"Sixty-four directors in such transportation systems.

"Forty-four directors in such producing and trading corporations, and

"Fourteen directors in such public utility corporations.

"In all 229 directors."

SUFFRAGE DEFEATED IN MICHIGAN.

At the election of Nov. 5, 1912, an amendment providing for the right of women to vote was submitted to the voters of Michigan. The official canvass, concluded Dec. 19, disclosed that a majority of 760 votes had been cast against the proposition.

IMPEACHMENT PROCEEDINGS AGAINST JUDGE ARCHBALD.

The following resolution was introduced and adopted in the house of representatives in Washington, D. C., July 11, 1912, by a vote of 223 yeas to 1 nay, 10 answering present and 155 not voting:

Resolved, That Robert W. Archbald, additional Circuit judge of the United States from the third judicial circuit, appointed pursuant to the act of June 18, 1910 (U. S. Stat. L., vol. 36, 540), and having duly qualified and having been duly commissioned and designated on the 31st day of January, 1911, to serve for four years in the Commerce court, be impeached for misbehavior and for high crimes and misdemeanors; and that the evidence heretofore taken by the committee on the judiciary under house resolution 524 sustains findings articles of impeachment which are hereinafter set out; and that said articles be, and they are hereby, adopted by the house of representatives, and that the same shall be exhibited to the senate in the following words and figures, to wit:

Articles of impeachment of the house of representatives of the United States of America in the name of themselves and of all of the people of the United States of America against Robert W. Archbald, additional Circuit judge of the United States from the third judicial circuit, appointed pursuant to the act of June 18, 1910 (U. S. Stat. L., vol. 36, 540), and having duly qualified and having been duly commissioned and designated on the 31st day of January, 1911, to serve for four years in the Commerce court:

ARTICLE I.

That the said Robert W. Archbald, at Scranton, in the state of Pennsylvania, being a United States Circuit Judge, and having been duly designated as one of the judges of the United States Commerce court, and being then and there a judge of the said court, on March 31, 1911, entered into an agreement with one Edward J. Williams whereby the said Robert W. Archbald and the said Edward J. Williams agreed to become partners in the purchase of a certain culm dump, commonly known as the Katydid culm dump, near Moosic, Pa., owned by the Hillside Coal and Iron company, a corporation, and one John M. Robertson, for the purpose of disposing of said property at a profit. That pursuant to said agreement, and in furtherance thereof, the said Robert W. Archbald, on the 31st day of March, 1911, and at divers other times and at different places, did undertake, by correspondence, by personal conferences and otherwise, to induce and influence, and did induce and influence, the officers of the said Hillside Coal and Iron company and of the Erie Railroad company, a corporation, which owned all of the stock of said coal company, to enter into an agreement with the said Robert W. Archbald and the said Edward J. Williams to sell the interest of the said Hillside Coal and Iron company in the Katydid culm dump for a consideration of \$4,500. That during the period covering the several negotiations and transactions leading up to the aforesaid agreement the said Robert W. Archbald was a judge of the United States Commerce court, duly designated and acting as such judge; and at the time aforesaid and during the time the aforesaid negotiations were in progress the said Erie Railroad company was a common carrier engaged in interstate commerce and was a party litigant in certain suits, to wit, the Baltimore & Ohio Railroad company et al. vs. the interstate commerce commission, No. 28, and the Baltimore & Ohio Railroad company et al. vs. the interstate commerce commission, No. 39, then pending in the United States Commerce court; and the said Robert W. Archbald, judge as aforesaid, well knowing these facts, willfully, unlawfully and corruptly took advantage of his official position as such judge to induce and influence the officials of the said Erie Railroad company and the said Hillside Coal and Iron company, a subsidiary corporation thereof, to enter into a contract with him and the said Edward J. Williams, as aforesaid, for profit to themselves, and that the said Robert W. Archbald, then and there, through the influence exerted by reason of his position as such judge, willfully, unlawfully and corruptly did induce the officers of

said Erie Railroad company and of the said Hillside Coal and Iron company to enter into said contract for the consideration aforesaid.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior as such judge and of a high crime and misdemeanor in office.

ARTICLE 2.

That the said Robert W. Archbald, on the 1st day of August, 1911, was a United States Circuit judge, and, having been duly designated as one of the judges of the United States Commerce court, was then and there a judge of said court.

That at the time aforesaid the Marian Coal company, a corporation, was the owner of a certain culm bank at Taylor, Pa., and was then and there engaged in the business of washing and shipping coal; that prior to that time the said Marian Coal company had filed before the interstate commerce commission a complaint against the Delaware, Lackawanna & Western Railroad company and five other railroad companies as defendants, charging said defendants with discrimination in rates and with excessive charges for the transportation of coal shipped by the said Marian Coal company over their respective lines of road; that all of the said defendant companies were common carriers engaged in interstate commerce. That the decision of the said case by the interstate commerce commission at the instance of either party thereto was subject to a review, under the law, by the United States Commerce court; that one Christopher G. Boland and one William P. Boland were then the principal stockholders of the said Marian Coal company and controlled the operation of the same, and they, the said Christopher G. Boland and the said William P. Boland, employed one George M. Watson as an attorney to settle the case then pending as aforesaid in the interstate commerce commission and to sell to the Delaware, Lackawanna & Western Railroad company two-thirds of the stock of the said Marian Coal company, and at the time aforesaid there was pending in the United States Commerce court a certain suit entitled "The Baltimore & Ohio Railroad company et al. vs. the interstate commerce commission, No. 38," to which suit the said Delaware, Lackawanna & Western Railroad company was a party litigant.

That the said Robert W. Archbald, being judge as aforesaid and well knowing these facts, did then and there engage for a consideration to assist the said George M. Watson to settle the aforesaid case then pending before the interstate commerce commission and to sell to the said Delaware, Lackawanna & Western Railroad company the said two-thirds of the stock of the said Marian Coal company, and in pursuance of said engagement the said Robert W. Archbald, on or about the 10th day of August, 1911, and at divers other times and at different places, did undertake, by correspondence, by personal conferences and otherwise, to induce and influence the officers of the Delaware, Lackawanna & Western Railroad company to enter into an agreement with the said George M. Watson for the settlement of the aforesaid case and the sale of said stock of the Marian Coal company, and the said Robert W. Archbald thereby willfully, unlawfully and corruptly did use his influence as such judge in the attempt to settle said case and to sell said stock of the said Marian Coal company to the Delaware, Lackawanna & Western Railroad company.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior as such judge and of a high crime and misdemeanor in office.

ARTICLE 3.

That the said Robert W. Archbald, being a United States Circuit judge and judge of the United States Commerce court, on or about Oct. 1, 1911, did secure from the Lehigh Valley Coal company, a corporation, which coal company was then and there owned by the Lehigh Valley Railroad company, a common carrier engaged in interstate commerce, and which railroad company was at that time a party litigant in certain suits then pending in the United States Commerce court, to

wit, the Baltimore & Ohio Railroad company et al. vs. interstate commerce commission et al., No. 38, and the Lehigh Valley Railroad company vs. interstate commerce commission et al., No. 49, all of which was well known to said Robert W. Archbald, an agreement which permitted said Robert W. Archbald and his associates to lease a culm dump known as Packer No. 3, near Shenandoah, in the state of Pennsylvania, which said culm dump contained a large amount of coal, to wit, 472,670 tons, and which said culm dump the said Robert W. Archbald and his associates agreed to operate and to ship the product of the same exclusively over the lines of the Lehigh Valley Railroad company, and that the said Robert W. Archbald unlawfully and corruptly did use his official position and influence as such judge to secure from the said coal company the said agreement.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior as such judge and of a misdemeanor in such office.

ARTICLE 4.

That the said Robert W. Archbald, while holding the office of United States Circuit judge and being a member of the United States Commerce court, was and is guilty of gross and improper conduct, and was and is guilty of a misdemeanor as said Circuit judge and as a member of said Commerce court in manner and form as follows, to wit: Prior to and on the 4th day of April, 1911, there was pending in said United States Commerce court the suit of Louisville & Nashville Railroad company vs. the interstate commerce commission. Said suit was argued and submitted to said United States Commerce court on the 4th day of April, 1911; that afterward, to wit, on the 22d day of August, 1911, while said suit was still pending in said court, and before the same had been decided, the said Robert W. Archbald, as a member of said United States Commerce court, secretly, wrongfully and unlawfully did write a letter to the attorney for the said Louisville & Nashville Railroad company requesting said attorney to see one of the witnesses who had testified in said suit on behalf of said company and to get his explanation and interpretation of certain testimony that the said witness had given in said suit, and communicate the same to the said Robert W. Archbald, which request was complied with by said attorney; that afterward, to wit, on the 10th day of January, 1912, while said suit was still pending, and before the same had been decided by said court, the said Robert W. Archbald, as judge of said court, secretly, wrongfully and unlawfully again did write to the said attorney that other members of said United States Commerce court had discovered evidence on file in said suit detrimental to the said railroad company and contrary to the statements and contentions made by the said attorney, and the said Robert W. Archbald, judge of the said United States Commerce court as aforesaid, in said letter requested the said attorney to make to him, the said Robert W. Archbald, an explanation and an answer thereto; and he, the said Robert W. Archbald, as a member of said United States Commerce court aforesaid, did then and there request and solicit the said attorney for the said railroad company to make and deliver to the said Robert W. Archbald a further argument in support of the contentions of the said attorney so representing the said railroad company, which request was complied with by said attorney, all of which on the part of said Robert W. Archbald was done secretly, wrongfully and unlawfully, and which was without the knowledge or consent of the said interstate commerce commission or its attorneys.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior in office, and was and is guilty of a misdemeanor.

ARTICLE 5.

That in the year 1904 one Frederick Warnke of Scranton, Pa., purchased a two-thirds interest in a lease on certain coal lands owned by the Philadelphia & Reading Coal and Iron company, located near Lorberry Junction, in said state, and put up a number of improvements thereon and operated

a culm dump located on said property for several years thereafter; that operations were carried on at a loss; that said Frederick Warnke thereupon applied to the Philadelphia & Reading Coal and Iron company for the mining maps of the said land covered by the said lease and was informed that the lease under which he claimed had been forfeited two years before it was assigned to him, and his application for said maps was therefore denied; that said Frederick Warnke then made a proposition to George F. Baer, president of the Philadelphia & Reading Railroad company and president of the Philadelphia & Reading Coal and Iron company, to relinquish any claim that he might have in this property under the said lease, provided that the Philadelphia & Reading Coal and Iron company would give him an operating lease on what was known as the Lincoln culm bank located near Lorberry; that said George F. Baer referred said proposition to one W. J. Richards, vice-president and general manager of the Philadelphia & Reading Coal and Iron company, for consideration and action; that, the general policy of the said coal company being adverse to the lease of any of its culm banks, the said George F. Baer and the said W. J. Richards declined to make the lease, and the said Frederick Warnke was so advised; that the said Frederick Warnke then made several attempts, through his attorneys and friends, to have the said George F. Baer and the said W. J. Richards reconsider their decision in the premises, but without avail; that on or about Nov. 1, 1911, the said Frederick Warnke called upon Robert W. Archbald, who was then and now is a United States Circuit judge, having been duly designated as one of the judges of the United States Commerce court, and asked him, the said Robert W. Archbald, to intercede in his behalf with the said W. J. Richards; that on Nov. 24, 1911, the said Robert W. Archbald, judge as aforesaid, pursuant to said request, did write a letter to the said W. J. Richards requesting an appointment with the said W. J. Richards; that several days thereafter the said Robert W. Archbald called at the office of the said W. J. Richards to intercede for the said Frederick Warnke; that the said W. J. Richards then and there informed the said Robert W. Archbald that the decision which he had given to the said Warnke must be considered as final, and the said Archbald so informed the said Warnke; that the entire capital stock of the Philadelphia & Reading Coal and Iron company is owned by the Reading company, which also owns the entire capital stock of the Philadelphia & Reading Railroad company, which last named company is a common carrier engaged in interstate commerce.

That the said Robert W. Archbald, judge as aforesaid, well knowing all the aforesaid facts, did wrongfully attempt to use his influence as such judge to aid and assist the said Frederick Warnke to secure an operating lease of the said Lincoln culm dump owned by the Philadelphia & Reading Coal and Iron company as aforesaid, which lease the officials of the said Philadelphia & Reading Coal and Iron company had theretofore refused to grant, which said fact was also well known to the said Robert W. Archbald.

That the said Robert W. Archbald, judge as aforesaid, shortly after the conclusion of his attempted negotiations with the officers of the Philadelphia & Reading Railroad company and the Philadelphia & Reading Coal and Iron company aforesaid in behalf of the said Frederick Warnke and on or about the 31st day of March, 1912, willfully, unlawfully and corruptly did accept, as a gift, reward or present, from the said Frederick Warnke, tendered in consideration of favors shown him by said judge in his efforts to secure a settlement and agreement with the said railroad company and the said coal company, and for other favors shown by said judge to the said Frederick Warnke, a certain promissory note for \$500 executed by the firm of Warnke & Co., of which the said Frederick Warnke was a member.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior as a judge and high crimes and misdemeanor in office.

ARTICLE 6.

That the said Robert W. Archbald, being a United States Circuit judge and a judge of the United States Commerce court, on or about the 1st day of December, 1911, did unlawfully, improperly and corruptly attempt to use his influence as such judge with the Lehigh Valley Coal company and the Lehigh Valley Railway company to induce the officers of said companies to purchase a certain interest in a tract of coal land containing 800 acres, which interest at said time belonged to certain persons known as the Everhardt heirs.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior in office, and was and is guilty of a misdemeanor.

ARTICLE 7.

That during the months of October and November, A. D. 1908, there was pending in the United States District court, in the city of Scranton, state of Pennsylvania, over which court Robert W. Archbald was then presiding as the duly appointed judge thereof, a suit or action at law wherein the Old Plymouth Coal company was plaintiff and the Equitable Fire and Marine Insurance company was defendant. That the said coal company was principally owned and entirely controlled by one W. W. Rissinger, which fact was well known to said Robert W. Archbald; that on or about Nov. 1, 1908, and while said suit was pending, the said Robert W. Archbald and the said W. W. Rissinger wrongfully and corruptly agreed together to purchase stock in a gold-mining scheme in Honduras, Central America, for the purpose of speculation and profit; that in order to secure the money with which to purchase said stock the said Rissinger executed his promissory note in the sum of \$2,500, payable to Robert W. Archbald and Sophia J. Hutchison, which said note was indorsed then and there by the said Robert W. Archbald for the purpose of having same discounted for cash; that one of the attorneys for said Rissinger in the trial of said suit was one John T. Lenahan; that on the 23d day of November, 1908, said suit came on for trial before said Robert W. Archbald, judge presiding, and a jury, and after the plaintiff's evidence was presented the defendant insurance company demurred to the sufficiency of said evidence and moved for a nonsuit, and after extended argument by attorneys for both plaintiff and defendant the said Robert W. Archbald ruled against the defendant and in favor of the plaintiff, and thereupon the defendant proceeded to introduce evidence before the conclusion of which the jury was dismissed and a judgment rendered in favor of the plaintiff for \$2,500, to be discharged upon the payment of \$2,129.65 if paid within fifteen days from Nov. 23, 1908, and on the same day judgments were entered in a number of other like suits against different insurance companies, which resulted in the recovery of about \$28,000 by the Old Plymouth Coal company; that before the expiration of said fifteen days the said Rissinger, with the knowledge and consent of said Robert W. Archbald, presented said note to the said John T. Lenahan for discount, which was refused and which was later discounted by a bank and has never been paid.

All of which acts on the part of the said Robert W. Archbald were improper, unbecoming and constituted misbehavior in his said office as judge, and render him guilty of a misdemeanor.

ARTICLE 8.

That during the summer and fall of the year 1909 there was pending in the United States District court for the middle district of Pennsylvania, in the city of Scranton, over which court the said Robert W. Archbald was then and there presiding as the duly appointed judge thereof, a civil action wherein the Marian Coal company was defendant, which action involved a large sum of money, and which defendant coal company was principally owned and controlled by one Christopher G. Boland and one William P. Boland, all of which was well known to said Robert W. Archbald, and while said suit was so pending the said Robert W. Archbald drew a note for \$500, payable to himself, and which note was signed by one John Henry Jones and indorsed by the said Robert W. Archbald, and

then and there during the pendency of said suit as aforesaid the said Robert W. Archbald wrongfully agreed and consented that the said note should be presented to the said Christopher G. Boland and the said William P. Boland, or one of them, for the purpose of having the said note discounted, corruptly intending that his name on said note would coerce and induce the said Christopher G. Boland and the said William P. Boland, or one of them, to discount the same because of the said Robert W. Archbald's position as judge and because the said Bolands were at that time litigants in said court.

Wherefore the said Robert W. Archbald was and is guilty of gross misconduct in his office as judge, and was and is guilty of a misdemeanor in his said office as judge.

ARTICLE 9.

That the said Robert W. Archbald of the city of Scranton and state of Pennsylvania, on or about Nov. 4, 1909, being then and there a United States District judge in and for the middle district of Pennsylvania, in the city of Scranton and state of Pennsylvania, did draw a note in his own proper handwriting, payable to himself, in the sum of \$500, which said note was signed by one John Henry Jones, which said note the said Robert W. Archbald indorsed for the purpose of securing the sum of \$500, and the said Robert W. Archbald, well knowing that his indorsement would not secure money in the usual commercial channels, then and there wrongfully did permit the said John Henry Jones to present said note for discount, at his law office, to one C. H. Von Storch, attorney at law and practitioner in said District court, which said Von Storch, a short time prior thereto, was a party defendant in a suit in the said District court presided over by the said Robert W. Archbald, which said suit was decided in favor of the said Von Storch upon a ruling by the said Robert W. Archbald, and when the said note was presented to the said Von Storch for discount as aforesaid the said Robert W. Archbald wrongfully and improperly used his influence as such judge to induce the said Von Storch to discount same; that the said note was then and there discounted by the said Von Storch, and the same has never been paid, but is still due and owing.

Wherefore the said Robert W. Archbald was and is guilty of gross misconduct in his said office, and was and is guilty of a misdemeanor in his said office as judge.

ARTICLE 10.

That the said Robert W. Archbald, while holding the office of United States District judge in and for the middle district of the state of Pennsylvania, on or about the 1st day of May, 1910, wrongfully and unlawfully did accept and receive a large sum of money, the exact amount of which is unknown, from the house of representatives, from one Henry W. Cannon; that said money so given by the said Henry W. Cannon and so unlawfully and wrongfully received and accepted by the said Robert W. Archbald, judge as aforesaid, was for the purpose of defraying the expenses of a pleasure trip of the said Robert W. Archbald to Europe; that the said Henry W. Cannon, at the time of the giving of said money and the receipt thereof by the said Robert W. Archbald, was a stockholder and officer in various and divers interstate railway corporations, to wit: A director in the Great Northern railway, a director in the Lake Erie & Western Railroad company and a director in the Port Wayne, Cincinnati & Louisville Railroad company; that the said Henry W. Cannon was president and chairman of the board of directors of the Pacific Coast company, a corporation which owned the entire capital stock of the Columbia & Puget Sound Railroad company, the Pacific Coast Railway company, the Pacific Coast Steamship company and various other corporations engaged in the mining of coal and in the development of agricultural and timber land in various parts of the United States; that the acceptance by the said Robert W. Archbald, while holding said office of United States District judge, of said favors from an officer and official of the said corporations, any of which in the

due course of business was liable to be interested in litigation pending in the said court over which he presided as such judge, was improper and had a tendency to and did bring his said office of District judge into disrepute.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior in office, and was and is guilty of a misdemeanor.

ARTICLE 11.

That the said Robert W. Archbald, while holding the office of United States District judge in and for the middle district of the state of Pennsylvania, did, on or about the 1st day of May, 1910, wrongfully and unlawfully accept and receive a sum of money in excess of \$500, which sum of money was contributed and given to the said Robert W. Archbald by various attorneys who were practitioners in the said court presided over by the said Robert W. Archbald; that said money was raised by subscription and solicitation from said attorneys by two of the officers of said court, to wit, Edward R. W. Searle, clerk of said court, and J. B. Woodward, jury commissioner of said court, both the said Edward R. W. Searle and the said J. B. Woodward having been appointed to the said positions by the said Robert W. Archbald, judge aforesaid.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior in office, and was and is guilty of a misdemeanor.

ARTICLE 12.

That on the 9th day of April, 1901, and for a long time prior thereto, one J. B. Woodward was a general attorney for the Lehigh Valley Railroad company, a corporation and common carrier doing a general railroad business; that on said day the said Robert W. Archbald, being then and there a United States District judge in and for the middle district of Pennsylvania, and while acting as such judge, did appoint the said J. B. Woodward as a jury commissioner in and for said judicial district, and the said J. B. Woodward, by virtue of said appointment and with the continued consent and approval of the said Robert W. Archbald, held such office and performed all the duties pertaining thereto during all the time that the said Robert W. Archbald held such office of United States District judge, and that during all of the said time that the said J. B. Woodward continued to act as a general attorney for the said Lehigh Valley Railroad company; all of which was at all times well known to the said Robert W. Archbald.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior in office, and was and is guilty of a misdemeanor.

ARTICLE 13.

That Robert W. Archbald, on the 29th day of March, 1901, was duly appointed United States District judge for the middle district of Pennsylvania and held such office until the 31st day of January, 1911, on which last named date he was duly appointed a United States Circuit judge and designated as a judge of the United States Commerce court.

That during the time in which the said Robert W. Archbald has acted as such United States District judge and judge of the United States Commerce court he, the said Robert W. Archbald, at divers times and places, has sought wrongfully to obtain credit from and through certain persons who were interested in the result of suits then pending and suits that had been pending in the court over which he presided as judge of the District court, and in suits pending in the United States Commerce court, of which the said Robert W. Archbald is a member.

That the said Robert W. Archbald, being United States Circuit judge and being then and there a judge of the United States Commerce court, at Scranton, in the state of Pennsylvania, on the 31st day of March, 1911, and at divers other times and places, did undertake to carry on a general business for speculation and profit in the purchase and sale of culm dumps, coal lands and other coal properties, and for a valuable consideration to compromise litigation pending before the interstate commerce commission, and in the furtherance of his efforts to compromise such litigation and of his speculations in coal properties, willfully, unlawfully and corruptly did use his influence as a judge of the said United States Commerce court to induce the officers of the Erie Railroad company, the Delaware, Lackawanna & Western Railroad company, the Lackawanna & Wyoming Valley Railroad company and other railroad companies engaged in interstate commerce, respectively, to enter into various and divers contracts and agreements in which he was then and there financially interested with divers persons, to wit, Edward J. Williams, John Henry Jones, Thomas H. Jones, George M. Watson and others, without disclosing his said interest therein on the face of the contract, but which interest was well known to the officers and agents of said railroad companies.

That the said Robert W. Archbald did not invest any money or other thing of value in consideration of any interest acquired or sought to be acquired by him in securing or in attempting to secure such contracts or agreements or properties as aforesaid, but used his influence as such judge with the contracting parties thereto and received an interest in said contracts, agreements and properties in consideration of such influence in aiding and assisting in securing same.

That the said several railroad companies were and are engaged in interstate commerce, and at the time of the execution of the several contracts and agreements aforesaid and of entering into negotiations looking to such agreements had divers suits pending in the United States Commerce court, and that the conduct and efforts of the said Robert W. Archbald in endeavoring to secure and in securing such contracts and agreements from said railroad companies were continuous and persistent from the said 31st day of March, 1911, to about the 15th day of April, 1912.

Wherefore the said Robert W. Archbald was and is guilty of misbehavior as such judge and of misdemeanors in office. CHAMP CLARK, Speaker of the House of Representatives.

Attest: SOUTH TRIMBLE, Clerk.

By J. C. SOUTH, Chief Clerk.

The managers on the part of the house, who were Henry D. Clayton of Alabama, Edwin Y. Webb of North Carolina, John C. Floyd of Arkansas, John W. Davis of West Virginia, John A. Sterling of Illinois, Paul Howland of Ohio and George W. Norris of Nebraska, presented the resolution and articles of impeachment to the senate July 15, and the proceedings there were conducted according to the rules provided for such cases. The message of the house was referred to a special committee consisting of Senators Clark of Wyoming, Nelson of Minnesota, Dillingham of Vermont, Bacon of Georgia and Culberson of Texas.

Judge Robert W. Archbald, who was represented by A. S. Worthington and R. W. Archbald, Jr., made his formal appearance before the senate July 19. Aug. 2 the senate ordered that the trial be set for Dec. 2, and on that day the proceedings were resumed. They had not been concluded at the time this edition of The Daily News Almanac and Year-Book went to press.

JUDICIARY RECALL IN ARIZONA.

Both houses of the Arizona legislature adopted an amendment to the state constitution April 6, 1912, providing for the recall of the judiciary, and the bill was signed immediately by the governor. The vote in the house was unanimous, while there were two dissenting votes in the senate. The re-

call of judges formed a part of the constitution as originally adopted, but was stricken out as a condition precedent to the admission of Arizona as a state. President Taft was strongly opposed to that feature of the document.

empt. ⁴For the surviving husband or wife and children, if residents of Wyoming, \$25,000. ⁵For widows, \$10,000.

Note—The Oklahoma rates are subject to increase when the inheritance exceeds a certain amount in the various classes.

INHERITANCE TAX IN ILLINOIS.

The Illinois law taxing gifts, legacies and inheritances was passed by the legislature in 1895 and amended in 1901. Its constitutionality was contested, but the United States Supreme court in a decision rendered Jan. 19, 1903, held it to be valid.

Under the provisions of this law all property, real, personal and mixed, which shall pass by will or by the intestate laws of the state from any resident of the state or any one whose property is in this state to any person or persons is subject to a tax at the following rates: When the beneficial interests to any property or income therefrom shall pass to any father, mother, husband, wife, child, brother, sister, wife or widow of the son or the husband of the daughter, or any adopted child or children, or to any lineal descendant born in lawful wedlock, the rate of tax shall be \$1 on every \$100 of the clear market value of such property received by each person and at the same rate for any less amount, provided that any estate which may be valued at less than \$20,000 shall not be subject to any such tax; and the tax is to be levied in the above cases only upon the excess of \$20,000 received by each person.

When the property passes to any uncle, aunt, niece, nephew or any lineal descendant of the same the rate shall be \$2 on every \$100 in excess of \$2,000.

In all other cases the rate shall be as follows: On each and every \$100 of the clear market value of all property and at the same rate for any less amount; on all estates of \$10,000 and less, \$8; on all estates of over \$10,000 and not exceeding \$20,000, \$4; on all estates over \$20,000 and not exceeding \$50,000, \$5, and all estates over \$50,000, \$6; provided, that an estate in the above case which may be valued at a less sum than \$500 shall not be subject to any tax.

MORTGAGE INDEBTEDNESS OF UNITED STATES FARMS.

[From census bureau report.]

The total number of farms in the United States operated by their owners which were mortgaged in 1910 was 1,327,439, while 2,621,283 were reported as free from mortgage. These figures show an increase since 1900 of 17.7 per cent in the number of farms mortgaged, and of 4.4 per cent in the number of farms free from mortgage. Of the farms 58,104 were operated by managers, a decrease of 1.7 per cent since 1900, and 2,354,676 farms were operated by tenants, an increase of 16.3 per cent since 1900. The following table shows the number of farms free from mortgage and the number mortgaged in 1910 by divisions and the per cent of increase from 1900 to 1910:

Division.	NOT MORTGAGED.	Number.	crease.	*Pct. in-
New England.....	109,586	1.0		
Middle Atlantic.....	219,093	2.2		
East North Central.....	478,408	-5.0		
West North Central.....	408,980	0.7

East North Central.....	330,636	0.9		
West North Central.....	349,966	8.4		

Division.	Number.	*Pct. in-crease.
South Atlantic.....	111,742	26.7
East South Central.....	115,879	48.6
West South Central.....	135,113	98.7
Mountain Central.....	35,444	166.1
Pacific.....	55,894	87.8
United States.....	1,327,439	17.7

*Minus sign (-) denotes decrease.

The total value of the land and buildings of the 1,006,511 farms for which both the fact of mortgage indebtedness and its amounts were reported was \$6,330,000,000, and the amount of debt was \$1,726,000,000, or 27.3 per cent of the value. The average amount of mortgage indebtedness per farm increased from \$1,224 in 1890 to \$1,715 in 1910, but the average value per farm increased from \$3,444 to \$6,289 and therefore the owner's equity per farm increased from \$2,220 to \$4,574, or more than double.

UNITED STATES PARCEL POST REGULATIONS.

(For text of parcel post law see page 184.)

Complete regulations for the parcel post system had not been announced at the time this edition of The Daily News Almanac and Year-Book went to press, but it was announced that a parcel post map and guide would be placed on sale to the public at a nominal price by Jan. 1, 1913, when the system was to go into effect.

The map will show each unit of area in the United States properly numbered. Each postoffice will be furnished with a map suitable for use in the unit in which that postoffice is located.

The guide will contain the regulations for the conduct of the service and a list of postoffices with their respective unit numbers.

Seeds, cuttings, bulbs, roots, scions and plants will be permitted in the parcel post mails under regulations as to size and weight applicable to other parcel post packages, but at the rate of postage of 1 cent for two ounces or fraction thereof regardless of distance.

All matter now classified as third-class matter will not be permitted in the parcel post mails.

Farm and factory products will be admitted to the parcel post mails under certain regulations found in the parcel post guide.

Distinctive parcel post stamps must be used on all fourth-class matter, including that weighing four ounces and less, beginning Jan. 1, 1913. Such matter bearing ordinary postage stamps will be treated as "Held for postage."

A parcel not more than 3 feet 6 inches in length may measure as much as 2 feet 6 inches in girth or around its thickest part. A shorter parcel may be thicker; thus, if it measures no more than 3 feet in length it may measure as much as 3 feet in girth or around its thickest part. Measurements will be made by means of a six foot tape line furnished to postmasters by the department. So much of the tape as is not used in measuring the length is the measure of the maximum girth permissible.

Parcels will be mailable only at postoffices, branch postoffices, lettered and local named stations, and such numbered stations as may be designated by the postmaster, or presented to a rural or other carrier duly authorized to receive such matter.

All parcels must bear the return card of the sender, otherwise they will not be accepted for mailing.

Parcels will be delivered at all free delivery offices and to patrons residing on rural and star routes; they may be registered and may be accorded special delivery service on payment of the usual fees, and they may be insured against loss in an amount equivalent to their actual value, but not to exceed \$25, upon payment of a fee of 5 cents. Distinctive stamps must be used on all parcels, but they may be mailed in quantities of not less than 2,000 identical pieces without stamps affixed, the postage being paid in money.

TABLE OF PARCEL POST RATES BY ZONES.

	1st zone. Local rate.	2d zone. Zone rate, 50 to 150 50 miles.	3d zone. Zone rate, 150 to 300 miles.	4th zone. Zone rate, 300 to 600 miles.	5th zone. Zone rate, 600 to 1,000 miles.	6th zone. Zone rate, 1,000 to 1,400 miles.	7th zone. Zone rate, 1,400 to 1,800 miles.	8th zone. Zone rate, 1,800 to all over 1,800 miles.

In the above table the Bohemians include Moravians (Czech), the Bulgarians include Servians and Montenegrins, the Croatsians include Slovenians, the

Dalmatians include Bosnians and Herzegovinians, the Dutch include Flemish and the Scandinavians include Norwegians, Danes and Swedes.

DISTRIBUTION OF IMMIGRANTS.

The following summary shows the intended destination of a large part of the immigrants admitted in the fiscal year ended June 30, 1911, according to races and peoples:

Africans (black)—Florida, 2,191; Massachusetts, 1,341; New York, 2,117.
 Armenians—Illinois, 208; Massachusetts, 758; New York, 1,030; Rhode Island, 258.
 Bohemians and Moravians (Czechs)—Illinois, 2,672; Michigan, 286; Nebraska, 471; New York, 1,478; Ohio, 949; Pennsylvania, 514; Texas, 661; Wisconsin, 374.
 Bulgarians, Servians and Montenegrins—Illinois, 2,405; Indiana, 782; Michigan, 397; Minnesota, 229; Missouri, 500; New York, 957; Ohio, 1,953; Pennsylvania, 1,365; Texas, 271.
 Chinese—California, 483; New York, 183.
 Croats and Slovenians—Illinois, 2,471; Indiana, 464; Iowa, 249; Kansas, 361; Michigan, 738; Minnesota, 767; Missouri, 445; New Jersey, 398; New York, 2,119; Ohio, 2,144; Pennsylvania, 5,237; Washington, 522; Wisconsin, 888.
 Dalmatians, Bosnians and Herzegovinians—California, 660; Illinois, 926; New York, 856; Pennsylvania, 349.
 Dutch and Flemish—Illinois, 2,285; Indiana, 496; Iowa, 1,161; Michigan, 2,774; Minnesota, 517; New Jersey, 1,151; New York, 1,957; Wisconsin, 606.
 English—California, 2,651; Connecticut, 1,306; Illinois, 3,096; Indiana, 681; Iowa, 615; Massachusetts, 7,143; Michigan, 4,087; Minnesota, 747; New Jersey, 2,450; New York, 13,331; Ohio, 2,223; Pennsylvania, 4,945; Rhode Island, 2,004; Washington, 2,158.
 Finns—Massachusetts, 1,478; Michigan, 2,072; Minnesota, 1,568; New York, 1,552.
 French—California, 994; Illinois, 609; Maine, 1,138; Massachusetts, 3,217; Michigan, 829; New Hampshire, 1,742; New York, 4,147; Vermont, 554.
 Germans—California, 1,628; Illinois, 8,374; Iowa, 1,386; Kansas, 1,269; Michigan, 2,764; Minnesota, 1,331; Missouri, 1,582; New Jersey, 3,863; New York, 16,840; North Dakota, 1,859; Ohio, 4,614; Pennsylvania, 6,651; Washington, 1,042; Wisconsin, 3,526.
 Greeks—California, 796; Illinois, 4,400; Massachusetts, 5,223; Missouri, 1,624; New Hampshire, 1,622; New York, 10,314; Ohio, 1,139; Pennsylvania, 1,945.
 Hebrews—Connecticut, 1,310; Illinois, 6,340; Maryland, 1,323; Massachusetts, 5,361; Michigan, 1,063; Missouri, 1,246; New Jersey, 3,731; New York, 53,582; Ohio, 2,125; Pennsylvania, 9,214.
 Irish—Illinois, 2,305; Massachusetts, 6,899; New Jersey, 2,410; New York, 13,847; Pennsylvania, 4,806.
 Italians (northern)—California, 5,262; Connecticut, 1,103; Illinois, 3,055; Massachusetts, 1,753; New York, 6,769; Pennsylvania, 3,448.
 Italians (southern)—California, 2,391; Connecticut, 6,667; Illinois, 7,889; Massachusetts, 13,318; Michigan, 1,546; Missouri, 1,379; New Jersey, 10,730; New York, 68,414; Ohio, 4,778; Pennsylvania, 27,301; Rhode Island, 2,252; Washington, 1,331; West Virginia, 2,460; Wisconsin, 1,005.
 Japanese—California, 1,651; Washington, 495.
 Lithuanians—Connecticut, 1,061; Illinois, 3,753; Massachusetts, 2,285; New York, 2,407; Pennsylvania, 3,852.
 Magyars—Illinois, 1,242; New Jersey, 2,972; New York, 3,997; Ohio, 3,636; Pennsylvania, 4,605.
 Mexicans—Texas, 15,218.
 Poles—Connecticut, 3,545; Illinois, 10,188; Indiana, 733; Massachusetts, 6,152; Michigan, 4,022; New

Jersey, 6,792; New York, 16,495; Ohio, 2,995; Pennsylvania, 13,576; Wisconsin, 1,433.
 Portuguese—California, 1,762; Massachusetts, 3,862.
 Rumanians—Illinois, 376; Indiana, 507; New York, 498; Ohio, 1,641; Pennsylvania, 975.
 Russians—Illinois, 1,762; Massachusetts, 1,673; New York, 6,183; Pennsylvania, 2,805.
 Ruthenians—Connecticut, 465; Illinois, 647; Massachusetts, 552; New Jersey, 2,247; New York, 4,991; Ohio, 564; Pennsylvania, 6,902.
 Scandinavians—California, 1,059; Illinois, 6,377; Iowa, 2,108; Massachusetts, 2,754; Michigan, 1,083; Minnesota, 6,863; Nebraska, 1,144; New Jersey, 1,050; New York, 7,722; North Dakota, 1,970; Pennsylvania, 1,078; South Dakota, 1,292; Washington, 3,552; Wisconsin, 1,993.
 Scotch—Illinois, 2,051; Massachusetts, 3,073; Michigan, 1,922; New Jersey, 1,529; New York, 5,360; Ohio, 1,069; Pennsylvania, 2,326.
 Slovaks—Connecticut, 532; Illinois, 1,809; New Jersey, 2,874; Ohio, 2,092; Pennsylvania, 9,777.
 Syrians—Illinois, 155; Massachusetts, 857; New York, 1,377; Ohio, 377; Pennsylvania, 834.
 Welsh—Illinois, 162; New York, 475; Pennsylvania, 509.

EMIGRANT ALIENS.

In the fiscal year ended June 30, 1911, the total number of emigrant aliens departing from the United States was 295,666. These included 13,735 Croats and Slovenians, 15,243 Germans, 11,134 Greeks, 14,209 northern Italians, 62,009 southern Italians, 18,975 Magyars, 31,952 Poles and 15,561 Slovaks.

ALIENS REFUSED ADMISSION.

In the fiscal year ended June 30, 1911, there were turned back at the ports 22,349 aliens, or about 2.1 per cent of the total number applying for admission. The principal causes of rejection were: Idiots, 12; imbeciles, 26; feeble minded, 126; insanity (including epileptics), 144; likely to become a public charge, including paupers and beggars, 12,043; afflicted with contagious disease, 2,735; afflicted with tuberculosis, 111; physically or mentally defective, 3,055; criminals, 644; immoral women, 253; contract laborers, 1,633.

DEPORTATION OF ALIENS.

The following table shows the deportation of aliens from the United States after entry by fiscal years:

1892.....	637	1902.....	465
1893.....	577	1903.....	547
1894.....	417	1904.....	779
1895.....	177	1905.....	845
1896.....	238	1906.....	676
1897.....	263	1907.....	995
1898.....	199	1908.....	2,069
1899.....	263	1909.....	2,124
1900.....	356	1910.....	2,695
1901.....	363	1911.....	2,788

IMMIGRATION INTO CANADA.

In the fiscal year ended June 30, 1911, the total immigration into Canada was 333,850. Of the immigrants 140,498 were British, 73,599 from the continent of Europe and 119,753 from the United States. The total number of citizens of the United States emigrating to Canada in 1910 was 78,697 and in 1911, 74,197. The number of Canadian citizens emigrating to the United States in 1910 was 44,340 and in 1911, 44,439.

IMMIGRATION LAW OF THE UNITED STATES.

The immigration law provides for a poll tax of \$4 for every alien entering the United States. This tax is not levied upon aliens who shall enter the United States after an uninterrupted residence of at least one year, immediately preceding such entrance, in Canada, Newfoundland, Cuba or Mexico, nor upon aliens in transit through the United States, nor upon aliens arriving in Guam, Porto Rico or Hawaii.

Whenever the president shall be satisfied that passports issued by any foreign government to its citizens to go to any country other than the

United States or to any insular possession of the United States, or to the canal zone, are being used for the purpose of enabling the holders to come to the continental territory of the United States to the detriment of labor conditions therein, the president may refuse to permit such citizens of the country issuing such passports to enter the continental territory of the United States from such other country or from such insular possessions or from the canal zone.

The following classes are excluded from admission into the United States: All idiots, imbe-

cles, feeble-minded persons, epileptics, insane persons and persons who have been insane within five years; persons who have had two or more attacks of insanity at any time previously; paupers; persons likely to become a public charge; professional beggars; persons afflicted with tuberculosis or with a loathsome or dangerous contagious disease; persons who have committed a felony or other crime involving moral turpitude; polygamists or persons who believe in the practice of polygamy; anarchists or persons who believe in or advocate the overthrow by force or violence of the government of the United States, or of all governments, or of all forms of law, or the assassination of public officials; prostitutes, or women and girls coming into the United States for any immoral purpose; contract laborers who have been induced to migrate to this country by offers of employment or in consequence of agreements of any kind, verbal or written, express or implied, to perform labor in this country of any kind, skilled or unskilled; any person whose ticket or passage is paid for with the money of another, or who is assisted by others to come, unless it is satisfactorily shown that such person does not belong to one of the foregoing excluded classes and that said ticket or passage was not paid for by any corporation, society, municipality or foreign government, directly or indirectly; all children under 16 years of age unaccompanied by one or both of their parents, at the discretion of the secretary of commerce and labor. Nothing in the act shall exclude, if otherwise admissible, persons convicted of an offense purely political, not involving moral turpitude. Skilled labor may be imported if labor of like kind unemployed cannot be found in this country. The provisions of the law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, clergymen, professors for colleges or seminaries, persons belonging to any recognized learned profession or persons employed strictly as personal or domestic servants.

It is unlawful to assist or encourage the importation or migration of any alien by promise

of employment through advertisements printed in any foreign country. This, however, does not apply to states or territories advertising the inducements they offer to immigration thereto.

All aliens brought to this country in violation of law shall be immediately sent back by the owners of the vessels bringing them. Any alien entering the United States in violation of law and such as become public charges from causes existing prior to their landing shall be deported at any time within three years after their arrival.

No person who disbelieves in or who is opposed to all organized government, or who is a member of or affiliated with any organization entertaining and teaching such belief in or opposition to all organized government, or who advocates or teaches the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers, either of specific individuals or of officers generally, of the government of the United States, or of any other organized government, because of his or their official character, shall be permitted to enter the United States.

COMMISSION ON INDUSTRIAL RELATIONS.

Appointed by President Taft Dec. 17, 1912.

Representing the people—Senator George Sutherland of Utah, George B. Chandler, a member of the Connecticut legislature; Charles Simons Barrett of Georgia, president of the Farmers' union.

Representing capital—Frederic A. Delano of Chicago, president of the Wabash railroad; Adolph Lewishohn of New York, merchant and philanthropist; F. C. Schwedtman of Missouri, an electrical engineer.

Representing labor—Austin B. Garretson of Iowa, president of the Order of Railway Conductors; John B. Lennon, treasurer of the American Federation of Labor, and James O'Connell of the District of Columbia, vice-president of the same organization.

(For law creating commission see page 136.)

FINAL CROP ESTIMATES FOR 1912.

(See also page 65.)

The final estimates of the crop reporting board of the bureau of statistics in Washington, based on reports of correspondents and agents of the bureau, indicate the acreage, production and value (based on prices paid to farmers Dec. 1) of important farm crops of the United States in 1912, 1911 and 1910, to have been approximately as follows:

CORN.

Acreage.	—Farm Value, Dec. 1.—		
	Production, *bushels.	Per bu., cents.	Total dollars.
1912.... 107,083,000	3,124,746,000	48.70	1,520,454,000
1911.... 105,825,000	2,531,488,000	61.80	1,565,258,000
1910.... 104,035,000	2,886,260,000	48.00	1,384,817,000

WINTER WHEAT.

Acreage.	—Farm Value, Dec. 1.—		
	Production, *bushels.	Per bu., cents.	Total dollars.
1912.... 26,571,000	399,919,000	80.90	323,572,000
1911.... 29,162,000	430,656,000	88.00	379,151,000
1910.... 27,329,000	434,142,000	88.10	382,315,000

SPRING WHEAT.

Acreage.	—Farm Value, Dec. 1.—		
	Production, *bushels.	Per bu., cents.	Total dollars.
1912.... 19,243,000	330,348,000	70.10	231,708,000

*Bushels of weight. †Revised; adjusted to census figures for tame or cultivated hay for 1909. ‡Tons (2,000 pounds). \$Per ton. †Pounds. aPer pound.

DECISION IN ANTHRACITE COAL CONTRACTS CASE.

The United States Supreme court announced a decision Dec. 16, 1912, canceling as in violation of the Sherman antitrust law the contracts by which railroad owned coal companies in the Pennsylvania anthracite fields had purchased the output for all time of "independent" mines. The charge of a "general combination" was not sustained. In an opinion announced by Associate Justice Lurton the court held:

"1. That the general combination alleged by the government to exist between the defendant roads for an apportionment for total tonnage to the seaboard by an agreement in the nature of a pooling arrangement has not been established and therefore the relief sought by the government upon assumption of such combination is denied.

"2. The court finds, however, that the principal defendants did combine to shut out from the anthracite coal field a projected independent line of railroad, the New York, Wyoming & Western Railroad, and to accomplish that purpose it is found that the stock of the Temple Iron company and of the Simpson & Watkins collieries was acquired for the purpose of and with the intent, not of normally and lawfully developing trade, but of restraining interstate commerce and competition in transportation, which presumably would have come about through the construction and operation of the proposed competing line of railroad between the mines and tidewater.

"3. The court holds that certain contracts made with producers covering between 20 and 25 per cent of the total annual supply of coal, known as the 65 per cent contracts, by which such independent pro-

ducers bound themselves to deliver the output of their mines or any other mine which they might acquire, to the railroad companies for 65 per cent of the average market price at tidewater, were also void because in violation of the antitrust act, as abnormal and illegal restraints upon interstate commerce.

"4. The court reiterates the declaration in the Standard Oil case, that an act of congress does not 'forbid or restrain the power to make normal and usual contracts to further trade by resorting to all normal methods, whether by agreement or otherwise, to accomplish such purpose.' Nevertheless it holds that the acts which it finds in this case to be illegal, the Temple Iron and 65 per cent contracts, were not within such class, but on the contrary were abnormal in their character and directly tended to and were intended to illegally restrain trade and commerce, and therefore came within the statute as illustrated by the rulings in St. Louis Terminal association and Swift & Co. versus United States."

The court ordered the dissolution of railroad control of the Temple Iron company, by which the principal railroads and their coal companies were found to have strangled a project to build a competing road into the anthracite fields in 1898 and by which monopolizing schemes could be put into execution handily in the future.

The railroads concerned in the case were the Philadelphia & Reading, the Lehigh Valley, the Delaware, Lackawanna & Western, the Central Railroad of New Jersey, the Erie and the New York, Susquehanna & Western.

DISTURBANCES IN CUBA.

Armed intervention by the United States to preserve order in the republic of Cuba seemed imminent on several occasions in 1912. In January, as the result of agitation by the veterans' association for the dismissal from the public service of all men associated with the old Spanish regime, the situation became critical and President Taft felt called upon to send the following note to President Gomez:

"The situation in Cuba causes grave concern to the United States. That the laws intended to safeguard free republican government shall be enforced and not defied is obviously essential to the maintenance of law, order and stability indispensable to the status of the republic of Cuba. The president of the United States therefore looks to the president and government of Cuba to prevent the threatened situation, which would compel the United States much against its desire to consider what measures it must take in pursuance of the obligations of its relations to Cuba."

The note had a salutary effect and the agitation ceased. In May and June, however, new trouble arose. This time it was caused by dissatisfied negroes, who began destroying railroads, sugar mills and other property. The Cuban government acted promptly and energetically, but as the insurrection was in the mountainous districts of the Oriente, Santa Clara and Santiago provinces it was difficult to suppress. The American government, as a matter of precaution, sent warships to Key West and Guantanamo, but disclaimed any idea of intervention. The inability of the Cuban authorities to prevent the destruction of American property led to the landing of marines near Guantanamo and to the issuing of orders, June 7, by the general staff in Washington to prepare for the sending of a military expedition to Cuba. Matters quieted down somewhat and when Gen. Evaristo Estenoz, the leader of the rebels, was killed by Cuban troops June 27 the insurrection came to an end. Peace continued throughout the rest of the year.

DEATH OF AMBASSADOR REID.

Whitelaw Reid, American ambassador to Great Britain since 1905, died in London Sunday afternoon, Dec. 15, 1912, from pulmonary edema. He had been ill for about two weeks with bronchial trouble, which developed into severe asthmatic paroxysms, producing extreme exhaustion. His wife and daughter were with him at the time of his death. Upon being notified of the ambassador's death King George sent the following message to President Taft:

"It is with the deepest sorrow that I have to inform you of the death of Whitelaw Reid at noon to-day. As your ambassador in this country his loss will be sincerely deplored, while personally I shall mourn for an old friend of many years' standing, for whom I had the greatest regard and respect. The queen and I sympathize most deeply with Mrs. Reid in heavy sorrow.

"GEORGE, R. I."

To this message President Taft sent the following reply:

"Your majesty's sad news of the death of Mr. Whitelaw Reid has just reached me. Mr. Reid's death is a loss to both countries, for his service as ambassador was exceptional in the closer friendship that he secured between them through his own personality. His intimate knowledge of both countries, his profound respect and love for England, entirely consistent with the highest loyalty on his part to this country, gave him peculiar influence for good in his great station. I sincerely thank your majesty for your message and your expression of sympathy and respect.

"WILLIAM H. TAFT."

Whitelaw Reid was born in Xenia, O., Oct. 27, 1837, and was graduated from Miami university in 1856. He entered the newspaper business and was war correspondent of the Cincinnati Gazette in the civil war. Later he entered the service of the New York Tribune, of which he became editor and owner.

The cost of maintenance by classes of all institutions included in the above table was in 1903: Orphanages, \$10,050,587; hospitals, \$28,200,869; permanent homes, \$9,916,180; temporary

homes, \$3,039,035; institutions for deaf and blind, \$3,523,683; nurseries, \$327,659; dispensaries, \$519,620; total, \$55,577,633.

OCCURRENCES DURING PRINTING OF THE

Aviation Fatalities—Horace Kearny, a Kansas City aviator, and Chester Lawrence, a Los Angeles newspaper man, were lost in the Pacific ocean while attempting to make a hydroaeroplane flight from Los Angeles to San Francisco Dec. 14. Lieut. W. Parke and Mr. Hardwicke were killed near London, England, Dec. 15, while making an aeroplane flight.

Billiards—Willie Hoppe retained his title of world's 18-2 billiard champion by winning a tournament in New York, N. Y., ending Nov. 20, in which he and Slosson, Morningstar, Yamada, Demarest, Cline, Sutton and Taylor were contestants. Deaths—Robert Collyer (1823), clergyman, in New York city, Nov. 30; Mrs. Robert Goellet of New York, N. Y., in Paris, France, Dec. 4; Col. Archibald Gracie, Titanic survivor, in Washington, D. C., Dec. 4; Luitpold (1821), prince regent of Bavaria, in Munich, Dec. 12; Will Carleton (1845), poet, newspaper man and lecturer, in Brooklyn, N. Y., Dec. 18.

Japanese Cabinet—The Japanese cabinet resigned Dec. 4; Prince Katsura to form new ministry.

President of Switzerland—Edward Muller elected

DAILY NEWS ALMANAC AND YEAR-BOOK.

president of Switzerland; M. Hoffman elected vice-president.

Pugilism—Ad Wolgast lost the light weight championship of the world Nov. 28, when he was defeated by Willie Ritchie at Daly City, Cal. He was disqualified by the referee in the sixteenth round for twice fouling his opponent.

Railroad Wreck—In a rear end collision between two passenger trains near Zanesville, O., Dec. 3, eleven persons were killed and four seriously injured.

Shipwreck—Steamer Derna run down in British channel by battle ship Centurion Dec. 10; twenty-five lives lost.

Tennis—England won the title to the Dwight F. Davis international cup, emblematic of the world's lawn tennis championship, in a series of matches played in Melbourne, Australia, Nov. 28, 29 and 30, 1912. J. C. Parke, Charles P. Dixon and A. E. Beamish represented England, while Norman Brookes, R. W. Heath and A. W. Dunlop represented Australia. England won three of the singles matches and Australia won the doubles and one singles match.

ILLINOIS FARM PRODUCTS.

[From census bulletin, Dec. 10, 1912.]

The number of farms in Illinois reporting dairy cows on April 15, 1910, was 228,267, but only 202,336 reported dairy products in 1909. That there should be this difference is not surprising. Doubtless some farmers who had dairy cows in 1910 had none in 1909, while other farmers neglected to give information for the preceding year, or were unable to do so perhaps because the farm was then in other hands. Dairy products in general are somewhat less accurately reported than the principal crops. This is particularly the case as regards the quantity of milk produced. The number of farms which made any report of milk produced during 1909 was 184,993 (considerably less than the total number reporting dairy products), and the number of dairy cows on such farms on April 15, 1910, was 350,000. The amount of milk reported was 320,240,000 gallons, assuming that there were the same number of cows in 1909 as in 1910 this would represent an average of 377 gallons per cow. In considering this average, however, it should be borne in mind that the quantity of milk reported is probably deficient and that the distinction between dairy and other cows is not always strictly observed in the census returns.

By reason of the incompleteness of the returns for milk produced, the census bureau has made no attempt to determine the total value of dairy products for 1909. For convenience a partial total has been presented, comprising the reported value of milk and cream, sold as such, and sold on the butter fat basis, and the reported value of butter and cheese made, whether for home consumption or for sale. The total thus obtained for 1909 is \$31,542,000, which may be defined as the total value of dairy products exclusive of milk and cream used on the farm producing.

About one-half of the milk produced in Illinois in 1909 was sold as such. A comparatively large quantity of milk and cream was sold on the butter fat basis. The butter made on farms was valued at \$10,493,000.

WOOL.

The total number of sheep of shearing age in Illinois on April 15, 1910, was 658,000, representing an increase of 4.7 per cent as compared with the number on June 1, 1900 (629,000). The approximate production of wool during 1909 was 682,000 fleeces, weighing 4,971,000 pounds and valued at \$1,299,000. Of these totals about one-sixth represents estimates. The number of fleeces produced in 1909 was 1.1 per cent greater than in 1899. The average weight per fleece in 1909 was 7.3 pounds, as compared with 7.1 pounds in 1899, and the average value per pound was 26 cents, as compared with 20 cents in 1899.

POULTRY PRODUCTS.

The total number of fowls on Illinois farms on April 15, 1910, was 21,410,000. Of the 237,165 farms reporting fowls 23,065 did not report any eggs produced in 1909 and 20,636 did not report any poultry raised in 1909. The production of eggs actually reported for the year 1909 was \$3,555,000 dozens, valued at \$17,699,000. According to the twelfth census report the production of eggs in 1899 was \$6,403,000 dozens, the value being \$8,942,000. The latter figures, however, are somewhat in excess of the actual returns at that census, because they include estimates made to cover those cases where the schedules reported fowls on hand without reporting the production of eggs. In order to make the returns for 1909 comparable with those published for 1899 similar estimates have been made, the method of estimate and the justification therefor being substantially the same as in the case of wool. The total production of eggs in 1909, including these estimates, was 100,119,000 dozens, valued at \$18,940,000. The total production of poultry in 1909, including estimates made on the same basis as for eggs, was 32,353,000 fowls, valued at \$15,404,000.

ANIMALS SOLD OR SLAUGHTERED.

The total value of domestic animals sold during the year was \$132,623,000 and that of animals slaughtered on farms \$14,438,000, making an aggregate of \$147,061,000. This total, however, involves

considerable duplication resulting from the resale or slaughter of animals which had been purchased by the farmers during the same year. The value of the swine sold during 1909 represented about two-fifths of the total value of animals sold, and the value of the cattle (including calves) sold represented about one-third of the total.

The census of 1900 called for the receipts from the sale of all domestic animals on the farms reporting and the total value of those slaughtered in 1899, which amounted, respectively, to \$69,463,000 and \$10,155,000. The item of sales is not closely comparable with that for 1909, when the inquiry covered all sales whether of animals raised on the farms reporting or elsewhere. It is believed, however, that in many cases the returns for 1899 also included receipts from sales of animals not actually raised on the farms reporting.

CROPS.

The total value of crops in Illinois in 1909 was \$372,270,000. Of this amount 97.4 per cent was contributed by crops for which the acreage as well as the value was reported, the remainder consisting of the value of by-products (straw, garden and grass seeds, etc.) derived from the same land as other crops reported, or of orchard fruits, nuts, forest products and the like. The combined acreage of crops for which acreage was reported was 20,273,916, representing 72.3 per cent of the total improved land in farms (28,045,323 acres). Most of the remaining improved land doubtless consisted of improved pasture, land lying fallow, house and farm yards and land occupied by orchards and vineyards, the acreage for which was not reported.

The general character of Illinois agriculture is indicated by the fact that about four-fifths (79.9 per cent) of the total value of crops in 1909 was contributed by the cereals and about one-tenth (10.9 per cent) by hay and forage. The remainder, representing in value about 9 per cent of the total, consisted mainly of potatoes and other vegetables, flowers and plants, nursery products, fruits and nuts and forest products.

The total value of crops in 1909 was 73.3 per cent greater than that in 1899. This increase was clearly due to higher prices. There was a decrease of 1.2 per cent in the total acreage of crops for which acreage was reported, the principal decrease being in the acreage of cereals and broom corn which were offset in part by increases for most of the other crops.

VEGETABLES.

In 1909 the total acreage of potatoes and other vegetables was 268,911 and their value \$16,300,654. Excluding potatoes and sweet potatoes and yams, the acreage of vegetables was 120,291 and their value \$9,392,000, both acreage and value being materially greater than in 1899. The report distinguishes between farms which make the raising of vegetables a business of some importance (having produced vegetables valued at \$500 or more in 1909) and other farms, on most of which vegetables are raised mainly for home consumption. There were in 1909 2,227 farms in the first class, representing about three-tenths of the total acreage of vegetables and more than one-third of the total value, the average acreage of vegetables per farm for these farms being 16.5 and the average value of product per acre \$89.45.

SMALL FRUITS.

Strawberries are by far the most important of the small fruits grown in Illinois, with blackberries and dewberries and raspberries and loganberries ranking second and third, respectively. The value of the strawberry crop in 1909 was \$613,917. The total acreage of small fruits in 1909 was 11,723 and in 1899 16,794, a decrease of 30.2 per cent. The production in 1909 was 13,603,000 quarts, as compared with 26,129,000 quarts in 1899, and the value \$1,110,000, as compared with \$1,293,000.

ORCHARD FRUITS.

The total quantity of orchard fruits produced in 1909 was 4,939,000 bushels, valued at \$3,858,000. Ap-

pies contributed about three-fifths of this quantity, peaches and nectarines ranking next in importance. The production of grapes in 1909 amounted to 16,583,000 pounds, valued at \$426,000, and that of nuts to 714,478 pounds, valued at \$20,550.

The production of all orchard fruits together in 1909 was 49.4 per cent less in quantity than in 1899, and the production of grapes also declined. The value of orchard fruits, however, increased from

\$3,779,000 in 1899 to \$3,858,000 in 1909, and that of grapes from \$383,000 in 1899 to \$426,000 in 1909. It should be noted in this connection that the values for 1899 include the value of more advanced products derived from orchard fruits or grapes, such as cider, vinegar, dried fruits and the like, and may therefore involve some duplication, while the values shown for 1909 relate only to the products in their original condition.

SUGAR CONSUMPTION OF THE UNITED STATES IN 1912.

[From census bureau report.]

The sugar consumption of the United States in the year 1912 will exceed 8,000,000,000 pounds, against 4,500,000,000 in 1900, 3,000,000,000 in 1890, 2,000,000,000 in 1880 and a little over 1,000,000,000 in 1870. Foreign countries, our own islands and our own fields have respectively increased their contributions to the sugar supply of the United States. The total imports from foreign countries during the year will, according to the latest figures of the statistical division of the bureau of foreign and domestic commerce, aggregate 4,500,000,000, against a little over 4,000,000,000 last year. The receipts from Hawaii will approximate 1,200,000,000 pounds, against 1,136,000,000 last year; those from Porto Rico about 700,000,000 pounds, against 654,000,000 last year. The product of the beet sugar fields of the United States will approximate 1,400,000,000 pounds, against 1,200,000,000 pounds last year, while the cane sugar fields will probably show but little increase or perhaps a smaller total than last year by reason of the conditions resulting from the overflows during the year in the Mississippi valley.

One of the most striking features of the details of the year's sugar record is the large growth in our production of beet sugar, which is estimated for 1912 at about 1,400,000,000 pounds, against 1,200,000,000 last year, about 1,000,000,000 in 1910, less than 485,000,000 in 1905, 163,000,000 in 1900, 45,000,000 in 1895 and 5,000,000 in 1880.

About one-fourth of the sugar consumed in the United States in 1912 was from our own fields, nearly another one-fourth came from Hawaii and Porto Rico and the remainder from foreign countries, chiefly Cuba.

The total sugar consumption of 1912 will presumably exceed that of any earlier year. Certainly the total brought into the country, plus that produced in the United States, will aggregate more than in any earlier year, while the quantity exported forms so small a percentage of that brought in as to justify the assertion that the sugar consumption of the year will be larger than ever before and will amount to about 87 pounds per capita, against 80 pounds per capita in 1910, 59 pounds per capita in 1900, 51 pounds per capita in 1890, 39½ pounds per capita in 1880 and 32½ pounds per capita in 1870. Thus the quantity consumed per capita has a little more than doubled since 1880, the total quantity consumed having more than quadrupled meantime.

The cost to the purchaser of the more than 8,000,000,000 pounds of sugar consumed in the United States in 1912 will approximate \$400,000,000. The value in the country whence imported was: That from foreign countries about \$120,000,000; that from Hawaii approximately \$47,000,000, and that from Porto Rico approximately \$30,000,000, making a total in the country of production of about \$200,000,000 for that produced outside of continental United States, and to this must be added the duties paid and the cost of refining and distribution. This in conjunction with the value of the beet and cane sugar produced in the United States easily brings the cost to the consumer to approximately \$400,000,000, or an average of more than \$1,000,000 a day.

A little more than one-half of the sugar consumed in the country is used for household purposes, the remainder by the manufacturing establishments, chiefly, however, in the preparation of articles utilized for food and drink.

ILLINOIS RAILROAD STATISTICS.

[From report of railroad and warehouse commission for fiscal year ended June 30, 1911.]

STEAM LINES.		
	MILEAGE.	1910.
Main line and branches.....	12,125.87	12,148.05
Additional main tracks.....	2,611.56	2,774.32
Industrial tracks.....	464.73	546.71
Yard tracks, sidings.....	6,666.23	6,897.29
Total	21,768.39	22,366.37

CAPITALIZATION.		
	1910.	1911.
Year. Capital stock. Funded debt.		
1910.....	\$2,485,395,947	\$3,707,813,722
1911.....	2,500,734,505	3,887,632,191

Applies to whole system of corporations owning or managing railroads in Illinois.

EARNINGS AND INCOME.		
	1910.	1911.
Revenue.....	\$124,748,756	\$127,299,133
Freight.....	37,550,291	36,631,797
Passenger.....	479,341	489,927
Mail.....	30,817	30,817
Parlor cars.....	3,530,685	3,562,497
Express.....	4,817,667	5,258,210
Milk.....	1,574,842	1,647,089
Other passenger.....	132,854	185,853

	1910.	1911.
Total passenger train.....	48,111,837	50,806,089
Switching.....	14,456,938	17,351,346
Special service.....	116,444	145,494
Miscellaneous.....	2,903,927	3,366,357
Total transportation.....	190,336,902	198,968,424
Other revenue.....	2,144,577	2,892,243
Joint facilities, dr.....	184,310	308,952
Joint facilities, cr.....	228,098	249,639

Total operating revenue.....	192,525,267	201,301,354
Total operating expenses.....	138,781,141	145,142,678

OTHER STATISTICS FOR 1911.		
Passengers carried earning revenue.....	84,584,001;	
increase for year, 3,431,536.		
Average amount received from each passenger, \$0.4711.		

Passenger revenue per mile of road, \$3.929.		
Tons of freight carried, 185,837,049; decrease for year, 529,012.		
Amount received for each ton of freight, \$0.6839.		
Freight revenue per mile of road, \$9.520.		
Operating revenue per mile of road, \$15.042.		
Operating expenses per mile of road, \$10.845.		

Net operating revenue per mile of road, \$4.197.		
Total employees (Illinois), 150,435; increase for year, 5,840.		

Total yearly compensation, all employees, \$105,630,773.		
Average pay per day, all employees, \$2.44.		
Number of grade highway crossings by state, 16,101.		
Miles of steam railroads equipped with block signals, 4,103.72.		
Total amount of taxes paid in Illinois, \$6,774,630.12.		

ELECTRIC LINES (INTERURBAN).*

MILEAGE, 1911.	
Main line.....	1,441.47
Second main.....	206.41
Industrial.....	33.58
Yard tracks.....	121.20
Total	1,802.64
Increase	111.68

OPERATING STATISTICS, 1911.	
Operating revenue.....	\$17,467,840
Operating expense.....	10,675,603
Operating revenue.....	6,792,237
Fixed charges.....	6,406,197

Net operating revenue.....	286,040
Fare passengers carried.....	239,480,181
Transfer passengers.....	6,014,744

Total passengers.....	245,504,425
Passenger revenue, \$15,467,008.	
Average fare per passenger, 6.45 cents.	
Tons of freight moved by roads reporting, 2,403,536.	
Number employees, 8,893.	
Aggregate annual salaries, \$6,523,167.	
Taxes paid, \$959,136.	
Miles equipped with block signals, 190.95.	
Grade highway crossings, 2,648.	

RAILROAD ACCIDENTS IN ILLINOIS, 1911.

ON STEAM ROADS. Killed. Injured.		
Passengers	18	736
Employees	289	9,139
Others	601	1,054
	908	10,789
ON ELECTRIC ROADS. Killed. Injured.		
Passengers	34	499
Employees	16	224
Others	53	152
	103	875

SUMMARY.

	Senate.	House.	J. B.
Democrats	24	73	97
Republicans	25	51	76
Progressives	2	25	27
Socialists	0	4	4

None—Senators are classified politically according to tickets on which they were elected. There was no progressive ticket in the field when the holdovers were chosen.

GOVERNMENT OF ILLINOIS.

Legislative power is vested in a general assembly, consisting of a senate and house of representatives, both elected by the people. The state is divided into fifty-one senatorial districts, each of which elects a senator and three representatives. The general assembly makes laws and appropriates money for the government of the state, elects United States senators to represent the state and in general stands in the same relation to the state as congress does to the United States as a whole. The powers and duties of the chief executive officers are as follows:

Governor—The governor is vested with the chief executive power of the state. He is the commander in chief of the military and naval forces and may call out the militia to maintain the peace. He is required to inform the general assembly, by message, of the condition of affairs of the state and to recommend needed legislation. He may, by proclamation, call a special session of the assembly or adjourn it in case of disagreement between the two houses. He has the power to appoint certain officers and during a recess of the senate may fill vacancies or remove certain officers and may call special elections to fill vacancies in certain offices. He may make regulations upon the governors of other states for the return of fugitives from justice or offer rewards for the arrest of offenders against the laws of the state. He exercises a general supervision over the penitentiaries and may grant reprieves, commutations and pardons and may restore the rights of citizenship to ex-convicts. He may approve acts of the legislature and exercise the veto power.

Lieutenant-Governor—This officer is ex-officio president of the senate and has the power to cast the deciding vote in case of a tie. In case of the death, conviction on impeachment, failure to qualify, resignation, absence from the state or other disability on the part of the governor, the lieutenant-governor succeeds to the office to the close of the term.

Secretary of State—The secretary of state is charged with the safekeeping of the original laws and resolutions of the general assembly, with all books, bills and documents deposited with him by either house, and with all bonds, records and papers filed in his office. He keeps a record of the official acts of the governor, furnishes certified copies of the same to the assembly on request and certified copies of any of the records of his office on the payment of the statutory fees. He

countersigns and affixes the seal of the state to all proclamations and commissions issued by the governor; issues licenses for incorporations and certificates of organization to cities and villages and incorporated towns. He has charge of most of the buildings and grounds belonging to the state in Springfield, furnishes supplies for the general assembly and supervises the printing and distribution of all the public documents of the state. He calls the house of representatives to order at the beginning of each general assembly and presides over the same until the election of a speaker. He is the keeper of the great seal of the state and is the custodian and sealer of weights and measures.

Auditor—The auditor is required to keep all the accounts of the state; to audit the accounts of all officers or other persons authorized to receive moneys from the state treasury; to personally sign all warrants drawn on the treasury; to institute suits wherein the state is a plaintiff, and to make a biennial report of the business of his office to the governor. With the governor and treasurer he determines the state tax rate. He exercises a general supervision over state banks, building, loan and homestead associations.

State Treasurer—The state treasurer is custodian of the revenues and public moneys of the state. He must make monthly settlements with the auditor and a biennial report to the governor.

Superintendent of Public Instruction—The superintendent exercises a general supervision over all the public schools of the state. He is the general and legal adviser of the county superintendents and must report biennially to the governor the general condition of all the schools of the state, the amount raised by taxation for school purposes and the manner of its expenditure and the general condition of all the school funds. He may grant state certificates to teachers or cause them to be withheld and must visit charitable institutions which are educational in character.

Attorney-General—It is the duty of the attorney-general to represent the state in the Supreme court in all cases in which the state is interested; to act as counsel for all state officials; to be the legal adviser of the governor and other state officers in matters relating to their official duties, and, on request, to furnish them, as well as either branch of the general assembly, with written opinions upon constitutional or legal questions.

ILLINOIS SENATORIAL DISTRICTS.

Established May 10, 1901.

The establishment of new ward lines by the ordinance of Dec. 4, 1911, having made the terms of the state senatorial apportionment act of 1901 inapplicable or misleading so far as concerns Chicago, the districts lying within or partly within the city are herewith described in accordance with their street boundaries.

Dist.

1. From Lake Michigan west and south along the Chicago river to 22d street, east to Clark, south to 26th, west to Princeton avenue, south to 32d, east to South Park avenue, south to 33d, east to the lake, northward along lake shore to river. (South side.)
2. From Center avenue west on Madison to North Ashland boulevard, north to Washington boulevard, west to Western avenue, south to 12th, west to California avenue, south to 16th, east to Ladin, north to Taylor, east to Loomis, north to Van Buren, east to Center avenue, north to Madison. (West side.)
3. From Clark street west on 22d to river, south-west along river to Halsted, south to 34th, east to Union avenue, south to 25th, east to Parnell avenue, south to 39th, east to State, south to 43d, east to Lake Michigan, northwest along lake shore to 33d, west to South Park avenue, north to 32d, west to Princeton avenue, north to 26th, east to Clark, north to 22d. (South side.)
4. From State street west on 39th to 48th avenue, south to 55th, east to Rock Island tracks, south to 57th place, east to State, north to 39th. (South-west side.)
5. From Lake Michigan west on 43d to State, south to 71st, east to Cottage Grove avenue, north to 63d, east to the lake, northwest along lake shore to 43d. (South side.)
6. From Lake Michigan west on Devon avenue to Clark, south to Irving Park boulevard, east to Racine avenue, south to Fullerton avenue, east to Halsted, south to North avenue, west to river, along river northwest to Belmont avenue, east to Western avenue, north to Devon avenue, west to Kedzie, north to Howard; also all that part of the town of Evanston lying outside the city of Chicago, and those parts of the towns of Niles and New Trier lying within the city of Evanston. (North side.)
7. Towns of Thornton, Bloom, Rich, Bremen, Orland, Lemont, Palos, Worth, Lyons, Stickney, Proviso, Leyden, Elk Grove, Schaumburg, Hanover, Barrington, Palatine, Wheeling, Northfield; that part of Niles outside the city of Chicago and outside the city of Evanston; that part of New Trier outside the city of Evanston, and those parts of the towns of Norwood Park and Maine outside of Chicago, all in Cook county.
8. Lake, McHenry and Boone counties.
9. From Halsted street southwest along river to Hoyne avenue, north to 16th, west to California avenue, south and southwest along C. B. & Q. tracks to Clifton Park avenue, west to Central Park avenue, south to Illinois and Michigan canal, southwest to 39th, east to Parnell avenue, north to 35th, west to Union avenue, north to 34th, west to Halsted, south to river. (Southwest side.)
10. Ogle and Winnebago counties.
11. From State street west on 57th place to Rock Island tracks, north to Garfield boulevard (55th street), west to 48th avenue, south to 8th, east to Western avenue, south to 107th, east to Halsted, north to 103d, east to Stewart avenue, north to 99th, east to State, north to 57th place. (South-west side.)
12. Stephenson, Jo Daviess and Carroll counties.
13. From Indiana avenue east on 133th to Illinois and Indiana state line, north to Lake Michigan, northwest along lake shore to 63d, west to Cottage Grove avenue, south to 71st, west to State, south to 99th, west to Stewart avenue, south to 103d, west to Halsted, south to 107th; and all that part of the town of Calumet lying outside the city of Chicago. (South side.)
14. Kane and Kendall counties.
15. From the river west on Maxwell to Johnson, south to 14th, west to Throop, south to 16th, west to Hoyne avenue, south to Illinois and Michigan canal, northeast along canal and river to Maxwell. (West side.)
16. Marshall, Putnam, Livingston and Woodford counties.
17. From the river west on Van Buren to Loomis, south to Taylor, west to Ladin, south to 16th, east to Throop, north to 14th, east to Johnson, north to Maxwell, east to river, along river northwest to Van Buren. (West side.)
18. Peoria county.
19. From 48th avenue east on 39th to Illinois and Michigan canal, northeast along canal to Central Park avenue, north to 24th, east to Clifton Park avenue, north to C. B. & Q. tracks, northeast along tracks to California avenue, north to 12th, east to Western avenue, north to Washington boulevard, west to Homan avenue, north to Kinzie, west to 46th avenue, south to 12th, west to Austin avenue; also the village of Berwyn and the town of Riverside. (West side.)
20. Kankakee, Grundy and Iroquois counties.
21. From Ashland avenue west on Chicago avenue to Park avenue, south to Lake, west to Austin avenue, south to 12th, east to 46th avenue, north to Kinzie, east to Homan, south to Washington boulevard, east to Ashland avenue, north to Kinzie, east to Green, north to Milwaukee avenue, northwest to Cornell, west to Holt, north to Augusta, west to Ashland avenue, south to Chicago avenue. (West side.)
22. Vermillion and Edgar counties.
23. From Austin avenue east on Lake to Park avenue, north to Chicago avenue, east to Ashland avenue, north to North avenue, west to 72d avenue; and village of Oak Park. (West side.)
24. Champaign, Piatt and Monticue counties.
25. From Western avenue west on Devon avenue, Fulton and Hamilton to city limits, south on Winter to Everill avenue, east to 73d avenue, south to Bryn Mawr avenue, east to 60th avenue, south to Irving Park boulevard, west to 72d avenue, south to North avenue, east to Robey, north to Fullerton avenue, east to river, northwest along river to Belmont avenue, east to Western avenue, north to Devon avenue. (Northwest side.)
26. McLean and Ford counties.
27. From the river west on Fullerton avenue to Robey, south to North avenue, east to Ashland avenue, south to Augusta, east to Holt, south to Cornell, east to Milwaukee avenue, southeast to Green, south to Kinzie, west to Ashland avenue, south to Madison, east to Center avenue, south to Van Buren, east to river and northwest along river to Fullerton avenue. (West side.)
28. Logan, DeWitt and Macon counties.
29. From Lake Michigan west on Schiller to State, south to Goethe, west to Sedgwick, north to Sigel, west to Cleveland avenue, south to Clybourn avenue, northwest to Larrabee, south to Division, west to Halsted, south to river, thence along river southeast and east to Lake Michigan, north along lake shore to Schiller. (North side.)
30. Tazewell, Mason, Menard, Cass, Brown and Schuyler counties.
31. From Lake Michigan west on Devon avenue to Clark street, south and southeast to Irving Park boulevard, east to Racine avenue, south to Fullerton avenue, east to Halsted, south to North avenue, west to river, southeast along river to Halsted, north to Division, east to Larrabee, north to Clybourn avenue, southeast to Cleveland avenue, north to Sigel, east to Sedgwick, south to Goethe, east to State, north to Schiller, east to Lake Michigan, north and northwest along lake shore to Devon avenue. (North side.)
32. McDonough, Hancock and Warren counties.
33. Rock Island, Mercer and Henderson counties.
34. Douglas, Coles and Clark counties.
35. Whiteside, Lee and DeKalb counties.
36. Scott, Calhoun, Pike and Adams counties.
37. Henry, Bureau and Stark counties.

38. Greene, Montgomery, Jersey and Macoupin counties.
39. LaSalle county.
40. Christian, Shelby, Fayette and Cumberland counties.
41. DuPage and Will counties.
42. Clinton, Marion, Clay and Effingham counties.
43. Knox and Fulton counties.
44. Washington, Randolph, Perry, Monroe and Jackson counties.

45. Morgan and Sangamon counties.
46. Jefferson, Wayne, Richland and Jasper counties.
47. Madison and Bond counties.
48. Hardin, Gallatin, White, Edwards, Wabash, Lawrence and Crawford counties.
49. St. Clair county.
50. Franklin, Williamson, Union, Alexander and Pulaski counties.
51. Hamilton, Saline, Pope, Johnson and Massac counties.

ILLINOIS PRIMARY ELECTIONS.

(For full outline of the Illinois primary law of March 9, 1910, see The Daily News Almanac and Year-Book for 1911, page 47.)

DATES OF PRIMARIES.

A primary shall be held on the second Tuesday in April in every year in which officers are to be voted for on the first Tuesday after the first Monday in November of such year, for the nomination of candidates for such offices as are to be voted for at such November election, and shall be known as the April primary. This includes the nomination of candidates for members of the general assembly.

A primary shall be held on the second Tuesday in April in any year in which the judges of the Supreme court, judges of the Circuit court and judges of the Superior court of Cook county are to be elected on the first Monday in June of such year for the nomination of candidates for such offices, respectively.

A primary shall be held on the last Tuesday in February in each year for the nomination of such officers as are to be voted for on the first Tuesday in April of such year.

A primary shall be held on the second Tuesday in March in each year for the nomination of such officers as are to be voted for on the third Tuesday in April of such year.

A primary for the nomination of all other officers, nominations for which are required to be made under the provisions of the act, shall be held three weeks preceding the date of the general election for such offices, respectively.

The polls shall be open from 6 o'clock a. m. to 5 o'clock p. m.

Any person entitled to vote at such primary shall be entitled to absent himself from his work for two hours between the opening and closing of the polls without incurring loss of wages or salary, providing application shall have been made on the preceding day. The employer may specify the hours.

PETITIONS.

Petitions for nomination shall be signed:

For a state office, by not less than 1,000 nor more than 2,000 primary electors of his party.

For a state senator or assemblyman, by at least one-half of 1 per cent of the qualified primary electors of his district.

For a congressional office, by at least one-half of 1 per cent of the qualified primary electors of his party in his congressional district.

For a judicial office, by at least one-half of 1 per cent of the qualified electors in the district.

For a county office, by at least one-half of 1 per cent of the qualified primary electors of his party cast at the last preceding general election in his county; if for the nomination for county commissioner of Cook county, then by at least one-half of 1 per cent of the qualified primary electors of his party in his county in the division in which such person is a candidate for nomination.

For a city or village office, to be filed by the electors of the entire village, by at least one-half of 1 per cent of the qualified primary electors of

his party in his city or village; if for alderman, by at least one-half of 1 per cent of the voters of his party in his ward.

For state central committeeman, by at least 100 of the primary electors of his party of his congressional district.

For a candidate for trustee of a sanitary district, by at least one-half of 1 per cent of the primary electors of his party from such sanitary district.

For a candidate for clerk of the Appellate court, by at least one-half of 1 per cent of the primary electors of his party of the district.

For any other office, by at least ten primary electors of his party of the district or division for which nomination is made.

Any candidate for United States senator may have his name printed upon the primary ballot of his party by filing with the secretary of state not less than thirty days prior to the April primary a petition signed by not less than 3,000 primary electors, nor more than 5,000 members of the party of which he is a candidate. The vote upon candidates for United States senator, however, is for the sole purpose of ascertaining the sentiment of the voters of the respective parties in the state as a whole and not by senatorial districts.

CONVENTIONS.

On the first Monday after the April primary the county central committee of each political party shall meet at the county seat and organize, such meeting to be called the county convention. The county convention of each political party shall choose delegates to the congressional and state conventions of its party. Only precinct committeemen residing within a congressional district shall take part in the selection of delegates to a congressional convention. Each delegate to the county convention shall have one vote and one additional vote for each fifty or major fraction thereof of his party as cast in his precinct at the last general election.

All congressional conventions shall be held on the first Wednesday after the first Monday next succeeding the April primary. The congressional convention of each political party shall have power to select delegates to national nominating convention and to recommend to the state convention of its party the nomination of candidate or candidates from such congressional district for elector or electors of president and vice-president of the United States.

All state conventions shall be held on the first Friday after the first Monday next succeeding the April primary. The state convention of each political party shall have power to make nominations of candidates for the electors of president and vice-president of the United States, and for trustees of the University of Illinois, to adopt any party platform and to select delegates and alternates to the national nominating conventions.

STATE LIFE INSURANCE.

Life insurance by the state was inaugurated in Wisconsin in October, 1912. The plan, claimed to be the first of the kind tried in the United States, provides that any citizen of the state living a normal, healthy life may take out a policy after passing satisfactorily a medical examination under the supervision of the state board of health. Ap-

plicants must be between 20 and 50 years of age and may choose any one of the following plans: Ordinary life, twenty-payment life, ten-year endowment, endowment at age of 65 or term to age of 65. Each application must be accompanied by one full annual premium and \$2 medical examination fee.

POPULAR VOTE OF ILLINOIS (1890-1910).

Year.	Office.	Rep.	Dem.	Pro.	Peo.	Soc.	Total.
1890	President	318,097	277,321	440	26,398		622,306
1892	Treasurer	250,722	244,585	11,130	15,511		521,948
1894	President	337,469	312,351	12,074	10,776		672,670
1896	Treasurer	276,680	240,664	19,766	34,821		572,986
1898	President	370,475	348,371	21,703	7,134		747,683
1890	Treasurer	321,991	331,929	22,236			677,133
1892	President	399,288	426,281	25,871	22,207		873,647
1894	Treasurer	465,788	321,551	19,460	60,067		868,551
1896	President	607,130	464,523	9,796	1,090	1,147	1,090,766
1898	Treasurer	448,940	405,490	11,753	7,886	4,517	878,577
1900	President	507,985	503,061	17,626	1,141	11,060	1,131,897
1902	Treasurer	450,695	596,925	13,434	1,521	28,399	859,976
1904	President	632,645	327,606	34,770	6,725	73,923	1,076,499
1906	Treasurer	417,544	271,984	89,293		45,862	824,583
1908	President	629,932	460,810	29,364	633	34,711	1,155,254
1910	Treasurer	436,484	376,046	20,013		49,687	882,230

NOTE.—In the above table the total vote includes the scattering vote for minor party candidates. The vote in the people's party column prior to 1890 is that cast for the greenback party and in

1888 for the labor party. The socialist vote as given includes that of the social labor and social democrat parties. The vote of 1912 will be found under "Election Returns," this volume.

ILLINOIS LEGISLATION IN 1912.

There were three special sessions of the 47th general assembly of Illinois. The first, as noted in The Daily News Almanac and Year-Book for 1912, was called June 14, 1911, to enact a waterway law. Nothing beyond the passage of appropriation bills to pay its own expenses was accomplished by the legislature, which finally adjourned Nov. 14. The second special session was called for March 26, 1912, chiefly to amend the primary law so as to permit the voters of the state to express their presidential preferences. The third special session was called for April 24, that the legislature might consider bills not included in the call for the second special session. Both sessions ended June 5.

SECOND SPECIAL SESSION.

In his call for the second special session Gov. Deneen mentioned the following matters as requiring consideration:

1. To amend the primary election law.
2. To amend the election law.
3. To make an appropriation for the repair of the state capitol building.
4. To make an appropriation for the repair of the buildings at the state fair grounds.
5. To amend the state insurance law.
6. To propose an amendment to article 14, section 2, of the constitution, permitting the adoption of more than one amendment to the constitution at the same time.
7. To amend the existing laws so as to confer greater powers upon boards of park commissioners and particularly to authorize such boards to condemn riparian and littoral rights as well as lands and property and otherwise acquire the same.
8. To make an appropriation for the maintenance of the state grain inspection department.
9. To make an appropriation for the maintenance of the department of state factory inspection.
10. To amend clause 50, section 1, of the act providing for the general expenses of the state government, by providing additional appropriations thereunder.
11. To make an appropriation for the medical department of the University of Illinois.
12. To make an appropriation for the maintenance of the soil survey and for other agricultural departments and purposes.
13. To make an appropriation for the payment of the expenses of this extraordinary session of the general assembly.

PRESIDENTIAL PREFERENCE PRIMARY.

The presidential preference primary bill was introduced in the senate March 26, passed by that body March 29 and passed by the house March 30, on which day it was approved by the governor. It went into effect immediately. The official title of the law is "An act to amend sections 29, 31 and 56 of an act entitled 'An act to provide for the holding of primary elections by political parties,' approved March 9, 1910; in force July 1, 1910." The full text of the measure is as follows:

Section 1. Be it enacted by the people of the state of Illinois, represented in general assembly: That sections 29, 31 and 56 of an act entitled "An act to provide for the holding of primary elections by political parties," approved March 9, 1910, in force July 1, 1910, be amended to read as follows: Sec. 29. Any candidate for president of the United States or for United States senator may have his name printed upon the primary ballot of his political party by filing in the office of the secretary of state, not less than thirty (30) days prior to the April primary, in any year, a petition signed by not less than 3,000 primary electors, nor more than 5,000 members of and affiliated with the party of which he is a candidate, and no candidate for president of the United States or for United States senator who fails to comply with the provisions of this act shall have his name printed upon any primary ballot. Provided that the vote upon candidates for United States senator shall be had for the sole purpose of ascertaining the sentiment of the voters of the respective parties in the state as a whole and not by senatorial districts; and provided, further, that the vote for president of the United States, as herein provided for, shall be for the sole purpose of securing an expression of the sentiment and will of the party voters with re-

spect to candidates for nomination for said office, and the vote of the state at large shall be taken, and considered as advisory to the delegates and alternates at large to the national conventions of the respective political parties; and the vote of the respective congressional districts shall be taken and considered as advisory to the delegates and alternates of said congressional districts to the national conventions of the respective political parties. And provided, further, that in the primary election for president of the United States, to be held in the year 1912, the petition for any candidate for president of the United States shall be filed not less than six (6) days prior to the date of the April primary, 1912, and said petition in the year 1912 shall be signed by not less than fifteen hundred (1,500) duly qualified primary electors, members of and affiliated with the political party of which he is a candidate for such nomination.

Sec. 31. Not less than twenty (20) days prior to the date of the primary the secretary of state shall certify to the county clerk of each county the names of all candidates for president of the United States, for United States senator and of all candidates for members of the state central committee and of all candidates for nomination for all offices, as specified in the petition for nomination on file in his office, which are to be voted for in such county, stating in such certificates the political affiliation of each candidate for nomination, or committeeman, as specified in said petition.

The secretary of state shall, in his certificate to the county clerk, certify to said county clerk the names of the offices and the names of the candidates in the order in which said offices and said names shall appear upon the primary ballot, said names to appear in the order in which petition shall have been filed in his office: Provided, however, that in the year 1912 the secretary of state shall certify to the county clerk of each county the names of all candidates for president of the United States to be nominated in the year 1912, not less than five (5) days prior to the date of the primary. And provided, further, that in the year 1912 the names of candidates for each political party for president of the United States shall be printed upon a separate ballot and distinct from all other ballots.

Sec. 56. As soon as complete returns are delivered to the proper clerk the returns shall be canvassed as follows:

1. In the case of nomination of candidates for city offices, by the mayor, the city attorney and the city clerk;
2. In the case of nomination of candidates for village offices, by the president of the board of trustees, one member of the board of trustees and the village clerk;
3. The officers who are charged by law with the duty of canvassing returns of general elections made to the county clerks shall also open and canvass the returns of a primary made to such county clerk. Upon the completion of the canvass of the returns by the county canvassing board said canvassing board shall make a tabulated statement of the returns for each political party separately, stating in appropriate columns and under proper headings the total number of votes cast in said county for each candidate for nomination by said party, including candidates for president of the United States, candidates for United States senator and for state central committeeman. Within two (2) days after the completion of said canvass by said canvassing board the county clerk shall mail to the secretary of state a certified copy of such tabulated statement of returns: Provided, however, that the number of votes cast for the nomination for offices, the certificate of election for which offices, under the general election laws, are issued by the county clerk, shall not be included in such certified copy of said tabulated statement of returns;
4. In the case of the nomination of candidates for offices, including president of the United States, United States senator, state central committeeman, certified tabulated statements of returns for which are filed with the secretary of state, said returns shall be canvassed by the governor, secretary of state and state treasurer; and provided, further,

that within five (5) days after said returns shall be canvassed by the said state primary canvassing board, the secretary of state shall cause to be published in one daily newspaper of general circulation at the seat of the state government in Springfield a certified statement of the returns made in his office showing the total vote cast in the state for each candidate of each political party for president of the United States, and showing the total vote for each candidate of each political party for president of the United States cast in each of the several congressional districts in the state.

5. Where, in cities or villages which have a board of election commissioners, the returns of a primary are made to such board of election commissioners, said returns shall be canvassed by such board, and, excepting in the case of the nomination of candidates for any city or town office in such city, tabulated statements of the returns of such primary shall be made to the county clerk.

Sec. 2. Whereas, an emergency exists; therefore, this act shall be in full force and effect from and after the day of its passage.

WATCHERS AT PRIMARIES.

Section 21 of the primary law was amended so as to read as follows: The candidate or candidates of each party may appoint, in writing over his or their signature, two party agents or representatives, who shall act as challengers or watchers for such respective candidate or candidates in each precinct. Such challengers or watchers shall be protected in the discharge of their duties by the primary judges and peace officers and shall be permitted to remain within the polling place in such position as will enable them to see each person as he offers his vote, and said challengers or watchers may remain within the polling place throughout the canvass of the vote in such position as will enable them to see said canvass and until the returns are signed. All challengers or watchers shall be qualified primary electors residing within their respective wards, senatorial or congressional districts, and shall have the same power as challengers at general elections. (Approved May 27.)

AGRICULTURAL EXPERIMENT STATION.

The sum of \$130,000 is appropriated to the University of Illinois for the work of the agricultural experiment station, to make chemical and physical examination of the various soils of the state in order to identify the several types and determine their character; to publish an accurate survey with colored maps in order to establish the location, extent and boundaries of each; to ascertain what crops and treatment are best suited to each. (Approved June 6.)

INSURANCE OF MOTOR VEHICLES.

The insurance act of 1869 was amended by adding section 1-a to section 1. It provides that all insurance companies authorized to transact the business of fire, marine or inland navigation insurance may, in addition, insure automobiles or other motor vehicles, whether stationary or being operated under their own power, against any and all risks of fire, lightning, wind storms, tornadoes, cyclones, explosions, hail storms, transportation by land or water, theft and collision. (Approved June 11, 1912.)

FRATERNAL BENEFICIARY SOCIETIES.

Section 10 of the act of 1893, relating to the organization and management of fraternal beneficiary societies, was amended so as to provide a referendum for the repeal of rates adopted by certain societies subsequent to Jan. 1, 1912. A referendum shall be ordered upon the petition of local or subordinate bodies representing at least 10 per cent of the total membership of the society concerned. (Approved May 23.)

MUTUAL CASUALTY INSURANCE.

Sections 1, 3, 6, 8 and 13 of the mutual insurance act of 1905 were amended and a new section, to be known as section 13½, was added to make the law conform with the workmen's compensation act of 1911. (See The Daily News Almanac and Year-Book for 1912, page 79.) Any company organized under the provisions of the act is empowered to make contracts insuring or indemnifying employers against loss or liability in consequence of accidents or casualties of any kind to an employee or

employees or to any person or persons, resulting from any cause whatever and occurring in or connected with the transaction of the business of any employer. The insurance superintendent may authorize individuals, firms and corporations to provide among themselves insurance to each other through the medium of reciprocal or interinsurance contracts, if, in his opinion, the interest of the insured is properly safeguarded. (Approved June 14, 1912.)

LAKE FRONT PARK BILL.

The park act of May 14, 1903, was amended in various particulars so as to enable the south park commissioners to unite Jackson park and Grant park by means of a driveway or boulevard along the lake east of the Illinois Central right of way and also to connect the south side park system with the north side park system by means of a viaduct over or tunnel under the river at or near Michigan avenue. Under the amended act the park commissioners may acquire the necessary land and riparian rights by agreement with the owners or by condemnation proceedings. (Approved June 11, 1912.)

APPROPRIATIONS.

The state Supreme court having decided (Feb. 23, 1912) that the appropriation made at the regular session in 1911 for a medical department in the University of Illinois was illegal on the ground that the bill containing the item was not printed in its final form before its passage by the legislature, the bill providing for the general expenses of the state government was repassed to cure the defect. The medical department bill was not passed.

Bills for paying the expenses of the special session and for repairing the roof and dome of the state house were also passed.

AMENDING THE CONSTITUTION.

The bill to propose an amendment to the state constitution permitting the adoption of more than one amendment to the constitution at the same time was defeated.

THIRD SPECIAL SESSION.

The call for the third special session included the following subjects:

1. Amending the act creating a drainage district in St. Clair county.
2. Appropriating the \$500,000 received from automobile licenses so that the money can be expended on highways.
3. A deficiency appropriation for state printing.
4. Revising the law relating to state charities.
5. Amending the act fixing the salaries of state's attorneys.

6. An act for the organization of park districts and the transfer of submerged lands to those bordering on navigable bodies of water.

Action was taken on four of the above subjects. The two that were not favorably acted upon were those relating to the use of automobile funds and the state printing deficiency. The act relating to the state charities was almost identical with that passed in 1909 and was re-enacted to insure its constitutionality. The principal change was in section 5, to which the following paragraph was added:

BUREAU OF CRIMINAL STATISTICS.

"The state charities commission shall establish a bureau of criminal statistics, of which its executive secretary shall be the director. It shall be the duty of said bureau to collect and publish annually the statistics of Illinois relating to crime and it shall be the duty of all courts of Illinois, police magistrates, justices of the peace, clerks of the courts of record, sheriffs, keepers of lockups, workshops and city prisons or other places of detention, holding men, women or children under conviction for crimes or misdemeanors or under charges of violations of the criminal statutes, to furnish to said bureau annually such information on request, as it may require in compiling said statistics." (Approved June 4.)

SALARIES OF STATE'S ATTORNEYS.

The act of fixing the salaries of state's attorneys provides that in counties not exceeding 30,000 inhabitants there shall be paid to each state's attorney the sum of \$100 per each 1,000 inhabitants and a major fraction thereof in addition to that provided by law to be paid by the state. The maximum sum to be paid any state's attorney in such coun-

ties shall not exceed \$2,500 per annum. In counties of from 30,000 to 51,000 inhabitants the salary is to be \$3,500 and in counties of from 51,000 to 100,000 inhabitants it is to be \$5,000 in the aggregate, including the salary paid out of the state treasury. In counties from 100,000 to 250,000 inhabitants the salary is to be \$6,000 per annum, and in counties of more than 250,000 inhabitants \$10,000 per annum. (Approved June 11.)

PARK ELECTION LEGALIZED.

Whenever in proceedings had heretofore for the organization of any park districts under an act entitled "An act to provide for the organization of park districts and transfer of submerged lands to those bordering on navigable bodies of water," approved June 24, 1895, the order of the county court calling an election to be held in the proposed park district did not specify the number of publications of the notice of election, as provided for in section 2 of the act, and such notice was thereafter, and at least twenty days prior to such election, published one time, then all such elections are declared to have been duly and legally held, and all park districts so organized are declared to be duly and legally organized. (Approved June 6.)

JOINT RESOLUTIONS.

TITANIC DISASTER.

Joint resolutions were passed April 23, deploring the loss of life occasioned by the sinking of the steamship Titanic, commending the heroism shown and requesting the governor to make a suitable donation from any available contingent fund for the

alleviation of the suffering, distressed and needy victims of the disaster.

CONTROL OF WATERWAYS.

Resolved, That it is the sense of the legislature of the state of Illinois that the control of the waterways of the lower Mississippi valley is a national problem and should be dealt with by the general government on plans broad and comprehensive enough to prevent overflows, reclaim the waste areas and make them available for the production of food for the millions of people they are capable of supporting. (Adopted by senate June 4; by house June 5.)

IRISH HOME RULE.

Whereas, it has come to the knowledge of the state of Illinois that a bill providing for self-government of the Irish people has been introduced in the imperial parliament; and,

Whereas, the welfare of Great Britain and Ireland has ever been a matter of solicitude to the people of the United States; and,

Whereas, the vigor, spirit and intelligence of the immigrants from Ireland and Great Britain have materially aided our progress and greatly advanced our civilization; therefore be it

Resolved, That we offer to the people of Great Britain and Ireland, through their representatives in parliament assembled, the felicitations of the people of the state of Illinois on the approach of a lasting union based on friendship and good will between the peoples of Great Britain and Ireland. (Adopted by both houses May 15.)

COAL INDUSTRY OF ILLINOIS.

Summary for year ended June 30, 1911.

Counties producing coal.....	53
Mines of all kinds.....	845
New mines open or mines reopened.....	134
Mines closed or abandoned.....	217
Total output (tons of 2,000 lbs.).....	50,165,099
Shipping or commercial mines.....	387
Output of shipping mines, tons.....	48,753,657
Mines in local trade.....	458
Output of local mines, tons.....	1,406,442
Total tons of mine run coal.....	13,025,663
Total tons of lump coal.....	19,588,409
Total tons of egg coal.....	3,725,073
Total tons of nut coal.....	2,425,712
Total tons of pea coal.....	10,268,458
Total tons of slack coal.....	1,131,784
Total tons shipped.....	44,878,400
Tons supplied locomotives at mines.....	877,793
Tons sold to local trade.....	2,617,977
Tons consumed at plant.....	2,090,929
Average days active operation.....	169
Average value per ton, all grades, at shipping mines.....	\$1.10
Aggregate home value total product.....	\$56,064,494
Average value per ton, all grades, at all mines.....	\$1.12
Mines using mining machinery.....	126
Mining machines in use.....	1,430
Tons undercut by machines.....	19,998,259
Tons mined by hand.....	30,166,840
Miners employed during year.....	33,912
Other employes underground.....	30,052
Boys employed underground.....	1,009
Total number employes.....	77,410

Men employed at shipping mines.....	74,508
Persons at work underground.....	70,903
Persons at work on surface.....	6,437
Average price paid per gross ton for hand mining.....	\$0.627
For machine mining.....	\$0.49
Kegs of powder used.....	1,240,293
Men accidentally killed.....	157
Killed inside mines.....	149
Killed outside mines.....	8
Wives made widows.....	87
Children left fatherless.....	245
Men injured.....	709
Gross tons mined to each life lost.....	319,523
Number employes to each life lost.....	493
Deaths per 1,000 men employed.....	2.03
Tons mined to each man hurt.....	70,754
Number employes to each man hurt.....	109
Number injured to 1,000 employed.....	9.2
Total coal output since 1833, tons.....	832,202,336
Total fatalities since 1833.....	3,183

FACTS ABOUT ILLINOIS COUNTIES.

Date of organization, area in square miles and origin of names.

Adams—Jan. 13, 1825—830—John Quincy Adams.
Alexander—March 4, 1819—220—Wm. M. Alexander.
Bond—Jan. 4, 1817—350—Gov. Shadrach Bond.
Boone—March 4, 1837—288—Daniel Boone.
Brown—Feb. 21, 1839—306—Gen. Jacob Brown.
Bureau—Feb. 23, 1837—846—Pierre de Buero (Indian trader).
Calhoun—Jan. 10, 1825—251—John C. Calhoun.
Carroll—Feb. 22, 1839—450—Charles Carroll of Carrollton.
Cass—March 3, 1837—460—Gen. Lewis Cass.
Champaign—Feb. 20, 1833—1,008—County in Ohio.
Christian—Feb. 15, 1839—702—County in Kentucky.
Clark—March 22, 1819—613—George Rogers Clark.
Clay—Dec. 23, 1824—466—Henry Clay.
Clinton—Dec. 27, 1824—487—DeWitt Clinton.
Coles—Dec. 25, 1830—520—Gov. Edward Coles.
Cook—Jan. 15, 1831—993—Daniel P. Cook.*
Crawford—Dec. 31, 1816—470—Wm. H. Crawford of Georgia.
Cumberland—March 2, 1843—350—Cumberland road.
DeKalb—March 4, 1837—650—Baron DeKalb.
DeWitt—March 1, 1839—440—DeWitt Clinton.
Douglas—Feb. 8, 1859—410—Stephen A. Douglas.
DuPage—Feb. 9, 1839—317—DuPage river.
Edgar—Jan. 3, 1823—640—John Edgar (merchant).
Edwards—Nov. 28, 1814—220—Gov. Ninian Edwards.
Effingham—Feb. 15, 1831—886—Gov. Edw. Effingham.
Fayette—Feb. 14, 1821—720—Marquis de Lafayette.
Ford—Feb. 17, 1859—530—Gov. Thomas Ford.
Franklin—Jan. 2, 1818—430—Benjamin Franklin.
Fulton—Jan. 28, 1823—864—Robert Fulton.
Gallatin—Sept. 14, 1812—340—Albert Gallatin.
Greene—Jan. 20, 1821—540—Gen. Nathaniel Greene.
Grundy—Feb. 17, 1841—432—Felix Grundy of Tennessee.
Hamilton—Feb. 8, 1821—440—Alexander Hamilton.
Hancock—Jan. 13, 1825—780—John Hancock.
Hardin—March 2, 1839—180—County in Kentucky.
Henderson—Jan. 30, 1841—380—Henderson river.
Henry—Jan. 13, 1825—825—Patrick Henry.
Iroquois—Feb. 26, 1833—1,100—Indian name.
Jackson—Jan. 10, 1816—580—Andrew Jackson.
Jasper—Feb. 15, 1831—484—Sert. Wm. Jasper.
Jefferson—March 26, 1819—466—Thomas Jefferson.
Jersey—Feb. 28, 1839—360—New Jersey.
Jo Daviess—Feb. 17, 1827—650—Col. Jo Daviess of Kentucky.
Johnson—Sept. 14, 1812—340—Col. Richard M. Johnson.
Kane—Jan. 16, 1836—540—Senator Elias K. Kane.
Kankakee—Feb. 11, 1853—692—Indian name.
Kendall—Feb. 19, 1841—321—Amos Kendall (postmaster-general).
Knox—Jan. 13, 1825—720—Gen. Henry Knox.
Lake—March 1, 1839—463—Lake Michigan.
LaSalle—Jan. 15, 1831—1,152—Explorer LaSalle.
Lawrence—Jan. 16, 1821—362—Com. Jas. Lawrence.
Lee—Feb. 27, 1839—728—Richard Henry Lee.
Livingston—Feb. 27, 1837—1,026—Edward Livingston.

Logan—Feb. 15, 1839—620—Dr. John Logan.†
Macon—Jan. 19, 1829—580—Nathaniel Macon of North Carolina.
Macoupin—Jan. 17, 1829—864—Indian name.
Madison—Sept. 14, 1812—740—James Madison.
Marion—Jan. 24, 1823—576—Gen. Francis Marion.
Marshall—Jan. 19, 1839—350—John Marshall.
Mason—Jan. 20, 1841—518—County in Kentucky.
Massac—Feb. 8, 1843—240—Fort Massac.
McDonough—Jan. 25, 1826—576—Gen. Thomas McDonough.
McHenry—Jan. 16, 1836—609—Gen. Wm. McHenry.
McLean—Dec. 25, 1830—1,161—John McLean (congressman).
Menard—Feb. 15, 1839—311—Lieut.-Gov. Pierre Menard.
Mercer—Jan. 13, 1825—550—Gen. Hugh Mercer.
Monroe—Jan. 6, 1816—380—James Monroe.
Montgomery—Feb. 12, 1821—740—Gen. R. Montgomery.
Morgan—Jan. 31, 1823—563—Gen. Daniel Morgan.
Moultrie—Feb. 16, 1843—340—Gen. Wm. Moultrie.
Ogle—Jan. 16, 1836—773—Lieut. Joseph Ogle.
Peoria—Jan. 13, 1825—630—Indian name.
Perry—Jan. 29, 1827—432—Com. Oliver H. Perry.
Perry—Jan. 27, 1841—440—Benj. Platt (atty.-gen.).
Pike—Jan. 31, 1821—756—Zebulon M. Pike.
Pope—Jan. 10, 1816—360—Nathaniel Pope.
Pulaski—March 3, 1843—190—Count Casimir Pulaski.
Putnam—Jan. 13, 1825—140—Gen. Israel Putnam.
Randolph—Oct. 2, 1795—560—Edmund Randolph.
Richland—Feb. 18, 1841—350—County in Ohio.
Rock Island—Feb. 9, 1839—420—Island same name.
Saline—Feb. 25, 1847—396—Saline creek.
Sangamon—Jan. 30, 1821—875—Indian name.
Schuyler—Jan. 13, 1825—414—Gen. Philip Schuyler.
Scott—Feb. 16, 1839—252—County in Kentucky.
Shelby—Jan. 23, 1827—760—Gov. Isaac Shelby.
Stark—May 2, 1839—290—Gen. John Stark.
St. Clair—April 27, 1790—Gen. Arthur St. Clair.
Stephenson—March 4, 1837—573—Col. Benjamin Stephenson.
Tazewell—Jan. 31, 1827—650—Gov. L. W. Tazewell.
Union—Jan. 2, 1819—400—Union of states.
Vermilion—Jan. 18, 1826—882—Vermilion river.
Wabash—Dec. 27, 1824—220—Indian name.
Warren—Jan. 13, 1825—540—Gen. Joseph Warren.
Washington—Jan. 2, 1818—557—George Washington.
Wayne—March 26, 1819—720—Gen. Anthony Wayne.
White—Dec. 9, 1815—500—Capt. Leonard White.
Whiteside—Jan. 16, 1836—676—Col. Sam Whiteside.
Will—Jan. 12, 1836—850—Conrad Will.
Williamson—Feb. 28, 1839—440—County in Tennessee.
Winnebago—Jan. 16, 1836—540—Indian name.
Woodford—Feb. 27, 1841—556—County in Kentucky.

*Lawyer and first attorney-general of Illinois.
†Father of Gen. John A. Logan. ‡Member of constitutional convention of 1818.

ILLINOIS TAX COMMISSION.

Appointed by governor March 11, 1910.

John P. Wilson, Chicago; Charles E. Merriam, Chicago; Alfred M. Craig, Galesburg; Ben F. Caldwell, Springfield; Prof. David Felmley, Urbana; A. P. Grout, Winchester; B. L. Winchell, Chicago.

Duties of the commission:

1. To make a careful compilation of all state laws relating to taxation and Supreme court decisions thereon.

2. To classify and tabulate statistics relating to the totals raised by taxation in state, counties and municipalities.

3. To investigate all complaints which may be made to them of illegal, unjust or excessive taxation.

4. To secure information as to taxing methods in other states.

5. To formulate a report "which shall be as plain, concise and comprehensive as possible." The commission met nine times and gave three public hearings, at which numerous suggestions for changes in the laws were urged. A compilation of the tax laws and judicial decisions of Illinois

thereon was made by Prof. Albert M. Kales of the Northwestern university and Elmer M. Leissmann and published by the commission. At its request Prof. John M. Fairlie of the University of Illinois published a descriptive and statistical report on the "Taxation and Revenue System of Illinois." The report of the commission was presented to the general assembly in January, 1911, but no action was taken by that body with reference to the recommendations made. One of these proposed the submission of an amendment to the state constitution removing from the general assembly the present restrictions in regard to the taxation of personal property. It provided that any tax levied upon personal property must be uniform as to persons and property of the same class within the jurisdiction of the body imposing the same, and that all exemptions should be by general law, revocable by the general assembly at will. The commission also recommended bills for important changes in the machinery of the tax administration, such, for example, as the establishment of a permanent state tax commission in place of the present state board of equalization.

COOK COUNTY OFFICIALS.

Hours 9 a. m. to 5 p. m.

BOARD OF COMMISSIONERS.

Room 537 courthouse.

President—Alex. A. McCormick, R., 523 courthouse.
 Clerk of County Board—Robert M. Sweitzer, D., 600 courthouse.

Commissioners—Alexander A. McCormick, R.; Peter Bartzen, D.; Frank Ragen, D.; Joseph M. Fitzgerald, D.; Bartley Burg, D.; Daniel J. Harris, D.; Stanley Kulewski, D.; Daniel Moriarty, D.; John E. Maloney, D.; Albert Nowak, D., city districts. Avery Coonley, Prog.; Harley B. Mitchell, Prog.; Ellsworth M. Board, Prog.; John J. Gard, Prog.; A. N. Anderson, Prog., country districts.
 Committee Clerk—Peter Ellert, 527 courthouse.

Meetings—The regular meetings of the board of commissioners are held on the first Monday of December, January, February, March, June and September of each year.

Duties—The commissioners are charged with the management of the county affairs of Cook county, as provided by law, having the same powers as the boards of supervisors in other counties. They make all appropriations and contracts and authorize all expenditures. The president appoints, with the approval of the board, the superintendent of public service and other officers and employees whose election or appointment is not otherwise provided for by law.

COUNTY CLERK'S OFFICE.

Courthouse, 2d floor, south end.

County Clerk—Robert M. Sweitzer, D.

Deputies—James A. Long, chief deputy; Frank S. Ryan, deputy comptroller.

Duties—The county clerk is clerk of the county board and ex officio comptroller of county financial affairs. As such he has charge of all deeds, mortgages, contracts, bonds, notes and similar papers belonging to the county, settles all accounts, keeps books showing appropriations and expenditures, makes out report for fiscal year and submits estimates for the expenses of all the departments of the county organization.

COUNTY TREASURER'S OFFICE.

Courthouse, 1st and 2d floors, north end.

County Treasurer—William L. O'Connell, D.

Assistant Treasurer—Marcus Jacobowsky.

Duties—The county treasurer receives and disburses, pursuant to law, all the revenues and other public moneys belonging to the county. He personally countersigns county orders and renders accounts to the board of commissioners.

COMPTROLLER'S OFFICE.

Room 511 courthouse.

Comptroller—Robert M. Sweitzer, D.

Deputy Comptroller—Frank S. Ryan, D.

Chief Clerk—Edward J. McCarthy.

Duties—See County Clerk.

SUPERINTENDENT OF PUBLIC SERVICE.

Room 519 courthouse.

Superintendent of Public Service—(Vacancy).

Duties—Purchases all supplies for the county institutions, advertising for bids at specified times and entering into yearly or quarterly contracts and making tests from time to time of the articles furnished to determine if they are up to contract requirements.

RECORDER'S OFFICE.

Courthouse, 1st floor, south end.

Recorder of Deeds—Joseph F. Connery, D.

Chief Deputy—John V. Clinkin.

Chief Clerk—Lee A. Dunne.

Duties—The recorder is the keeper of the records and upon the filing of any instrument in writing in his office entitled to be recorded he must spread the same on the record books provided for that purpose, in the order of the time of filing. He is also the official abstract maker for Cook county.

REGISTRAR OF TITLES.

Courthouse, 1st floor, south end.

Registrar—Joseph F. Connery, D.

Examiners—Edgar H. Parnell, Charles T. Farson.

Advisory Examiners—John S. Miller and Augustus S. Peabody.

Duties—The registrar of titles under the Torrens system of land registration directs the procedure by which title is confirmed by decree of court, which does away with the need of an abstract, and the certificate of title which is issued is guaranteed by the county.

CIVIL SERVICE COMMISSION.

Room 547 courthouse.

Commissioners—Frederic Greer, Gustavus H. Tatge, Robert H. Catherwood, secretary.

Duties—The commissioners examine applicants for positions in the county service. Before an examination is held fourteen days' notice is given by advertisement. The rules are practically the same as those governing other bodies of the kind.

JURY COMMISSION.

Room 824 courthouse.

Commissioners—William A. Amberg, president; Joseph H. Barnett, secretary; Richard J. Finnegan, Clerk—Roswell H. Mason.

Duties—The commissioners are required to prepare a list of electors qualified to act as jurors, to select names from such list and place them in a jury box and a grand jury box, and to be present when the names of jurors needed at each term of court are drawn.

BOARD OF ASSESSORS.

Courthouse, 3d floor, north end.

Members of the Board—W. K. Sheridan, D.; William H. Weber, R., secretary; David M. Pfaelzer, D.; Adam Wolf, R.; F. W. Krcialeski, D. Chief Clerk—William Kingsley.

Duties—Fix the amount of assessment on all real and personal property according to the rate required by law.

BOARD OF REVIEW.

Courthouse, third floor, south end.

Members of Board—T. J. Webb, D.; Fred W. Block, D.; Roy O. West, R.

Chief Clerk—Frank A. Vogler.

Duties—The board of review takes the place of the old town board in revising and correcting the findings of the assessors and in hearing and adjusting complaints of property owners. The decisions of the board of review are final.

COUNTY INSTITUTIONS.

AT OAK FOREST.

Superintendent—Edward N. Stein, D.

Duties—Has general management of infirmary or poor-house and poor farm.

COUNTY ARCHITECT.

Room 1303, 64 West Randolph street.

County Architect—Paul Gerhard.

Duties—The county architect makes designs for new buildings, alterations in old ones, etc., as required by the county board. (Paid in fees.)

SUPERINTENDENT OF SCHOOLS.

Room 546 courthouse.

Superintendent—Edward J. Tobin, D.

Duties—He is required to visit each school in his district at least once a year, to see that the teachers are qualified for the performance of their duties and to do all in his power to increase the efficiency and elevate the standards of the schools.

COUNTY HOSPITAL.

Harrison and Honore streets.

Warden—Henry L. Bailey, D.

Duties—Exercises general supervision over the county hospital.

COUNTY SURVEYOR.

Room 1020 courthouse.

County Surveyor—George C. Waterman, D.
 Duties—The surveyor is required to make all official surveys in the county. (Paid in fees.)

COUNTY PHYSICIAN.

Office in detention hospital.

County Physician—Dr. George F. Butler.

Duties—The county physician resides at the detention hospital and gives medical attention to the patients in that institution.

COUNTY AGENT'S OFFICE.

213-215 South Peoria street.

County Agent—Joseph Meyer.

Duties—The county agent is responsible to the president and board of county commissioners in the carrying out of the plans for the relief of the poor in the city of Chicago. He undertakes the return of all nonresident and alien paupers to their legal place of residence; is the medium whereby all defective children are sent to the Lincoln State School and Colony and the blind and deaf and dumb children to the state schools at Jacksonville, Ill.; keeps a record of and closely scrutinizes all cases passed upon at the detention hospital; passes on all applications for institutional care or infirmary cases; interests himself in any wrong existing or being perpetrated on any family to which his attention may be called.

CORONER'S OFFICE.

Room 500 courthouse.

Coroner—Peter M. Hoffman, R.

Chief Physician—Dr. Warren H. Hunter.

Chief Deputy—David E. Jones.

Deputies—Matt Conrad, David J. Gillespie, Michael P. Hartney, Adolph Herrmann, George Hitzman, Charles E. Julian, Charles F. Kennedy, William Ostrom, Michael G. Walsh, Henry Spears, Samuel L. Davis.

Physicians—E. R. LeConte, H. G. W. Hunter, Joseph Springer.

Duties—The coroner is required to take charge of bodies of all persons in the county supposed to have come to their deaths through other than natural causes, to summon a jury of six men and to inquire into the cause of death. If any person is implicated by the inquest as the slayer of the deceased, or as an accessory, the coroner shall cause his arrest if not already in custody.

SHERIFF'S OFFICE.

Courthouse, 4th floor, center.

Sheriff—Michael Zimmer, D.

Assistant Sheriff—William H. Ehemann, D.

Chief Deputy—Charles W. Peters.

Jailer—William T. Davies, R.

Duties—The sheriff serves and returns all writs, warrants, processes, orders and decrees legally directed to him. He is the conservator of peace in his county and may arrest offenders on view. He is the keeper of the jail and has the custody of prisoners. It is also his duty to attend the courts of record of the county and obey their orders.

STATE'S ATTORNEY'S OFFICE.

Criminal court building, 2d floor.

State's Attorney—Maclay Hoyne, D.

Assistants—Frank Johnston, Jr., Michael Sullivan, B. J. Mahony, Henry Berger, Charles C. Case, Marvin E. Barnhart, Francis W. Hinckley, Thomas J. Finn, Malcolm B. Sterrett, Eugene C. O'Reilly, Ernest Langtry, Irwin N. Walker, George C. Bliss, John R. Herren, John M. Loneragan, Patrick J. Murphy, John Prystalski.

Duties—The state's attorney begins and prosecutes all actions, civil and criminal, in any court of record in the county, in which the people of the state or county may be interested, prosecutes forfeited bonds and actions for the recovery of debts due the state or county and acts as adviser to county officers.

COUNTY ATTORNEY'S OFFICE.

Room 507 courthouse.

County Attorney—Carl R. Chindblom.

Assistant County Attorneys—William F. Struckman, Charles L. Daly, Louis B. Anderson.

Manager Tax Department—P. H. Schmitz.

Duties—The county attorney is the legal adviser of the county board and has charge of all suits at law or in equity for or against the county.

PUBLIC ADMINISTRATOR.

Room 1034 First National Bank building.

John F. Devine, R.

Duties—The public administrator is appointed by the governor to administer the estates of deceased persons under certain contingencies regulated by the statutes of the state of Illinois.

CUSTODIAN COUNTY BUILDING.

Robert E. Burke, D.

COURTS IN COOK COUNTY.

APPELLATE COURT, FIRST DISTRICT, ILLINOIS.

Ashland block, 7th floor.

A—Ben M. Smith, presiding justice; Frank Baker, Edward O. Brown.
 B (Branch)—Thomas C. Clark, presiding justice; Frederick A. Smith, Albert C. Barnes.
 C (Branch)—Warren W. Duncan, presiding justice; Emery C. Graves, James S. Baume.
 D (Branch)—Martin M. Gridley, presiding justice; William H. McSurely, Joseph H. Fitch.
 Clerk—Alfred R. Porter, R.; chief deputy, Roy S. Gaskill.

Jurisdiction—The Appellate court has jurisdiction of all matters of appeal or writs of error from the Superior, Circuit and County courts, and from the Municipal court of Chicago, except in criminal cases and those affecting a franchise or freehold or the validity of a statute. Decisions are final except that an appeal may be granted on a certificate of importance, or a review may be allowed on a writ of certiorari from the Supreme court.

Terms of Court—First Tuesdays in March and October of each year.

SUPERIOR COURT.

Courthouse, 4th floor.

Judges—W. H. McSurely, R.; term expires 1917; Theodore Brentano, R., 1915; Marcus A. Kavanagh, R., 1917; Joseph H. Fitch, D., 1917; William E. Dever, D., 1916; Richard E. Burke, D., 1916; Martin M. Gridley, D., 1916; Thomas C. Clark, D., 1916; Charles A. McDonald, D., 1916; W. F. Cooper, D., 1916; Henry V. Freeman, R., 1917; Albert C. Barnes, R., 1917; Hugo Pam, R., 1917; M. L. McKinley, D., 1917; Clarence N. Goodwin, D., 1917; Charles M. Foell, R., 1917; Denis E. Sullivan, D., 1917.

Clerk—Richard J. McGrath, D.; courthouse, fourth floor, south end. Chief deputy, Charles E. Shearman.

Jurisdiction—The Superior court has concurrent jurisdiction with the Circuit court in all cases of law and equity and in appeals from inferior courts.

Terms of Court—Begin on the first Monday of every month.

CIRCUIT COURT.

Courthouse, 4th floor.

Terms of judges all expire in June, 1915.

Judges—Edward O. Brown, D.; Thomas G. Windes, D.; Merritt W. Plinckney, R.; R. S. Tutthill, R.; Frank Baker, D.; John Gibbons, R.; C. M. Walker, D.; Lockwood Honore, D.; John F. McGorty, D.; George Kersten, D.; Frederick A. Smith, R.; Adolor J. Pettit, R.; Kickham Scanlan, R.; Jesse A. Baldwin, R.
Clerk—John W. Rainey, D.; chief deputy, Louis Hutt, R.; fourth floor, north end.

Jurisdiction—Same as that of the Superior court.

Terms of Court—Begin on the third Monday of every month.

COUNTY COURT.

Courthouse, 6th floor.

Judge—John E. Owens, D.; term expires in December, 1914.

Clerk—R. M. Sweitzer, D.; 600 courthouse.

Jurisdiction—The County court has concurrent jurisdiction with the Circuit courts in all cases of appeal from justices of the peace and police magistrates and in all common-law matters where the value of property does not exceed \$1,000; concurrent jurisdiction with courts of record in condemnation and special assessment proceedings; exclusive jurisdiction in voluntary assignments, release of insolvent debtors, trials of the right of property, commitment of insane and the support of paupers by their relatives; objections to the sale of real estate for nonpayment of general or special taxes are heard in the County court and all inheritance taxes are levied and collected under its direction; the official bonds of most county and township officers and the yearly reports of clerks, justices of the peace and state's attorneys and other officers of fees

collected are subject to the approval of that court; the County court in Cook county has entire management and control of all elections in Chicago.

CRIMINAL COURT.

Criminal court building, Michigan street and Dearborn avenue.

Judges—Judges of the Superior and Circuit courts alternate in presiding over the Criminal court.
Clerk—Frank J. Walsh, D.; office in Criminal court building.

Jurisdiction—The Criminal court of Cook county has original jurisdiction of all criminal offenses except such as is conferred upon justices of the peace, and appellate jurisdiction from justices of the peace.

Terms of Court—Begin on the first Monday of every month.

PROBATE COURT.

Courthouse, 6th floor.

Judge—Charles S. Cutting, R.; term expires in 1914.
Assistants—Neil J. Shannon, Philip P. Bregstone.
Clerk—John A. Cervenka, D.

Public Administrator—John F. Devine, R.

Public Guardian—Mary M. Bartelme.

Jurisdiction—The Probate court has original jurisdiction in all matters of probate, the settlement of estates of deceased persons, the appointment of guardians and conservators and settlement of their accounts, and in all matters relating to apprentices, and in cases of sales of real estate of deceased persons for the payment of debts.

Terms of Court—Begin on the first Monday of every month.

JUVENILE COURT.

771 Ewing street.

Judge—Merritt W. Plinckney.

Jurisdiction—The Juvenile court hears and disposes of cases brought before it under the act to regulate the treatment and control of dependent, neglected and delinquent children.

CIRCUIT COURT OF APPEALS.

Federal building, 7th floor.

Associate Justice—William R. Day.

Judges—Christian C. Kohlsaat, Francis E. Baker, William H. Seaman.

Clerk—Edward M. Holloway.

Salary of judges, \$7,000 a year.

Jurisdiction—The Circuit Courts of Appeal have appellate jurisdiction to review final decisions in district courts in all cases other than those which may be taken direct to the United States Supreme court.

UNITED STATES DISTRICT COURT.

Federal building, 6th floor.

Judges—Kenesaw M. Landis, George A. Carpenter.

Clerk—Thomas C. Mac Millan.

Marshal—Luman T. Hoy.

Salary of judges, \$6,000 a year.

Jurisdiction—United States District courts have jurisdiction of cases where the United States is plaintiff or defendant; of crimes and offenses cognizable under the authority of the United States; of suits relating to debts by or to the United States; of admiralty and maritime cases; of suits arising under the postal, patent, trade-mark, copyright, immigration, contract labor, national banking, antitrust laws, etc.

MASTERS IN CHANCERY.

Circuit Court—William F. Cooper, M. H. Gnerlin, Fred Sass, Albert W. Brickwood, Granville W. Browning, Stillman B. Jamieson, Roswell B. Mason, Dennis W. Sullivan, George Mills Rogers, Thomas Taylor, Jr., Horatio L. Walt, Sigmund Zeisler, William A. Doyle, Ralph W. Condee, John W. Ellis, Richard S. Folsom.
Superior Court—Hiram Barber, Wirt E. Humphrey, John E. Hunt, Charles P. Abbey, David F. Matchett, James V. O'Donnell, C. Arch Williams, Joseph E. Weissbach, George F. Barrett, John F. Holland, George T. Kelly.

MUNICIPAL COURT OF CHICAGO.

City hall, eighth and ninth floors.

Chief Justice—Harry Olson, room 915.

Chief Clerk—Frank P. Danisch.

Chief Bailiff—Anton J. Cermak.

Judges—Terms expire in 1914: Henry C. Beltler,

Charles N. Goodnow, Joseph Z. Uhlir, Hosea W.

Wells, Oscar M. Torrison, Frederick L. Fuke, Jr.,

Sheridan E. Fry, Hugh R. Stewart, Frank H.

Graham. Terms expire in 1916: John R. Caverly,

John J. Rooney, Thomas F. Scully, Jacob H.

Hopkins, James C. Martin, Harry P. Dolan, Jo-

seph Sabath, John R. Newcomer, Charles A. Wil-

liams, David Sullivan. Terms expire in 1918:

Harry Olson, chief justice; William N. Gemmill,

John K. Prindiville, Harry M. Fisher, John A.

Mahoney, John Courtney, Edward T. Wade, Joseph

P. Rafferty, Joseph S. LaBuy, John J. Sullivan,

Hugh J. Kearns.

Salaries—Chief justice, \$10,000 a year; associate

justices, \$6,000; clerk, \$5,000; chief deputy clerk,

\$2,500; other clerks, \$1,800; bailiff, \$5,000; chief

deputy bailiff, \$2,500; other bailiffs, \$1,500.

Circuit Courts—First district, city hall; second dis-

trict, 8855 and 8857 Exchange avenue, South Chi-

cago.

Criminal Courts—First district: Branches 1 and 2,

Criminal court building; South Clark street

branches 1 and 2, 625 South Clark street; Des-

plaines street branch, 119 North Desplaines street;

Maxwell street branch, Maxwell and Morgan

streets; Hyde Park branch, 5223 Lake avenue;

West Chicago avenue branch, 1125 West Chicago

avenue; Shakespere avenue branch, Shakespere

and California avenues; East Chicago avenue

branch, 115 East Chicago avenue; Sheffield avenue

branch, Sheffield avenue and Diversey boulevard;

Englewood branch, 6247 Westworth avenue; 35th

street branch, 728 West 35th street. Second dis-

trict; 8855-8857 Exchange avenue, South Chicago.

JURISDICTION.

1. All actions on contracts when the amount claimed by the plaintiff exceeds \$1,000; all actions for the recovery of personal property the value of which exceeds \$1,000; all actions for the recovery of damages for the conversion of personal property when the amount sought to be recovered exceeds \$1,000.

2. All cases which may be transferred to it by the Circuit and Superior courts of Cook county.

3. All criminal cases in which the punishment is by fine or imprisonment otherwise than in the penitentiary and all criminal cases which may be prosecuted otherwise than by indictment by a grand jury.

4. All civil actions, quasi-criminal actions excepted, for the recovery of money only, where the amount does not exceed \$1,000; all actions for the recovery of personal property the value of which does not exceed \$1,000; all actions of forcible detainer and all actions and proceedings of which justices of the peace were formerly given jurisdiction where the amount sought to be recovered does not exceed \$1,000.

5. Quasi-criminal actions.

6. Proceedings for the prevention of crime; pro-

ceedings for the arrest, examination and commitment of persons charged with criminal offenses and proceedings pertaining to search warrants.

COSTS IN CIVIL CASES.

1. In cases of the first class the plaintiff shall pay \$3 to the clerk when suit is begun and \$6 more if he asks for a jury trial.

2. In cases of the second class the plaintiff at the time of the bringing of the transcript of the record to the Municipal court shall pay \$1 and \$6 more if he files a demand for a jury.

3. In cases of the first class the defendant at the time of the filing of his appearance shall pay to the clerk \$5 and if he asks for a jury \$6 additional.

4. In any case of the fourth class the plaintiff at the time of beginning suit shall pay to the clerk of the court \$2 when the amount claimed does not exceed \$200; \$5 if the amount exceeds \$500 and does not exceed \$1,000, and \$2 in a case of forcible entry and detainer. If a jury is asked \$6 additional must be paid.

5. In any case of the fourth class the defendant at the time of his appearance shall pay to the clerk \$2 if the amount claimed by the plaintiff exceeds \$200 and the further sum of \$6 if he (the defendant) asks for a jury.

6. The costs to be paid for the services of the bailiffs, sheriffs and coroners shall be \$1.75 for each person upon whom service is made and in cases where any levy is to be made \$1.75 additional; other costs shall be the same as in the Circuit court.

7. In any case of the fourth class the party delivering to the bailiff any paper to be served shall pay him \$1 for each defendant named upon whom service is to be made, and in cases of writs of attachment, replevin or execution the further sum of \$1 when any levy is made, and shall also pay for the actual expense of seizing and caring for property.

8. In any case the party securing any certified copy of the record shall pay to the clerk the same fees as are paid to the clerk of the Circuit court for similar services.

9. In any case of the fourth class the bailiff, as commissions on moneys realized by execution, shall collect from the defendant in the execution 5 per cent upon the money realized if it does not exceed \$100, but if it exceeds \$100 the amount shall be 5 per cent on the first \$100 and 3 per cent upon the excess over \$100.

10. All other costs not specified shall be the same as in the Circuit court.

COSTS IN CRIMINAL CASES.

Costs in criminal and quasi-criminal cases and proceedings in the Municipal court instituted in the name of the people or of any state or county officers shall be:

1. Clerk's fees for all services rendered by him, \$6.

2. Bailiff's fees the same as those which may now or hereafter be fixed by law for the sheriff in counties of the third class for similar services.

MONEY SPENT IN THE NATIONAL CAMPAIGN OF 1912.

From statements filed with the secretary of the United States senate and the clerk of the house of representatives it appears that a total of \$3,050,335 was spent by the various national party committees in the primary and electoral campaigns of 1912. This amount does not include money expended by state committees or individuals in the contest for the nomination and election of federal officials. The aggregate has been estimated at about \$6,000,000. The sums reported as spent by the national committees were:

The amount spent in the nomination and election of candidates for the national house of representatives was placed at \$1,283,257. This of course, does not apply to the expenses falling upon the taxpayers for holding the election themselves.

SOUTH SHORE LAKE FRONT DEVELOPMENT AND FIELD MUSEUM SITE.

A contract was entered into March 30, 1912, between the Illinois Central Railroad company and the South park commissioners in order to enable the park commissioners to carry out the development of the shore of Lake Michigan between Grant and Jackson parks, as proposed in the plan of Chicago, which plan was originated by the Commercial club of Chicago and committed by the city council to the Chicago plan commission for development.

The south shore plan enables the new Field Museum of Natural History to be located downtown, where it will be easily accessible to all, facing north on the new widened 12th street at its intersection with South Park avenue extended and overlooking Grant park. The necessary authority having been granted by the United States government, on Oct. 19, 1912, work was begun on the breakwaters and the filling in of land east of the Illinois Central station for the early erection of the Field Museum.

The park plan provides for the creation of approximately 1,500 acres of park space along Chicago's lake front, beginning at Grant park in the center of the city, by the filling in first, of a strip of shore land approximately 300 feet wide, facing the open lake, this strip to extend solidly to connect with Jackson park on the south. The strip is to be planted with trees and given informal landscape treatment with flowers and shrubs growing throughout its extent. Along this shore will run a watercourse, approximately 500 feet wide, for small craft, for sailboats, motor boats, canoes and racing shells. Beyond the watercourse, built to protect it and provide safety and shelter to pleasure craft, will be an island, approximately 700 feet wide, and extending from Grant to Jackson parks, planted with trees, having a shore driveway and winding walks, and, under the proposed plan, providing frequent bathing beaches for the city's summer multitudes, as well as athletic grounds, baseball fields, running tracks, tennis courts, football fields, a stadium and a public gym-

nasium.

This agreement, made March 30, 1912, between the South park commissioners and the Illinois Central Railroad company, provides for the acquiring by the park commissioners of the riparian rights attaching to the land lying between Grant and Jackson parks; for the establishment of a specified permanent boundary line dividing the railroad property from the submerged lands to be acquired by the park commissioners; for the construction of specified viaducts over the railroad tracks; for the extension of South Park avenue north over the railroad tracks to connect with Grant park at 12th street; for the removal of the 12th street station to land south of the new widened 12th street extended to the lake shore; for the transfer of all land east of Michigan avenue and north of 12th street, as far as the present southern boundary of Grant park, to the park commissioners for park purposes; for the transfer to the railroad company of certain specified lands for right of way, and for various other minor agreed changes in present conditions. This agreement was ratified, in accordance with law, by Judge Lockwood Honore of the Circuit court July 10, 1912.

The contract was modified by a supplemental agreement, signed June 26, 1912, which provides for a reduction in the land granted the railroad for right of way; for depression of roadbed; for prohibition of buildings (except switch towers and platform passenger stations) upon the right of way between 29th and 51st streets, in order to permit an unobstructed view of the lake; for a prohibition upon the use of the additional right of way until the railroad company arranges for the operating of four tracks by motive power other than steam (which is designed to encourage the electrification of the road); for specified viaducts over right of way; for widening and relocation of Indiana avenue; and for specified widening of Michigan avenue between 12th and 13th streets.

ILLINOIS STATE ASSOCIATIONS.

Anti-Saloon League—President, Alfred Capps, Jacksonville; secretary, W. B. Millard, Morgan Park; headquarters, 1200 Security building, 189 West Madison street, Chicago.

Bankers' Association—President, John D. Phillips, Green Valley; secretary, R. L. Crampton, Chicago.

Bar Association—President, Harry Higbee, Pittsfield; secretary, John F. Vought, Chicago.

Civil Service Association—President, Charles L. Capen, Bloomington; secretary, Herbert E. Fleming, 924, 140 South Dearborn street, Chicago.

Equal Suffrage Association—President, Mrs. George W. Trout, Oak Park; corresponding secretary, Mrs. Bertram W. Sippy, Chicago.

Federation of Women's Clubs—President, Mrs. Minnie Starr Grainger; corresponding secretary, Mrs. John G. Swinson, 2835 Millard avenue, Chicago.

Humane Society—President, John L. Shortall; secretary, George A. H. Scott; office, 1145 South Wabash avenue, Chicago.

Illinois Conservation Association—President, R. R. McCormick, Chicago; secretary, Franklin A. Dean, Chicago.

Illinois Tax Reform Association—President, Herbert Miller, Chicago; secretary-treasurer, Maxwell Edgar, Chicago.

Manual Arts Association—President, F. M. Leavitt, Chicago; secretary-treasurer, A. C. Newell, Normal.

Mayors' Association—President, William H. Stolte, Chicago Heights; secretary, Arthur G. Brown, Rockford.

National Civic Federation (Illinois branch)—President, Dr. Abram W. Harris, Evanston; corresponding secretary, Donald R. Richberg, Chicago.

- Local Transportation—Block, Richert, Carr, Long, Schultz, Clancy, Healy, Stewart, Capitain, Lipps, Hyldahl, Twigg, Bergen, Fisher, Donahoe. Meets Wednesdays, 2 p. m.
- Harbors, Wharves and Bridges—Littler, Kenna, Ryan (4th), Long, Nance, Emerson, Czekala, Brennan, Geiger, Bauler, Hey, Thomson, Holding, Hazen, Ryan (34th). Meets Tuesdays, 2 p. m.
- Gas, Oil and Electric Light—Cermak, Ryan (4th), Long, Block, Vavrick, Belfuss, Sitts, Walkowiak, Stewart, Bowler, Hey, Haderlein, Twigg, Janovsky, Kearns. Meets Thursdays, 2 p. m.
- Local Industries—Fisher, Mayer, Carr, Klaus, Cullerton, Schultz, McDonald, Lawley, Sitts, Schaeffer, Krumholz, Pretzel, Wilson, McDermott, Bergen. Meets Tuesdays, 2 p. m.
- Judiciary, State Legislation, Elections and Rules—Donahoe, Mayer, Helwig, Bewersdorf, Ahern, Uptatel, Walkowiak, Powers, Pitte, Bauler, Kjellander, Capitain, Hyldahl, McInerney, Holding, Hazen, Toman. Meets Fridays, 2 p. m.
- Streets and Alleys, Taxation and Street Nomenclature—Healy, Kenna, Cross, Klaus, McDonald, Uptatel, Kunz, Egan, Hey, Haderlein, Pretzel, McDermott, Swift, Holding, Toman. Meets Mondays, 2 p. m.
- License—Ryan (34th), Norris, Tearney, Ryan (4th), Cross, Vavrick, Cermak, Ahern, Uptatel, Bowler, Pitte, Burns, Krumholz, Janovsky, Bradshaw. Meets Thursdays, 3:30 p. m.
- Buildings and City Hall—Thomson, Coughlin, Tearney, Carr, Helwig, Klaus, Bewersdorf, Clancy, Walkowiak, Powers, Kjellander, Lipps, Hyldahl, Littler, Swift. Meets Mondays at 3:30 p. m.
- Schools, Fire, Police and Civil Service—Geiger, Kenna, Harding, Mayer, Richert, Martin, Helwig, Block, Vavrick, Bewersdorf, Czekala, Burns, McInerney, Bradshaw, Toman. Meets Tuesdays, 11 a. m.
- Health—Nance, Coughlin, Norris, Tearney, Martin, Cullerton, Ahern, Lawley, Kunz, Brennan, Schaeffer, Pretzel, McDermott, McInerney, Bradshaw. Meets Wednesdays, 2 p. m.
- Water—Wilson, Coughlin, Norris, Cross, Kunz, Brennan, Powers, Egan, Stewart, Burns, Schaeffer, Kjellander, Thomson, Littler, Swift. Meets Thursdays, 3:30 p. m.
- SELECT COMMITTEES (1912-1913).
- Track Elevation—Janovsky, Fisher, Emerson, Kearns, Reading, Donahoe, Bauler, Nance, Czekala. Meets Wednesdays, 3:30 p. m.
- Compensation—Reading, Ryan (34th), Belfuss, Lipps, Harding, Krumholz. Meets Fridays, 11 a. m.
- Bathing Beaches and Recreation Piers—Long, Geiger, Pitte, Healy, Bowler. Meets Fridays, 3:30 p. m.
- Special Park Commission—Alds, Belfuss, Harding, Schultz, Capitain, Hazen, Cullerton, Haderlein, McDonald, Clancy, Martin and Bergen.
- Messrs. Oscar F. Mayer, Jens Jensen, Frank P. Danisch, Cyril Fiala, Paul Drzymalski, Charles L. F. Richter, Francis T. Simmons, William Klacek, Peter S. Goodman, F. A. Lindstrand, Samuel J. Rosenblatt, George Landau, Rev. Julius Rappaport, Charles Block, Joseph Donnersberger and James B. McPatrick. Meets Wednesdays, 10:30 a. m.
- Meetings—Regular meetings of the council are held every Monday at 7:30 p. m., except when otherwise ordered at a regular meeting.
- Duties—In a general way the duties of the board of aldermen are to enact ordinances for the government of the city, levy and collect taxes, make appropriations, regulate licenses, etc. The matters coming under the jurisdiction of the council

are indicated by the names of the committees given above.

NOTE—The fact that there are three aldermen in some wards and only one in others is due to the redistricting ordinance of 1911. After the election of 1913 there will be two aldermen for each of the wards throughout the city.

CITY CLERK'S OFFICE.

City hall, first floor, south end.

City Clerk—Francis D. Connery.

Chief Clerk to City Clerk—E. J. Padden, D.

Duties—The city clerk keeps the corporate seal and all papers belonging to the city. He attends the meetings of the council and keeps a record of the proceedings. All city licenses are issued through his office.

CITY TREASURER'S OFFICE.

City hall, second floor.

Hours—10 a. m. to 3 p. m.

City Treasurer—Henry Stuckart, D.

Assistant—J. Lindheimer.

Chief Clerk—Albert J. Keefe.

Duties—The treasurer receives all moneys belonging to the corporation, deposits the funds in bank, keeps separate accounts of each fund or appropriation, pays warrants, receives fines and renders monthly accounts of the condition of the treasury to the council. The city treasurer is also treasurer of the following pension funds: Firemen's, public school teachers', public library employees', public school employees', house of correction and municipal employees'.

CITY COMPTROLLER'S OFFICE.

Room 501 city hall.

Comptroller—John E. Traeger, D.

Deputy Comptroller—Louis E. Gosselin, D.

Chief Clerk—C. J. O'Connor.

Duties—The comptroller is at the head of the department of finance, of which the treasurer and collector are also members. He is charged with a general supervision over all the officers of the city who take in or pay out city money. He is the fiscal agent of the city and as such has charge of deeds, mortgages, contracts, etc. He audits and settles claims, keeps a record of persons committed to the house of correction, with fines, etc.; keeps books relating to appropriations, makes the annual estimates, signs warrants upon the city treasury, etc.

PAYMASTER'S BUREAU.

Room 503 city hall.

Paymaster—John L. Healy.

Duties—The city paymaster has immediate charge of paying the salaries of city employees, including school teachers and library employees.

CITY COLLECTOR'S OFFICE.

City hall, first floor.

City Collector—Edward Cohen, D.

Deputy City Collector—J. F. McCarty.

Duties—The city collector collects all license fees, fees for inspections and permits, compensation for franchisees and vehicle tax; collects on special assessment warrants; transmits such payments to city treasurer daily, receipts for which are filed with the city comptroller.

CORPORATION COUNSEL'S OFFICE.

Room 511 city hall.

Corporation Counsel—William H. Sexton, D.

Assistants—Bryan Y. Craig, Lee D. Mathias, John W. Beckwith, William Dillon, Nicholas Michels,

Charles M. Haft, Edward T. Wade, Patrick W. Sullivan, James G. Skinner, Henry A. Berger,

Leon Hornstein, S. Crawford Ross, A. L. Gettys,

John F. Power, J. J. Viterna, Max M. Korshak,

George L. Reker, Frank T. Huenig, S. A. T. Watkins, Otto C. Bruhlman, Harry J. Ganey, J. F. Grossman, James J. St. Lawrence, Dwight MacKay, Howard F. Bishop, Loring R. Hoover.

Assistant Corporation Counsel and Attorney Board

Local Improvements—Philip J. McKenna.

Assistant Corporation Counsels and Assistant Attorneys Board Local Improvements—George P. Fos-

ter, D. J. Normoyle, Eugene H. Dupee.

Assistant Corporation Counsel and Attorney Fire Department—(Vacancy).

Secretary to the Corporation Counsel—A. J. Callaghan.

Duties—The corporation counsel superintends and, with the assistance of the prosecuting and city attorneys, conducts all the law business of the city; draws the leases, deeds and other papers connected with the finance department and all contracts for any of the other departments of the corporation; drafts such ordinances as may be required of him by the city council or its committees and furnishes written legal opinions upon subjects submitted to him by the mayor or the city council or any department of the city government.

CITY ENGINEER'S OFFICE.

City hall, fourth floor.

City Engineer—John Ericson, C. E.

Assistant City Engineer—H. S. Baker.

Chief Clerk—W. J. Roach.

Duties—The city engineer has charge of the construction of bridges, viaducts and waterworks and performs all such services for the commissioner of public works as require the skill and experience of a civil engineer.

IN CHARGE OF DIVISIONS.

Construction—Henry W. Clausen.

Operation—Henry A. Allen.

Water Pipe Extension—H. L. Lucas.

Repairs and Shop—F. Miller.

Designing—K. Lehmann.

Inspection and Testing—H. C. Parkes.

Bridges and Viaducts—A. J. Hammond.

Harbor Master—Thomas Moynihan.

Water Meter Shops—F. D. Anderson.

BOARD OF SUPERVISING ENGINEERS—CHICAGO TRACTION.

105 South LaSalle street.

Secretary—Lucius H. Davidson.

BOARD NO. 1.

Chairman—Blon J. Arnold.

Representing City of Chicago and Engineer for

Board—George Weston.

Representing Chicago City Railway Company and

Southern Street Railway Company—Harvey B. Fleming.

Representing Chicago Railways company—John Z. Murphy.

BOARD NO. 2.

Chairman—Blon J. Arnold.

Representing City of Chicago and Engineer for

Board—George Weston.

Representing Calumet and South Chicago Railway

Company—A. L. Drum.

BUREAU OF WATER.

City hall, first floor.

Superintendent—William J. McCourt.

Accountant—James J. Dunn.

Chief Clerk—John C. Schubert.

Cashier—Otto A. Dieler.

Water Assessor—Thomas H. Byrne.

Field Assessor in Charge—J. J. Ward.

Duties—The superintendent of water has special charge of the assessment and collection of water rates.

BUREAU OF STREETS.

Room 408 city hall.

Superintendent—Frank W. Solon, D.

First Assistant Superintendent—Patrick McCarthy.

Second Assistant Superintendent—W. J. Galligan.

Third Assistant Superintendent—Walter G. Leininger.

Duties—The superintendent of streets performs such duties as are required of him by the commissioner of public works or the ordinances of the city. He has special charge of the streets, sidewalks and public ways of the city and of the improvement and repair thereof, except where such repair or improvement is to be paid for by special assessment. The first assistant superintendent performs such duties as may be required of him by the commissioner of public works, the superintendent of streets or the city ordinances, and

acts as superintendent in the latter's absence. The second assistant superintendent has charge of the cleaning of the streets and alleys of the city, including the removal and disposition of garbage, litter, dirt, ashes, offal and other materials. He also sees that the ordinances relating to garbage, etc., are enforced and that violations thereof are reported for prosecution. The third assistant has charge of the improvement and repairs of the streets and alleys, except where such repairs or improvements are to be paid for by special assessment.

BUREAU OF SEWERS.

Room 409 city hall.

Superintendent—William E. Quinn, D.
Chief Clerk—Ed Cullerton, Jr.

Duties—The superintendent has special charge of the maintenance of sewers, including cleaning and repairing, and also of the issuance of permits for all connections.

BUREAU OF MAPS.

Room 410 city hall.

Superintendent—John D. Riley, D.

Duties—Has special charge of city maps and plats and all matters pertaining to street numbering, and is examiner of subdivisions.

BUREAU OF COMPENSATION.

Room V-15 city hall.

Superintendent—Henry V. McGurken.

Duties—Shall, under the direction of the commissioner of public works, have charge of and receive all applications for permits to use streets and alleys, or public grounds, or any space beneath the same; shall attend to all matters connected with the issuance of such permits; also act in an advisory capacity to the committee on compensation of the city council.

BOARD OF LOCAL IMPROVEMENTS.

City hall, second floor, south end.

Members—George A. Schilling, president; Frank Sima, Frank X. Rydzewski, Clayton F. Smith, Fred Burkhard.

Superintendent of Special Assessments and Secretary—Edward J. Glackin.

Engineer Board of Local Improvements—Cicero D. Hill.

Chief Engineer of Streets—John B. Hittell.

Superintendent of Sidewalks—N. E. Murray.

Chief Clerk Special Assessments—T. Sullivan.

Duties—The board of local improvements is that part of the city of Chicago government created by law for the purpose of making local improvements, the cost of which is paid by special assessments or direct taxation on the property directly and indirectly benefited. Among such local public improvements are sewers, house drains, water mains, water service pipes, sidewalks, street and alley paving and the taking of private property by condemnation proceedings for the purpose of opening, extending or widening public highways.

CITY ATTORNEY'S OFFICE.

Room 602 city hall.

City Attorney—Nicholas L. Plotrowski.

Chief Assistant City Attorney—Morton A. Mergenthelm.

Trial Attorneys—George F. Mulligan, Myer Emrich, Samuel C. Herrell, Edward J. Brindville, James R. Considine, George McMahon, Matthew J. O'Brien, Assistant Trial Attorneys—Matthew E. Clark, Michael C. Zacharias, John B. Brenza, Justin F. McCarthy and James J. O'Toole.

Appellate Court Attorney—David R. Levy.

Chief Investigator—George Self.

Supervisor of Investigations—Frank C. Sebring.

Chief Clerk—Claude Dyckman.

Docket Clerk—Joseph M. Coffey.

Duties—The city attorney keeps a register of all actions in courts of record, prosecuted or defended, in which the city may be a party, and defends all damage suits against the city. His chief duty is the defense or settlement of personal injury cases against the corporation. He may be called upon to draft ordinances for the

city council or for heads of departments. He is the attorney for the fire pension board.

PROSECUTING ATTORNEY'S OFFICE.

Room 604 city hall.

Prosecuting Attorney—James S. McInerney, D.

Chief Assistant—Edwin J. Haber.

Chief Clerk—Edward V. Peterson.

Assistants—Albert J. W. Appell, Morris Barnett, William J. Naughton, George Emmicke, Henry Eckhardt, Leroy Hackett, Abel B. Kretske, J. Henry Kraft, Otto Kerner, Ernst Langtry, Ota P. Lightfoot, Roman G. Lewis, William Navigato, John Prystalski, Walter A. Rooney, Frank C. Souhrada, U. S. Schwartz, W. J. Vavra.

DEPARTMENT OF HEALTH.

City hall, seventh floor.

Commissioner of Health—George B. Young, M. D.

Assistant Commissioner—Gottfried Koehler, M. D.

Secretary—E. R. Pritchard.

Assistant Secretary—S. F. Manning.

Chief Bureau of Vital Statistics—M. O. Heckard, M. D.

Assistant Chief Bureau of Vital Statistics—C. St.

Clair Drake, M. D.

Chief Bureau of Medical Inspection—Heman Spalding, M. D.

Assistant Chief Bureau of Medical Inspection—I.

D. Rawlings, M. D.

Assistant Chief Bureau of Medical Inspection—Hy-

man Cohen, M. D.

Chief Bureau of Sanitation—Charles B. Ball.

Assistant Chief Bureau of Sanitation—Thomas J.

Claffy.

Chief Bureau of Food Inspection—Henry Welsberg

(acting).

Assistant Chief Bureau of Food Inspection—A. E.

Armstrong (acting).

Director of Laboratory—F. O. Tonnev, M. D.

City Physician—Dr. George J. Spencer.

Duties—The commissioner of health and his assistants enforce state laws and city ordinances relating to sanitation and cause all nuisances to be promptly abated. They keep records of deaths and other vital statistics, investigate all cases of contagious diseases and take all necessary steps to prevent their spread, such as providing for vaccination, disinfection, etc.

The city physician attends to all cases in the police stations requiring medical attention.

DEPARTMENT OF PUBLIC WORKS.

Room 406 city hall.

Commissioner—Lawrence E. McGann, D.

Deputy Commissioner—J. O. Kostner, D.

Duties—The commissioner of public works is the head of the department of public works, which embraces the bureaus of engineering, streets, sewers, water, maps and plats, compensation, architecture and city hall. The commissioner of public works has special charge and superintendence, subject to the ordinances of the city, of all streets, alleys, highways, walks, bridges, viaducts, docks, wharves, public places, public landings, public grounds, markets and market places and public buildings belonging to the city; of all works for the deepening and widening or dredging of the Chicago river and its branches, and of the harbor of said city; of all sewers and works pertaining thereto; and of the waterworks and collection of water rates and fees for the use of water or for permits issued in connection with the waterworks system, and of all sewerage permits and licenses; the awarding and execution of all contracts for any work or public improvement not done by special assessment, and the letting of all contracts for coal for use of any department of the city.

BOARDS OF EXAMINERS.

Suite 1002 city hall.

BOARD OF EXAMINERS OF STATIONARY ENGINEERS.

President—Henry A. Zender.

First Vice-President—Adolph Jenczewsky.

Second Vice-President—W. J. Meiler.

Chief License Inspector—Henry G. McMahon.

Inspectors—Charles B. Christner, Samuel C. Siden-

stick.

Duties—The board of examiners of stationary engineers is appointed by the mayor. It consists of three members, all of them practical engineers and competent judges of the construction of steam boilers and engines and experienced in their operation. The board examines applicants for licenses as engineers and boiler or water tenders and issues to such applicants as are found qualified proper certificates; each certificate issued expires by limitation one year from date. An application for an engineer's license must be accompanied by a fee of \$2.00 and for a boiler tender or water tender's license by a fee of \$1.00. Applicants are required to pass by a percentage of 70 or more.

BOARD OF EXAMINERS OF PLUMBERS.

Chairman (ex officio)—Dr. George B. Young, commissioner of health.

Master Plumber—Charles J. Herbert.

Journeyman Plumber—William W. Petrie.

BOARD OF EXAMINERS OF MOVING PICTURE OPERATORS.

Chairman—Ray Palmer, city electrician.

Examiner—William H. Havill.

Secretary—Boards of Examiners—Vernon L. Bean.

Duties—The secretary of the boards of examiners is by law secretary of all the three boards enumerated above. The duties of the two boards last mentioned are sufficiently indicated by their titles. They are similar, within their scope, to those of the board of examiners of stationary engineers.

TRACK ELEVATION DEPARTMENT.

Room 1003 city hall.

Track Elevation Commissioner—Francis J. Owens, D. **Duties**—Frames ordinances for the elevation of steam surface roads in Chicago and has supervision of track elevation.

DEPARTMENT OF BUILDINGS.

Room 702 city hall.

Commissioner—Henry Ericsson, D.

Deputy Commissioner—Robert Knight.

Secretary—Peter C. Hoey.

Assistant Secretary—Harry D. Stone.

Duties—The building commissioner sees that new buildings are put up in accordance with the city ordinances, that fire escapes are provided wherever needed, that unsafe structures are demolished or repaired, that safe exits are provided in halls, theaters, etc.

DEPARTMENT OF ELECTRICITY.

Room 608 city hall.

City Electrician—Ray Palmer, D.

Chief Operator—Frank W. Swenle.

Superintendent of Construction—Harry Leser.

Chief Clerk—John E. Bradley.

Chief Electrical Inspector—Victor H. Tonsley.

Chief Gas Inspector—William D. Wilcox.

Duties—The city electrician has charge of construction and operation of the city's street lighting and substations, and the police and fire alarm telegraph systems, and the inspection of all electrical installation within the city limits.

DEPARTMENT OF SUPPLIES.

City hall, floor 3½.

Business Agent—Richard J. Reynolds, D.

Duties—The business agent buys all supplies for city departments which involve an expenditure of less than \$500. He has nothing to do with supplies used by contractors employed by the city.

BUREAU OF STATISTICS.

Room 1006 city hall.

City Statistician—Francis A. Eastman.

Assistant Statistician—Fred Rex.

Stenographer and Recorder—Katherine M. Driscoll.

Duties—Has charge of the municipal library and collects data relating to municipal matters for the aldermen and other officials. The library is open to the public for study and research.

HOUSE OF CORRECTION.

California avenue, near 26th street.

Superintendent—John L. Whitman, R.

Deputy Superintendent—P. J. O'Connell.

House of Correction Inspectors—Mathias Aller, chairman; A. A. Burgar, secretary; Dr. M. A. Weiskopf.

Duties—The superintendent has charge of the house of correction under the supervision and direction of the board of inspectors, enforces order and discipline, receives prisoners and discharges them on order or on expiration of sentence.

POLICE DEPARTMENT.

Headquarters—5th floor city hall, north end.

General Superintendent—John McWeeny.

Assistant Superintendent—H. F. Schuettler (3d floor).

Secretary Police Department—Philip McKenna (10th floor, north end).

Chief Clerk—William Wrechinsky (10th floor, north end).

Drillmaster—John Bander, 5th floor.

Custodian—DeWitt C. Cregier (3d floor, north end).

Captains—John J. Halpin, P. J. Gibbons, Charles C. Healy (mounted squadron), P. D. O'Brien, Michael Ryan, Max Nootbaar, James O'D. Storen, P. J. Lavin, John A. Alcock, Morgan A. Collins, John S. Ryan, Thomas J. Coughlin, James Gleason, John E. Ptacek, Bernard P. Bay, Thomas F. Meagher, Joseph Smith, Stephen K. Healy, Henry E. Gorman, Stephen B. Wood, John Rehm, Max Danner, James Madden, William W. Cudmore.

Duties—The police department is charged with preserving order, peace and quiet and enforcing the laws and ordinances throughout the city. Police officers have the power to make arrests and to serve warrants. They are required to assist firemen in saving property, in giving alarms of fire and in keeping the streets in the vicinity of burning buildings clear. They are also required to take notice of all obstructions and defects in the streets, nuisances, etc.

FIRE DEPARTMENT.

Headquarters—Room 105 city hall.

Fire Marshal—Charles F. Seyferlich.

First Assistant Fire Marshal—Thomas O'Connor.

Second Assistant Fire Marshal—P. J. Donohue.

Third Assistant and Department Inspector—E. J. Buckley.

Fifth Assistant Fire Marshal—A. R. Seyferlich.

Sixth Assistant—J. McAuliffe.

Department Attorney—Michael F. Sullivan.

Secretary—William C. Gamble.

Battalion Chiefs—1st, P. J. Egan; 2d, Benjamin O'Connor; 3d, Jacob Grauer; 4th, Charles N. Heaney; 5th, John Evans; 6th, Thomas J. Reynolds; 7th, Michael Kerwin; 8th, Thomas Hackett; 9th, Michael Corrigan; 10th, David J. Mahoney; 11th, Martin Lacey; 12th, Joseph L. Kenyon; 13th, Frank Conway; 14th, Michael R. Driscoll; 15th, James Ward; 16th, John F. Smith; 17th, George H. McAllister; 18th, Eugene Sweeney; 19th, James Costin; 20th, Thomas P. Kenney; 21st, Edward F. McGurn.

Superintendent Insurance Patrol—E. T. Shepherd, 163 West Monroe street.

Duties—The fire marshal has sole and absolute control over all persons connected with the fire department and has the custody of the equipment and other property of the department. The fire inspector investigates the causes of fires and keeps a record of the same. The secretary keeps all books and papers of the department and delivers to the city council and other departments the written communications of the fire marshal.

BUREAU OF FIRE PREVENTION AND PUBLIC SAFETY.

Headquarters—Room 604 city hall.

Chief of Bureau and Fourth Assistant Fire Marshal—John C. McDonnell.

Fire Prevention Engineer—Elisha A. Case.

Fire Prevention Inspector in Charge—Charles W. Hejda.

Duties—The chief of fire prevention and public safety shall have the power and it shall be his duty to enforce the provisions of all ordinances of the city of Chicago which may tend to prevent the starting or spreading of fires or disastrous results in case of fires.

CIVIL-SERVICE COMMISSIONERS.

Room 610 city hall.

Commissioners—H. M. Campbell, D., president; Elton Lower, R.; J. J. Flynn, D.

Secretary and Chief Examiner—R. A. Widdowson.
Attorney—Herbert J. Friedman.

Duties—The commissioners classify offices and places in the city service, examine applicants for employment in such offices and places, certify to the heads of departments as required the names of those standing highest on the list of eligibles, investigate charges against employes in the classified service and remove employes for cause. Two weeks' notice by advertisement of the time and place of holding examinations is given.

ELECTION COMMISSIONERS.

City hall, third floor, south end.

Commissioners—Charles H. Kellerman, chairman; Anthony Czarnecki, secretary; Howard S. Taylor. Chief Clerk—William H. Stuart.

Attorney—Charles H. Mitchell.
Duties—The commissioners fix the election precincts, provide ballot boxes, tally sheets, poll-books and all other blanks and stationery necessary in an election, select judges and clerks of elections, canvass the returns of votes and, in brief, have charge of everything pertaining to the registration of voters and the holding of all regular, special and primary elections.

DEPARTMENT OF SMOKE INSPECTION.

Room 614 city hall.

Chief Smoke Inspector—O. Monnett.
Chief Assistant Smoke Inspector—S. H. Viall.
Deputy in Charge—F. A. G. Chambers.
Chief Clerk—Edward R. Laub.

DEPARTMENT FOR THE INSPECTION OF STEAM BOILERS, STEAM AND COOLING PLANTS.

Room 613 city hall.

Chief Inspector—M. J. Ryan, D.
Supervising Engineer—R. B. Wilcox.

CITY ARCHITECT.

City hall, tenth floor, south end.

Charles W. Kallal.

DEPARTMENT OF WEIGHTS AND MEASURES.

Vault floor, city hall.

Inspector Weights and Measures—Peter Zimmer, D.
Chief Deputy—William F. Cluett.

OIL INSPECTOR'S OFFICE.

Room 1013 city hall.

Oil Inspector—James A. Quinn, D.
MUNICIPAL LODGING HOUSE,
162 North Union street.
Superintendent—Charles F. Rogers.

CHICAGO OUTER HARBOR PLANS.

Four outer harbor sites along Chicago's lake front were established by the city council Nov. 20, 1911. The ordinances provided for the following districts:

No. 1—From the mouth of the Chicago river north to Chicago avenue, and extending one mile into Lake Michigan.

No. 2—From the mouth of the Chicago river south to Randolph street, and extending one mile into the lake.

No. 3—From the south end of Grant park south to 31st street, and extending one mile into the lake.

No. 4—All of the Calumet river within the city and all of Lake Calumet.

Feb. 7, 1912, the harbor and subway commission submitted to the council committee on harbors, wharves and bridges preliminary plans and drawings for the initial development of "outer harbor district No. 1." In this report the commission stated that it had proceeded on the theory that joint and parallel action by the federal government would be taken to protect the initial piers recommended by the construction of an adequate outer breakwater. The plan proposed by the commission provided for the construction of five piers extending eastward from the shore line between the mouth of the Chicago river and Chicago avenue, with a uniform length for four piers of 2,500 feet and one pier of 3,000 feet. The detailed plans were for the construction of two piers only—one for freight and one for passenger purposes. The water slips between each pier were to be 300 feet wide. The piers were to be 292 feet wide with an eighty foot roadway in the center. The outer 645 feet of the passenger pier, which was to be 3,000 feet long, was to be reserved for boats with an exclusively passenger traffic. Part of the pier was to be used for recreation purposes. The estimated cost of these two piers was \$4,400,000. The plan made provision for adequate street car service.

At the election of April 2, 1912, a proposition to issue \$5,000,000 in bonds for harbor construction was approved by popular vote. Congress in the river

and harbor appropriation act, approved July 25, included the following paragraph:

"Improving harbor at Chicago, Ill., by the construction of a breakwater to form an outer harbor, in accordance with the report submitted in house document numbered 710, 62d congress, second session, \$350,000: Provided, that the work hereby contemplated shall not be commenced until assurances satisfactory to the secretary of war shall have been received that the work contemplated by the city of Chicago as a part of said improvement will be actually undertaken and completed by said city."

With plans prepared, the consent of the government secured, and financial means provided it seemed as if an actual beginning would be made in the construction of an outer harbor, but July 25 it was announced by Mayor Harrison and Corporation Counsel Sexton that the legislative act, known as the O'Connor harbor law, contained a "joker" in the shape of a provision prohibiting the city from purchasing or acquiring any title to property along the lake shore line where it has been filled in or where riparian or littoral rights are in dispute. Certain property, which it was desired to use for harbor purposes, is claimed by the Chicago Canal and Dock company, which has leased its holdings to the Pugh Terminal Warehouse company. The Pugh company was willing to treat with the city, but the corporation counsel held that the provision referred to would have to be eliminated from the act by legislative action before anything further could be done. The subway and harbor commission also sent the city authorities the following statement:

"The commission respectfully submits that in view of legal entanglements in the matter of shore titles it is inadvisable to proceed with actual construction work until the method of quieting titles along the shore line has assumed a more definite form."

The work of harbor construction was therefore halted to await further legislative action.

MUNICIPAL ART LEAGUE.

Incorporated Jan. 30, 1901. Secretary's office at the Art Institute.

President—Ralph Clarkson.

Vice-President—Lorado Taft.

Secretary—Kenneth Sawyer Goodman.

Assistant Secretary—Louis A. Damon.

Treasurer—Charles L. Hutchinson.

Directors—Ralph Clarkson, Lorado Taft, Webster Tomlinson, William H. Bush, Mrs. William Frederick Grower, Eames MacVeagh, Mrs. C. S. Downs, Kenneth Sawyer Goodman, Myron H. West.
Exhibition Committee—Mrs. William Frederick Grower, chairman; Mrs. H. H. Kingsley, vice-chairman; Mrs. William F. Young, secretary.

The objects of the association are to promote the beautifying of the streets, public buildings and places of Chicago; to bring to the attention of the officials and people of the city the best methods for instituting artistic municipal improvements and to stimulate civic pride in the care and improvement of private property. The board of directors of the league is composed of one sculptor, one architect, one painter, one landscape architect, four laymen and the chairman of the exhibition committee.

CHICAGO CITY OFFICES AND POSITIONS.

[From charts prepared by the efficiency division of the city civil service commission.]

City offices and places of employment are divided by the civil service commission into eleven classes, according to the general character of the duties performed. Offices and places filled by election or appointment are designated as "exempt." Under the civil service act of March 20, 1895, the following are excepted from the classified service: Officers who are elected by the people or by the city council pursuant to the city charter, or whose appointment is subject to confirmation by the city council; judges and clerks of election, members of any board of education, the superintendent and teachers of schools, heads of any principal department of the city, members of the law department and one private secretary to the mayor. Following are the titles of the exempt positions, including the yearly salary attached to each as fixed by the appropriation bill for 1912:

ELECTED BY THE PEOPLE.

Title.	Salary.	Title.	Salary.
City clerk.....	\$5,000	Mayor.....	\$18,000
City treasurer.....	12,000	Aldermen, each....	3,000

ELECTED BY CITY COUNCIL.

Sergeant-at-arms.....	\$1,000
-----------------------	---------

APPOINTED BY THE MAYOR.

Assistant harbor master.....	\$1,200
Assistant vessel dispatcher.....	1,080
Board of examiners (engineers).....	\$2,000 to 2,200
Board of local improvements.....	\$4,000 to 5,000
Business agent.....	6,000
City collector.....	6,000
City electrician.....	6,500
City physician.....	4,000
Civil service commission.....	\$3,000 to 5,000
Commissioner of buildings.....	6,000
Commissioner of health.....	8,000
Commissioner of public works.....	10,000
Commissioner of track elevation.....	5,000
Comptroller.....	10,000
Corporation counsel.....	10,000
Deputy commissioner of public works.....	5,000

*Elected.

CLASSIFIED SERVICE.

The nonexempt classes of service with the letter designating each are:

A—Medical.	F—Fire.
B—Engineering.	G—Library.
C—Clerical.	H—Inspection.
D—Police.	I—Supervising.
E—Operating engineer.	K—Skilled labor.
ing.*	L—Labor.

*The operating engineering service is divided into branches A and B. Branch B includes only positions under the board of education.

GRADES AND GROUPS.

All classes of service except unskilled labor are divided into grades according to the authority, responsibility and importance of the duties performed. There are from three to eight grades in each class, the first grade being the lowest. In some of the services the grades are subdivided into groups, group A being the highest.

DEPARTMENTS AND BUREAUS.

City offices and places of employment are distributed among departments and bureaus, in each of which one or more classes of service are represented. In the building department, for example, the engineering, clerical and inspection services are represented. The clerical service is represented in all the departments. On the civil service chart the departments are arranged alphabetically according to the code letter designating each, as follows:

B—Department of buildings.
C-F—City council finance committee.
C-G—Committee on gas, oil and electric light.
C-B—Committee on harbor, wharves and bridges.
C-L—Committee on local transportation.
C-R—Lake shore reclamation commission.

CC—City clerk.
 CT—City physician.
 CS—Civil service commission.
 E—Board of education.
 EC—Board of election commissioners.
 EL—Department of electricity.
 EE—Board of examiners (engineers).
 FC—Department of finance—city collector's office.
 FM—City markets.
 FT—City treasurer's office.
 FO—Comptroller's office.
 FI—Fire department.
 H—Department of health.
 HC—House of correction.
 L—Department of law.
 LP—Chicago public library.
 LI—Board of local improvements.
 M—Mayor's office.
 MC—Municipal courts.
 OI—Office of inspector of oils.
 PO—Department of police.
 PA—Dept. of public works—bureau of architecture.
 PB—Bureau of city hall.
 PC—Commissioner's office.
 PE—Bureau of compensation.
 PE—Bureau of engineering.
 PM—Bureau of maps and plats.
 PS—Bureau of sewers.
 PT—Bureau of streets.
 PW—Bureau of water.
 S—Special park commission.
 SH—Subway and harbor commission.
 SI—Department of smoke inspection.
 SP—Department of inspection of steam boilers and steam plants.
 SU—Department of supplies.
 TE—Department of track elevation.
 TR—Department of transportation.

TS—Municipal tuberculosis sanitarium.
 W—Department of weights and measures.

FLAG DISPLAY DATES IN CHICAGO.

In accordance with instructions issued by Mayor Carter H. Harrison Feb. 9, 1912, the American flag is to be displayed on the city buildings of Chicago on the following anniversaries:

Feb. 12—Lincoln's birthday.	
Feb. 15—Anniversary of the sinking of the Maine.	
Feb. 22—Washington's birthday.	
April 19—Anniversary of the battle of Lexington.	
May 30—Memorial day.	
June 14—Flag day.	
June 17—Anniversary of the battle of Bunker Hill.	

July 4—Independence day.	
Oct. 12—Columbus day.	
Oct. 17—Anniversary of the battle of Saratoga.	
Oct. 19—Anniversary of the surrender at Yorktown.	
Nov. 25—Anniversary of the evacuation of Yorktown.	

On all the above dates the flag should be hoisted at full mast, with the exception of Memorial day and the anniversary of the sinking of the Maine, when it should be at half mast. The hours of displaying the flag are from sunrise to sunset.

WIDTHS OF TIRES REQUIRED IN CHICAGO.

The wide-tire ordinance passed by the Chicago city council Feb. 4, 1908, requires that all four-wheeled vehicles shall have tires proportionate to the load they carry, as follows:

	Tires, inches.
3,000 pounds or under.....	1½
Between 3,000 and 4,000 pounds.....	2
Between 4,000 and 6,000 pounds.....	2½

	Tires, inches.
Between 6,000 and 8,000 pounds.....	3½
Between 8,000 and 10,000 pounds.....	3¾
Between 10,000 and 14,000 pounds.....	4¾
Between 14,000 and 18,000 pounds.....	6
Over 18,000 pounds.....	8

The width for two-wheeled trucks is double.

CHICAGO WARDS AND ALDERMEN.

Number of, since 1837.

Year.	Alder- Wards. men.	Year.	Alder- Wards. men.	Year.	Alder- Wards. men.	Year.	Alder- Wards. men.

John Stone was executed publicly on the prairie on the south side. William Jackson and Albert Staub were also executed publicly, but on the west side. After that executions were private and took place in the courthouse until 1873, since which time they have taken place in the county

jail on the north side. Rafferty was hanged in Waukegan for murder in Chicago. All the executions have been on Fridays except those of Sylvestri, Gilardo, Azzaro and Zephyr Davis, which occurred on Saturdays.

CHICAGO TELEPHONE ORDINANCE AND RATES.

Passed by city council Nov. 6, 1907.

The Chicago Telephone company is authorized to operate its telephone wires in the city until Jan. 2, 1929. Its books and records are to be open for examination by the city comptroller and its accounts may be audited for the purpose of verifying the statement of gross receipts, of which 3 per cent is to be paid into the city treasury as compensation for the franchise. The city is to have free telephone service. The city reserves to itself the right to change the rates or tolls from time to time and to modify the rules and regulations. It is provided, however, that such changes shall not be made to continue for a period of more than or of less than five years. The company shall not make any rate agreements or division of territory with any other company. The right to purchase the plant of the company on Jan. 1, 1919, or Jan. 1, 1924, is reserved to the city, the price to be fixed by appraisers. The maximum rates fixed by the ordinance are as follows:

BUSINESS TELEPHONES.**FLAT RATE.**

For a single-party line with the right to the unlimited use of the same, \$125 a year.

MEASURED RATE.

For a single-party line, including 1,200 outgoing conversations or messages, \$60 a year.

For the next 2,400 outgoing messages, or any part thereof, during the year, 3 cents each.

For all outgoing messages in excess of 3,600 during the year, 2 cents each.

Every subscriber who will contract to pay for 7,200 outgoing messages a year at the above rates shall be furnished with a second single-party line without extra charge, and every subscriber shall be furnished with an additional single-party line without extra charge for each 6,000 outgoing messages he will contract to pay for, in addition to the 7,200 during the year at the rate of 2 cents each.

A single-party line or lines, including the right to transmit outgoing messages without limit and without any charge per message, shall be furnished at \$1 per day each. Subscribers to single-party lines at this rate shall be deemed subscribers to measured service. Every subscriber to measured service shall also be furnished with as many single-party lines as he may demand at the rate of \$6 per quarter for each line.

RESIDENCE TELEPHONES.

For a single-party line, including all outgoing messages, \$18 per quarter.

For a two-party line, \$14 per quarter.

NICKEL PREPAID SERVICE.

Nickel prepayment service with outgoing messages at 5 cents each, as follows:

One-party line, at a guaranty of 20 cents a day, including four messages.

Two-party line, at a guaranty of 12½ cents a day, including two and a half messages.

Two-party line, for residences only, at a guaranty of 10 cents a day, including two messages.

Four-party line, for residences only, at a guaranty of 5 cents per day, including one message.

PUBLIC TELEPHONE SERVICE.

The charge for a single conversation or message from any telephone in Chicago to any other telephone in the city shall not exceed 5 cents.

NEIGHBORHOOD EXCHANGE SERVICE.

The company may maintain local or neighborhood exchanges and shall establish them wherever the city council may direct. Any subscriber in any such exchange may communicate with any telephone within the city limits outside the neighborhood district, for which a charge of 5 cents may be made for each period of 5 minutes or fraction thereof. The rates per month for local exchange service, including all outgoing messages under yearly contracts, shall not exceed the following:

	Line.	Business.	Residence.
One-party		\$4.00	\$3.00
Two-party		3.00	2.00
Four-party		2.00	1.50

TOLL SERVICE.

The company shall not charge more than 10 cents for each conversation or message up to three minutes (and not more than 5 cents for each additional minute), transmitted from any telephone in Chicago to any other telephone outside the city but within fifteen miles of the present city hall, or within one mile of the city limits and within the state of Illinois.

METERS.

The company shall install in connection with each measured-service line of its subscribers a meter which shall prove effective in actual use for accurately recording the number of outgoing messages over the line.

CHICAGO AND CALUMET HARBOR LIGHTS AND FOG SIGNALS.**CHICAGO HARBOR—LIGHTS.**

On the southerly end of the northerly inner breakwater, a fixed red light in gray conical metal tower 31½ feet high; light visible 9¾ miles.

On the northerly end of the inner breakwater, a fixed white light from lens lantern shown from top of white post 19 feet high.

On the easterly end of the north pier at the entrance of Chicago river, a fixed red light shown from lens lantern on post 22 feet high; with the next light it forms a range showing the direction of the piers and course for entering the harbor.

On the north pier, near its easterly end, at the entrance to Chicago river, a fixed white light, in gray framework tower 27 feet high; light visible 13 miles.

In 30 feet of water, inside of and near the southeasterly end of the outer breakwater; flashing alternately red and white; interval between flashes, 10 seconds; red conical tower on rock-faced masonry tower, 59½ feet high; light 67½ feet above lake level and visible 16 miles.

On the northwesterly end of the outer breakwater, a fixed red light, shown from lens lantern in gray skeleton metal tower 19 feet high; height of lantern above lake level 55 feet.

CHICAGO HARBOR—FOG SIGNALS.

On the north pier in front of and attached to the light tower, a bell, struck by machinery, a double and single blow alternately with interval of 20 seconds.

At the light tower near the southeasterly end of the outer breakwater, a 10-inch steam whistle; blasts 5 seconds, silent intervals 25 seconds.

CALUMET HARBOR—LIGHTS.

Calumet bar gas buoy, moored in 21 feet of water, on the northerly end of the Calumet bar; fixed white light with 10-second eclipse, shown from lens lantern.

On the southeasterly end of the new breakwater, a fixed white light, shown from buff metal tower 34 feet high; light visible 13¾ miles.

On the outer end of the north pier, entrance to the mouth of the Calumet river and South Chicago harbor and about 11 miles southeasterly from the Chicago breakwater, a fixed red light, shown from gray cylindrical tower 30 feet high; light visible 13 miles.

CALUMET HARBOR—FOG SIGNALS.

At the breakwater tower, a first-class compressed-air siren which sounds thus: Blast, 3 seconds; silent interval, 12 seconds; blast, 3 seconds; silent interval, 42 seconds.

At the north pier light, a bell struck by machinery every 20 seconds.

CHICAGO THEATERS.

Seating capacity given in parentheses.

- Academy (1,467)—16 South Halsted street.
 Alhambra (1,461)—State street and Archer avenue.
 American (1,200)—Wabash avenue and Peck court.
 Archer (800)—3510 Archer avenue.
 Auditorium (3,747)—Congress-st. and Wabash-av.
 Bijon (1,238)—300 South Halsted street.
 Blackstone (1,200)—Hubbard-ct., near Michigan-av.
 Bush Temple (845)—110 West Chicago avenue.

MISCELLANEOUS.

Teachers of the deaf and of crippled children get from \$750 to \$1,300 a year, according to group and length of service. Teachers in schools for blind get same salaries as teachers in elementary schools. Teachers in John Worthly school get \$25 per school month in excess of schedule for elementary schools.

Each elementary school having twenty-five or more divisions is allowed one extra teacher, who is paid according to the elementary school schedule, lower group.

Teachers in charge of branch schools receive extra compensation of \$75 per annum.

Teachers in charge of classes in German receive extra compensation of \$50 per annum.

Teachers in charge of industrial rooms and of rooms for subnormal children receive \$50 per annum in advance of grammar grade schedule.

Substitutes in elementary schools receive \$3 per day for days of actual service.

Teachers in practice schools receive \$200 a year in excess of grammar grade teachers.

Principals of evening schools receive from \$2 to \$5 per evening, according to length of service and size of school. Teachers get from \$2 to \$3.50 per evening.

Principals in vacation schools get \$100 for term of six weeks; teachers get \$75 per term; cadets get \$30 per term.

POSTAL SAVINGS BANK.

The postal savings bank was opened at the main postoffice, Chicago, Aug. 1, 1911. Any one 10 years old or over may open an account. No account may be opened for less than \$1.00, nor will fractions of a dollar be accepted for deposit. No person is permitted to deposit more than \$100 in any one calendar month, nor to have a total balance to his credit at one time of more than \$500, exclusive of accumulated interest.

Deposits are evidenced by postal savings certificates issued in denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100.

Depositors of the postal savings system may exchange the whole or a part of their deposits on Jan. 1 or July 1 of each year for United States registered or coupon bonds in denominations of \$20, \$100 and \$500, bearing interest at the rate of 2½ per cent per annum, payable semiannually, and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable twenty years from that date in United States gold coin.

Postal savings banks have also been established at the following postal stations: Armour, Auburn Park, Austin, B. D. Carpenter street, Chicago Lawn, Cragin, D. Dauphin Pk., Douglas park, Eastside, Edgewater, Elsdon, Englewood, 51st street, Garfield park, Grand Crossing, Hawthorne, Hegewisch, Hyde Park, Irving Park, Jackson park, Jefferson, Lake View, Lincoln park, Logan square, M. McKinley park, North Halsted, Norwood Park, Ogden park, Pilsen, Pullman, Ravenswood, Riverdale, Rogers Park, South Chicago, stockyards, 20th street, Washington Heights, West Pullman, Wicker Park.

Note—Certain limited trains make the time to New York, 18; Philadelphia, 17; Pittsburgh, 9, and Baltimore, 21 hours; Boston, 24; Newark, N. J., 18; Washington, D. C., 22.

MAIL TIME FROM NEW YORK TO FOREIGN CITIES.

Distances via postal routes in statute miles. Time given makes liberal allowance for delays. To get time and distance from Chicago add one day and 912 miles if via London and subtract one day and 912 miles if via San Francisco; via New Orleans the time is about one day less from Chicago to points in Central America. From table prepared by postoffice department.

MONUMENTS IN CHICAGO.

Name, location and date of dedication or completion of each.

Alarm, The—Lincoln park; May 17, 1884.
 Anarchists'—Waldheim cemetery; June 25, 1893.
 Andersen, Hans Christian—Lincoln park; Sept. 26, 1896.
 Armstrong, George B.—Postoffice, north entrance; May 19, 1881.
 Beethoven—Lincoln park; June 19, 1897.
 Bohemian Soldiers and Sailors—Bohemian National cemetery; May 29, 1892.
 Burns, Robert—Garfield park; Aug. 25, 1906.
 Confederate Soldiers—Oakwoods cemetery; July 23, 1893.
 Douglas—Foot of 35th street; corner stone laid Sept. 6, 1866; dedication June 3, 1868.
 Drake Fountain—Exchange avenue and 92d street, South Chicago; dedicated Oct. 11, 1908; presented to city Dec. 26, 1892, and first stood on Washington street in front of courthouse.
 Drexel Fountain and Statue—Drexel boulevard and 51st street; completed in June, 1883; no formal dedication.
 Ericson, Leif—Humboldt park; Oct. 12, 1901.
 Fire (1371) Tablet—137 DeKoven street; 1881.
 Fort Dearborn Massacre—Calumet avenue and 18th street; June 22, 1893.
 Fort Dearborn Tablet—River street and Michigan avenue; unveiled May 21, 1881.
 Franklin—Lincoln park; June 6, 1896.
 Garibaldi—Lincoln park; Oct. 12, 1901.
 Grant—Lincoln park; Oct. 7, 1891.
 Grant Post No. 23, G. A. R.—Elmwood cemetery; June 23, 1903.
 Harrison, Carter H.—Union park, June 29, 1907.
 Haylick, Karel—Douglas park, July 30, 1911.
 Haymarket—Union park; May 30, 1889.
 Humboldt—Humboldt park; Oct. 16, 1892.
 Indian Trail Tree Tablet—Glencoe, Nov. 7, 1911.

Iroquois Theater Fire Tablet—In hospital, 23 North Market street; Dec. 30, 1911.
 Kennison—Lincoln park; Dec. 19, 1903.
 Kosciusko—Humboldt park; Sept. 11, 1904.
 LaSalle—Lincoln park; Oct. 12, 1889.
 Lincoln—Lincoln park; Oct. 22, 1887.
 Lincoln Post No. 91, G. A. R.—Oakwoods cemetery; June 14, 1905.
 Lincoln Wigwam Tablet—Market and Lake streets; unveiled May 11, 1910.
 Line—Lincoln park; May 23, 1891.
 Logan—Lake Front park; July 22, 1897.
 Logan Post No. 540, G. A. R.—Rosehill cemetery; June 1, 1900.
 Marquette-Joliet—South Robey street and river; cross dedicated Sept. 23, 1907; tablet, May 6, 1909.
 Mulligan—Calvary cemetery; May 30, 1885.
 McKinley—McKinley park; July 4, 1905.
 Press Club—Mount Hope cemetery; Nov. 12, 1893.
 Reese, Michael—28th street and Groveland avenue; completed spring of 1893.
 Reuter—Humboldt park; May 14, 1893.
 Rosenberg Fountain—Pan row and Michigan avenue; accepted by city Oct. 16, 1893.
 Schiller—Lincoln park; May 15, 1886.
 Shakespeare—Lincoln park; April 23, 1894.
 Signal of Peace, The—Lincoln park; June 9, 1894.
 Sweeney Post No. 275, G. A. R.—Evergreen cemetery, Barrington; Sept. 9, 1906.
 Thomas Post No. 5, G. A. R.—Rosehill cemetery; Feb. 22, 1895.
 Victoria—Garfield park; Oct. 16, 1893.
 Washington—Grand boulevard and 51st street; completed June 6, 1904; no formal unveiling.
 Washington Post No. 94, G. A. R.—Elmwood cemetery; Aug. 22, 1909.
 Willich Post No. 780, G. A. R.—Town of Maine cemetery; Oct. 13, 1901.

LOCATION OF RAILWAY PASSENGER STATIONS.

CENTRAL STATION—Park row and 12th street; south side.
 Chicago, Cincinnati & Louisville.
 Cleveland, Cincinnati, Chicago & St. Louis (Big Four).
 Illinois Central.
 Michigan Central.
 Minneapolis, St. Paul & Sault Ste. Marie (Soo line; formerly Wisconsin Central).
 West Michigan.
CHICAGO & NORTHWESTERN—West Madison and Canal streets, west side.
 All divisions.
DEARBORN STATION—Dearborn and Polk streets; south side.
 Aethelton. Topeka & Santa Fe.
 Chesapeake & Ohio.
 Chicago & Western Indiana.
 Chicago, Indianapolis & Louisville (Monon).
 Erie.
 Grand Trunk.
 Wabash.

GRAND CENTRAL STATION—Fifth avenue and Harrison street; south side.
 Baltimore & Ohio.
 Chicago Great Western.
 Chicago Terminal Transfer.
 Pere Marquette.
LA SALLE STREET STATION—Van Buren and LaSalle streets; south side.
 Chicago & Eastern Illinois.
 Chicago, Rock Island & Pacific.
 Lackawanna.
 Lake Shore & Michigan Southern.
 New York, Chicago & St. Louis (Nickel Plate).
UNION STATION—Canal street, between Adams and Madison; west side.
 Chicago & Alton.
 Chicago, Burlington & Quincy.
 Chicago, Milwaukee & St. Paul.
 Pittsburg, Fort Wayne & Chicago.
 Pittsburg, Cincinnati, Chicago & St. Louis (Pan Handle).

SHERIFFS OF COOK COUNTY (1871-1912).

1871-1874—Timothy M. Bradley, Rep.
 1874-1876—Francis Agnew, Dem.
 1876-1878—Charles Kern, Dem.
 1878-1880—John Hoffman, Rep.
 1880-1882—O. L. Mann, Rep.
 1882-1886*—Seth F. Hanchett, Rep.
 1886-1890—Canute R. Matson, Rep.
 1890-1894—James H. Gilbert, Rep.

1894-1898—James Pease, Rep.
 1898-1902—Ernest J. Magerstadt, Rep.
 1902-1906—Thomas E. Barrett, Dem.
 1906-1910—Christopher Strassheim, Rep.
 1910-1914—Michael Zimmer, Dem.
 *Term changed from two to four years. †Also appointed to serve unexpired term of Thomas E. Barrett, who died in March, 1906.

COLDEST DAYS IN CHICAGO.

The cold spell ending Jan. 7, 1912, established a record for duration of below zero weather in Chicago—72 hours. The minimum reached was 16 degrees below zero. The longest previous below zero stretch was 71 hours, Jan. 21, 22 and 23, 1883, when the minimum reached was 17 degrees below zero. Following are the coldest days officially recorded in Chicago:

Dec. 24, 1872.....	-23	Jan. 15, 1893.....	-16
Jan. 29, 1873.....	-16	Jan. 25, 1897.....	-20
Jan. 9, 1875.....	-20	Feb. 9, 1899.....	-21
Jan. 3, 1879.....	-18	Jan. 25, 1904.....	-15
Jan. 22, 1883.....	-17	Feb. 13, 1905.....	-18
Jan. 5, 1884.....	-18	Jan. 7, 1912.....	-16
Feb. 9, 1888.....	-18		

HOTTEST DAYS IN CHICAGO.

July 21, 1901, when the temperature rose to 103 degrees above zero, was the hottest day in the history of Chicago so far as the weather bureau records go. The next hottest was July 5, 1911, when 102 degrees was recorded. The hottest days in each year since 1899 were:

Sept. 5, 1899.....	98	June 28, 1906.....	93
Aug. 5, 1900.....	94	Aug. 11-Sept. 1, 1907.....	92
July 21, 1901.....	103	July 11-Aug. 3, 1908.....	96

PROPOSED PASSENGER SUBWAY SYSTEM FOR CHICAGO.

The harbor and subway commission and the subcommittee of the council committee on local transportation submitted a joint report Sept. 10, 1912, on a "comprehensive scheme of subways which shall extend into the outlying districts and which shall be designed to remedy the existing traction evils of the city of Chicago." The general plan recommended was a high level subway as close as possible to the surface of the streets and avoiding all grade crossings. The power system contemplated comprised alternating current generation and distribution and direct current operation of motors. The estimates were based on a third rail direct current system of conductors. The capacity of the subways outlined in the report was estimated at 180,000 seats per hour.

PROPOSED ROUTES.

Following were the routes recommended:

North to South Side—Beginning at Lawrence and Evanston avenues, a two track subway in Evanston avenue to Irving Park boulevard and Halsted street; south in Halsted street to Fullerton avenue.

Beginning at Lawrence and Lincoln avenues, a two track subway in Lincoln avenue to Halsted street and Fullerton avenue.

The two subways from the north joining at Halsted street and Fullerton avenue are continued as a four track subway southeast in Lincoln avenue to Clark street; south in Clark street to some point just north of the river (subject to further engineering investigation). Thence a two track subway for express trains south in Clark street to Polk street or some street further south; east in Polk street or some other street to State street; south in State street in a four track subway to 55th street. A two track subway east in 55th street to Cottage Grove avenue. Transfers in Cottage Grove avenue to 79th street. A two track subway east from this subway at Fullerton avenue to the Halsted street subway; at Clark and Madison streets to the Madison street subway; at Harrison and Clark streets to the southwest subway.

North Side to Southwest Side—Two of the four tracks from the North Clark street subway continue in a two track subway east from Clark street to State street; thence south in State street to Harrison street; west in a two track subway in Harrison street to Halsted street and Blue Island avenue; thence continuing southwest in Blue Island avenue to 22d street and Ashland avenue; west in 22d street to Marshall boulevard; south in Marshall boulevard to 26th street; west in 26th street to South 40th avenue. Transfers can be made from the subway at Fullerton avenue to the Halsted street subway, at State street to the "Northwest Side to South Side" subways. At Halsted and Harrison streets to Halsted street subway.

Northwest Side to South Side—Beginning at Elston and Kedzie avenues, a two track subway in Elston avenue southeast to Belmont and California avenues; south in California avenue to Milwaukee

avenue; southeast in Milwaukee avenue to Desplaines or Canal street. Continuing south in Desplaines or Canal street to Randolph street; east in Randolph street to State street; south in State street in the four track subway to 55th street and State street; thence west in 55th street in a two track subway to Western avenue. Transfers can be made from the subway at Milwaukee avenue and Halsted street to the Halsted street subway; at State street to the "North Side to Southwest Side" subway; at 55th street and Halsted street to Halsted street subway.

A two track subway in Armitage avenue from North 40th avenue to Milwaukee avenue, connecting with the Elston-Milwaukee avenue line.

Halsted Street—Beginning at the Junction of the Lincoln and Evanston avenues, lines at Fullerton avenue, a two track subway in Halsted street to 79th street. Transfers can be made from this subway at Fullerton avenue to the "North Side to South Side" and the "North Side to Southwest Side" subways; at Milwaukee avenue to the "Northwest Side to South Side" subway; at Harrison street to the "North Side to Southwest Side" subway; at 55th street to the "Northwest Side to South Side" subway.

Madison Street—Beginning at South Clark street, a two track subway in Madison street to 40th avenue. Transfers can be made from the subway at Halsted street to the Halsted street subway; at Clark and Madison street to the "North Side to South Side" subway. This subway may eventually be extended south in Clark street and other streets to serve the southwestern part of the city.

ESTIMATED COST OF SUBWAYS.

North side to Lawrence avenue.....	\$20,123,000
South side to 79th street.....	25,778,000
West side to 40th avenue.....	31,049,000
Halsted street.....	19,307,000

Total	96,257,000
Estimated cost of equipment.....	34,844,000

Total	131,101,000
-------------	-------------

The equipment will be furnished by the operating company.

Two plans for financing the project were suggested. One was to have the city build the subways out of the proceeds of legalized Mueller certificates and the other to have them built by private capital under such conditions as would insure absolute municipal control. It was subsequently ascertained that the scheme could not be financed by the issuance of Mueller certificates.

The joint report was signed by John Ericson, James J. Reynolds and E. C. Shankland of the harbor and subway commission and by Aldermen Eugene Block (chairman), John A. Richert, Patrick J. Carr, William F. Schultz, William J. Healy, Henry D. Capitain and Charles Twig, subcommittee of the council committee on local transportation.

CHICAGO SUBWAY AND HARBOR COMMISSION.

Borland block, 105 South LaSalle street, 11th floor.

Members.	Salaries.
John Ericson, chairman.....	\$12,000
E. C. Shankland.....	12,000
James J. Reynolds.....	12,000
Secretary, William J. Shanks.	
\$35,000 as city engineer.	

The above named commissioners were appointed

by Mayor Harrison July 27, 1911, to make the necessary investigations preliminary to the preparation of plans for a municipally owned subway in the downtown district of Chicago and for the proposed outer harbor. Mr. Ericson is the city engineer, Mr. Shankland a designing engineer and Mr. Reynolds an operating engineer.

GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (\$15) dollars per week, shall be exempt from garnishment. All above the sum of fifteen (\$15)

dollars per week shall be liable to garnishment."

Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with the same.

CHICAGO STOCK EXCHANGE.

President—J. J. Townsend, 236 South LaSalle street.
Secretary—Charles T. Atkinson, 2d floor The Rookery.

Location—The Rookery, 200 South LaSalle street.
Hours—"Calls" at 11 a. m. on stocks and bonds.

ASSESSMENT OF TAXABLE PROPERTY IN CHICAGO.

The following is a statement of the valuation of taxable real estate and personal property and the amount of taxes levied each year, from 1838 to 1912, inclusive:

YEAR.	Real estate.	Personal property.	Total valuation.	Tax levy.	YEAR.	Real estate.	Personal property.	Total valuation.	Tax levy.
1838.....	\$235,996		\$235,996	\$8,849.96	1876.....	\$128,832.403	\$39,165.754	\$167,998.157	\$4,046,805.80
1839.....	94,803		94,803	4,664.55	1877.....	116,082.303	32,371.615	148,400.148	4,014,410.44
1840.....	94,437		94,437	4,721.85	1878.....	104,420.053	27,563.886	131,983.439	3,777,757.23

*Does not include railroads or capital stock.

The valuation since 1875 is the equalized valuation fixed by the state board of equalization. From 1867 to 1875 the valuation was made by the city for the city tax. From 1898 to 1908, inclusive, the assessed value was one-fifth of the actual value. In 1909 the rate was fixed at one-third. The amounts in the personal property column include the railroad valuation. (Except for 1912.)

ASSESSMENT OF TAXABLE PROPERTY IN COOK COUNTY.

Includes equalized valuation of railroads and capital stock of corporations.

1900.....	\$306,957,900	1907.....	514,757,122

*Includes .05 for boulevards and parks. Includes .01 for lake shore protection and .08 for Lincoln park bonds. Includes .03 for Lincoln park bonds.

TAXING BODIES IN CHICAGO.

1. STATE TAX.—For state purposes. The governor, auditor and treasurer constitute the board

which ascertains the rate per cent required to produce the amount of taxes levied by the general assembly. The "state school tax" is levied in the same manner.

2. COUNTY TAX.—The county board levies the taxes for all county purposes.
3. CITY TAX.—The city council, acting with the mayor, levies the taxes for all city purposes.
4. SCHOOL TAX.—The city council and the mayor make a separate levy for this purpose.
5. LIBRARY TAX.—The city council and the mayor make a separate levy for this purpose.
6. SANITARY DISTRICT.—The tax is levied by the board of trustees.
7. SOUTH PARK SYSTEM.—The south park commissioners levy for park purposes in the towns of South Chicago, Hyde Park and Lake.
8. WEST PARK SYSTEM.—The West Chicago park commissioners levy for park purposes in the town of West Chicago.
9. LINCOLN PARK.—The Lincoln park commissioners are not "corporate authorities," the Lincoln park act not having been adopted by popular vote. The levy for Lincoln park is made by the county treasurer, acting as ex officio supervisor.
10. RIDGE PARK.—A small park district in Rogers Park, organized under the law providing for local park districts by popular vote. The board of five commissioners levies for the district.
11. THE NORTH SHORE PARK DISTRICT.—Organized the same as Ridge Park.

By an act of the legislature approved May 11, 1901, and by the vote of the people at the spring election in 1902 the townships lying within the limits of Chicago were consolidated and the powers of the town boards transferred to the city council. This reduced the taxing boards in Chicago from eighteen to eleven as above.

CHICAGO WATERWORKS SYSTEM.

The following table shows the growth of Chicago's waterworks system by decades since 1854, when the first large pumping station at Chicago avenue and the lake was built, and by years since 1900:

Year.	*Population using city water.	Gallons pumped per day.	Gallons per capita.	Total revenue.
1854.....	65,000	591,000	9.1	\$58,105.00
1860.....	109,000	4,704,000	43.1	131,162.00
1870.....	307,000	21,766,000	70.9	539,180.00
1880.....	503,000	57,384,000	114.1	865,618.35
1890.....	1,107,000	152,372,000	137.6	2,109,508.00
1900.....	1,707,000	322,683,000	189.0	3,250,481.85
1901.....	1,753,000	342,901,000	195.6	3,370,600.88
1902.....	1,798,000	358,179,000	199.2	3,611,558.81
1903.....	1,846,000	376,090,000	204.1	3,683,625.80
1904.....	1,839,000	399,065,000	211.2	3,894,541.30
1905.....	1,935,000	410,930,000	212.4	4,019,205.88
1906.....	2,000,000	437,059,000	218.5	4,281,065.50
1907.....	2,050,000	455,194,000	222.0	4,450,349.61
1908.....	2,100,000	469,282,000	222.4	4,648,299.54
1909.....	2,163,000	480,905,000	222.3	5,032,008.48
1910.....	2,234,000	518,579,000	232.1	5,448,257.55
1911.....	2,259,000	†37,232,500	190.0	5,993,771.32

*Estimated from United States government census. †Exclusive of repumpage.

In 1911 the total amount of water pumped was 185,176,323,473 gallons.

The pumping stations, with the year of construction of each, follow:

Chicago avenue.....	1854	Washington Heights.....	1892
Twenty-second street.....	1875	Norwood Park.....	1897
Harrison street.....	1889	Central Park.....	1900
Lake View.....	1892	Springfield avenue.....	1901
Fourteenth street.....	1892	Rogers Park.....	1899
Sixty-eighth street.....	1892	Roseland.....	1910

The total daily capacity of the waterworks in gallons is 665,000,000.

Other statistics: Number of taps, 390,000; meters in use, 16,628; mileage of water pipe, 2,362.

LAKE TUNNELS.

One 5-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1867; cost \$464,866.05.

One 7-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1874; cost \$415,709.36.

One 7-foot tunnel from two-mile crib to Chicago avenue pumping station; built 1887-1895; cost \$342,786.64.

One 8-foot tunnel from four-mile crib to 14th street pumping station; built 1892; cost \$1,104,744.12.

One 10-foot tunnel from Carter H. Harrison crib to foot of Oak street; built 1898; cost \$677,577.55.

One 7-foot tunnel from Lake View crib to Lake View pumping station; built 1896; cost \$701,792.45.

One 7-foot tunnel from Hyde Park crib to 63th street pumping station; built 1898; cost \$771,556.07.

One 14-foot tunnel from Hyde Park to 73d street and Railroad avenue; built 1912; cost \$1,592,953.51.

One 14-foot tunnel lake extension of Chicago avenue and Blue Island avenue tunnel system; in course of construction.

LAND TUNNELS.

One 7-foot tunnel from Chicago avenue pumping station to 22d street pumping station; built 1874; cost \$542,912.63.

One 7-foot tunnel from Park row shaft to foot of Peck place and thence to Harrison street pumping station; built 1291; cost \$279,848.78.

One 6-foot connecting tunnel in Jefferson street from Van Buren to Harrison; built 1891; cost \$15,968.17.

One 10-foot tunnel foot of Oak street to Green street and Grand avenue, and two 8-foot tunnels from that point to Central Park avenue and Springfield avenue pumping stations respectively; built 1900; cost \$2,121,525.02.

One 7-foot tunnel connecting above 10-foot tunnel with Chicago avenue pumping station (remodeled); built 1898; cost \$42,436.45.

One 9-foot tunnel from 104th street and Stewart avenue to 73d and State streets; one 12-foot tunnel in 73d street from State street to Yates avenue, and one 14-foot tunnel from Yates avenue to Railroad avenue; in course of construction; estimated cost, \$3,000,000.

One 7-foot tunnel in Polk street connecting Peck place shaft and Jefferson street shaft.

One 8-foot tunnel from Chicago avenue to 22d street and Ashland avenue; built, 1907-8; cost, \$829,704.59.

VALUE OF WATERWORKS PROPERTY.

The total appraised value of the Chicago waterworks property Dec. 31, 1911, was \$47,792,661.90, divided as follows: Real estate, \$4,198,535; buildings, \$2,537,191.91; equipment, \$2,646,183.63; cribs, tunnels, mains, etc., \$38,410,751.36.

CHICAGO'S BRIDGE SYSTEM.

The first ferry across the river was established in 1829, where the Lake street bridge now is. In 1833 a floating bridge of logs was in operation just north of the present Randolph street bridge. A foot bridge over the north branch was built in 1832 at Kinzie street. The first drawbridge over the main branch of the river was placed at Dearborn street in 1834. In 1854 a pivot bridge was built at Clark street. These and other bridges of that time were built by the persons most directly benefited by them. It was not until 1857 that a bridge was built entirely at the city's expense. This was the structure over the south branch at Madison street. It cost \$30,000. Until 1872 the swing bridges were turned by hand, but in the year named steam power was installed on the Dearborn street structure and later on most of the other bridges in the downtown section were similarly equipped. In 1895 the Rush, Lake and Van Buren street bridges were operated by electric motors. The last named structure, which was opened for traffic in that year, was the first of the Scherzer rolling type. The Histed street lift bridge, the first and only one of its kind, was opened in 1894 and was operated by steam. It cost the city \$242,880.

Of the bridges operated by the city thirty-six are operated by electricity, one by steam and the others by hand power. Twelve are bascule bridges of various types, one is a vertical lift bridge and the others are swing bridges.

CHICAGO RECEIPTS AND SHIPMENTS (1904-1911).

THE ART INSTITUTE OF CHICAGO.

A museum of fine arts and school of drawing, painting, etc.

Michigan avenue and Adams street.

OFFICERS.

President—Charles L. Hutchinson.
Vice-Presidents—Martin A. Ryerson, Frank G. Logan.Secretary—Newton H. Carpenter.
Assistant Secretary—William F. Tuttle.

Treasurer—Ernest A. Hamill.

Auditor—William A. Angell.

Director—W. M. R. French.

Librarian—Miss Mary Van Horne.

School Registrar—Theodore J. Keane.

Trustees, 1911-1912—Edward E. Ayer, Adolphus C. Bartlett, John C. Black, Chauncey J. Blair, Clarence Buckingham, Edward B. Butler, Clyde M. Carr, Henry H. Getty, John J. Glessner, Frank W. Gunsulius, Charles L. Hutchinson, Bryan Lathrop, Frank G. Logan, R. Hall McCormick, John J. Mitchell, Samuel M. Nickerson, Honore Palmer, Martin A. Ryerson, Howard Shaw, Albert A. Sprague. Ex officio: Carter H. Harrison, mayor; John E. Traeger, city comptroller; John Barton Payne, president south park commissioners; Joseph Donnersberger, auditor south park commissioners.

The Art Institute of Chicago was incorporated May 24, 1879, for the "founding and maintenance of schools of art and design, the formation and exhibition of collections of objects of art and the cultivation and extension of the arts of design by any appropriate means." The museum building upon the lake front, first occupied in 1893, has never been closed for a day. It is open to the public every week day from 9 to 5, Sundays from 1 to 5:30 and 7 to 10. Admission is free to members and their families at all times, and free to all upon Wednesdays, Saturdays, Sundays and legal holidays. Upon other days the entrance fee is 25 cents.

All friends of art are invited to become members. Annual members pay a fee of \$10 a year. Life members pay \$100 and are thenceforth exempt from dues. Governing members pay \$100 upon election and \$25 a year thereafter. Upon the payment of \$400 governing members become governing life members and are thenceforth exempt from dues. All receipts from life memberships are invested and the income only expended. All members are entitled, with their families and visiting friends, to admission to all exhibitions, receptions, public lectures and entertainments given by the Art Institute and to the use of the Ryerson reference library upon art.

MUSEUM.

The Art museum now ranks among the first three or four in the country. It contains excellent examples of the old masters and of the modern painters. There is also a large and comprehensive collection of sculptures, including reproductions of the work of the greatest sculptors, ancient and modern. There is an extensive collection of architectural casts. Other fields of art are represented by collections of etchings, engravings, textiles, oriental art, Egyptian and classical antiquities, etc. There is a constant succession of passing exhibitions, thirty or more in a year. All students enjoy the full use of the collections and the library.

The number of visitors to the art gallery during the year ending June 1, 1912, was 861,011.

SCHOOL.

The school of instruction in the practice and theory of art includes departments of painting, sculpture, decorative designing, illustration, architecture and normal instruction. There are day and evening classes for beginners and for advanced pupils and special classes on Saturdays. The instructors number about 80 and the pupils average about 3,000 a year. The principle upon which the school is founded is to maintain in the highest efficiency the severe practice of academic drawing and painting, from life, from the antique and from objects, and around this practice, as a living stem, to group the various departments of art education.

The school is conducted upon the most modern methods and has grown to be the most comprehensive and probably the largest fine arts school in the United States. Constant communication and interchange are kept up with European art centers and distinguished teachers from a distance are called in from time to time. Students may enter at any time. The tuition rates are as follows:

Day School—Full time for full term of twelve weeks, \$30; four weeks, \$12; four days a week, full term, \$27; four weeks, \$11; three days a week, full term, \$24; four weeks, \$9; two days a week, full term, \$18; four weeks, \$7; one day a week, full term, \$12; four weeks, \$5.

Half-Day Courses—Five half days a week, \$24 a term; four weeks, \$10; four half days a week, \$21 a term; four weeks, \$9; three half days a week, \$17 a term; four weeks, \$7; two half days a week, \$13 a term; four weeks, \$5; one half day a week, \$8 a term; four weeks, \$4.

Evening Rates—Three nights a week, \$7 for twelve weeks or \$3 for four weeks; two nights a week, \$5.50 a term or \$2.50 for four weeks; one night a week, \$4 a term or \$2 for four weeks.

Saturday Rates for Juvenile Class—Twelve half days for \$5.

Special Classes—

Pottery—Twelve half days.....	\$6.00
Leather—Twelve half days.....	6.00
Metal—Twelve half days.....	6.00
Bookbinding—Twelve half days.....	6.00
Drawing—Twelve half days.....	5.00
Design—Twelve half days.....	5.00
Ceramic Painting—Twelve half days.....	8.00
Ceramic Design—Twelve half days.....	5.00

The attendance of students for the year ended June 1, 1912, was as follows:

Day school.....	1,024
Saturday school.....	770
Evening school.....	907
Summer school.....	515

Total	3,216
Students belonging to two schools.....	162

Grand total.....	3,054

REVENUE FROM THE ILLINOIS CENTRAL.

Since March 24, 1855, the Illinois Central Railroad company, in accordance with the terms of its charter, accepted March 15, 1851, has been paying into the Illinois state treasury semiannually a certain percentage of the gross receipts from its charter lines. This percentage up to 1867 was 5 and since then has been 7. The total amount paid by the road to the state up to April 30, 1912, was \$31,502,713.29. The gross receipts and the semi-annual payments to the state since April 30, 1905, have been:

Time.	Receipts.	Payments.
April 30, 1905.....	\$7,635,116.74	\$534,453.17
Oct. 31, 1905.....	7,868,214.35	550,775.00

Time.	Receipts.	Payments.
April 30, 1906.....	8,461,749.42	592,322.46
Oct. 31, 1906.....	8,572,838.57	600,102.55
April 30, 1907.....	8,517,289.72	596,210.23
Oct. 31, 1907.....	9,176,083.48	642,325.84
April 30, 1908.....	7,619,184.14	532,342.89
Oct. 31, 1908.....	7,996,765.05	559,773.55
April 30, 1909.....	8,047,250.33	562,307.52
Oct. 31, 1909.....	8,419,454.63	589,361.82
April 30, 1910.....	8,684,545.71	607,918.20
Oct. 31, 1910.....	8,714,423.43	610,009.61
April 30, 1911.....	8,844,230.28	619,096.12
Oct. 31, 1911.....	8,862,687.42	620,388.12
April 30, 1912.....	8,006,149.85	560,430.49

C. Barnes; secretary, R. F. Paine.
New York Society of Chicago—President, Dr. Al-
fred L. Cole; secretary, Ira Fogel.
Wisconsin Society of Chicago—President, Edward
E. Ayer; secretary, Allard Smith.

MUSIC IN CHICAGO.

THE THEODORE THOMAS ORCHESTRA.

The Theodore Thomas orchestra was organized in Chicago in 1890-1891 by a number of men interested in promoting the highest class of instrumental music. The Orchestral association was incorporated Dec. 16, 1890, and Theodore Thomas, famous for many years as a conductor, was engaged to lead the new organization, which was then named the Chicago orchestra. The preparations were completed in 1891 and the first public rehearsal was given at the Auditorium Friday afternoon, Oct. 16, of that year. Financially the result of the first season was discouraging, the fifty or more gentlemen guaranteeing the expenses being compelled to meet a deficit of about \$53,000. Receipts, however, continued to increase from year to year until the orchestra was finally placed on a permanent basis. This was accomplished when Orchestra Hall, erected by subscriptions from more than 8,000 persons, was erected at 220 South Michigan avenue, and the organization was provided with a home of its own. The first concert there was given Wednesday evening, Dec. 14, 1904. Theodore Thomas died Jan. 4, 1905, and the orchestra, which until then had been called the Chicago orchestra, was named the Theodore Thomas orchestra. Frederick Stock was made conductor, a position he still holds. The plan of giving two performances a week—a public rehearsal on Friday afternoon and a concert on Saturday evening—has been followed from the beginning. The season consists of twenty-eight weeks, beginning in October and ending in April.

The first officers of the Orchestral association were: N. K. Fairbank, president; C. Norman Fay, vice-president; P. A. McEwan, treasurer and secretary; Milward Adams, manager.

OFFICERS IN 1912.

President—Bryan Lathrop.

Second Vice-President—C. Norman Fay.

Secretary—Philo A. Otis.

Treasurer and Manager—Frederick J. Wessells.

Assistant Treasurer and Manager—Henry E. Vogel.

Trustees—George E. Adams, Joseph Adams, Max Baird, William L. Brown, Clyde M. Carr, Frederick A. Delano, C. Norman Fay, J. J. Glessner, C. H. Hamill, Chauncey Keep, Bryan Lathrop, Harold F. McCormick, Philo A. Otis, Clarence M. Woolley.

Office—850 Orchestra building.

CHICAGO GRAND OPERA COMPANY.

The Chicago Grand Opera company was established in 1910 by a number of citizens of Chicago and New York, who organized with a capital of \$500,000, of which \$300,000 was subscribed in Chicago and the remainder in the east. The Auditorium was leased, important alterations made and the first performance by the new company was given there in November, 1910. The officers were:

President—Harold F. McCormick.

Vice-Presidents—Charles G. Dawes and Otto H. Kahn.

Treasurer—Charles L. Hutchinson.

Secretary—Phillip M. Lydig.

THE CHICAGO STREET-RAILWAY FRANCHISE.

Ordinances passed by city council Feb. 4, 1907; vetoed by mayor and passed over veto Feb. 11, 1907; approved by people on referendum vote April 2, 1907.

Systems to be reconstructed and rehabilitated within three years.

Stations: Indiana avenue, Wallace street, Halsted street, Exchange station, Morris station, Swift station, Packers' station, Armour station.

CHIEFS OF POLICE OF CHICAGO.

Names and dates of appointment:

W. W. Kennedy, April, 1871.
Elmer Washburn, April, 1872.
Jacob Rehm, December, 1873.
Michael C. Hickey, Oct. 7, 1875.
Valerius A. Seavey, July 30, 1878.
Simon O'Donnell, Dec. 15, 1879.
William J. McGargle, Dec. 13, 1880.
Austin J. Doyle, Nov. 13, 1882.
Frederick Ebersold, Oct. 26, 1885.
George W. Hubbard, April 17, 1888.

Frederick H. Marsh, Jan. 1, 1890.
Robert W. McLaughry, May 18, 1891.
Michael Brennan, Sept. 11, 1893.
John J. Badenoch, April 11, 1895.
Joseph Kipley, April 16, 1897, and April, 1899.
Francis O'Neill, April 30, 1901, and June 26, 1903.
John M. Collins, July 26, 1905.
George M. Shippy, April 15, 1907.
LeRoy T. Stewart, Aug. 14, 1909.
John McWeeny, May 1, 1911.

CHICAGO STREET GRADES.

The grade of the streets in the central portion of Chicago has been raised three times. In 1855 it was raised from $\frac{2}{4}$ to 3 feet above the then existing surface, and it was again raised by about

the same amount in 1857 and 1872, making the present level fourteen feet above "city datum," which is the low-water mark of the lake in 1847.

FIRE LIMITS OF CHICAGO.

The fire limits of Chicago, within which wooden buildings shall not be erected, as fixed by the ordinance of July 25, 1912, are as follows:

(a) Beginning at Lake Michigan and Devon avenue west to North Clark street, south to Lawrence avenue, west to North Western avenue, south to Addison street, west to North Whipple street, south to Elston avenue, southeast to Roscoe street, east to north branch of river, southeast along river to Belmont avenue, west to North Kedzie avenue, south to Diversey avenue, west to North Central Park avenue, south to Fullerton avenue, west to North 44th avenue, south to West Chicago avenue, west to North Austin avenue, south to Baltimore & Ohio Chicago Terminal railroad, easterly to South 45th avenue, south to West 22d street, east to South 44th avenue, south to West 33d street, east to South 40th avenue, south to Illinois and Michigan canal, northeasterly to South Western avenue, south to West 39th street, east to South Robey street, south to West 43d street, east to a line 125 feet west of South Ashland avenue, north to West 41st street, east to South Ashland avenue, north to West 40th street, east to within 125 feet of South Ashland avenue, south to West 43d street, west to South Ashland avenue, south to West 47th street, east to within 125 feet of South Halsted street, south to West 51st street, east to a line 125 feet east of Halsted street, north to West 43d street, east to Wallace street, south to West 40th street, east to Butler street, south to West 43d street, east to within 125 feet of Wentworth avenue, south to West Garfield boulevard, east to within 125 feet of Wentworth avenue, north to West 43d street, east to within 125 feet of South State street, south to West Garfield boulevard, west to Union avenue, north to West 51st street, west to South Central avenue, south to within 125 feet of West 63d street, west to South Ashland avenue, south to a line 125 feet south of West 63d street, east to South Central avenue, south to West 75th street, east to South Shore avenue, southeasterly to East 79th street, east to Ontario avenue, south to East 83d street, east to Superior avenue, south to East 89th street, west to Manistee avenue, south to Lake Shore railroad tracks, southeasterly to East 95th street, west to South Chicago branch of the Fort Wayne railroad, along said branch to East 106th street, east to within 300 feet of the Calumet river, northerly to East 95th street, east to Lake Michigan and thence northerly and northwesterly along the lake shore to the place of beginning.

CHICAGO INTERURBAN TROLLEY LINES.

Following are the principal electric interurban lines with terminals in or near Chicago, with the names of the principal points reached by them:

Chicago & Milwaukee—Terminal in Evanston; makes connection with Northwestern elevated and surface lines to Chicago; runs north to Waukegan, Kenosha, Racine and Milwaukee; branch from Lake Bluff to Libertyville and Rockefeller. Elec-

tric lines run from Milwaukee to Burlington, to East Troy, to Waukesha, Pewaukee, Oconomowoc and Watertown and to Sheboygan and Elkhart lake.

Chicago & Joliet—Terminal at 48th street and Archer avenue; runs southwest to Lockport and Joliet; connects at Joliet with line for Aurora, Chicago Heights, Ottawa and other cities.

Interurban Electric Lines Radiating from Chicago.

Aurora, Elgin & Chicago—Terminal at 256th avenue; runs in a westerly direction to Wheaton, where one branch runs northwest to Elgin and one southwest to Aurora; at Eola Junction on the latter branch a line runs to Batavia. Aurora and Elgin are connected by a line which runs as far south as Yorkville and as far north as Carpenterville. At Elgin connection is made with a line running to Belvidere and Rockford and from the latter place a line runs west to Freeport and another north to Beloit and Janesville. The Aurora,

Elgin & Chicago road is operated on the third-rail system.

Chicago & Southern Traction—Terminal at 79th and Halsted streets; runs in a southeasterly direction to Chicago Heights and Kankakee.

Chicago, Lake Shore & South Bend—Terminal at Pullman; runs in an easterly direction to Michigan City and South Bend; connects at South Bend with interurban lines reaching various points in Michigan and Indiana.

SOCIETIES OF TEACHERS.

Cook County Teachers' Association—Fullerton hall, Art Institute; president, W. W. Lewton; superintendent, E. J. Tobin.

Chicago Principals' Association—President, Morgan G. Hogge; secretary, Miss Matilda S. Hichaus; headquarters, 311, 35 North Dearborn street.

Chicago Teachers' Federation—Room 344, 129 North Dearborn street; president, Mrs. Ida L. Fursman;

corresponding secretary, Frances E. Harden; financial secretary, Catherine Goggin; business representative, Margaret A. Haley.

Chicago Teachers' Relief Society—President, Ella Flagg Young; secretary, Miss Marion H. Dyer, Gladstone school.

Head Assistants' Association—President, Miss Myra C. Billings; secretary, Miss Anna Strauss, 4415 Drexel boulevard.

CHICAGO WARD BOUNDARIES.

As fixed by the redistricting ordinance of Dec. 4, 1911.

Ward.

1. Chicago river west and south of Wallace, south to W. 25th, east to Princeton, south to W. 28th-pl., east to S. 5th-av., south to W. 30th, east to Wentworth-av., south to W. 31st, east to Lake Shore right of way, north to W. 26th, east to S. Michigan-av., north to E. 25th, east to Indiana-av., south to E. 26th, east to South Park-av., south to E. 81st, east to Lake Michigan, north to river.
2. Lake Michigan and 31st-st., west to South Park-av., north to E. 28th, west to Indiana-av., north to E. 25th, west to S. Michigan-av., south to E. 26th, west to Lake Shore right of way, south to W. 31st, west to Wentworth-av., north to W. 30th, west to S. 5th-av., south to W. 33d, west to Stewart-av., south to W. 39th, east to Cottage Grove-av., north to 38th, east to Lake Michigan, north to 31st.
3. Lake Michigan and 47th, west to St. Lawrence-av., south to E. 49th, west to S. State, north to W. 43d, west to Princeton-av., north to W. 39th, east to Cottage Grove-av., north to E. 38th, east to Lake Michigan, southeast to 47th.
4. Wallace and river west and south to W. 34th-pl., east to S. Halsted, north to W. 34th, east to Union-av., south to W. 35th, east to Wallace, south to W. 33d, east to S. 5th-av., north to W. 28th-pl., west to Princeton-av., north to W. 25th, west to Wallace, north to river.
5. From intersection of river and south fork southwest along canal to W. 39th, west to S. 48th-av., south to W. 45th, east to S. Ashland-av., north to W. 43d, east to Princeton-av., north to W. 39th, west to Stewart-av., north to W. 33d, west to Wallace, south to W. 35th, west to Union-av., north to W. 34th, west to S. Halsted, south to W. 34th, west to south fork of river and northwesterly to river.
6. Lake Michigan and E. 47th-st. west to St. Lawrence-av., south to E. 49th, west to S. State, south to E. 63d, east to South Park-av., north to E. 60th, east to Lake Michigan, northwest to 47th.
7. Lake Michigan and E. 60th-st., west to South Park-av., south to E. 63d, west to Stewart-av., south to W. 66th, east to Harvard-av., south to W. 67th, east to Wentworth-av., south to W. 71st, east to S. State, south to E. 75th, east to Stony Island-av., north to E. 73d, east to lake, north-west to E. 60th.
8. Lake Michigan and E. 73d-st. west to Stony Island-av., south through Lake Calumet to city limits, east to Indiana state line, north to lake and northwest to E. 73d.
9. Stony Island-av. and E. 75th, west to S. State, south to W. 79th, west to Wallace, south to W. 84th, east to Stewart-av., south to W. 103d, west to S. Halsted, south to W. 111th, west to S. Peoria, south to W. 115th, west to Vincennes-av., southwest to Lyon-av., east to S. Ashland-av., south to W. 123d, east to S. Halsted, south to city limits, east to Stony Island-av., projected, and north to E. 75th.
10. S. Center-av. and W. 12th, west to Loomis, north to Taylor, west to S. Wood, south to W. 16th, east to S. Ashland-av., south to river, northeast to S. Morgan, north to W. 18th, east to S. Morgan, north to W. 16th, west to S. Center-av., north to W. 12th.
11. S. Wood and Taylor, west to S. Oakley-bd., south to W. 12th, west to P., C., C. & St. L. R. R., south to canal, northeast to S. Ashland-av., north to W. 16th, west to S. Wood, north to Taylor.
12. W. 12th and P., C., C. & St. L. R. R., west to S. Kedzie-av., south to W. 19th, west to S. Roman-av., north to Ogden-av., southwest to Clifton Park-av., south to W. 24th, west to S. Central Park-av., south to canal, northeast to P., C., C. & St. L. R. R., north to W. 12th.
13. W. Washington-bd. and N. Oakley-bd., west to N. 40th-av., south to W. 12th, east to S. Oakley-bd., north to W. Washington-bd.
14. W. Chicago-av. and N. Ashland-av., west to N. 40th-av., south to W. Washington-bd., east to N. Ashland-bd., north to W. Chicago-av.

Ward.

15. W. North-av., and N. Robey, west to N. St. Louis-av., south to W. Chicago-av., east to N. Ashland-av., north to W. Division, west to N. Robey, north to W. North-av.
16. River and Fullerton-av., west to N. Robey, south to W. Division, east to river, northwest to Fullerton-av.
17. River and W. Division, west to N. Ashland-av., south to W. Kinzie, east to river, northwest to W. Division.
18. River and W. Kinzie, west to N. Ashland-av., south to W. Washington-bd., west to N. Oakley-bd., south to Taylor, east to S. Hermitage-av., north to W. Van Buren, east to river, north to W. Kinzie.
19. River and W. Van Buren, west to S. Hermitage-av., south to Taylor, east to Loomis, south to W. 12th, east to S. Halsted, north to Taylor, east to S. Desplaines, south to DeKoven, east to S. Jefferson, south to Bunker, east to river, north to W. Van Buren.
20. River and Bunker, west to S. Jefferson, north to DeKoven, west to S. Desplaines, north to Taylor, west to S. Halsted, south to W. 12th, west to S. Center-av., south to W. 16th, east to S. Morgan, south to W. 18th, west to S. Morgan, south to W. 18th, west to S. Morgan, south to river, northeast to Bunker.
21. Lake Michigan and Fullerton-av., west to N. Clark, southeast to Sedgwick, south to W. Division, east to Orleans, south to river, east to lake and north to Fullerton-av.

Hours—Circulation department open 9 a. m. to 8:30 p. m.; Sundays, closed; reading room and reference department, 9 a. m. to 10 p. m.; Sundays, 9 a. m. to 6 p. m.

The Chicago public library is a free public institution, established under the Illinois library law of 1872. It derives its revenue from an annual library tax of approximately four-tenths of a mill. A board of directors of nine members is appointed by the mayor, three annually for terms of three years. The library occupies the site formerly known as Dearborn park, bounded by Michigan avenue, Washington street, Garland court and Randolph street. The cost of the building was about \$2,000,000, including the furniture, book stacks and machinery.

The right of drawing books from the public library belongs to all who reside in the city of Chicago, and also to those who make their homes in the suburbs within the limits of Cook county and are regularly employed in the city. In order to become a book borrower it is necessary only to file an application giving the name and residence of the applicant and bearing the signature of a second person, who must be an actual resident of the city, appearing as such in the latest city directory. This person becomes the guarantor to the library for the proper observance of the library regulations on the part of the applicant. These regulations merely provide that books drawn for home use must be returned within the stated period and must not be defaced or injured.

At the close of May 31, 1912, the public library contained 481,708 volumes. The aggregate circulation for the year ending May 31, 1912, was 2,667,226 volumes, which does not include the use of books kept on the open shelves at the main library or its branches or the periodicals or newspapers used in the reading rooms. This use would bring the total book issue to 3,337,046.

BRANCHES.

Branches marked * are open from 9 a. m. to 10 p. m., those marked † are open from 9 a. m. to 9 p. m., all others are open from 1 to 9 p. m. Sundays and holidays open from 2 to 6 p. m.

THE JOHN CRERAR LIBRARY.

110 North Wabash avenue, 6th floor.

President—Hon. Peter S. Grosscup.

Vice-Presidents—Thomas D. Jones and Robert Forsyth.

Secretary—Leonard A. Busby.

Treasurer—William J. Louderback.

Librarian—Clement W. Andrews.

Board of Directors—E. W. Blanchford, Robert T. Lincoln, Henry W. Bishop, John M. Clark, Frank S. Johnson, Peter S. Grosscup, Marvin Hughtitt, Thomas D. Jones, John J. Mitchell, Leonard A.

Busby, Robert Forsyth, Chauncey Keep, Frederick H. Rawson and the mayor and the controller of the city of Chicago, ex officio. Hours—The library is open daily, except Sunday, from 9 a. m. to 10 p. m.

The John Crerar library contained in October, 1912, 303,000 volumes and 95,000 pamphlets on the social, physical, natural and medical sciences and their applications. They cannot be taken from the library, but may be freely consulted by all who wish to do so. The department of medical science, formerly housed in the Newberry library building, has now been moved to the main library, where the Senn reading room is open to physicians and students.

THE NEWBERRY LIBRARY.

North Clark street and Walton place.

President—E. W. Blatchford.

Librarian—William N. C. Carlton.

Secretary—Jesse L. Moss.

Trustees—George E. Adams, Eliphalet W. Blatchford, Franklin H. Head, David B. Jones, Bryan Lathrop, George Manierre, Horace H. Martin, Edward L. Ryerson, John A. Spoor, John P. Wilson, John P. Wilson, Jr., Moses J. Wentworth. Hours—From 9 a. m. to 12 p. m. every day except Sundays and the following holidays: Jan. 1, May 30, July 4, Thanksgiving and Christmas.

The Newberry library, Oct. 1, 1912, contained 338,582 books and pamphlets. These are not circulated, but are kept for reference purposes. The library is free to the public.

EVANSTON PUBLIC LIBRARY.

Orrington avenue and Church street.

Free to residents of Evanston and open to others on payment of an annual fee of \$2.50, or 25 cents a month. Reference department free to all. Library open from 9 a. m. to 9 p. m. week days. Reading room open from 2 to 6 p. m. Sundays, except during July and August, and holidays, except Jan. 1, July 4, Thanksgiving day and Dec. 25. The Coo music collection, which contains more than 1,300 books, 300 pieces of sheet music and 530 piano rolls, is open to all. The medical science room, containing over 600 medical books and periodicals, is open to resident physicians and nurses and to others by special arrangement. Number of volumes June 1, 1912, 48,567. Librarian, Mary B. Lindsay.

LEWIS INSTITUTE LIBRARY.

West Madison and Robey streets.

The Lewis institute library contains about 20,000 volumes and 4,500 pamphlets. The public is invited to use the library for reference, but books are loaned only to instructors and students of the institute. Throughout the school year the library is open from 8 a. m. to 5 p. m. daily except on Saturday, when it closes at 3 p. m.; during the session of the night school the library is also open from 5 p. m. to 9:30 p. m. Librarian, Miss Frances S. Talcott.

UNIVERSITY OF CHICAGO LIBRARY.

At the university, 59th street and Ellis avenue.

This library contained Oct. 1, 1912, 331,351 bound volumes and 195,000 pamphlets. It is primarily for the use of the faculty and students at the university, but others may have the privilege of drawing books available for circulation upon the payment of a fee. Properly accredited scholars visiting Chicago will receive complimentary cards for a term of four weeks or less upon application. The reading room is open to all. The director of the library is Ernest D. Burton; the associate director is J. O. M. Hanson.

CHICAGO HISTORICAL SOCIETY LIBRARY.

Dearborn avenue and West Ontario street.

President—Clarence A. Burley.

First Vice-President—Charles H. Conover.

Second Vice-President—Dr. Otto L. Schmidt.

Treasurer—Orson Smith.

Librarian—Caroline M. McVane.

Executive Committee—Clarence A. Burley, Seymour Morris, Edward L. Ryerson, William A. Fuller, Charles F. Gunther, Samuel H. Kerfoot, Jr., Ed-

ward F. Swift, Joy Morton, John A. Spoor.

The library, museum and portrait gallery are open to the public from 9 a. m. to 5 p. m. on week days. It is a repository of matter relating to the history and archaeology of the northwest, particularly of Chicago. It contains some 40,000 volumes and 75,000 pamphlets and a large collection of MSS., maps, views, etc., illustrative of the development of Illinois and the central west.

ST. IGNATIUS' COLLEGE LIBRARY.

1076 West 12th street.

The library of the college of arts of Loyola university. It contains about 45,000 volumes for the use of the faculty and students, but may be consulted by others on application to the librarian. Open from 8 a. m. to 4 p. m. Librarian, A. J. Garvy, S. J.

WESTERN SOCIETY OF ENGINEERS.

1735 Monadnock block.

The library of this society contains over 3,700 volumes, almost altogether engineering, scientific and technical works, and is maintained at the cost of the society. It is a free public reference library, open for use during business hours of business days. Secretary and librarian, J. H. Warder.

CHICAGO LAW INSTITUTE LIBRARY.

1025 County building.

President—Samuel W. Jackson.

Secretary—Alfred E. Barr.

Treasurer—Frederic S. Hebard.

Librarian—William H. Holden.

The library contains about 56,000 volumes.

GARRETT BIBLICAL INSTITUTE LIBRARY.

Evanston, Ill.

This is a reference library of theology for the use of the faculty and students of the institute, but open to the public October to June from 8 a. m. to 6 p. m. and from 7 to 10 p. m. Nov. 1, 1912, the library contained 31,584 volumes. Librarian, Doremus A. Hayes.

NORTHWESTERN UNIVERSITY LIBRARY.

Evanston, Ill.

The Northwestern university library contained 140,644 bound volumes and 84,000 pamphlets, July 1, 1912. The library is open during the college year from 8 a. m. to 10 p. m. daily, except Sunday, and during the summer vacation from 8 a. m. to 12 m. and from 1:30 to 5 p. m. Librarian, Walter Lichtenstein.

PULLMAN PUBLIC LIBRARY.

73 to 77 Arcade building, Pullman, Ill.

Contains 10,000 volumes. Library open from 10 a. m. to 5:30 p. m. and in the evenings from 6:45 to 9 o'clock; also Sundays and holidays, 2 to 6 p. m. Librarian, Bertha S. Ludlam; assistants, Caroline H. Mott and Luella L. Hewitt.

FIELD MUSEUM OF NATURAL HISTORY LIBRARY.

Jackson park.

The museum library occupies three rooms in the north end of the building and is open to the public every week day from 9 a. m. to 4:30 p. m. It is a scientific reference library. Visitors can consult books by making application to the office of the library. The magazines in the reading room are accessible to the public. Sept. 30, 1912, the library contained approximately 57,000 books and pamphlets. Librarian, Elsie Lippincott.

HAMMOND LIBRARY.

1610 Warren avenue.

The Hammond library of the Chicago Theological seminary contains 31,600 volumes. It is intended for the use of the faculty and students of the Chicago Theological seminary, but may be used by clergymen and others. The library is open on weekdays from September to May from 8:30 a. m. to 12 m. and from 1 to 10 p. m., except Saturdays, when it is closed at 5 p. m.; May to September from

8:30 a. m. to 12 m. and 1 to 5 p. m.; Saturdays 8:30 a. m. to 12 m.; closed Sundays. Assistant Librarian, Rose Roberts Sears.

RYERSON LIBRARY.

Art Institute, Michigan avenue and Adams street. The Ryerson library of the Art Institute is devoted exclusively to works on fine art. It contains more than 7,400 bound volumes and a collection of 27,000 photographs, including 16,000 Braun autotypes. Open every day except Sundays and holidays from 9 a. m. to 5 p. m. The library is primarily for the students of the institute, but is practically a free reference library on fine art. Librarian, Mary Van Horne.

CHILDREN'S SCIENCE LIBRARY.

The Chicago Academy of Sciences, Lincoln park, contains over 500 volumes for children on natural

history, including plants, animals, astronomy, geography and industries. The reading room is open from 9 a. m. to 4:30 p. m. each weekday. Individual guidance in the proper use of nature study books is given by the librarian.

ELBERT H. GARY LAW LIBRARY.

Northwestern University building, North Dearborn and West Lake streets, Chicago.

The Gary Library of Law, one of the largest of the kind in existence, was the gift of Elbert H. Gary of New York, N. Y., to the Northwestern University Law school. It is open, without charge, to nonresident lawyers presenting satisfactory credentials. Resident lawyers who are graduates of the Northwestern University Law school are charged a registration fee of \$1 per year for the privilege of using the library; all other resident lawyers are charged a registration fee of \$4 a year. The library in 1912 contained about 41,000 volumes. Librarian, F. B. Crossley.

FIELD MUSEUM OF NATURAL HISTORY.

President—Stanley Field.
Vice-Presidents—Martin A. Ryerson, Watson F. Blair.
Director of the Museum and Secretary—Frederick J. V. Skiff.
Treasurer—Byron L. Smith.
Assistant Secretary and Recorder—D. C. Davies.

The Field museum of natural history, established in 1894 at the close of the World's Columbian exposition of 1893, occupies the temporary building erected for fine arts in Jackson park, the exposition site. The founding of a scientific institution of this character in Chicago was made possible by the gift of \$1,000,000 by Marshall Field, who on his death (Jan. 16, 1906) bequeathed for the institution a further \$3,000,000, \$4,000,000 for the erection of a permanent building and \$4,000,000 for endowment. In addition \$800,000 has been donated by other individuals and there is an annual income from other sources than endowment of about \$25,000. The citizens of Chicago have confirmed legislative provision for the levy of a tax for the maintenance of the museum when a new building shall have been erected, which it is estimated will eventually produce approximately \$100,000 per annum.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian exposition. Most of this material, however, has since been rearranged, readapted or discarded. Several departments created at the organization have been abandoned, until, after the lapse of eleven years and the expenditure of over \$2,000,000, the museum is now divided into four departments—namely, anthropology, botany, geology and zoology. Many expeditions for the purpose of obtaining study, exhibition and exchange material and data have been dispatched to all parts of North

America and to different countries. The results of these expeditions, investigations and researches have been published by the museum from time to time, which publications have been distributed to kindred societies and institutions both at home and abroad. Two courses of free lectures are given annually. An important contribution of \$250,000 by Norman W. Harris was announced in December, 1911, for the extension of the work of the museum into the public schools of Chicago. The plans for carrying out Mr. Harris' wishes are to be placed in operation in the spring of 1913. The museum has a working library of about 57,000 titles, an extensive exchange system, fully equipped departmental laboratories, a herbarium of 270,000 sheets, study collections in mammals and birds reaching many thousand specimens, a large two-story taxidermy section, a well equipped printing shop, illustration studios and assaying and lapidary rooms. In North American ethnology, in the world's mineralogy, in economic botany the museum is particularly prominent, while its series of mounted mammals furnish examples of advanced museum methods. The present main building covers nine acres and is open to the public on all days except Christmas and Thanksgiving. An admission fee of 25 cents is charged except on Saturdays and Sundays, when admission is free to all. Students, scholars and teachers are admitted free on all days between 9 a. m. and 4 p. m.

The museum is incorporated under state law and the administrative control rests in a board of trustees with president, secretary, etc. The executive of the museum is the director, under whom there are four head curators with divisional assistant curators, preparators, etc. The entire museum records, the accessions system, the historical files, publications and supplies are in charge of a recorder.

LEARNED SOCIETIES IN CHICAGO.

American Library Association—Public library building; secretary, George B. Utley.
Chicago Academy of Sciences, The—Lincoln park; president, Thomas C. Chamberlin; secretary, Wallace W. Atwood.

Attorney—John C. Williams.

Board of Trustees—Terms expire in 1914: Wallace G. Clark, R.; George W. Paulin, R.; Paul A. Hazard, R. Terms expire in 1916: Thomas A. Smyth, D.; Thomas M. Sullivan, D.; Edward Kane, D. Terms expire in 1918: James M. Daley, D.; Fred D. Brett, D.; Charles E. Reading, D.

CHRONOLOGY.

First investigation made in 1885.

Sanitary bill signed May 29, 1889.

Sanitary district organized Jan. 18, 1890.

Earth broken ("shovel day") Sept. 8, 1892.

Lake water turned into canal Jan. 2, 1900.

Formal opening of canal Jan. 17, 1900.

DIMENSIONS OF CANAL.

Length of main and water power channel, 39.16 miles

Length of river, lake to Robey street, 6 miles.

Length river diversion channel, 13 miles.

Width main channel, Robey street to Summit:

Bottom, 110 feet; top, 198.

Width main channel, Summit to Willow Springs:

Bottom, 202 feet; top, 290.

Width main channel, Willow Springs to Lockport

(rock section): Bottom, 160 feet; top, 162.

Width river diversion channel: Bottom, 200 feet.

Minimum depth of water in main channel, 22 feet.

Current in earth sections, 1 1/4 miles per hour.

Current in rock sections, 1 1/2 miles per hour.

Present capacity of canal, 300,000 cubic feet per

minute.

Total amount of excavation, 42,229,635 cubic yards.

The north shore channel, extending from Lawrence avenue to Lake Michigan, in the village of Wilmette, is about 8 miles long with a water depth of 13.6 feet.

The construction of the Sag canal to drain the Calumet region was begun in the summer of 1911. When completed it will be 22 miles long.

 Society of Benevolence and Relief of the Sick—North Clark street and Graceland avenue.
 Union Ridge—Higgins avenue, near Norwood Park.
 Waldheim—West ten miles on Harrison street.
 Zion Congregation—At Rosehill.

HOUSE NUMBER SYSTEM IN CHICAGO.

[From report of John D. Riley, superintendent of maps.]

Sept. 20, 1910, the city council passed an amendment to the house number ordinance (of Sept. 1, 1909), the effect of which was to include the downtown district in the new system of numbers, making the same complete for the entire city, the change becoming effective, so far as the downtown district was concerned, April 1, 1911.

The system is laid out on two base lines. State street dividing the east and west streets and Madison street dividing the north and south streets, the numbers being assigned on the basis of 800 numbers to each mile or 100 numbers to the prevailing city block of 660 feet or one eighth of a mile. An exception to this assignment, however, is made on the north and south streets between Madison street and 31st street, in which territory 1,200 numbers are assigned between Madison and 12th streets, 1,000 between 12th and 22d streets and 900 between 22d and 31st streets. This was necessitated by reason of the fact that it was not deemed expedient or advisable to interfere with the system of numbered streets on the south side.

The system further provides for the use of the prefixes "North," "South," "East" and "West" on all streets which either cross or are open on either side of the base lines and on all streets of numerical nomenclature, whether open on either side of the base line or not. Names of streets open only on one side of either of the base lines do not carry the prefix, the result of this being that all of the east and west streets north of North avenue, at about which point the line of State street runs into Lake Michigan, do not require the use of the prefix "West." This, of course, also applies to such streets as Plymouth court, Polk street and

all other named streets open on only one side of either of the base lines.

In the assignment of numbers in the downtown district it was not possible to have 100 numbers to each block by reason of the fact that the blocks, instead of being laid out on the basis of one-eighth of a mile or 660 feet long, are approximately only 400 feet. The assignment, however, was made in as systematic a manner as possible. On the east and west streets downtown, commencing at State street and running west, we get numbers 1 and 2 at State, 50 Dearborn, 100 Clark, 150 LaSalle, 200 5th avenue, 300 Franklin, 350 Market, the terminating numbers at the river picking up those heretofore assigned on the same streets west of the river. On the east and west streets running east of State street we get numbers 1 and 2 at State, 50 at Wabash, the terminating numbers at the west side of Michigan avenue being something less than 100. On the north and south streets, going north from Madison street, we get 1 and 2 at Madison, 100 Washington, 150 Randolph, 200 Lake and 300 South Water street, the terminating numbers at the river picking up with those heretofore assigned to the same streets north of the river. Going south from Madison street on the north and south streets we commence with 1 and 2 at Madison street, 100 Monroe, 200 Adams, 300 Jackson, 400 Van Buren, 500 Congress, 800 Polk, 1000 Taylor and 1200 12th street, all of those numbers being in conformity with those for the same streets as heretofore assigned west of the river. In the business district downtown an individual number is assigned to each entrance on the street level.

SOCIETIES OF PIONEERS.

Chicago Pioneers' Sons and Daughters—President, Frank W. Smith; corresponding secretary, John S. Zimmerman.
 Old Time Printers' Association—President, John Canty; secretary, William Mill, 1346 North Hoyne avenue.

Pioneers of Chicago—President, Edwin O. Gale; treasurer, Jacob Rehm.

Western Association of California Pioneers—Secretary, George W. Hotchkiss, 1509, 431 South Dearborn street.

 Young Woman's Christian Home—501 S. Ashland-bd.

CHICAGO ACADEMY OF FINE ARTS.

81 East Madison street.

President—Carl N. Werntz.

Vice-President—M. M. Newman.

Secretary—E. M. Ashcraft, Jr.

The Chicago Academy of Fine Arts was founded in October, 1902. Its object is to popularize art and art education through the more practical channels of illustration, cartooning, commercial illustration, design, normal art training, crafts, miniature, etc. It was the first school to teach commercial art, craftwork, miniature and cartooning in exclusive classes; also the first school to give its students training in business ethics and selling systems. The average attendance is 700 pupils per year, with

twenty instructors, the faculty including some of the best known local artists. There are day and evening classes and the rates of tuition are as follows:

Afternoons only, \$26 for three months.

Mornings only, \$26 for three months.

All day classes, \$110 per season of ten months.

Evening classes, \$23 for ten months, three nights weekly.

Sunday class, \$23 for ten months.

Saturday classes for school teachers, children and others, \$5 for three months.

All classes limited.

CHICAGO'S FREE PUBLIC BATHS.

Operated by the health department; G. B. Young, M. D., commissioner; E. T. Olsen, M. D., chief of bureau of hospitals, public baths and lodging house.

Names and location of baths:

Carter H. Harrison—759 Mather street.

Martin B. Madden—3825 Wentworth avenue.

William Mavor—4647 Gross avenue.

Robert A. Waller—19 South Peoria street.

Kosciuszko—1444 Holt street.

DeWitt C. Cregier—1153 Gault court.

John Wentworth—2839 South Halsted street.

Theodore T. Gurney—1141 West Chicago avenue.

William B. Ogden—3346 Emerald avenue.

Joseph Medill—2138 Grand avenue.

Thomas Gahan—4226 Wallace street.

Pilsen—1849 Throop street.

Fernand Henrotin—2415 North Marshfield avenue.

William Loeffler—1217 South Union street.

Simon Baruch—1911 West 20th street.

Free baths are given at the 14th street and 22d street pumping stations and at several lake branches. The Carter H. Harrison bath, opened in January, 1904, is said to have been the first free public bath in the United States. Similar baths in Vienna charged a fee of 2 cents and those in New York 5 cents. The Madden bath was opened in April, 1897; the Mavor bath in May, 1900; the Kosciuszko bath in February, 1901; the Kosciuszko bath in April, 1904; the Cregier bath in October, 1905; the Wentworth bath in December, 1905; the Gurney bath in May, 1906; the Ogden bath in July, 1906; the Medill bath in September, 1906; the Gahan bath in November, 1907; the Pilsen bath in March, 1908; the Henrotin bath in September, 1908; the Loeffler bath in February, 1909, and the Baruch bath in April, 1910. The average cost of each plant has been between \$15,000 and \$20,000, and the average annual cost of maintenance, \$4,000.

LEGAL FARES FOR CABS, CARRIAGES AND TAXICABS.

ONE-HORSE VEHICLES.

1. For one or two passengers, not exceeding one mile.....\$0.50
2. For each additional passenger, 25 cents for the first mile or part thereof only..... .25
3. For one or more passengers for the second mile and subsequent miles or part thereof, 25 cents for all for each such mile or part thereof..... .25
4. For children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.
5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:
For the first hour..... 1.00
For each additional hour or part thereof at the rate of \$1 an hour.
6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged, the driver shall have the right to charge for the time necessary to return to such place.

TWO-HORSE VEHICLE.

1. For one or two passengers not exceeding one mile.....\$1.00
2. For each additional passenger, 50 cents each for the first mile or part thereof only..... .50
3. For one or more passengers for the second mile and subsequent miles or part thereof, 50 cents for all for each mile or part thereof..... .50
4. Children between 5 and 14 years of age, when accompanied by an adult, not more than half of the above rates shall be charged for like distances. For children under 5 years of age, when accompanied by an adult, no charge shall be made.
5. For the use of any vehicle mentioned in this section conveying one or more passengers, when hired by the hour with the privilege of going from place to place and stopping as often as may be required, as follows:
For the first hour..... 2.00
For each additional hour or part thereof, at the rate of \$1.50 an hour.
6. In the case of any vehicle described in this section being engaged by the hour and discharged at a distance from the place where it was engaged, the driver shall have the right to charge for the time necessary to return to such place.

Hiring by the Hour—Must be so specified at the time of hiring. In all cases where the hiring of any vehicle licensed under the provisions of this article is not at the time of such hiring specified by the person hiring same to be by the hour, it shall be deemed to be by the mile, and for any detention exceeding a total period of fifteen minutes during the whole period of such hiring, when so working by the mile, the driver may demand pay for such period of detention at the rate of \$1.50 per hour in addition to the rate per mile.

Baggage—Every passenger upon any vehicle licensed under the provisions of this article shall be allowed to have conveyed with him upon such vehicle, without charge therefor, his ordinary light traveling baggage in an amount not to exceed in weight seventy-five pounds.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the driver of such vehicle shall upon the discovery of such package, baggage or goods forthwith deliver the same to the board of inspectors of passenger vehicles.

TAXICABS.

No person, firm or corporation owning, operating or controlling any taxicab shall let the same for hire or reward for a fee or charge to be fixed and determined by the hour or fraction thereof, but the

fare demanded and received shall (excepting for waiting time as herein provided for) be computed by the distance traveled and shall not exceed the following rates:

- For the first one-half mile or fraction thereof, for one person.....\$0.50
For each one-fourth mile thereafter..... .10
For each additional person for whole journey. .20
For each four minutes of waiting..... .10

Waiting Time—Waiting time shall include the time during which the taxicab is not in motion, beginning with its arrival at the place to which it has been called, or the time consumed while standing at the direction of a passenger, but no charge shall be made for time lost for inefficiency of the taxicab or its operator or for time consumed by a premature arrival in response to a call; provided, however, that no operator or driver of any taxicab which has responded to the call of a prospective passenger shall throw down or place in a recording position the flag attached to the taximeter until at least eight minutes' waiting time has elapsed. Charge Before Consumed.

Operator to Announce Change Before Changing Position of Flagpost—It shall be the duty of the operator or driver of every taxicab at the termination of his services to throw the flag to the nonrecording position on the taximeter and call the passenger's attention to the amount registered. The taximeter shall not be changed until after the fare is paid or a charge ticket therefor made out and delivered to the person hiring such taxicab.

Baggage—Every passenger upon any taxicab shall be allowed to have conveyed with him upon such vehicle, without charge therefor, his ordinary light traveling baggage in an amount not to exceed in weight fifty pounds. A fee of 20 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the board of inspectors of passenger vehicles.

AUTOMOBILES (OTHER THAN TAXICABS).

Rates of Fare—The rate of fare to be asked or demanded by the operator or person in charge or control of any automobile, autocar or other similar vehicle operated for the conveyance of passengers, for hire or reward, within the city, shall not exceed the following prescribed rates:

Seating Capacity Not Exceeding Two Passengers—For the use of any such vehicle the seating capacity of which shall not exceed two persons, at the rate of \$3.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$1.00.

Seating Capacity from Three to Five Passengers—For the use of any such vehicle the seating capacity of which shall be more than two persons, and not exceeding five persons, at the rate of \$4.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$1.50.

Seating Capacity More than Five Passengers—For the use of any such vehicle the seating capacity of which is more than five persons, at the rate of \$5.00 per hour; provided, however, that no operator of such vehicle shall be compelled to rent the same for a fee of less than \$2.00.

Rate to Be Based on Time Vehicle Is in Use—The rate of fare to be asked or demanded by such vehicles not equipped with taximeters shall be determined in accordance with the time in which the vehicle is in use by the passenger or passengers engaging the same.

Operator's Seat Not to Be Counted—In determining the seating capacity of any such vehicle, neither the operator's seat nor any portion thereof shall be computed, but the seating capacity shall be determined by the number of persons which can be accommodated in the interior or tonneau of such vehicle.

No Charge for Answering Call or for Return from Call—No charge shall be made for the time con-

MUNICIPAL VOTERS' LEAGUE PLATFORM PLEDGE.

Following is the platform and pledge submitted to all aldermanic candidates in 1912 by the Municipal Voters' league for their signature:

"1. The aldermanic office involves service for the whole people. An alderman should discharge his duties with an eye not solely to the local interests of his ward, but to the city's interests at large.

"2. The office of alderman is nonpartisan in its nature and should be discharged without reference to party affiliations.

"3. All council committees should be organized strictly on the basis of integrity and fitness and without regard to party.

"4. No alderman should accept or hold any duty or employment or be, directly or indirectly, connected with or engaged in any business or enterprise in conflict with the city's interest, or tending to interfere with the disinterested discharge of his duties, or to prevent his unrestricted activity for the public good.

"5. No alderman should seek or demand a permit, special privilege or immunity for any individual or corporation in conflict or inconsistent with the public interest, or denied to the citizens generally.

"6. The health and welfare of the people depend in large measure on hygienic and sanitary conditions and every alderman should strive to have these constantly improved and maintained in the best possible state. The public health should in no instance be sacrificed to special interests.

"7. The city in all its departments should have a thorough and businesslike system of accounting and auditing. Through periodic examinations, the employment of experts and the technical study of the functions, administration and requirements of the various branches of municipal government, improved business methods should be introduced into all of them, so that not only may economies be effected, but the most approved and skilled service rendered to the people.

"8. An alderman should uphold the strict enforcement of the civil service law and the application of the merit system to municipal employment.

"9. Grants for street railways, subways, tunnels, wharves, docks and other public utilities, including telephone, telegraph, gas and electric lighting, heating, refrigerating, power and other like services, should be for as short a term as is consistent with the best service to the public; provided, no grant for a term exceeding twenty years should become effective unless and until approved on a referendum. All grants to a given corporation or individual should expire at the same time and no supplemental or collateral grant should run beyond the time when the main grant expires.

"10. No grant should be made for any public utility without expressly reserving to the city the opportunity for municipal purchase, at or before the expiration of such grant, upon fair terms and reasonable notice.

Ward.

2. Hugh Norris, Rep.

3. St. Mayer, Dem.

4. John A. Richert, Dem.

22. John H. Banler, Dem.

23. Victor J. Schaffer, Rep.

23. John Kjellander, Rep.

24. John Haderlein, Dem.

"11. Every grant for a public utility should be expressly subject to the right of the corporate authorities of the city to control the use, employment and repair of the streets, alleys or other public places granted for that purpose and to make all necessary or appropriate police regulations concerning the erection, construction, maintenance, use and operation of the property or structure thereby permitted. Such right of regulation should specifically include the power (1) to make reasonable regulations of the charges to be made to the people in the operation of such public utilities; (2) to require adequate service to the public and reasonable extensions of such service and of such public utility works from time to time; (3) to require the use of the most approved appliances and equipment.

"12. All grants for any public utility should provide for uniformity and publicity of accounts and should reserve to the city the power to require properly verified detailed reports, as well as the power to examine from time to time the books, accounts, vouchers and records relating to the conduct of the business and to verify the same by an examination of the actual condition of the property.

"13. All public service corporations are entitled to a fair return on the actual value of the tangible property employed by them in properly conducting such public utilities, over and above all proper and legitimate expenses and charges for depreciation and renewals. The remaining income from such public utilities should be conserved for the people and should be realized by them either in reduced rates or a percentage of the receipts as direct compensation, or both.

"14. In order that the city council may intelligently exercise its right to fix reasonable rates and make reasonable regulations in connection with the operation of public utilities, competent and trustworthy experts should be engaged from time to time to gather and arrange the necessary data, figures and information on which a correct judgment and conclusions may be based and these should be laid before the council and the public a reasonable length of time before any rate regulation ordinance is adopted.

"15. The application of the referendum to such matters of grave public importance as the issuance of municipal bonds has for years operated with distinct advantage and the opportunity should be afforded for its application to the settlement of all important policies with reference to public utilities.

"I, the undersigned a candidate for alderman from the — ward, freely place the foregoing platform before my constituents and the whole people of the city of Chicago and pledge myself to adhere to these principles and to work and to vote in committee and on the floor of the council to carry out the same."

The following aldermen, elected April 2, 1912, signed the above pledge:

 West Side Free—Congress and Honore (College of Physicians and Surgeons); daily, except Sundays. 10 a. m. to 4 p. m.

CHICAGO TUBERCULOSIS INSTITUTE.

411, 157 West Adams street.
 President—Henry B. Pavill.
 Secretary—Sherman C. Kingsley.
 Superintendent—Frank E. Wing.

CHICAGO BUREAU OF PUBLIC EFFICIENCY.

Organized in 1910.
 Trustees—Julius Rosenwald, chairman; Alfred L. Baker, treasurer; Onward Bates, George G. Tunnell, Charles R. Crane, Henry B. Favill, Walter L. Fisher.
 Director—Harris S. Keeler.
 Secretary—George C. Sikes.
 Headquarters—City Club building, 315 Plymouth-st.
 The purposes of the organization are:
 (1) To scrutinize the systems of accounting in the eight local governments of Chicago.
 (2) To examine the methods of purchasing materials and supplies and letting and executing con-

struction contracts in these bodies.
 (3) To examine the pay rolls of these local governing bodies with a view of determining the efficiency of such expenditures.
 (4) To make constructive suggestions for improvements in the directions indicated under 1, 2 and 3, and to co-operate with public officials in the installation of these improved methods.
 (5) To furnish the public with exact information regarding public revenues and expenditures, and thereby promote efficiency and economy in the public service.

AMERICAN FENCE

Square Mesh, Hinged-Joints (patented) with Flexible Stays

A square mesh fence of weight, great strength and durability. Large wires in both the horizontals and the uprights, and the whole fabric woven together with the American hinged joint (patented), making the most substantial and flexible union mechanically possible. Both wires are positively locked and firmly held against side slip and yet are free to act like a hinge in yielding to pressure and returning quickly to place without bending or injuring the metal. Many years of the hardest usage in the field have demonstrated the value of the American forms of construction, justly entitling it to be called a resilient wall of steel solid and enduring.

ELLWOOD FENCE

Diamond Mesh, Elastic Cables

The steel in Ellwood fence is especially made for the purpose from carefully selected stock; it is hard, elastic, tough and springy. The line wires, composed of two or more wires twisted into cables, give each individual wire the shape of an elongated coiled spring. The fence is therefore sufficiently elastic to take care of expansion and contraction, and yet so rigid when properly stretched as to prevent sagging. The small and permanent mesh is made by weaving one continuous wire throughout the fabric. The mesh of stay wires are so interwoven that slipping is impossible. The triangular truss is the strongest form of construction known; for this reason, Ellwood fence will stand the hardest usage and still retain its shape.

ROYAL FENCE

Square Mesh, Continuous Stays, with Royal Loop

Is made of heavy, hard, stiff steel wire, the strongest and best possible to produce for fencing purposes. The stay or upright wires are continuous from top to bottom of the fence and secured to the horizontal wires by the Royal loop. Being wrapped around the horizontal wires entirely within the tension curves, the stays are rigidly held in place and side slipping prevented. The whole forms a fabric of the greatest strength and ample flexibility, the best of the continuous stay fences.

ANTHONY FENCE

Square Mesh, Rigid Stays, with Anthony Knot

The upright and horizontal wires are tied with the famous Anthony knot, the smallest fence knot made. Machinery of special design has been brought to such a degree of perfection that the most nicely balanced woven wire fabric is produced, each wire drawing with mathematical precision under equal tension and uniformly even with the others. This brings into play, under stress of action, all the wires within a considerable radius of the center of contact, affording to an extraordinary degree great resistance combined with flexibility.

NUMBER OF TEACHERS.

May 2, 1912, there were 6,740 teachers in the public school system, 1,538 in the parochial schools and 1,347 in private schools (not parochial), business colleges, etc.

EPILEPTIC CHILDREN.

The school census enumerators found 291 epileptic children of school age, though the canvass was handicapped to some extent by the sensitiveness of parents who attempted to conceal the facts. The greater number of epileptics was found in the 33d, 17th, 22d, 16th and 29th wards.

BLIND, DEAF AND DUMB.

The enumerators found 259 blind children in the city, the greatest number being reported from the 8th, 3d and 26th wards. Deaf minors numbered 551, most of them being in the 32d ward. There were 210 mutes.

CRIPPLED CHILDREN.

The count showed 675 crippled children in the city. Of this number the 9th, 10th, 11th, 8th, 19th, 22d, 26th, 27th, 30th, 15th, 28th and 35th wards contributed the greater number.

ILLITERATES.

The census enumerators found only 157 children over 12 and under 21 years of age who were unable to read or write in any language. There were many who could not read or write in the English, but were able to read or write in some other language. In 1910 there were 401 illiterate minors.

WHERE DIFFERENT NATIONALITIES LIVE.

According to the school census of May 2, 1912, the different nationalities of Chicago are chiefly distributed throughout the wards (as now constituted) of the city as follows:

Americans—25th, 26th, 23d, 7th, 32d and 33d.
Germans—24th, 26th, 25th, 27th, 15th, 16th, 28th and 5th.
Poles—16th, 27th, 17th, 28th, 29th, 4th and 5th.
Italians—19th, 22d and 17th.
Irish—30th, 31st, 32d, 35th, 19th and 5th.
Russians—20th, 19th, 10th, 12th, 34th and 3d.
Bohemians—12th, 11th, 34th, 10th and 29th.
Hollanders—9th.
Austrians—20th, 17th and 29th.
Swedes—25th, 23d, 26th, 27th, 31st, 33d, 8th and 9th.
Norwegians—28th, 27th, 15th, 33d and 35th.
Lithuanians—29th, 4th and 5th.
Scottish and French—Scattered throughout city.
Negroes—30th, 14th, 2d and 3d.
*Born in America of American born parents.

RAILROAD TRACK ELEVATION.

[From report of Francis J. Owens, commissioner of track elevation.]

Ordinances have been passed by the city council and accepted by the railroad companies for the elevation of their roadbeds and tracks from May 23, 1892, to Dec. 31, 1912, covering the following amount of work:

Total number of miles of main tracks to be elevated, 131.
Total number of miles of all tracks to be elevated, 1,140.
Total number of subways to be constructed, 845.
Total estimated cost of the work, completed Dec. 31, 1911, \$70,321,000.
The amount of elevation done from May 23, 1892, to Dec. 31, 1912, was as follows:
Total number of miles of main tracks elevated, 140,422.
Total number of miles of all tracks elevated, 872.

north branch from Kinzie to Halsted street, and on the south branch from 12th street to Halsted street, 6 to 7 a. m. and 5:30 to 6:30 p. m.; all other bridges from 6 to 7 a. m. and 6 to 7 p. m.

ANNEXATION OF MORGAN PARK INVALID.

The annexation of the village of Morgan Park to the city of Chicago at the election of April 4, 1911, was declared invalid in a decision of the Illinois State Supreme court June 21, 1912. It was held

that the presence within Morgan Park of the town of Calumet would result in the inclusion of unincorporated territory within the city, which was contrary to the statute.

LINCOLN PARK SYSTEM.

Commissioners (Appointed by Governor with Consent of Senate)—Leo Austrian, F. H. Gansberger, Bryan Lathrop, Amos Pettibone, Francis T. Simmons, Frederick L. Wilk, Charles H. Wilson. Officers—Francis T. Simmons, president; Bryan Lathrop, vice-president; Frederick L. Wilk, auditor; Theodore Freeman, treasurer; M. H. West, superintendent and secretary; A. S. Lewis, assistant superintendent and secretary; C. A. Churran, attorney.

Office—In Academy of Sciences, Lincoln park, Clark and Center streets.

The Lincoln park district consists of the towns of North Chicago and Lake View, with Fullerton avenue as the dividing line, and is bounded on the north by Devon avenue, on the south by the Chicago river and extends from Lake Michigan on the east to the north branch of the river and North Western avenue on the west.

The area of the Lincoln park district is 12.64 square miles. The total area of the parks and boulevards is 699.94 acres, with 9.33 miles of boulevards.

Lincoln Park—Lincoln park, previously known as Lake park, began its history under its present name by resolution passed by the common council of Chicago under date of June 8, 1865. The park proper is 317 acres in extent and extends from Diversey boulevard to Oak street along the lake front. To this 235 acres of land is being added by filling in Lake Michigan north of Diversey boulevard. This extension will contain a seventy-acre yacht harbor and will have bathing facilities.

The park contains a large floral department, also an extensive zoological garden containing about 1,700 animals. Boating and bathing facilities are furnished and the park lagoon—one mile in length—gives an admirable course for racing. The Academy of Sciences is located in the park at the foot of Center street. This building was erected in 1893 and contains about 250,000 specimens. It is noted for its collection of local natural history specimens and for its complete collection of mollusks.

The park has provided facilities for outdoor games during both the winter and summer seasons.

Stanton Park—At Vedder, Vine and Rees streets; area 5 acres.

Lake Shore Playground—Area 9.160 acres; is situated between Pearson street and Chicago avenue, extending from the Chicago avenue pumping works to the lake. This park is fitted up as a playground, containing a shelter house, refectory, with outdoor gymnasium apparatus.

Seward Park—Contains 1.73 acres; is fitted with outdoor and indoor gymnasium and has a field-house which contains reading rooms, assembly hall, clubrooms, restaurant, a branch of the public library and facilities for gymnastic work and aquatic sports.

Hamlin Park—Wellington and Robey streets; area 10 acres; is fully equipped with fieldhouse and out-of-door gymnasium facilities.

Welles Park—Western avenue and Montrose boulevard; area 10 acres.

LENGTH OF NORTH SIDE BOULEVARDS.

In miles and fractions of miles.

Dearborn parkway, 123.	North avenue, .450.

Lincoln parkway, .539.	

SOUTH PARKS.

Commissioners (appointed by Circuit court judges)—Henry G. Foreman, Charles L. Hutchinson, Joseph Donnersberger, Edward Tilden, John Barton Payne.

Officers—John Barton Payne, president; Joseph Donnersberger, auditor; George M. Reynolds, treasurer; John F. Neil, secretary; Robert Redfield, attorney; J. F. Foster, general superin-

tendent; E. O. Greifenhagen, superintendent of employment.

Offices—In Washington park, 57th street and Cottage Grove avenue.

The south park district is bounded on the north by the Chicago river and the Illinois and Michigan canal, east by Lake Michigan and the state of Indiana, south by 87th street and 138th street and west by South 48th avenue and State street.

The area of the south park district is 92.6 square miles; population is in excess of 600,000. The total area of parks is 2,043.98 acres and of parks and boulevards 2,494.59 acres, consisting of twenty-four parks and 32.98 miles of boulevards—3¼ acres of park to each 1,000 inhabitants. The following is a list of the parks and boulevards:

Jackson Park—Area 542.89 acres; bounded on the north by 56th street, east by Lake Michigan, south by 67th street and west by Stony Island avenue; this park is provided with facilities for boating, rowboats and launches, has two golf courses, one of nine holes and the other of eighteen holes with golf shelter, lockers and showers for both men and women; it has baseball and football fields, tennis courts, refectory, beach bathing, music court, the Field museum of natural history occupying the World's Fair art building located in the northern part of the park, and in the winter skating is provided.

Washington Park—Area 371 acres; bounded on the north by 51st street, east by Cottage Grove avenue, south by 60th street, west by South Park avenue; has the same accommodations for the public as Jackson park except the golf facilities and the museum and in addition has croquet courts, archery range, horse speedway, accommodations for fly casting, wading pool and sand court for children and a house for the game of curling.

Marquette Park—Area 322.68 acres; bounded on the north by 67th street, east by California avenue, south by 71st street and west by the Grand Trunk Western railroad. The east 80 acres have been improved. It has ball fields and tennis courts and skating in the winter.

Grant Park—Area 206.14 acres; bounded on the north by Randolph street, east by Lake Michigan, south by Park row, west by Michigan avenue. This park is under construction. Temporary provision is made for athletic work in the northern part of the park. The Logan monument and the Art institute are located in this park.

Midway Plaisance—The connecting way between Washington and Jackson parks; bounded on the north by 59th street, east by Stony Island avenue, south by 60th street, west by Cottage Grove avenue. Has tennis courts and in the winter skating and hockey.

McKinley Park—Area 74.88 acres; bounded on the north by 37th street and Archer avenue, east by Robey street, south by 39th street, west by Western Avenue boulevard. Has swimming pool, outdoor gymnasiums for men and women, tennis courts, ball field, children's playground, wading pool and skating in the winter. Improvements not entirely completed.

Gage Park—Area 20 acres; situated at the intersection of Western avenue and 55th street. Has wading pool, ball field and tennis courts.

Sherman Park—Area 60.60 acres; bounded on the north by 52d street, east by Center avenue, south by Garfield boulevard, west by Loomis street. Has recreation buildings which include an assembly hall used by the people free of charge for various entertainments, clubrooms for meetings of the various clubs of the community, reading room supplied with periodicals by the park commissioners, lunchroom, gymnasiums for men and for women, shower and plunge baths and locker rooms. There are also outdoor gymnasiums for men and women, playground for children, wading pool and swimming pool with the necessary dressing booths. Provision is made for baseball, football, tennis and boating. There is also a band stand under which concerts are given during the summer every Sunday evening. Also skating in the winter.

Jefferson Park—Area 7.02 acres; bounded on the north by Monroe street, east by Throop street, south by Adams street and west by Loomis street.

Vernon Park—Area 6.14 acres; bounded on the north by Macalister place, east by Centre avenue, south by Gilpin place and west by Loomis street.

Wicker Park—Area 4.03 acres; bounded on the north and east by Park street, south by Fowler street and west by Robey street.

Holstein Park—Area 1.94 acres; bounded on the north by Elm street, south by Hamburg street and located one block east of Western avenue. Has an outdoor gymnasium and play field and shelter building, and in winter skating is provided.

Campbell Park—Area 1.38 acres; a strip of land 100 feet wide lying between Oakley boulevard and Leavitt street and one block north of Polk street.

Shedd's Park—Area 1.13 acres; located at 23d street and Millard avenue, opposite Lawndale station of the Chicago, Burlington & Quincy Railway company.

Small Park No. 1—Area, 3.125 acres; bounded on the north by Cornell street, east by Chase street, south by Chicago avenue and west by Noble street. A fieldhouse has been provided containing gymnasium and shower baths for men and women, lockers, library, reading room and assembly hall; also an outdoor swimming pool with shower baths and dressing rooms for men and women. An outdoor gymnasium for men and women, play field with wading pool and sand courts for children and tennis courts and ball grounds have been provided; also skating in the winter.

Small Park No. 2, containing 2.89 acres, bounded on the north by Barber street, east by Jefferson street, south by 14th place and west by Union street, has been completed by the west park board. In this park the same facilities for recreation and pleasure are provided as in the small parks and playgrounds mentioned above.

Small Park No. 3—Area, 3.85 acres; bounded on the north by 20th street, east by Fisk street, south by 21st street and west by May street. The same facilities for recreation and pleasure are provided as in the small park No. 1.

Humboldt boulevard, 2.94 miles long, 100 feet to 400 feet wide, from Diversey boulevard bridge to Humboldt park, connecting the west park system with the Lincoln park system on the north, has

been renamed for house-numbering purposes as follows:

Logan Boulevard—From the Diversey boulevard bridge to North Kedzie boulevard.

North Kedzie Boulevard—From Logan boulevard to Palmer square.

Palmer Square—From North Kedzie boulevard to Humboldt boulevard.

Humboldt Boulevard—From Palmer square to Humboldt park.

Franklin boulevard, 1.5 miles long, 250 to 400 feet wide, connecting Humboldt and Garfield parks, has been renamed for house-numbering purposes as follows:

North Sacramento Boulevard—From Humboldt park south to Franklin boulevard.

Franklin Boulevard—West from North Sacramento boulevard to North Central Park boulevard.

North Central Park Boulevard—South from Franklin boulevard to Garfield park.

Douglas boulevard, 1.63 miles long, 250 feet wide, connecting Garfield and Douglas parks, has been renamed for house-numbering purposes as follows:

Independence Boulevard—South from Garfield park to Douglas boulevard.

Douglas Boulevard—East from Independence boulevard to Douglas park.

Marshall boulevard, 2.17 miles long, 250 feet wide, from Douglas park to the Illinois and Michigan canal, connecting the west park system on the south with the south park system at Western avenue, has been renamed for house-numbering purposes as follows:

Marshall Boulevard—From Douglas park south to West 24th boulevard.

West 24th Boulevard—East from Marshall boulevard to South California boulevard.

South California boulevard—From West 24th boulevard south to West 31st boulevard.

West 31st Boulevard—From South California boulevard east to South Western Avenue boulevard.

South Western Avenue Boulevard—South from West 31st boulevard to the Illinois and Michigan canal.

Washington boulevard, 6.31 miles long, from 66 to 100 feet wide, from Canal street west to the city limits through Union park and Garfield park, a continuation of Washington street on the south side, has been renamed for house-numbering purposes West Washington boulevard.

Jackson boulevard, 2.94 miles long, from 66 to 80 feet wide, from the Chicago river west to Garfield park, a continuation of Jackson boulevard on the south side, has been renamed for house-numbering purposes West Jackson boulevard.

Ashland boulevard, 1.26 miles long, 100 feet wide, from Lake street south to 12th street, has been renamed for house-numbering purposes as follows:

North Ashland Boulevard—From West Lake street south to West Madison street.

South Ashland Boulevard—South from West Madison street to West 12th boulevard.

Twelfth Street boulevard, 0.93 mile long, 70 feet wide, from Ashland boulevard to the intersection of Oakley and Ogden boulevards, a continuation of West 12th street, has been renamed for house-numbering purposes West 12th boulevard.

Ogden boulevard, 0.74 mile long, from 70 to 112 feet wide, from the intersection of Oakley boulevard and West 12th boulevard through Douglas park.

Central Park avenue, 0.33 mile long, 80 feet wide, from West Madison street to Colorado avenue, along the east side of Garfield park, has been renamed for house-numbering purposes South Central Park boulevard.

Oakley boulevard, 1.10 miles long, from Washington boulevard to the intersection of West 12th boulevard and Ogden boulevard, has been renamed for house-numbering purposes as follows:

North Oakley Boulevard—South from West Washington boulevard to West Madison street.

South Oakley Boulevard—South from West Madison street to West 12th boulevard.

North Sacramento Boulevard—From Franklin boulevard south to West Madison street.

South Sacramento Boulevard—From West Madison street south to Douglas park.

SMALL PARKS AND PLAYGROUNDS.

Special Park Commission (appointed by the mayor)—Aldermen A. W. Beilfuss, Henry P. Bergen, Henry D. Captain, J. Edward Clancy, E. F. Cullerton, John Haderlein, George F. Harding, Jr., Irwin R. Hazen, Charles Martin, Frank McDonald, William F. Schultz and J. P. Stewart; Charles E. Bock, Frank P. Danisch, Joseph Donnersberger, Paul Drzymalski, Cyril Fiala, Peter S. Goodman, Jens Jensen, William Kolacek, George Landau, Abraham M. Liebling, F. A. Lindstrand, Oscar F. Mayer, Dr. James B. McFatrach, the Rev. Julius Rappaport, Charles F. L. Richter, Samuel J. Rosenblatt, Francis T. Simmons.

Secretary—Walter Wright.

Superintendent of Parks—J. H. Prost.

Superintendent of Playgrounds and Bathing Beaches

—Theodore A. Gross.

Office of Commission—1004 city hall.

The special park commission is appointed by the mayor by authority of the city council. It has charge of a number of small parks and squares which are under the immediate jurisdiction of the city, and it also conducts several bathing beaches on the lake shore and a number of municipal playgrounds. The parks are provided with ornamental and drinking fountains, wherever it is practicable, lagoons, swings, tennis courts and landscape and other features according to circumstances. The playgrounds are provided with play apparatus, athletic fields, baseball diamonds, basket-ball courts, skating ponds, drinking fountains, running tracks, gymnastic apparatus and buildings containing toilet rooms, offices, sand courts and roofed platforms. The bathing beaches are provided with bathhouses containing dressing rooms, lockers, checkrooms, washrooms, toilets and office.

In 1910 the city appropriation was \$4,290 for administration, \$62,452 for parks, \$56,756 for playgrounds, \$6,345 for city forester and \$4,069 for bathing beaches.

Following is a list of the small parks, playgrounds and bathing beaches in charge of the special park commission, with the area of the parks in acres. Two parks maintained privately are included in the list and are so described:

Adams Park—75th place, 76th street and Dobson avenue; $\frac{1}{2}$.

Aldine Square—Vincennes avenue, 37th place and alley north of 38th place; $\frac{1}{4}$.

Amy L. Barnard Park—105th street, between Longwood boulevard and Walden parkway; $\frac{1}{4}$.

Arbor Rest—Chestnut, Rush and Cass streets; $\frac{3}{4}$.

Arcade Park—11th place, 12th street, Morse avenue and Watt avenue; $\frac{7}{8}$.

Archer Point—Archer avenue, 20th street and Dearborn street; $\frac{1}{8}$.

Auburn Park—Normal, Stewart and Hawthorne avenues.

Austin Park—Waller avenue, Northwestern railway, Austin avenue and Lake street; $\frac{4}{5}$.

Belden Avenue Triangle—North Clark street, Sedgwick street and Belden avenue; $\frac{1}{8}$.

Bickerdike Square—Ohio street, Bickerdike street, Ashland place and Armour place; $\frac{1}{4}$.

Blackstone Point—Lake avenue, Washington avenue and 49th street; $\frac{1}{8}$.

Buena Circle—Buena avenue and Kenmore avenue; $\frac{1}{2}$.

Buena Terrace—Sheridan road, Evanston avenue and Buena terrace.

Colorado Point—Colorado avenue, Monroe street and Francisco avenue; $\frac{1}{8}$.

Columbus Circle—Exchange avenue, South Chicago avenue and 92d street.

Congress Park—Van Buren street, Rockwell street, Harrison street and Washtenaw avenue; $\frac{3}{4}$.

DeKalb Square—Lexington street, Hoyne avenue, Flournoy street and DeKalb street; $\frac{3}{4}$.

Dickinson Park—North 50th avenue, Dickinson avenue and Belle Plaine avenue; $\frac{1}{4}$.

Douglas Monument Park—Woodland park, Illinois Central, 35th street and alley west of railroad; 3.

East End Park—East End avenue, 51st street, 53d street and the lake; 10.

Eldred Grove—North 54th avenue, Norwood Park avenue, 53d avenue and Northwestern railway; 1.

Ellis Park—36th street, Langley avenue, 37th street and Elmwood court; 4.

Eugenie Triangle—Eugenie street, North Clark street and LaSalle avenue; $\frac{1}{8}$.

Fernwood Park—103d street, 95th street, Stewart avenue and Canal street; 8.

Gage Farm and Nursery—22d street, 26th street, west of Oak Park avenue; 240 acres.

Green Bay Triangle—North State street, Rush street and Bellevue place; $\frac{1}{8}$.

Gross Park—Otto street, North Paulina street, School street, Ravenswood avenue; $\frac{1}{2}$.

Groveland (private)—Cottage Grove avenue, 34th street and Illinois Central railway; $\frac{3}{8}$.

Harding Avenue Parkway—West Byron and West Addison streets and Springfield and North 40th avenues.

Holden Park—Lake street, Indiana street, Central avenue and Park avenue; 4.

Independence Square—West 14th street and Hamilton avenue; $\frac{3}{8}$.

Irving Park—Irving Park boulevard, Northwestern railway, near 42d avenue; $\frac{1}{2}$.

Kedzie Park—Kedzie avenue, between Palmer place and North avenue; 2.

Kinzie Parkway—Kinzie street, between 52d avenue and Willow avenue; $\frac{1}{4}$.

Lakewood Point—Greenwood avenue, Lake avenue and 43d street; $\frac{1}{2}$.

Lily Gardens, The—Lowe avenue, Chicago & Western Indiana railroad, 71st and 73d streets; 3.

Merrick Park—Pine avenue, Willow avenue, Indiana street and Kinzie street; $\frac{6}{8}$.

Midway, The—Midway, between Waller and Austin avenues; $\frac{1}{2}$.

Montrose Point—Montrose avenue, Sheridan road and Evanston avenue.

Mulberry Point—Crescent avenue, Ceylon avenue and Mulberry avenue; $\frac{3}{8}$.

McKenna Triangle—38th street, Archer avenue and Campbell avenue.

Normal Park—47th street, 69th street, Lowe avenue and Western Indiana railroad; $\frac{2}{3}$.

Norwood Circle—Hobart avenue, Colfax place and Circle avenue; $\frac{2}{3}$.

Oak Park—Oak, Rush and State streets; $\frac{1}{2}$.

Oakland Park—Lake avenue, 39th street and Illinois Central road; $\frac{3}{4}$.

Ogden Arrow—North Clark street, Wells street and Ogden front; $\frac{3}{8}$.

Patterson Park—Leavitt, Boone and DeKalb streets; $\frac{3}{4}$.

Pullman Park—11th street and place, Cottage Grove avenue and Morse avenue; $\frac{3}{8}$.

Rice Triangle—Grand avenue and Western avenue; $\frac{1}{8}$.

Rocky Edge—Lake Michigan and 79th street; $\frac{3}{4}$.

Railway Gardens—Avondale and Ceylon avenues, south of Northwestern railroad; also on Norwood Park avenue, north of Northwestern railroad; $\frac{2}{3}$.

Roberts Square—Winnemac avenue, North 52d avenue, Argyle avenue and North 53d avenue; 5.

Rutherford Park—Humboldt, North 69th and North 68th avenues; $\frac{4}{5}$.

Sacramento Avenue Parking—Sacramento avenue, 26th street and House of correction; $\frac{3}{8}$.

Sayre Park—69th avenue, West Belden avenue, 68th court and Humboldt avenue; $\frac{3}{4}$.

Schenbrofen Place—Canal street, Canalport avenue and 18th street; $\frac{1}{2}$.

Washington Square—North Clark street, Walton place, Dearborn avenue and Washington place; 3.

Winnemac Avenue Park—Robey street, Winnemac avenue, Foster avenue and Clay street; 40.

Woodland Park (private)—Cottage Grove avenue, Illinois Central road, between 34th and 35th streets; $\frac{3}{4}$.

MUNICIPAL LODGING HOUSE.

162 North Union street. Operated by health department; G. B. Young, M. D., commissioner; E. T. Olsen, M. D., chief of bureau of hospitals, public baths and lodging house.

The municipal lodging house is for the benefit of all homeless and indigent men and boys in the city. Lodging, a bath and food are provided free for every applicant for one night, and longer if he is honestly seeking employment. The crippled, old or infirm are sent each morning to hospitals, dispensaries or homes. Employment is found for the able-bodied and industrious. Statistics for the calendar years, 1908, 1909 and 1910 are as follows:

	1908.	1909.	1910.	1911.

OLD RESIDENTS OF CHICAGO.

Nov. 15, 1912.

In the following list of men and women who have lived in the city or its suburbs for sixty-two years or more there are doubtless many omissions, though an effort has been made to make it as complete as possible. Additions to, changes of residence and other corrections of this list, which will be continued in future editions of this publication, will be gladly received. Names marked with an * are those of persons born in Chicago or Cook county. Ages when known are given in parentheses: 1832—Allison, John, Northfield.

Heartt, Adaline N. (81), 3219 Prairie avenue.
Keenon, Mrs. Eleanor H. * (80), 2145 W. Adams-st.
Outhet, Miss Elizabeth (81), 522 Pleasant street, Oak Park.

1833—Brookes, Frederick W. (85), 11120 Armida avenue, Morgan Park.

Brooks, P. T. (88), 5294 Ainslie street.
Foote, George C. * (79), 1123 W. Van Buren street.

Goodwin, Mrs. Caleb, (88), 939 Winthrop avenue.
Vanatta, Charles (80), 2336 Grand avenue.

1834—Clingman, Mrs. William (85), 4809 Madison-av.
Fuller, Edward (79), Fullersburg, Ill.

Gerber, Barbara (84), 6154 South Halsted street.
Lorger, Mathias (79), 4409 Princeton avenue.

Ludwig, Catherine, 215 West Goethe street.
Peck, Mrs. Amilla * (78), Berwyn.

1835—Barnum, William E. * (77), 6400 Normal-av.
Brown, Lockwood S., 113 Cass street.

Clarke, Mrs. Mary E. Carver (77), 239 N. May-st.
Clingman, Mrs. William (83), 6117 Monroe avenue.

Coleman, Mrs. Deborah C., 2329 Archer avenue.
Cribb, Mrs. Charlotte M. * (77), Lake Villa, Ill.

Dewey, Mrs. Mary R. (80), 5700 Jackson avenue.
Dodge, J. S. (90), Glen Ellyn, Ill.

Dunham, Daniel (91), Wayne, Ill.
Fox, Annis Roxana, 822 West Adams street.

Gale, Edwin O. (80), Oak Park, Ill.
Gordon, Nellie Kinzie * (77), Savannah, Ga.

Harman, William (78), 3840 West End avenue.
Healy, Daniel E. (78), 2700 Lime street.

Kilham, Benjamin (80), 2811 Archer avenue.
Sayre, Mrs. Harriet (82), Mont Clare.

Sinclair, George (78), 4327 Berkeley avenue.
Smith, Charles B. (83), 223 Morse-av., Pullman.

Thies, Mrs. A. C., 1157 West Van Buren street.
Ward, Henry A. * (78), Sycamore, Ill.

Whitehead, William H. (77), 1808 Chicago avenue, Evanston, Ill.

Young, Mrs. George H. (79), 327 Warren avenue.
1836—Barnes, Charles S. * (76), Batavia, Ill.

Brooks, Mrs. E. C. (80), 1072 Sheridan road.
Burton, Mrs. Ann W. (92), Congress hotel.

Doty, Mrs. E. D. * (76), 550 65th street.
Ford, James M. (76), 193 Superior street.

Furbeck, Mrs. Elizabeth A. P. M. (76), 42 Central avenue, River Forest.

Garrity, Mrs. M. E. (76), 294 Hudson avenue.
Gilbert, Henry * (76), 3825 Iowa street.

Goeden, Susan (78), 1900 Estes avenue.
Hampton, Mrs. S. A. (87), 651 Warren avenue.

Huehn, Anna Mary (77), 1230 Wells street.
Keefe, Edward (78), 4417 Lake avenue.

Lewis, Mrs. Jane (90), 5409 Washington avenue.
Morrison, E. W. (76), 759 West Harrison street.

McNulty, Mary (77), 1751 West Erie street.

LANDSCAPE GARDENING.

THE landscape artist who makes a life study of landscape gardening is to-day absolutely essential to the beautiful home and its surroundings. The professional sees the effects of artistic decorative features for the environs, with respect to natural topography and foliage. One finds in the colonial days of this country the available wealth was limited, and only a few of the larger land holders attempted to beautify their lands and gardens. What was done in this respect in the early history of the country was principally in the care and attention to the trees and the planting of old fashioned flowers and hedges to enhance the approach to the colonial mansion. As time passed the country went through a period of inartistic attempts with ineffectual material to improve the appearance of lawns and landscape approaches. However, the environs of the pretentious homes to-day are efforts of the artist who confines his genius in this direction. J.

Durand Steel Lockers

Are an absolute necessity in every building—employers and employees need them; students need them.

They are made of fine furniture steel, finished in baked enamels; cost very little more than wood and are fireproof, sanitary and safe.

*A strike in the mechanical and distributing departments of all Chicago newspapers began May 2, affecting circulation until Nov. 18. The records for May and the first part of June are incomplete because of the demoralization of the machinery of distribution. The figures from May 2 to 14 are very

much below the number sold, while those from May 15 to June 11 are swollen by unsold papers of which no record was at the time possible. The daily average for the month of May is believed to be under rather than over the actual net sold circulation, while the June average is slightly in excess of the net sold.

The omission of circulation figures for December is due to going to press before the end of the month; the circulation for the entire year will be given in subsequent editions of the Almanac.

TABLE OF CONTENTS

OF FIRST TWENTY-EIGHT VOLUMES (1885 TO 1912 INCLUSIVE) OF THE CHICAGO DAILY NEWS ALMANAC AND YEAR-BOOK.

NOTE—The figures following the year are the page numbers of that volume.

Complete sets of THE DAILY NEWS ALMANAC AND YEAR-BOOK from the year 1885 to 1913 inclusive can be supplied for \$14, transportation prepaid. The first five issues for the years 1885, 1886, 1887, 1888 and 1889 are bound in one volume, half morocco, library style. This volume is sold only to purchasers of complete sets. A complete set embraces the library volume and a cloth bound issue for each succeeding year.

Single cloth bound copies can be bought only for the years 1890, 1893, 1894, 1895, 1896, 1898, 1899, 1900, 1903, 1909, 1911, 1912 and 1913. These are supplied at the rate of 50 cents each, transportation prepaid. Single paper covered copies can be supplied for each year from 1886 to 1903, except 1897 and 1899, for 25 cents each at the office of publication, or 35 cents by mail.

Orders should be addressed to THE DAILY NEWS office, 15 5th avenue, North, Chicago.

THE business of R. HOE & CO. has been established over ONE HUNDRED YEARS. It is the largest manufacturing concern in the world of printing, lithographing, stereotyping, electrotyping and photo-engraving machinery.

Over 2,500 men are employed in the New York factory, which has a floor area of over twenty acres. A European factory is operated in London, where over 600 men are employed.

Presses are designed and built to suit all classes of printing and to meet all possible conditions. Over one hundred models of Hoe Rotary Presses are in successful operation.

The name of R. HOE & CO. on a printing press or other machine is an assurance of reliability, efficiency and economy in operation.

If you have difficulty in getting your present product out economically and on time, write to us and our printing machinery engineers will be pleased to give competent advice.

R. HOE & CO.

State and Quincy Building

THIS building is located at the Northwest Corner of State and Quincy Streets, in the heart of the shopping district and convenient to all transportation lines, and is to be completed and ready for occupancy May 1, 1913.

In construction it is of the highest class of steel fire-proof building, twenty-one stories in height, built on caisson foundation to rock bottom. The exterior construction is of glazed white terra cotta, and the interior finish of mahogany trim throughout with marble walls and floors in corridors and hard maple flooring of the best quality in the interior of rooms.

The building has a frontage of sixty-two and one half feet on State Street and one hundred and forty-four and one-half feet on Quincy Street to an alley in the rear, and on the north to a point about fifty-five feet from the rear and which assures light and air on every floor from the first to the sixth, and by reason of the fact that the building adjoining this on the north is under the same ownership, natural

light and air are assured on all floors from the seventh up on all sides—North, South, East and West.

The main entrance and corridor is located on State Street about the center of the building, and is the most imposing and attractive of any entrance of any building in the city. The entire interior is finished in white Italian marble and mosaic floor with bronze fixtures for indirect lighting, and solid bronze elevator enclosures. A bronze canopy on the exterior over the main entrance doors adds elegance to the general appearance.

The elevators, of which there are six passenger and one freight, are of the newest type, highest speed electric, equipped with all the most modern improvements for safety and convenience of passengers and with a modern signal service.

The lower floors of the building are devoted principally to shops, while the floors from the seventh up are for office purposes. The barber shop and men's toilet are located on the sixth floor and ladies' rest room and toilet on the fifth floor.

Attention is directed particularly to the special features in connection with this building:

FIRST—The building is located on a lot sixty-two and one-half feet in width, is exposed on all sides and, therefore, affords the most perfect natural light and air in all parts at all times.

SECOND—That this width of the building produces rooms from twenty-one feet to twenty-five feet in depth, avoiding that dark, useless space always found in the corridor end of deeper rooms, and assures absolute light in every corner of the room.

THIRD—That only three columns are exposed to view in the entire building, it being so constructed that the columns appear only in the center and side walls, giving an absolutely clear floor in each half of the building.

FOURTH—That no pains or expense have been spared to satisfy the desires or demands for convenience and comfort of the most exacting tenants.

FIFTH—The building is located at a point most convenient for shopping, as well as office purposes. North and south street car lines pass the building; west side lines are within very convenient reach. The elevated is near enough for convenience without the attendant noises, and practically all steam roads are within easy reach. The rapidly improving conditions of State Street along this point are fast making it the center of the great shopping district of Chicago as well as a convenient location for Offices, Sample Rooms and Retail Shops.

It will be the endeavor of the owner and those in control of the building to at all times maintain a standard of service which cannot be excelled in any similar building.

The building rests on 37 caissons, each 8 feet in diameter, extending down to solid rock bottom, about 120 feet, and contains about 4,500 tons of steel.

It is being erected for Jacob L. Kesner, Owner.

Architects, Jenney, Mundie & Jensen. Further information can be obtained at the office of Jacob L. Kesner, 1407 Kesner Building, 5 North Wabash Avenue, phone Randolph 4661.

Manager of building, S. C. Witmer.
